Dear Brother Eccles

You are to be complimented and congratulated on your stand on R. F. C. The situation of our Government in Washington is critical. The scandal, graft, & spending not only now but for years is ruining this country under smoke screen of War necessity is beyond all reason and further wasted by War contracts. The economic situation by and the death of our boys is more serious than the war and we are appearing as allies as well as our enemies. Applesworth brought on every war and the fall of the League of Nations and the appeasement by Roosevelt of Russia at the meetings after World War II has encouraged that situation. The Republicans can't cooperate with an administrator that has a foreign policy and economy that is ruining the country and

2) muddering our boys. Truman is trying
to throw another smoke screen and say
they are playing politics when they are
trying to save the country. They can not
do any thing unless the Democrats
will stop playing politics above the good
of their country with scandal and treason on
their own party. It is true I am a Republican
and give much to my party and country
but I am pleading for my country for
this and hope something can be done
in respect of politics to get situation on
sound definite basis. I was Delegate at
League - National Convention in Chicago - ¹⁹¹⁶ On
the Inter American High Commission with
Herbert Hoover ^{Secy Commerce} + Andrew Mellon ^{Secy Finance} + National Press
Press - Deloit with Dwight D. Morrow - Chiefly
Staff Personal and Governor Walter E. Edge - W.
World War #1 + Inspector of Draft - On Inland -
Waterway, River + Harbor Commission and many
tariff boards. Ogden Mills + Walter Edge were
Directors of Cey Co when I was Pres. So have been
active for years + not in a position to do more at
this time. Hope you will keep up your good work and

Dear Colonel Robinson:

I appreciated receiving your letter of April 30 expressing approval of the views which I expressed last week before the Senate Banking and Currency Committee recommending the abolition of the Reconstruction Finance Corporation.

It is always encouraging to me to have people who are outside of the Government take sufficient interest in public affairs to go to the trouble to write expressing approval, or disapproval for that matter. In case you have not seen the full text of my statement I am enclosing a copy herewith.

Sincerely yours,

M. S. Eccles.
