HARDY, Charles O.

34 pp.
Prices
Pearson, Frank A.

"If the various countries of the world re-establish an equilibrium in the price structure by changing their prices of gold, the next problem is to maintain that equilibrium. This can be accomplished by varying the price of gold inversely with the value of gold."
WARREN, G. F. and PEARSON, F. A.

"Monetary policy and prices." (Discussion by A.W. Marget), JOURNAL OF FARM ECONOMICS, May, 1935.

21 pp.
If the various countries of the world re-establish an equilibrium in the price structure by changing their prices of gold, the next problem is to maintain that equilibrium. This can be accomplished by varying the price of gold inversely with the value of gold.
Prices—Index numbers

Warren, C. F.

Mr. Warren covers gold supply, production, why were prices high? prices in various countries, prices since the gold standard was suspended and the case for the control of prices through the gold price.

Table shows daily index of prices in England & the U.S. in gold and currency since Oct. 16, 1933.

M Prices
Warren, G. F. and Pearson, F. A.

"No evidence has been found that credit management could have prevented a decline in commodity prices, or that 1929 commodity prices can be restored by credit management and still maintain the present price of gold."

Also a discussion of the article by E. W. Kemmerer, pp. 126-132.

Contains charts.
WARREN, George F. and PEARSON Frank

Relations - wages/price/dislocation.
Production - causal effects of price changes.
