Tuesday Evening Jan 24, 38

The Hon Harrimer S Eccles.
Federal Reserve System.

Dear Sir

I have just read very carefully, word for word, paragraph by paragraph, your masterly Exposition relative to US Gov Spending and I was so pleased with your ability to explain financial matters and my ability to understand that I thought you would be happy to know that your Views in tonight's Evening Star hit the ball's eye 100% with me who am just one of America's millions - who doubtless would feel the same way.

I have cut out your speech
and will not be happy until
my sons and daughter read it
also

There is more real meat in
your words than any economic
book one gets in college

Even a middle class house-
wife can understand it, and
likewise a Hoover Republican
die-hard of which I have the
honor to be

I was glad to be informed
about the British tapes

America is all right when
those at the head of her
finances keep the proper pro-
spective, as you have done
in hard times against criticism FPOwe
