Dear Fellow Traveler:-

Your answer to Sen Byrd sounded like 1933, didn't

the elections show you that your rubbish has become the laughing

stock of the country. Every man in every community knows of

sceres who do not care to look for private employment don't

be so silly. Neither do these people care about the right to

work that is why they are on WPA it means no work. The last

electuon showed you are not going to be successful in making

this a communistic country. Why don't you buy a one way

ticket to Russia for yourself and Fdr. Perkins and Ickes..
