

PAUL W. RION

GAS & ELECTRIC BLDG.

25 N. MAIN ST.

DAYTON, OHIO

June 29, 1939.

Mr. Marriner Eccles,
Member of Federal Reserve Board,
Washington, D.C.

Dear Mr. Eccles:

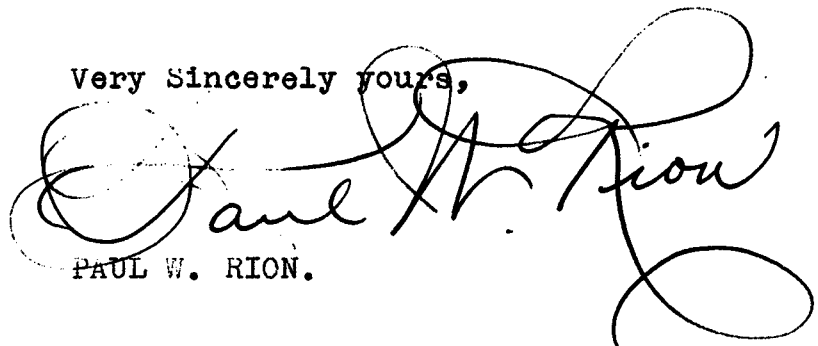

We hope you will pardon this trespass on a busy man's time. This letter is a letter of congratulations on your attitude toward Social Security and is inspired by the accompanying clipping, which appeared in the recent edition of the Dayton Daily News.

Without going into detail as to the Why and Wherefore, your attitude shows that someone in Washington, really understands our trouble and the way out. COMPOUND INTEREST IS THE TROUBLE AND SOCIAL SECURITY ADMINISTERED WITHOUT COMPLI-CATING IT IS THE WAY OUT.

No where before, have we found a statement as to why we are having so much trouble and no where have we found a remedy suggested which really points out just where we should go to overcome these troubled conditions.

May we again take this opportunity to congratulate you for your comments and contributions along the lines suggested and wish you continued success in your undertakings.

Very Sincerely yours,

PAUL W. RION.

July 5, 1939.

Mr. Paul W. Rion,
Gas & Electric Building,
25 N. Main Street,
Dayton, Ohio.

Dear Mr. Rion:

This is to acknowledge receipt of your letter of June 29. I was interested to have your views and wanted you to know that I appreciated your courtesy in writing.

Sincerely yours,

M. S. Eccles,
Chairman.
