Dear Mr. S. Eccles

We are in a Roosevelt depression  
a new wave depression.  
Business men & private  
investors have no Confidence  
in Frothier cluster R.  
He knows more about business  
than all business men and  
more law than Supreme  
Court judges. Return to our  
American way and we will  
go ahead. The W.P.A. is  
making labor conditions worse  
Wages get 4 for ordinary  
good work - are not 25%  
efficient. The farmers have to  
do all their own work.  
Mr Eccles drop R. and  
look out for your own  
interest. R. is

Leading us over a  
precipice. There will be  
no permanent change  
until R is thrown overboard  
and our budget balanced  
You are too good a  
man to go <sup>down</sup> with his  
rotten ship -

What has become the  
Commodity dealer that  
Worren sold him, & that  
broke up the London Conference  
in 1933. R put out  
500,000,000 in bonds propped  
in 1933 and as  
soon as sold repudiated &  
He has made Uncle Sam  
the biggest lion in history.  
There is no confidence in  
R. Van Truay Gans H. E. Brymire
