Mr. Marriner S. Eccles

79 S. Main Street  
Salt Lake City, Utah

Dear Mr. Eccles:

Thank you for your views concerning the war in Vietnam. Because of your interest, I have enclosed a copy of my original statement, and several articles and editorials.

Former Hungarian Premier Ferenc Nagy points out that the survival of any coalition government depends on the support each faction receives from the outside -- and that the United States, after any peaceful settlement, would have to exercise continued vigilance.

Sincerely,

Robert F. Kennedy
