

^{W. S. Eccles}
Mr. W. S. Eccles,

Flushing, N. Y.

So I see by the papers you
advocate 30 per cent withholding Tax
out of poor peoples income to save the
rich - What ^{and} how do you expect
people of 50.00 or less, mostly less
to pay - & pay their bills, and still be
able to buy anything - do you want
to put the small business man out of
business, do you really understand
the position of the poor people, or are
you very much afraid the rich will
suffer, Give us the real truth, and
advise how you would like 30%
taken out of 40.00 If you were in
the same position
