UNITED STATES SENATE

Washington, D. C.
February 18, 1935

Mr. John A. Reed,
Kemmerer, Wyoming

My dear John:

I have received your telegram with reference to the confirmation of Eccles as Governor of the Federal Reserve Board.

I agree with you that he would undoubtedly be better for the West than some other person who might be appointed. His nomination, as you know, is now being considered by a subcommittee and I presume will be submitted to the full committee shortly. When this occurs I will be glad to keep your suggestions in mind.

I was very glad to see you when you were here and hope the next time you come to Washington your visit will not be such a brief one.

Sincerely yours,

ROBERT D. CAREY
