Mr. Marriner S. Eccles
Chairman, Federal Reserve Board
Washington, D.C.

Dear Mr. Eccles:

We give a course at Yale for economics majors in Income Analysis which is designed to explore the problems of the determinants of national income, output, and employment. In this connection, it would be very helpful if we could obtain 225 copies of your statement of November 25th before the Committee on the Economic Report. We had the pleasure this past week of hearing Mr. Richard Musgrave raise many of the issues which you quite forcefully presented in your testimony.

We will greatly appreciate it if you can honor this request.

Sincerely yours,

Kenneth D. Roose
