UNITED STATES SENATE

Committee on Finance

April 16, 1935

Dear Mr. Stern:

I have yours of the 13th enclosing the financial page of the <sup>N</sup>New York Post containing editorial and story on the confirmation of the appointment of Marriner S. Eccles and action on the Bank Reform Bill.

This is interesting, although I think there have been extenuating circumstances with respect to the confirmation of Mr. Eccles, because Senator Glass, as you know, has been very much occupied as chairman of the Appropriations Committee.

The developments yesterday, I think, indicate that Mr. Eccles' confirmation will not be blocked.

Very truly yours,

(signed) James Couzens
