Dear Mr. Eccles:

According to a statement published in the Commercial & Financial Chronicle of December 7, 1940 (page 3323), it is stated that, because of "incorrect and misleading accounts" published regarding your remarks in an "off the record" address before the National Industrial Conference Board on November 28th, you have made public the text of this address.

Would it be possible for you to send us a copy of this speech? If this is not feasible, would you kindly indicate where such a copy might be obtained.

Your remarks and proposals are always of interest and importance to the Nation.

Thanking you, we are

Very truly yours,
