My dear Sir

This is primarily to say that your suggestion that we economize on the armed forces and put more to relief strikes me as being as good sense as it is good religion. I trust you will be listened to.

I believe the country as a whole can manage the matter all right but there will have to be a lot of individual good management. There are several suggestions that rise to one's mind as to how.

Yours truly

Betty Churchill Jones

Dear Miss Jones:

Thank you for your very kind letter of September 29 commenting on my recent talk to the State Bank Supervisors. Since then we have had some reprints made, and in view of your interest it occurred to me that you might care to see the full text. Accordingly, I am enclosing a copy.

Sincerely yours,

M. S. Eccles,
Chairman.
