Mr. Eccles

Dear Sir :- I see you
are advocating a continuation
of this Government spending
spree.

Do you really think the
people can ever be prosperous
under a money system
based on debt and controlled
by selfish individuals?

Do you not think when
a man is taxed to
keep another family beside
himself that it will

not put him on relief
too?

Do you think it helps
the people to have their
Government issue bonds
to base their own ~~bonds~~
money on and allow
these money thieves to
just sit and clip coupons
and draw money and
give nothing in return?
There is only one thing
scarce in this country
and that is debt free

money that no one
can take out of circulation.
They are nothing but
a bunch of counterfeiters
and have foisted on the
American people a system
that will wreck any
country.

Do you think a man
can get richer by taking
money out of one pocket
and putting it in another
or let a bunch of grafting
politicians do it for you?
Especially when there is

50% overhead.

This whole red program is just concentrating the wealth in a few hands and making the people meagly poor and that is the plan so they can herd them like cattle and set up a dictatorship.

Violating the constitution and relegating it to the horse and buggy days. Forty percent of the national income in taxes & interest and budget not balanced by five billion.
