My dear Sir -

Why should we the taxpayers  
finance England's war? It's about  
time our own people were cared for.

If England needs money let  
her return to the many American  
countries the island and other  
possessions she has taken since 1815

Miss Florence F. Driscoll,  
325 East 72d Street,  
New York City.

Dear Miss Driscoll:

Chairman Eccles requested me to acknowledge receipt of your post card and to send you a copy of the text of his recent talk which gave rise to your questions. As you will see from what he actually said, newspaper accounts, upon which your questions appear to be based, were erroneous.

Very truly yours,

Elliott Thurston,  
Special Assistant  
to the Chairman.
