

October 20, 1938.

My dear Mr. Leeds:

This is to thank you and your co-authors for your note of October 12th and for the copy of the book, "Toward Full Employment", which you have produced jointly with Ralph Flanders, Lincoln Filene and Henry Dennison.

As you know, I had seen portions of the manuscript from time to time while it was in course of preparation and was submitted for comments to our staff, and I shall be very much interested in having the opportunity to look over the finished product. Needless to add, I know that you have brought a very broad approach to bear on this large subject and I am sure it will be a conspicuous contribution to a better understanding of our economic problems.

Your courtesy in having the copy sent to me by the publishers is very much appreciated.

Sincerely yours,

M. S. Eccles,
Chairman.
