APR 6 REC'D

HERBERT HOOVER

The Waldorf Astoria Towers
New York, New York
April 4, 1945

To the Electors of the
Hall of Fame
New York University
New York, New York

Gentlemen:

It is my understanding that the Committee on National Honors of the American Society of Mechanical Engineers is advocating the election of the engineer, George Westinghouse, to the Hall of Fame. I have no hesitation in endorsing this suggestion.

Westinghouse's utilization of electricity resulting in applied science research gave the world revolutionary and practical use of motive power. These original principles will continue to form the basis of much of our American supremacy in technical science.

Yours faithfully,

Herbert Hoover
