After 17 years' experience and a loss of \$20 million, Texas has repealed the statute under which depositors in state banks were guaranteed against loss. From the inauguration of the system on Jan. 1, 1910, until 1920 the plan seemed to be a success, but difficulties followed the crisis of 1920.

As a result of the large number of bank failures beginning in 1922, the deposit guaranty system in South Dakota has broken down completely. The total liabilities of the guaranty fund are now about \$50 million, bearing interest at 5%, whereas the annual income of the fund is less than \$300,000.
