

Form F. R. 511

TO Chairman Eccles

FROM Miss Egbert

REMARKS:

Because I could find nothing on this and Thurston knew nothing about it, nor did anyone else around here, I checked with the Small Business Committee office at the Capitol to ascertain whether it was verbal or through a letter, and if a letter if they could give me the date -- they advised that:

On June 6th (and our records shows 11:00 o'clock on that date) Mr. Sullivan Jones had a personal interview with you during which you agreed to make the statement referred to in this letter. No doubt this will bring the matter to your mind.

Dear Mr. Eccles:

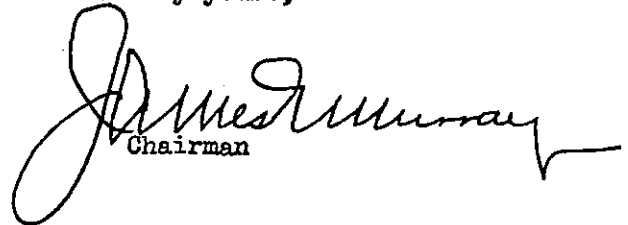

It is gratifying to learn that you would consider making a statement in a hearing of this Committee with reference to the possibility of using credit as a stabilizing force in the field of construction.

Because of the impending recess of the Congress, the hearings scheduled for the last days of June and early July have been postponed until fall.

I will confer later with you relative to a convenient date for your future appearance, the other witnesses handling certain aspects of the same general subject and the scope of their statements.

Thank you for your interest.

Sincerely yours,

Chairman
