LIONBERGER, I. H.

Money and credit, BANKING LAW JOURNAL,
April, 1917.

Pp. 9.

The chief weakness of the F.R. System is the false assumption which it holds out to bankers that they may recklessly lend out their resources during periods of prosperity and later rely on the assistance of the reserve banks in time of crisis. The system, however, admits of a highly beneficial use. It should 'put a bit into the mouth of enterprise and not a lash upon its back."

MAGEE, Harvey White (1847-)
