*"Stop Kidding"*

N. Y., July 12, 1948

Senator Alben Barkley,  
National Democratic Convention,  
Philadelphia, Penna.

In further answer to your keynote address, let me impress upon you to throw off the cloak of hypocrisy since your reference to God is harped on all throughout the address. I now match them and go you one better, but in the name of God, which is above any party or parties. You say God in His wisdom has give us the power and the opportunity to inaugurate a better world and a better society. If that be true, why is it President Truman has shunned that opportunity by ignoring and refusing our public service, such as the press and radio, to spread the systematic swindling of the American people, which his controlled government agencies, the Federal Trade Commission and the Federal Communications Commission, give their fullest co-operation instead to the public who support them and lawfully compel them to protect their interests. If that is your idea of the validity of Christian principles of human society knocking at the door, why has President Truman refused to grasp it instead of trying to destroy me, a fellow American, by his silent treatment when demanding he do something about it.

(Note: Ironically he bitterly complains that Congress does nothing about his biddings that do not involve God's teachings, as the endless pleas for years, that I have begged him to do something about and which he totally ignored, in belief I could not reach the hearing of his fellow Americans for lack of money and facilities which is an act of a man without character). Your fervent prayer, God of our Fathers lead thou us on, is uncalled for as present conditions prove that it is running away with us day by day as President Truman himself and his cabinet has encouraged it, by their deliberate silence. No wonder General Eisenhower would have no part of it, and his boys will be proud of him, when they hear it, which I pledge myself to see that they do.

David B. Levy

*Would these same morons entrust their lives, in the event of another war, to TRUMAN and his cabinet, who with the F.T.C., F.C.C, SEC, F.B.I. DEPARTMENT OF JUSTICE, DEPT. OF STATE, TREASURY DEPT., U.S. SENATE persistently for years refused to protect their interest in the face of dozens of appeals?*

PRESIDENT'S ROOM

6 July 1948

Dear Mr. Levy,

Thank you for your letter. It is always a relief to hear from someone who agrees with me that I have no proper place in the political world.

It seems to me that as an American who, as a part of one of the greatest and most influential of our universities, wants only to promote understanding of the critical issues facing our democracy, I have my true opportunity for useful service.

Sincerely,

*Dwight D. Eisenhower*

My deep and sincere congratulations on your withdrawal from the run for the Presidential office which is in full accord with my fervent appeals to you ever since your name was first mentioned for that office. It would have been a crime as I told you to have jeopardized your enviable reputation until the serious charges I have made against our government on their policy on advertising have been cleared up, which no one honest man could possibly cope with, no matter how thoroughly rotten it is, due to the deep rooted idea by the gullible, unthinking public, that they are not themselves being made suckers of and fleeced out of billions of dollars annually. I hope good luck and happiness will follow you in your future undertakings.

Mr. Truman boasts of in foreign lands, a citizen is the "master" and the appointed Government official is the "servant" which I have yet to see in a single instance which includes the Presidents entire cabinet (who ignore letters, exhibits and very costly telegrams) and most of the U. S. Senators.

I demand again a Public Senate investigation and go to prison if I cannot prove thousands of millions of dollars - of the taxpayers money entrusted to the Treasury Department for essential purposes has been allowed to National Advertisers to promote non essential-worthless fraudulent and actual swindle advertising - While Congress debates honest essentials for ceiling prices.
