The subject is to cover the period beginning with the autumn of 1947 up to the present time.

Dear Mr. Shultz:

This is to acknowledge your letter of February 3. There is so much material that bears on the subject on which you desire to write a report that the question is one of selecting from the great accumulation.

However, in the hope that they will be useful to you, I enclose copies of such statements or speeches as I have made in the period to which you refer and also an earlier statement before the National Industrial Conference Board in the fall of 1944 which outlines in a general way my views.

Sincerely yours,
