competition between state and national  
banks

Tippetts, Charles S.

Fiduciary powers of national banks. (In  
The American economic review. v.15,Se,1925.  
p.417-34.)

It is becoming more and more evident that if  
national bank system is to grow in power instead  
of declining, conditions of operation must be  
made more attractive for national banks.
