Dear Governor :-

I heard up on the Hill this afternoon that "Jafty" O'Connor was secretly warring on the bank bill. I have no further information than the bare report but one of the liberal senators told me he had heard that "Jafty" was hostile to the measure and secretly opposed to your confirmation.

That there is some undercover sniping in the Treasury both against you and the bill is indicated by this UP story that went out today. This was written by the UP Treasury man and ~~was obviously~~ inspired. It has all the earmarks of a planted story.

Sincerely

PS: I went after Glass with a meat axe tonight. Story in tomorrow morning's RECORD. The NY Post and Record are ~~carrying~~ carrying a front page editorial Monday raising hell about the delay on your confirmation and asking the President who is running the government, he or Glass.
