Mr. Marrison & color

Federal Reserve Board - Wash DC

My dear Mr & color: You are 100% correct in advoca-  
ing a 44 hour week without premium pay. This  
would increase production and would keep labor  
longer employed and keep them out of mischief.  
And while they are working these extra hours they  
spend less money which should lessen their demands  
for increased pay. Congratulations.

Yours truly  
Harry F. Klumpfelter
