

REPORT

OR

THE COMMISSIONERS OF THE FREEDMAN'S SAVINGS AND TRUST COMPANY,

TRANSMITTING,

In compliance with a resolution of the Senate of the 5th instant, statements showing the balance due on the assets of the Freedman's Savings and Trust Company at the time of their transfer, the action taken to collect the same, and their present status; also, the receipts and expenditures from July 13, 1874, to December 31, 1875.

JANUARY 18, 1876.—Ordered to lie on the table and be printed.

OFFICE OF THE COMMISSIONERS OF THE
FREEDMAN'S SAVINGS AND TRUST COMPANY,
Washington, D. C., January 18, 1876.

SIR: In compliance with the resolution of the Senate of the 5th instant, we have the honor to transmit herewith a detailed and corrected statement, No. 1, showing the balance due on the assets of the Freedman's Savings and Trust Company at the time of their transfer to us, the action taken to collect the same, and their present status. Also, a statement, No. 2, showing our receipts and expenditures, actual and constructive, from July 13, 1874, to December 31, 1875, both inclusive.

The several balances reported in the first-named statement as still due, amounting to \$1,960,872.81, (exclusive of the accrued interest on the unpaid loans, which, on account of the uncertainty of the rate collectible, we have thought best not to compute, and also exclusive of sundry petty expenditures incurred in connection with said loans and charged to them,) plus the sum of \$157,744.73, being balance to our credit in the Treasury of the United States, constitute the remaining undistributed assets of the company. Of the latter amount, however, the sum of \$123,890.08 is necessary to cover the balance due on the first dividend, so far as the company's indebtedness has been ascertained.

How useless it would be for us to attempt to estimate what we shall ultimately be able to realize from these undistributed assets, will be made apparent by a perusal and examination of the remarks made opposite the great majority of them. The suits already pending, and which are being almost daily increased, involving as they do large expenditures of money, the general deterioration of the property which we have been compelled to buy in, and of the property upon which we have to rely for payment of most of the balances yet due on loan account, the large expense incident to the foreclosure of the mortgages or deeds of trust on said properties, the overdue and unpaid taxes thereon, the insolvency of some of the heaviest debtors to the company, the worthlessness of most of the loans made at the southern branches of the company, &c., render an accurate computation of the amount hereafter to be collected impossible; still, we hold a number of good loans yet, though

their collection may be somewhat tardy, and we have a large amount of real estate from which, in the event of a change for the better, and of our securing the additional legislation we need, a large sum may be realized. And if Congress will come to our assistance, in the purchase for the Government at a fair and reasonable price of the banking-house of the company in this city and the adjacent property, as well as its banking-house at Jacksonville, Fla., both of which the Government actually needs, and in making provision for the payment of a reasonable interest on our average monthly balances in the Treasury, the creditors of the company, notwithstanding the very heavy losses indicated, may yet receive a fair proportion of their deposits.

The column set apart for "Payments to commissioners," in statement No. 1, exhibits in detail, except as to interest, rents, and other indirect receipts, both the assets actually collected and those constructively collected. And in the column for "Action taken to collect, and present status," all changes which have taken place in the assets have been duly noted.

Statement No. 2 exhibits our entire receipts and expenditures, direct and indirect, actual and constructive. Our actual cash receipts aggregate \$844,216.69.

By constructive receipts and expenditures, we mean such increase in the receipts and expenditures as were rendered necessary by the discovery and proper correction of errors, and the amounts credited to loans as receipts and charged to "Property" bought in, or charged to deposits by way of set-offs, &c.

The many changes necessitated by the discovery of errors since rendering our last report, have induced us to embrace within the statements herewith submitted, our entire transactions.

To arrive at the business transacted by us since our last report, the receipts and expenditures therein accounted for should be deducted from the amounts now reported.

The liabilities of the company have, as we predicted in our last report, been greatly increased, and are still increasing, \$1,628.09 additional errors against the company having been discovered in the Lexington Kentucky branch since the 1st instant. As far as ascertained to December 31, 1875, the liabilities are as follows:

| | |
|---|----------------|
| Due depositors | \$2,992,033 55 |
| Due branch drafts..... | 11,212 62 |
| Due miscellaneous claims..... | \$3,144 08 |
| Less disallowed | 2,702 01 |
| | 442 07 |
| Due profit and loss Washington branch, being amounts received from persons unknown..... | 1,187 38 |
| A total of | 3,004,875 62 |

- As against \$2,879,031.78 for previous report.

Of this sum of

There have been paid as preferred claims—

| | |
|-------------------------------------|-------------|
| Special deposits..... | \$26,396 47 |
| By way of set-offs to deposits..... | 14,171 30 |
| By way of compromise | 1,687 61 |
| Branch drafts..... | 5,925 33 |
| | 48,180 71 |

Leaving..... 2,956,694 91

Upon which sum we have declared and are paying a dividend of twenty per cent.

In conclusion, we most respectfully but earnestly urge the speedy enactment of the following additional legislation, asked for in our report of December 14, 1874, which we deem essential to the proper discharge of our duties, viz:

1. To authorize and require us to make periodical reports.
2. To give us express authority to compound and compromise debts due to and liabilities of the company, subject to the approval of the Secretary of the Treasury.
3. To give us express authority to buy in any property exposed by us for sale at auction in enforcing the collection of loans due the company, and to sell at public or private sale, all property, whether real or personal, owned by the company, and all property now vested, or that may hereafter become vested, in us, and to make a good and sufficient conveyance to the purchaser or purchasers thereof, in whatever State, district, or territory the same may be.
4. To transfer to the Treasury Department the payment of the dividends; and, also,
5. To limit the time within which all claims against the company should be presented, and to direct all amounts not claimed within the time prescribed to inure to the benefit of the remaining creditors; and
6. To provide for the execution of our trust in case of the resignation, death, or disability of any of the present commissioners.

We have the honor to be, very respectfully, your obedient servants,

JNO. A. J. CRESWELL,

ROBT. PURVIS,

ROBT. H. T. LEIPOLD,

Commissioners.

Hon. T. W. FERRY,

President pro tempore United States Senate.

No. 1.—Statement showing the assets of the Freedman's Savings and Trust Company at the time of its failure, and the action taken by the commissioners selected to close its affairs to collect the same.
