

35, Hamilton Place.

M. S. Eccles.

As a citizen and a

voter am impelled to speak up  
when I read in to-day's paper your  
answer to Senator Bird that spent  
in govt must be continued. ultimately  
it must lead to complete collapse  
this preposterously large amount  
of government spending of the tax-  
payers money. much of which seems  
to be a flop. Now the government  
has been obliged to take over many  
of the houses, that have been built  
under the Housing project.  
as a dual reduction in expenditures

is the only reasonable course to follow  
It is a fact most of us have lost faith  
in our government no matter what  
you say about about the flow of  
Foreign money into our country  
which only means that conditions  
in Europe are so critical that it  
would seem the lesser of two evils  
to send or spend their money here.

We now know who is giving this  
dangerous advice to our President  
you are in an appointative office just  
now, some day you may be running  
for an elective office, the voters will  
have a way about that. Last by I  
smile at you accusing Sen. Boyd  
of name calling, no one did more  
name calling than yourself

in your address, you abused big  
business right, and left after all  
who built up the country and gave  
us such tremendous prestige in  
the past? Never belonged to that  
class myself but do not believe in  
betraying them and setting class  
against class ~~policy~~ which  
this administration has abetted  
and fostered. None of us would be  
against the relief business either  
except every day of our lives we come  
across abuses of it especially among the  
foreigners who will not report anyone  
in their community. They have a stick  
together policy.

A voter
