Mr. Marriner S. Eccles  
Governor, Federal Reserve Board  
Washington, D.C.

Dear Sir :

I should be obliged for an information where to get  
a copy of your recommendation for stopping inflation.

Who saved for retirement and for family security gets hurt most.  
Inflation is, as Lenin said, the quickest way to destroy the  
middle classes and we are about following Lenins advice.  
We are here some retired people ,also widows and orphans and we  
should be obliged for an advice what we all together can do  
to stop inflation and what we shall demand from our Representatives.

Very truly yours,

  
Leo Dub
