Villard, Henry Hilgard

The Federal Reserve System's monetary policy in 1931 and 1932. (In: Jr. of Political Economy, Dec.1937, p.721-39.)

Criticism of the policies of the Reserve with the suggestion that had the Reserve maintained acceptances at the level of Oct.1931, the subsequent reduction in reserve balances would not have taken place and that it purchased open markets in 1932 April & May when it should have done so in March.
