PRINCIPLES OF PUBLIC FINANCE

"cheap money" policy was based.

---

Dalton in reviewing U.K. Hicks' BRITISH PUBLIC FINANCES: THEIR STRUCTURE AND DEVELOPMENT, 1880-1952 (Economica Nov. 1954) says: "My general aims (in cheap money policy) in seeking to drive down interest rates were (1) to economise on the natl. debt charge, (2) to improve the distribution of income, (3) to cheapen investment and to make sure of full employment. ... I had also some particular aims, notably (a) to cheapen the cost of local authorities, (and especially of blitzed cities), housing and reconstruction programmes, and to cheapen the cost of the govt's nationalisation programme
