CAMERON, P. G.

Federal Reserve discrimination against state
banks, TRUST COMPANIES,
August, 1927.

A criticism of the regulations of the F.R. Board concerning conditions to be met by state banks applying for membership in the Federal Reserve System. It is contended that these regulations go beyond the legislative authority of the Board, benefit national banks at the expense of state banks, and have a tendency to centralize control under Federal authority. Abstract by W. O. WEYFORTH, American Economic Review, XVII, Dec., 1927, p. 758.
