Dec. 4th, 1940

Hon. Marriner S. Eccles,
Chairman, Board of Governors,
Federal Reserve System,
Washington, D.C.

Dear Sir:

We have read, with a great deal of interest the article in The New York Herald Tribune of Dec. 4th, 1940, in regard to a loan to Great Britain of \$2,500,000,000.00 to be paid by the British Gold Production at the rate of \$750,000,000 per year.

We, the undersigned, believe the plan an excellent one and agree perfectly with you.

The British are now fighting our battles for us, and our own safety and future depends upon their success or failure.

Yours very truly,

John S. McEwan
Frank E. Selkirk
James L. McEwan
