

November 19, 1935.

Mr. Marriner S. Eccles,
Care of Federal Reserve Board,
Washington, D. C.

Dear Sir:

In a speech which you recently made to bankers, perhaps at their recent convention in New Orleans, the newspapers are quoting you as having made remarks of the following tenor.

"If you want the government to get out (of Banking), you get in." Also that you urge bankers to extend "not the type of credit you prefer to extend, 90 days to 6 months, but the kind there is a demand for."

If you addressed the Bankers at their recent New Orleans, convention these remarks no doubt were made in such speech. If not, you can probably identify the speech, as these remarks are receiving publicity just now.

The object of this letter is to request that you kindly oblige by mailing me complete copy of your speech in which your remarks of the fore going tenor were made, as I would like to see all that you said on that subject. The newspaper comments are too brief, and I will appreciate your complete speech, which kindly mail to my address given below, and accept my thanks for same in advance.

Very truly yours,

Robert A. Steps

Address:

Robert A. Steps,
340 N. Martel Avenue,
Los Angeles, California.
