Mr. Marvin S. Eccles  
Washington DC

Dear Sir

I believe that your plan  
for limiting the profits made  
from purchase of stocks, homes  
& farms is mighty timely, sound  
and fair. And as you have  
said "the entire stabilization  
program will be "undermined"  
unless rising prices in this  
group are checked.

Stick to it and I for  
one, am with you 100%

Yours sincerely

Thomas D Green

Dear Mr. Green:

Your thoughtful and encouraging note of March 3 is very much appreciated. Because of your interest in the matter, it occurred to me that you might care to see the full text of the explanatory statement I gave out the other day in connection with the proposal for a special wartime capital gains tax.

The proposal has brought the expected volume of criticisms from the financial community so it is gratifying and reassuring to have your approval.

Sincerely yours,

M. S. Eccles,  
Chairman.
