Mr. Marriner Eccles,  
Chairman of Federal Reserve Board,  
Washington, D. C.

Dear Sir:-

I have watched your work, but this is the first time I am giving you a salute from the watchtower of THOSE WHO KNOW. I was spurred to it after reading an Editorial, a copy of which I enclose herewith.

It is difficult to comprehend how people, such as that Editor, remain so blind to obvious truths, taught by experience. And he evidently expected you to be supplanted by someone with his own antediluvian stripe of economics.

I knew "Lord Keynes" was as wrong as wrong could be, in some of his economics, but he was right on that which this blind Editor said he was wrong.

I was asked a few days ago, as to the silly economics that made it possible for Russia to unload "Gold" above its worth on this Nation, and to get our oils, goods and manufactured articles, things of real value for it? The answer was: that our top Boys at Washington, did not know that it was the Seal of our Government that made anything a means of exchange, or money; and not the material out of which it was made, be it gold, leather, paper or rabbit skin.

And if they did know this, they were just crooks doing a great wrong against the Constitutional rights of our people; and in either case entirely unfitted for positions of trust and leadership in this nation.

So, although the Russian Dictators are soulless scoundrels, they are much brighter than the Gang running our foreign affairs at Washington now; because they do know that the more they can trade of their worthless gold (relatively), for things of precious value, with nit-wit economists over here, the better it is for Russia, and the worse it is for America.

The asinine and stupid outpouring of that Editorial, brought to mind that foolish threat thrown out by that poor unfortunate "Arthur Neville Chamberlain" at Hitler, that if the war did break out and last long, it would be England's gold that would turn the tide in England's favor. Of course a man, to make such a statement at such a time, was a fool, or just a plain ignoramus on matters he out to have known.

And the people of England are being done to death right now, because of their determination to stay in the groove of "that which has been, must remain so", downright stupidity, and refusing to listen to some common sense rules in civilized economics.

That Editor tied himself up with the rope of thieves, rogues and liars, where he went back 3,000 years for the foundation of the Devil's economics. Because the Jews were not known as such then, and they never were Israelites, nor Hebrews. For many such reasons we have transformed that lying Bible into a Truthful Bible to help our people out of the clutches of a Jewish and Antichrist concoction, for the first time in 2,000 years.

And I will add, WE MUST ADJUST OUR ECONOMICS in keeping with sane common sense, or we are just one jump behind England, that is already on her knees, yes, on her way out as a nation. I do believe, Mr. Eccles, you have a clear vision on some of these matters that are of first concern to save America from a tail spin into the disgrace of Europe today. They have had too much Dictatorship by Church and by Government, and not enough Leadership.

This Nation won her place in the sun, by right Leadership, and we must not tolerate the supplanting of that by Dictatorial policies in any of their forms, by unprincipled money sharks and blind and crooked Brass Hats.

This country was not started to wind up in regimentation and military Dictatorship; and the President, or anyone else who proclaim that, as the way to world peace, is a liar, and not fit to represent the Constitutional rights of our people. Such a policy will suit a Dictator like the Pope, but not a red blooded American, a he-man for Truth and Justice with religious liberty for all.

So hold to your guns, as we have difficult days right at our door, but America must be saved from the sharks and nit-wit crooks that would destroy her for their own selfish schemes. We must control chaos by order, if at all possible, during these days of sudden change.

I am enclosing herewith a couple of statements from ones whom you have known. Yes, I am a Master of the Laws of Life on all planes. That is the reason it was just as easy for me to give the world the Truth of that which is a muddled mess in Genesis of the Bible, as it is to write this letter to you.

This Nation was founded by sincere, freedom seeking, hard working and resourceful people; and I am seeking to find a few in office like you, to give you added courage to fight for the rights and privileges of our people, even to those poor starving Indians, and as assured them by their Constitution.

We have no time to wait for those who have to be kicked all over the lot, by a fool like F. D. R., or a mad dog Hitler, before they get wise to what is going on right under their noses.

Mr. Marriner Eccles

But it is by Leadership we must proceed, and not by Dictatorship.  
All our successes have been because of the first, and our failures  
because of the last.

Sincerely, a friend of justice for all,

Dear Mr. Lea:

This is to acknowledge your letter of December 1 and the enclosed copy of the editorial on the subject of gold. It is true, of course, that gold is universally acceptable but, as you are aware, I do not believe in what has been aptly called the fetishism attached to this subject.

I appreciate your courtesy in writing to me.

Sincerely yours,

M. S. Eccles,  
Chairman.

Yes, I am Lord Keynes, and I am saying, give me the rope to throw to that wide-awake youngster who is free from the lying lead the Jew Bankers have cast over the world. I am wiser now as from Here I survey my back trail.

And he has the nerve to tell the Truth, and that New and Truthful Bible the Jehovah Lord and Jesus His Son, have had you compiling to show the Truth of His Laws and the right Economics for sane living, besides the interest thief as being 10,000 times worse than when Jesus took the whip and drove them out of the Temple, will shock the world to have some sense for a change.

And now they are trying to take over the free world of acres and incomes, and put your people under a treadmill rule, and you will have to keep your eyes skinned to avoid a shylock in every cellar and garret too. And that chap "Eccles" can go far and show them all how the Bankers that do not like him, grab both going and coming, from the people from the cradle to the grave.

I am ashamed to say, a black market of the Devil, have they made of the Banking System in England and now they are here to wreck America.

And if that fellow keeps his eyes open and uses what he knows, when this free for all is over, he will likely be your ablest leader in your economics of the New Day of the Brotherhood of Man. It is action you need for honesty and justice in the new line up of business in this U. S. A.

Or some "Sheenys" will be in the lead to ask for an interest on all Jews as they are passed to Hell, for it is certain the other way they will not be traveling and no income from the interest on them.

I am Lord Keynes to Master Elijah of Mt. Olympus.

I am V. C. Vickers, and I have been hanging around your Scribe trying to grab a chance to say; Hail! to thee Master Elijah.

And as you are now writing to "Eccles", the only really honest man among money thieves that can speak with some influence; just say for me, I am glad his garments are not soiled with the mud from the thieving lot of Bankers, as I was for years as head of the Bank of England.

And I told the ones who handled the "swag" it would pull down the British Empire; and they cannot survive if they do not break the strangle hold of their banking system, and which grew out of that unwholesome Rothschild curse.

I do say, if this country don't start the breaking of the shackles they will follow the same way. I told the English Government the truth, and they are now sinking under that blighting injustice.

And you all had better urge that man "Eccles" to begin to strip for the free for all, for it is on its way with the "Nuts" in office here, and which they urge in, because the more crooks the greater the hold on the Government they get. Just look at what you have as the Head in Washington now.

I am certain this healthy, wide-awake "Bucking Bronco" young country has no call to follow the old Empire down into the mire. And I would bet, if the truth be put out and not withheld, the Jews from here would see more chance in Palestine than here; and especially will that be true when God's New and Truthful Bible is off the press.

So I am saying get such honest, young and just men as "Eccles" to carry the Banner for this Country and you will be working with your God ordained Constitution again.
