GREAT FALLS CREDIT EXCHANGE

412 STRAIN BUILDING
Byron DeForest, Manager
GREAT FALLS, MONTANA

Dec 27, 1938

Mr. Marriner S Eccles,
Washington D C
Dear Sir:-

I note in the press of yesterday that you ask Senator Byrd of Virginia to stop calling names and produce evidence that millions of people who seek relief have quit looking for jobs. Ad one who knows that Senator Byrd is right, let me say the Senator can, if you wish it, give you ample evidence. Not only have many reliefers laid down on the job, but other millions who constantly look to the Federal Government for aid, are driving automobiles and they still buy and operate cars while the tax-payers are furnishing them the money by work relief and other forms of relief. This Credit Bureau kept track for one year of names and number of Reliefers in this County who bought cars on time and there were 153 and they are still doing it Practically every W P A worker in this city and community drives a car of some sort. IS it the intention of the administration to continue this method of operation? If it is, then this Nation will soon be bankrupt and the self-respect of millions of our citizens forever lost.

Yours very truly,
Great Falls Credit Exchange

Byron De Forest
