

AMERICAN BANKERS ASSOCIATION, Economic Policy Commission

TREASURY WAR BORROWING AND THE BANKS. A Report
of the Economic Policy Commission,
April, 1942.

This report presents estimates of the ~~size~~ of the war program to be financed and discusses various methods of raising the needed funds. It discusses the role of the banks in war financing and the probable effect of war financing on loans and investments, deposits, capital funds, and the ratios of capital funds to deposits and to loans and investments. The estimates are through June 30, 1943.

Effect of the War on the Commercial Banks of the
United States, BULLETIN No. 122, September 10, 1942.

The first half of this study is a factual summary of means of financing the war and recent changes in the field of banking. The last part is a discussion of the effect of the war on interest rates and credit policies of the monetary authorities, and covers the possible long-range and postwar effects as well as the immediate situation.
