Mr. Eccles -

It is just too bad that your efforts to wreck our National Economy and change our American way of life has met with partial success.

Trying to make innocent people the goat for your own stinking mess at Washington.

It is known that your own Communist friends and Jewish satellites were short of stocks and in order to save them, you make a circus of yourself.

There is much talk that Uncle Sam is bedeviled by a huge monster whose head reaches to Europe and ass lies in Washington. Looks so near and won each day.

The people are getting wise, ain't he forked.

The newspapers will soon be made acquainted with the facts. A. Reel American.
