Dear John:

This is to acknowledge and to thank you for your note in regard to such assistance as we were able to render to Mr. Baruch and to you, and I am taking the liberty of circulating it to members of the Board and to those of the staff who participated in this work. We were very glad to do what we could to be of assistance, and your more than generous complimentary comment is greatly appreciated.

Let me thank you also for the printed copy of the report which you enclosed.

Sincerely yours,

(Signed) M. S. Eccles
