Inflation and deflation

Bullock, C. J.

Devaluation. (In: Review of Economic Statistics, February 15, 1934, p.41-44)

Devaluation at 59.06 cents undervalues the dollar substantially. The gold reserve act has laid the basis for an expansion of bank credit sufficient to support commodity prices as high as those of 1925.

Money-Devaluation

Tucker, Rufus

Business recovery not brought about by suspensions of the gold standard. (In:Annalist, Aug. 21,1936, p.246.)

Mr. Tucker proves that depreciation has had nothing but bad effects, and recommends return to a stabilized gold standard.

M

Warren, G. F.

Tucker, Rufus S.

Price fluctuations and the gold supply. (In: Journal of Political Economy, August 1934, p.517-30)

Criticizes the Warren theory, contending that the effect of changes in gold production on wholesale commodity prices, if any, has been very slow, uneven, unpredictable, and out of proportion. Feels that bank credit had much more influence on prices than gold or currency.
