My Dear Mr. Eccles

I wish to compliment you on the plausibility of your statements, the trouble with this administration is the encouragement given labor unions to demand more than industry can afford to pay and survive, Swift-Packing Co. lost 3 million \$ last-year, business is generally demoralized, if the farmers got $\frac{1}{2}$ the or $\frac{1}{3}$ union labor gets for their work, our country would be prosperous, unions will not permit non-union men to work with them, business is in for a collapse.
