THE AMERICAN DISCOUNT MARKET.

Chicago: University of Chicago Press, 1935.

Pp. ix, 101.

As used in this monograph, the term "discount market" is synonymous with acceptance market or bill market dealing only in bankers' acceptances. "The purpose of this study is to explain, within limited space, the organization of the discount market, the services it renders in the financing of domestic and international trade, the opportunities it offers for short-term investment, and the part it plays in the mechanism of commercial credit."

Abstract (unsigned) AMERICAN ECONOMIC REVIEW, XXV,
Dec. 1935, p. 786.

HURGESS, W. R.

"The money market from the banking viewpoint,"
THE ANNALIST, February 25, 1927. Pp. 3.

Analyzes money market conditions from September, 1924, to the end of 1926 on the basis of the demand for and the supply of bank reserves. During this period there was an increase of about 160 millions in reserve requirements to support deposits, an increase of about 160 millions in currency in circulation, ~~and~~ a loss of about 80 millions in gold, leading to an increase in borrowings from Federal Reserve banks of about 400 millions. In the open market operations of Federal Reserve bank increases in acceptance holdings have just about offset decreases in security holdings.

JOURNAL OF AMERICAN BANKERS ASSOCIATION, April,
1926. pp. 669-70, 722-23.

Importance

~~Importance~~ of the market does not lie in its size but rather in its liquidity and its ability to furnish cash on short notice, in which respect the F.R. System is contrasted with conditions prevalent before 1914.

Abstract by G. H. Evans, AMERICAN ECONOMIC REVIEW,
Sept., 1926.

CHANDLER, H. A. E.

British and American commercial money
markets, COMMERCE MONTHLY,
June 1924.

Shows similarities in the British and American commercial money markets. In each country the banking system is composed of three great separate institutions, namely a system of commercial banks, an open commercial money market, and a reserve banking system. Abstract by W. O. Weyforth, AMERICAN ECONOMIC REVIEW, XIV, Dec. 1924, pp. 585-6.
