"The application of the theoretical apparatus of supply and demand to units of currency," ECONOMIC JOURNAL, Vol. XXI, December, 1921. pp. 453-461.

Pp. 9.

An examination of the influences which affect the supply and demand for money. A continuance of rapid change of the value of money in either direction will cause a currency to go out of use, since stability of value is one of the most important requisites of useful currency.

Abstract by N.R. Whitney, AMERICAN ECONOMIC REVIEW, XII, June 1952, p. 363.
