200
Recommendations to Improve TARP

\$5.2 Billion
Recovered for taxpayers

Message from the Special Inspector General for the Troubled Asset Relief Program ("SIGTARP")

SIGTARP successfully identifies previously undetected bank fraud. Nearly half of our bank fraud cases are long-running fraud schemes that started prior to the crisis but were only detected because the bank applied for TARP. In 2009, SIGTARP uncovered a 10-year \$2.9 billion massive fraud scheme at Colonial Bank and Taylor, Bean & Whitaker, which DOJ called one of the longest and largest bank fraud schemes in the country. On February 25, 2016, the CEO of Tifton Bank, Pat Hall, was sentenced to 7 years in prison for a fraud scheme SIGTARP uncovered that had been ongoing since 2005.

SIGTARP has investigated 78 bank officials who have been charged by prosecutors with a crime. Already 57 have been convicted. Others await trial.

Our special agents use an analytical, experience-based approach to self-generate investigations and root out hidden crime, rather than rely on bank self-reporting or examiner referrals. Bank self-reporting is not effective in identifying fraud where top bank executives hid losses and the declining financial condition of the bank -- the hallmark of crisis-era fraud. Instead of relying on traditional notions of bank fraud, SIGTARP analyzes bank information compared to red flags we developed. TARP brought these banks within SIGTARP's cross-jurisdiction which provides SIGTARP comprehensive oversight including access to documents from multiple Federal agencies.

Each red flag may seem inconsequential on its own, but collectively lead to SIGTARP's investigative process that uncovers hidden crime throughout the financial sector – *an investigations process that could be applied in the future to post-crisis crime*. SIGTARP has found millions of dollars in bank losses in these "cooked books" fraud schemes, losses that far exceed those from the Savings & Loan crisis -- where in most cases, bank losses were under \$25,000.

Are bankers going to jail? SIGTARP's track record is a resounding yes with 35 bankers already sentenced to prison, including:

- ***Tifton Bank***: Bank CEO Pat Hall was sentenced to 7 years in prison.
- ***FirstCity Bank***: Bank President Mark Conner was sentenced to 12 years in prison, V.P. & Senior Loan Officer Clayton Coe was sentenced to 7 years in prison, and attorney Robert Maloney was sentenced to 3 years in prison.
- ***United Commercial Bank***: UCBH COO and chief credit officer Ebrahim Shabudin was sentenced to 8 years in prison for securities fraud following a jury verdict, and two other senior bank officers were also convicted.
- ***TierOne Bank***: Bank CEO Gil Lundstrom was sentenced to 11 years in prison following a jury verdict on fraud charges, and two other senior bank officers were sentenced to prison.
- ***Bank of the Commonwealth***: Bank CEO and Chairman Edward Woodard was sentenced to 23 years, and two other bank officers were also sentenced to prison.

SIGTARP's exclusive mandate on financial institution crime means we can solely focus on holding bankers and others accountable for wrongdoing. Our focused mission allows us to devote all of our resources, without distraction, to help ensure justice and accountability for crimes that caused bank losses of millions of dollars, making these crimes extremely dangerous to banks and our financial system.

Section 3 of this report assesses the surge of non-bank mortgage servicers in HAMP who have already received more than \$1 billion in TARP, which raises risks to homeowners and the need for significant oversight. I would be happy to have an opportunity to discuss SIGTARP's work with you.

Respectfully,

CHRISTY GOLDSMITH ROMERO
Special Inspector General

EXECUTIVE SUMMARY

SIGTARP successfully identifies previously undetected bank fraud. Nearly half of all bank fraud cases we investigate are long-running fraud schemes that started prior to the crisis but were only detected because the bank applied for TARP bailout funds. For example, starting in 2009, SIGTARP uncovered a 10-year \$2.9 billion massive fraud scheme at Colonial Bank and Taylor, Bean & Whitaker, resulting in 8 defendants being sentenced to prison. Then-U.S. Attorney Neil H. MacBride who prosecuted the case called it one of the longest and largest bank fraud schemes in the country. In another example from this quarter, on February 25, 2016, the CEO of Tifton Bank Gary “Pat” Hall was sentenced to 7 years in prison for a fraud scheme SIGTARP uncovered that had been ongoing since 2005. The other half of SIGTARP-investigated bank fraud cases involves crime at a bank during the crisis. SIGTARP has often found in these cases that bank officers engaged in aggressive and risky lending pre-crisis, and then during the crisis, used fraudulent schemes to hide that those loans became past due or had defaulted or that the value of the collateral had dropped.

SIGTARP has investigated 78 bank officials who have been charged by prosecutors with a crime.ⁱ Already, 57 have been convicted by jury verdict after trial or by pleading guilty. Others await trial.

Our special agents and other investigators use an analytical, experience-based approach to self-generate investigations and root out hidden crime, rather than rely on bank self-reporting or referrals from bank examiners. Bank self-reporting often initiates law enforcement investigations but has significant limitations. While bank self-reporting can identify traditional notions of bank fraud, such as borrower fraud against the bank or bank officers who defraud the bank using it as their own personal piggy bank, it is not effective in identifying the type of fraud where top bank executives hid losses and the declining financial condition of the bank—the hallmark of crisis-era fraud.ⁱⁱ That would require those bank officials to self-report their crimes. In addition, referrals from bank examiners are rare in SIGTARP investigations.

Instead of relying on traditional notions of bank fraud, SIGTARP uses its expertise of this type of fraud to analyze bank information (bank records and examiner reports) compared to red flags we have developed from our investigations. A bank’s application or receipt of TARP bailout funds brought them within SIGTARP’s cross-jurisdictional bounds over TARP programs, rather than a single agency, providing SIGTARP comprehensive oversight including access to documents from multiple Federal agencies.

Each of the red flags we have developed may seem inconsequential on their own, but collectively lead to SIGTARP conducting an investigative process that has uncovered hidden crime throughout the financial sector—an investigative process that could be applied in the future to post-crisis crime. For example, one red flag is a board of directors that lack banking experience and may not be in the best position to serve as a check on management. Another red flag is heavy

ⁱ An indictment contains allegations that a defendant has committed a crime. Every defendant is presumed innocent until and unless proven guilty in court.

ⁱⁱ Bank officials whose fraudulent scheme was based on using the bank as their personal piggy bank was the subject of most law enforcement actions arising out of the Savings & Loan crisis.

concentration of lending to favorite customers that link the fate of the bank with the fate of the customer's business. Other red flags include a bank exceeding loan-to-value ratio limitations when lending, and/or not adequately analyzing the financial condition of borrowers. These may not be a crime, but we find them in these cases.

Bank officials can cross the line and commit a crime when they conceal the truth about the bank's financial condition in bank records, and in their representations to bank examiners, other regulators, and the investing public.ⁱⁱⁱ While many bank officials saw their bank suffer past-due loans, declining collateral, and increased foreclosures during the crisis, not all resorted to crime. Many of these bankers suffered consequences. Some saw their bank being closed or taken over by another bank. Some experienced difficulty getting capital investments after seeing the bank's declining financial condition. Other bankers resorted to criminal activity to cook the books, concealing the bank's faltering state.

This "cooked books" type of bank fraud had devastating effects on the health of the bank. SIGTARP often finds a snowball effect, as banks extended even more credit in violation of the banks own policies and the law through fraudulent schemes to mask the extent of loan losses. SIGTARP has found millions of dollars in bank losses in the fraud schemes we uncovered. These losses far exceed losses from fraud that marked the Savings & Loan crisis—where in most cases, bank losses were under \$25,000.

Are bankers going to jail? SIGTARP's track record is a resounding yes. While sentencing takes time, 35 bankers investigated by SIGTARP have already been sentenced to prison.

Notable cases of bankers investigated by SIGTARP who were sentenced to prison:

- **Tifton Bank:** Bank CEO Pat Hall was sentenced to 7 years in prison. Beginning in 2005, CEO Hall began misleading the bank's loan committee about loans. He later concealed when those loans went past-due. His fraudulent schemes included circumventing the loan committee to issue a new loan for one property to retire an overdue loan on another property. He overdrafted accounts by more than \$900,000 to make loan payments. He fraudulently prepared an application for loans from two federal agencies for a borrower who would use that money to remove an overdue loan at Tifton Bank. When an appraiser found the gates of a plant locked, Hall made false representations to the appraiser including that all equipment was in place and working.
- **FirstCity Bank:** Bank President Mark Conner was sentenced to 12 years in prison, V.P. & Senior Loan Officer Clayton Coe was sentenced to 7 years in prison, and attorney Robert Maloney was sentenced to 3 years in prison. SIGTARP uncovered that beginning in 2004, Conner and Coe convinced the bank to approve multiple multi-million dollar commercial loans to borrowers who, unbeknownst to the bank, were actually purchasing the property owned

ⁱⁱⁱ Prosecutors can charge these bank officials with a number of criminal charges that apply, for example: bank fraud, wire fraud, securities fraud, falsifying entries in bank books, false statements to bank examiners, and false certification of bank records.

by Conner or his co-conspirators. They made fraudulent misrepresentations to 10 other banks who participated in these loans. They routinely misled bank examiners. To hide the bank's declining financial position, they made loans to buyers to purchase foreclosed property off the bank's books. The bank failed at a time when Georgia led the nation in the number of bank failures.

- **United Commercial Bank Investigation:** In March 2015, a jury convicted United Commercial Bank Holdings, Inc. ("UCBH") COO and chief credit officer Ebrahim Shabudin of securities fraud. He was sentenced to 8 years in prison. Two other senior bank officers were convicted. From 2004 to 2007, United Commercial Bank began aggressively expanding, nearly doubling its loans, with a goal to be a \$10 billion bank so that it could become a bank in China. During the crisis, in an attempt to have the bank appear to "break even," COO Shabudin and co-conspirators manipulated the bank's books and records, and issued false press releases, filings with examiners, and false financial statements. He fraudulently delayed downgrading the risk ratings of loans. He hid that the inventory of electronics that served as collateral for a major loan turned out to be fake even though bank officials found a warehouse of empty boxes. He hid that other loans had real property as collateral that had significantly declined in value. This was the 9th largest bank to fail since 2008. "UCB is one of the largest criminal prosecutions brought by the U.S. Department of Justice of wrongdoing by bank officers arising out of the 2008 financial crisis," said U.S. Attorney Haag. "With actual losses exceeding a half a billion dollars, the prosecution of Shabudin and other senior officers at United Commercial Bank ("UCB") is one of the most significant financial fraud cases in the history of the Northern District of California."
- **TierOne Bank Investigation:** On November 6, 2015, following a SIGTARP investigation, a Federal jury convicted TierOne Bank CEO Gil Lundstrom of fraud. He was sentenced to 11 years in prison. Evidence at trial showed that starting in 2002, CEO Lundstrom aggressively expanded bank lending from Nebraska to riskier commercial real estate in Las Vegas and other states, nearly doubling the bank's loan book to \$3.7 billion. Chief credit officer Don Langford, who has been sentenced to prison, testified this was "the very riskiest level of commercial real estate lending." Many of the loans exceeded the loan-to-value ratio limitations and the bank did not adequately analyze the financial condition of borrowers. When the crisis unfolded, the value of the collateral securing these loans dropped significantly. Loans had no appraisals, unsupported appraisals, or stale appraisals. The bank's President James Laphen, who has been sentenced to prison, testified at trial that he, Lundstrom and Langford agreed to delay ordering new appraisals to delay taking losses. CEO Lundstrom and his co-conspirators created a second set of books to conceal more than \$100 million in losses from this risky lending, in what bank officers called "smoke and mirrors" and "hiding the ball." They understated losses and used unrealistic loan collateral values to make it appear that the bank met required capital ratios. President Laphen testified that TierOne was "infinitesimally

close” to blowing its core capital ratio, which was at 8.51, just 0.01 over the regulator-required 8.5 ratio.

- **Bank of the Commonwealth:** In May 2013, a jury convicted bank CEO and Chairman Edward Woodard, for a massive bank fraud that contributed to the failure of the bank. Woodard was sentenced to 23 years in prison along with two other bank officers. A total of 10 defendants were convicted in the case, 6 were sentenced to prison. This was the largest bank failure in Virginia since 2008. In announcing the indictment, U.S. Attorney Neil H. MacBride called the scheme “stunningly massive.” “The brazen greed and dishonesty of these four defendants toppled one of Virginia’s largest financial institutions and intensified the impact of the 2008 financial crisis on the public during the height of the fiscal storm,” said U.S. Attorney Neil H. MacBride. Starting in 2006, Woodard aggressively expanded the bank with the goal of becoming a billion dollar bank. The bank doubled its loan portfolio, ignoring industry standards and bank policies such as obtaining current financial statements from borrowers, current appraisals, current cash flow analysis, and not obtaining significant collateral. When this risk did not pay off, bank officials cooked the books to hide \$800 million in past due loans. They overdraw checking accounts by \$100,000 to make loan payments. They made new loans to straw borrowers knowing that the money was going to pay down delinquent borrowers’ loans. They made new loans for a purported new purpose when they knew the money was going to pay existing delinquent loans. They extended money for construction knowing it would be used to pay delinquent loans. They removed past due loans from reports.

An additional 20 bankers investigated by SIGTARP have been charged with civil fraud. This includes, for example, the former CEO of Bank of America Ken Lewis & the former CFO of Bank of America Joe Price who were charged with civil violations following a SIGTARP investigation that uncovered misrepresentations by Bank of America about Merrill Lynch’s financial condition in order to get millions in additional TARP funding. It also includes Bank of America, its predecessors Countrywide Financial Corporation and Countrywide Home Loans, Inc., and a bank officer who a jury found guilty of fraud in a civil FIRREA case. The fraud involved using a program nicknamed the “HSSL or “the Hustle” that originated and generated for sale a high volume of mortgages at high speed by removing critical quality control checks. The court stated, “the essential crime found by the jury was a scheme to induce Fannie Mae and/or Freddie Mac to purchase mortgage loans originated through the High Speed Swim Lane by misrepresenting that the loans were of higher quality than they actually were.”

SIGTARP’s exclusive mandate on financial institution crime means we can solely focus on holding bankers and others accountable for wrongdoing. Our focused mission allows us to devote all of our resources, without distraction, to help ensure justice and accountability for crimes that caused bank losses of millions of dollars, making these crimes extremely dangerous to banks and our financial system.

SECTION 1

THE OFFICE OF THE SPECIAL
INSPECTOR GENERAL FOR THE
TROUBLED ASSET RELIEF PROGRAM

SIGTARP OVERSIGHT ACTIVITIES

Created by Congress to protect taxpayers who funded the Troubled Asset Relief Program (“TARP”), SIGTARP is both a law enforcement agency with the authority to search, seize, and arrest, and an audit agency with the authority to conduct audits of TARP. SIGTARP’s audits recommend fixes to Treasury of vulnerabilities to fraud, waste, and abuse in TARP, and expose to the public and Treasury our insights into areas of TARP that need improvement. Congress aligned SIGTARP’s sunset to the length of time TARP funds or commitments are outstanding. Treasury’s extension of TARP’s housing program, HAMP, last year extends TARP commitments to 2023.

Recoveries to the Government and Other Victims

SIGTARP is ensuring that TARP crime does not pay by taking the profit out of crime. SIGTARP has escalated its efforts tenfold to recover funds lost to TARP crime or civil violations of the law, a crucial component of long-term recovery from the crisis. SIGTARP has already assisted in recovering \$5.18 billion through its investigations, including \$4.9 billion that has been paid back to the government and \$231 million paid to other victims.

FIGURE 1.1
RECOVERED FROM DEFENDANTS INVESTIGATED BY SIGTARP (CUMULATIVE)

These recoveries include \$320 million paid by SunTrust after SIGTARP’s investigation found criminal material misrepresentations to homeowners seeking help through TARP’s housing program known as HAMP.

SIGTARP anticipates even more financial recovery for the government and other victims. SIGTARP’s investigations have resulted in court orders and government agreements for a total of approximately \$16.3 billion to be returned to the government or other victims. For example, SIGTARP’s investigation into Goldman Sachs’ and Morgan Stanley’s toxic subprime residential mortgage backed securities resulted in a \$5.06 billion penalty to be paid by Goldman Sachs and a \$2.6 billion penalty to be paid by Morgan Stanley. Both investigations uncovered that Goldman Sachs and Morgan Stanley misled investors about the subprime

mortgage loans underlying the securities that they sold. In another example, SIGTARP's investigation of Bank of America resulted in a jury verdict after trial, and a court order that the bank pay \$1.27 billion, an order that the bank appealed. The court's order stated, "the essential crime found by the jury was a scheme to induce Fannie Mae and/or Freddie Mac to purchase mortgage loans originated through the High Speed Swim Lane by misrepresenting that the loans were of higher quality than they were." SIGTARP anticipates a decision on that appeal in 2016 and, if upheld, Bank of America will immediately owe that money to the government.

Two other SIGTARP-investigated cases have resulted in not only lengthy prison sentences for a number of individuals in each case but also significant orders of forfeiture and restitution. In the Colonial Bank/Taylor, Bean & Whitaker Mortgage Corporation LLC ("TBW") case, former TBW chairman Lee Bentley Farkas was convicted for spearheading a \$2.9 billion fraud scheme that contributed to the failure of Colonial Bank, the sixth largest bank failure in U.S. history. The case resulted in prison sentences for eight people including Farkas, and also court-ordered restitution of \$3.5 billion and forfeiture of \$38.5 million. In the Bank of the Commonwealth case ("BOC"), former chairman Edward J. Woodard was convicted for leading a \$41 million bank fraud scheme that masked non-performing assets at BOC and contributed to the failure of BOC in 2011. The case resulted in prison sentences for seven individuals including Woodard, court-ordered restitution of \$333 million, and a forfeiture order of \$65 million against nine defendants, each responsible for at least a portion.

FIGURE 1.2

SIGTARP'S ESCALATED EFFORTS INCREASED MONEY ORDERED/AGREED TO BE PAID (CUMULATIVE)

Having already assisted in the recovery of \$5.18 billion of these funds, we will continue to find assets to pursue additional recoveries from the rest of the \$16.3 billion.

Property already seized or ordered to be forfeited includes dozens of vehicles, more than 30 properties (including businesses and waterfront homes), more than

40 bank accounts (including a bank account located in the Cayman Islands), bags of silver, U.S. currency, antique and collector coins (including gold, silver, and copper coins), artwork, antique furniture, Civil War memorabilia, NetSpend Visa and CashPass MasterCard debit cards, Western Union money orders with the “Pay To” line blank, and the entry of money judgments by courts against more than 40 defendants.

Of the vehicles ordered to be forfeited (including automobiles, a tractor, water craft, recreational and commercial vehicles) several are antique and expensive cars, including a 1969 Shelby Mustang, a 1932 Ford Model A, a 1954 Cadillac Eldorado convertible, a 1963 Rolls Royce, and a 1965 Shelby Cobra.

As part of the Bank of the Commonwealth case, Thomas Arney, who pleaded guilty for his role in the bank fraud scheme, agreed to forfeit the proceeds from the sale of two antique cars to the Government: a 1948 Pontiac Silver Streak and a 1957 Cadillac Coup de Ville. Figure 1.3 includes examples of some of the cars that have been ordered forfeited, as well as other examples of assets seized by the Government in SIGTARP investigations.

Artwork with a total value of \$71,525, including paintings worth up to \$10,000 each.

19th century English painting of "Royal Family," oil on canvas. Estimated appraised value: \$6,000.

SIGTARP’s Investigative and Audit Work Results in Cost Savings to the Government

SIGTARP’s investigation of Colonial Bank resulted in an immediate savings of \$553 million in TARP funds that Treasury had already approved to invest in the bank. Based on SIGTARP’s communications with Treasury, Treasury stopped the TARP money just prior to disbursement. Colonial Bank did not receive the \$553 million in TARP funds that Treasury approved, all of which would have been lost when the bank failed. SIGTARP’s audit and oversight work also has a net positive impact, though the calculation of that benefit is inherently imprecise and its impact is difficult to measure.

If adopted, SIGTARP’s recommendations could ultimately result in savings for the taxpayer. Last quarter, SIGTARP issued an audit alert letter to Treasury that identified \$246,490 in demolition costs that SIGTARP recommends Treasury recover. In 2011, SIGTARP issued an audit report questioning \$7,980,215 in legal fees and expenses and recommending Treasury determine their allowability for possible recovery; SIGTARP also recommended that Treasury recover \$91,482 in ineligible fees and expenses it paid to one firm.

SIGTARP Investigations Oversight

SIGTARP is a white-collar law enforcement agency. SIGTARP investigates criminal and civil violations of the law that the Department of Justice or others prosecute.

SIGTARP partners with other agencies in order to leverage resources. SIGTARP works hard to deliver the accountability the American people demand and deserve.

More than 300 defendants investigated by SIGTARP have been charged with crimes, 241 of whom have already been convicted, and 147 have been sentenced to prison for their crimes.

As of April 15, 2016:

- More than 300 (343) defendants that SIGTARP investigated have been charged with TARP-related crimes—more than four times the number charged in the past three years.
- More than 200 (241) defendants that SIGTARP investigated have been convicted of TARP related crimes—almost tripling the number convicted in the past three years.
- More than 100 (147) defendants that SIGTARP investigated have been sentenced to prison for their crimes related to TARP. The number of defendants sentenced to prison more than quadrupling—from 35 to 147 defendants—in slightly more than three years.

Sentencing follows years of SIGTARP's investigations and criminal prosecution. SIGTARP expects that number to rise. There are 54 additional defendants that SIGTARP investigated who have already been convicted of their crimes and await sentencing by the court.

FIGURE 1.4

CRIMINAL CONVICTIONS RESULTING FROM RAMP UP
IN SIGTARP'S SUPPORT OF PROSECUTIONS (CUMULATIVE)

FIGURE 1.5
 INCREASE IN DEFENDANTS INVESTIGATED BY SIGTARP
 WHO WERE SENTENCED TO PRISON (CUMULATIVE)

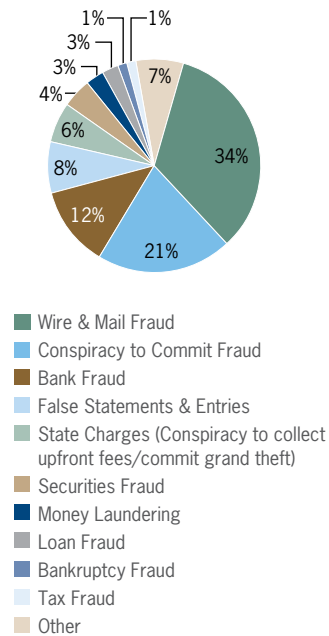

Already, 241 defendants investigated by SIGTARP have been convicted of TARP-related crimes, and 147 have been sentenced to prison (some still await sentencing). These convictions and prison sentences are important measures of justice, accountability, and deterrence that SIGTARP has brought to protect taxpayers and leave the industry safer than we found it during the crisis.

TARP bailout-related crime must be stopped. Every time. Without exception. Without regard to the TARP institution’s size. SIGTARP is the investigative agency who works with our prosecuting law enforcement partners, to bring cases of TARP-related crime to satisfy four foundations of our justice system:

1. **Accountability**— No one is above the law. SIGTARP and our law enforcement partners held every one of the 241 convicted defendants accountable for their crimes. In addition to the 147 of these convicted defendants who have already been sentenced to prison, 54 convicted defendants investigated by SIGTARP await sentencing. SIGTARP and our law enforcement partners will hold others accountable in the future. SIGTARP is conducting investigations that are not yet at the stage of criminal charges, and we continue to find crime and open new investigations.
2. **Taking the Profit Out of Crime**— Crime must not pay. SIGTARP’s investigations have already resulted in \$5.18 billion in real dollars returned to the Government and other victims. SIGTARP works to increase that amount by assisting in recovering money from an additional \$11.2 billion in court orders and Government agreements resulting from SIGTARP investigations that have not yet been recovered.
3. **Deterrence**— Breaking the banking laws must not be tolerated. Crimes against banks deserve significant general deterrence efforts. In some cases, the crime jeopardized the safety and soundness of a bank that applied for or received TARP. In other cases, the crime did not on its own jeopardize the safety and soundness of the bank, but multiple losses must be deterred to avoid creating a

FIGURE 1.6

CRIMINAL CHARGES FROM SIGTARP INVESTIGATIONS RESULTING IN PRISON SENTENCES

Note: Numbers may not total due to rounding.

risk to a bank's safety and soundness. Putting a TARP bank's assets at risk also puts Treasury's TARP investment and FDIC-insured bank deposits at risk.

4. **Justice and Crisis Recovery**— Justice must be brought to victims hurt by these crimes, such as communities, employees, homeowners, small businesses, the Government, and others. Additionally, those defendants willing to commit crime related to the bailout must be removed from the financial system that underpins the economy on which we all rely on so that they are never in a position again to put a bank or TARP program at risk.

SIGTARP's investigations concern a wide range of possible violations of the law, and result in charges including: bank fraud, conspiracy to commit fraud or to defraud the United States, wire fraud, mail fraud, making false statements to the Government (including to SIGTARP agents), securities fraud, money laundering, and bankruptcy fraud, among others.ⁱ These investigations have resulted in charges against defendants holding a variety of jobs, including 78 bank employees, and 87 mortgage modification scammers. 63% of those charged are senior officials.

Figure 1.6 represents a breakdown of criminal charges from SIGTARP investigations resulting in prison sentences.

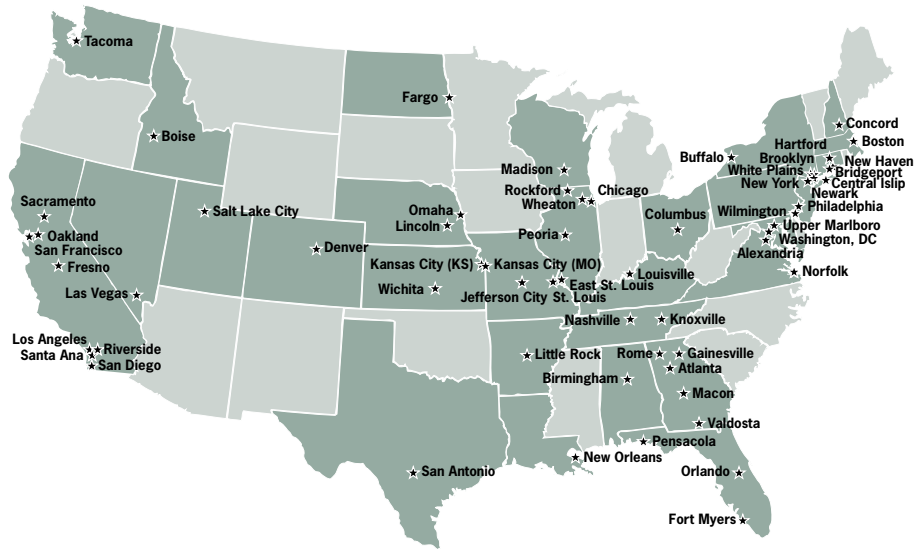

Location of Criminal Prosecutions Arising Out of SIGTARP Investigations

SIGTARP has found, investigated, and supported the prosecution of TARP-related crime throughout the nation. The 343 defendants investigated by SIGTARP were charged in courts in 30 states and Washington, DC, with victims in all 50 states and Washington, DC. Figure 1.7 shows locations where criminal charges were filed by Federal or State prosecutors as a result of SIGTARP investigations.ⁱⁱ

ⁱ The prosecutors partnered with SIGTARP ultimately decided which criminal charges to bring resulting from SIGTARP's investigations.

Prison Sentences Resulting From SIGTARP Criminal Investigations

As a result of a SIGTARP investigation, already 147 defendants have been sentenced to prison. The average prison sentence imposed by courts for crime investigated by SIGTARP is 59 months, which is nearly double the national average length of prison sentences involving white collar fraud of 36 months.ⁱⁱⁱ On average, as a result of SIGTARP investigations, criminals convicted of crimes related to banking have been sentenced to serve 62 months in prison. Criminals convicted for mortgage modification fraud schemes or other mortgage fraud related investigations by SIGTARP were sentenced to serve an average of 58 months in prison. Criminals investigated by SIGTARP and convicted of investment schemes such as Ponzi schemes and sales of fake TARP-backed securities were sentenced to serve an average of 44 months in prison. Figure 1.8 shows the people sentenced to prison, the sentences they received, and their affiliations.

ⁱⁱⁱ See the U.S. Sentencing Commission's 2013 Sourcebook of Federal Sentencing Statistics for additional information.

TARP-Related Investigations Activity Since the January 2016 Quarterly Report

Each quarter SIGTARP investigations result in a number of charges, convictions, and prison sentences as set forth in Figures 1.4-1.5. The following summaries highlight some of the more impactful developments from the quarter focusing on SIGTARP's investigations and enforcement against TARP banks and bankers, as well as against executives and borrowers for defrauding TARP banks, and against perpetrators seeking to defraud homeowners and others by pretending to be, or be affiliated with, official TARP housing assistance or other programs.

Investigations and Enforcement

Investigations and Enforcement Against TARP Banks and Bankers

Former TARP Bank CEO Sentenced to 84 Months in Federal Prison and \$3.9 Million Restitution for Hiding Past Due Loans from Regulators, Shareholders

On February 25, 2016, Gary Patton Hall Jr., the former President and CEO of TARP recipient, Tifton Banking Company ("TBC") was sentenced in the United States District Court for the Middle District of Georgia to 84 months in prison having pleaded guilty in December 2015 to conspiracy to commit bank fraud and conspiracy to commit fraud against the United States. Hall was also ordered to pay restitution of \$3,931,018. Between 2005 and 2010, Hall engaged in a scheme to cover up past due loans to mask the bank's poor financial condition from the FDIC and the bank's loan committee, eventually resulting in millions of dollars of losses to the bank and others. Hall also concealed his personal and business interest in loans as to which he exercised approval authority, including funding an unsecured loan to a borrower who purchased Hall's condominium in Panama City, Florida, and who later declared bankruptcy, resulting in a loss of more than \$400,000 to TBC. In 2009 TBC obtained \$3.8 million in TARP funds, all of which was lost (together with over \$50 thousand in missed dividends) when the bank failed in 2010. The case was investigated by SIGTARP, the FBI, the SBA's Office of the Inspector General, the FDIC-OIG, the Department of Agriculture-OIG and the Tift County Sheriff's Office and was prosecuted by the DOJ Criminal Division's Fraud Section and the United States Attorney's Office for the Middle District of Georgia.

Eleven Bank Officers and Directors at \$69 Million TARP Recipient, Superior Bancorp, Inc., Charged Civilly with Defrauding Shareholders

On January 13, 2016, eleven former high-ranking executives and board members at TARP recipient, Superior Bancorp, Inc., were charged by the SEC with defrauding shareholders in connection with various schemes to conceal the extent of loan losses as the bank was faltering in the wake of the financial crisis. As alleged in the civil complaint, the high-ranking officers and directors schemed to mislead investors and bank regulators by propping up Superior Bank's financial

condition through straw borrowers, bogus appraisals, and insider deals. Further, the defendants extended, renewed, and rolled over bad loans to avoid the need to report ever-increasing losses in the bank's financial accounting. As a result, Superior Bank, the banking subsidiary, overstated its net income in public filings by approximately 99 percent for 2009 and 50 percent for 2010. Superior Bank ultimately failed in April 2011 resulting in the loss of the entire TARP investment of \$69 million together with \$ 2,587,500 in missed dividends. At the time, the FDIC, which was appointed as the bank's receiver, estimated a \$259.6 million loss.

The defendants include: Kenneth D. Pomeroy, who was president of Superior Bank's central Florida region, and William C. McKinnon, who was a senior vice president and commercial loan officer. The remaining nine defendants, including former senior bank officials from both the bank holding company and Superior Bank, have settled the SEC's charges and agreed to a lifetime ban from serving as public company directors and officers; and six also agreed to civil monetary penalties. The case was investigated by the SEC with assistance from SIGTARP, FBI, OCC, FDIC, FHFA-OIG, and the U.S. Attorney's Office for the Northern District of Alabama.

Former Beverly Hills Bank Exec Charged in Loan Fraud that Resulted in \$33 Million in Losses and Contributed to Bank Failure

On January 13, 2016, Ataollah "John" Aminpour, a former bank executive from Beverly Hills, California, was indicted in the United States Court for the Central District of California following his arrest in connection with a \$150 million loan fraud scheme that contributed to the failure of Mirae Bank and caused \$33 million in losses to TARP recipient, Wilshire Bank, which acquired Mirae. SIGTARP's investigation, conducted together with the U.S. Attorney's Office for the Central District of California, FDIC-OIG, and FHFA-OIG revealed that, from 2005 through 2009, Aminpour, the former chief marketing officer of Mirae Bank, allegedly created \$150 million in inflated loans to gas stations and car washes, skimmed money off the top, and generated over a million dollars in commissions. Aminpour concealed the true loan amounts from the bank, arranged for fake down payments and encouraged some borrowers to stop making payments so he could purchase those distressed loans at a discount. Prior to its acquisition of Mirae in 2009, Wilshire received \$62 million in TARP funds which was sold at a loss of more than \$3.5 million in 2012.

Three More Charged in Money Laundering Schemes

In conjunction with SIGTARP's investigation of TARP recipient Saigon National Bank, on January 13, 2016 and March 18, 2016, three additional defendants (Sheng Lee and Hua Leung in January and Diana Nguyen in March) were charged in a series of money laundering schemes related to (as previously reported) the December 10, 2015, indictment of 20 defendants (15 of whom were arrested by SIGTARP agents, alongside other federal law enforcement authorities) in Operation "Phantom Bank," a series of money laundering schemes that involved allegations of narcotics trafficking and international money laundering; including

through TARP recipient, Saigon National Bank. Saigon National Bank is one of only twelve TARP-recipient banks to reject the U.S. Treasury Department's requests to send an observer to the institution's board meetings, and it has missed 28 consecutive TARP dividend payments totaling more than \$690,183 and, as of March 31, 2016, owed Treasury \$1,549,000 in outstanding principal. SIGTARP is conducting the investigation together with the FBI, and IRS-CI and the case is being prosecuted by the United States Attorney's Office for the Central District of California.

Former Senior Vice President at TARP Recipient Bank Pleads Guilty to Making False Statements to a Financial Institution

On March 22, 2016, Robert Pennington, a Vice President at Citizens First National Bank ("Citizens"), subsidiary of TARP recipient, Princeton National Bancorp, both of Princeton, Illinois, pleaded guilty in the United States District Court for the Central District of Illinois to making a false statement to a financial institution. Specifically, Pennington engaged in a years'-long campaign to conceal that he had borrowed more than \$200,000 from bank customers while falsely reporting on the bank's annual conflicts of interest certifications from 2006 through 2011 that he was not indebted to any bank customer. Pennington also lied on an application for a personal loan from Citizens by failing to disclose that he had personal debts of at least \$50,000. In January 2009, Princeton National, received \$25,083,000 in TARP funds, all of which was lost together with \$2,194,763, in seven missed dividends when Citizens failed on November 2, 2012. SIGTARP investigated the case together with the United States Attorney's Office for the Central District of Illinois, the FBI and FDIC-OIG.

TARP Recipient Bank Required to Pay More than \$47 Million for False Claims Act Violations

On January 8, 2016, the United States District Court for the District of Columbia entered a \$47,905,000 default judgment against TARP recipient, One Financial Corporation ("One Financial") and its subsidiary, One Bank & Trust, N.A. ("One Bank"), both based in Little Rock, Arkansas, in connection with a False Claims Act suit alleging that the late Layton P. Stuart, former owner and president of One Financial, obtained \$17.3 million in TARP funds under false pretenses and used them for improper purposes. SIGTARP's investigation, worked together with the United States Attorney's Office for the Eastern District of Arkansas, the DOJ Civil Division, and the IRS-CI, uncovered (and the False Claims Act suit alleged) that, in applying for TARP in 2009, Stuart made false statements about One Financial and One Bank's financial condition and the intended use of the TARP funds. Particularly, Stuart concealed ongoing multiple frauds he and other One Financial directors and One Bank executives had and were committing involving Stuart's diversion of One Bank funds for his personal use, including the purchase of luxury vehicles for his wife and children. Within two weeks of receiving TARP funds, Stuart also allegedly diverted \$2.185 million into his personal accounts. Separate criminal actions against former bank executives, who are alleged to have conspired

with Stuart, remain pending and Stuart's estate agreed to resolve the False Claims Act suit for \$4 million in September 2015.

First TARP Recipient Institution Indicted for Hiding Past Due Loans, Making False Statements in Securities Filings and to Regulators

On January 6, 2016, in the United States District Court for the District of Delaware, TARP recipient Wilmington Trust Corporation ("WTC") was indicted in connection with its role in concealing from the Federal Reserve, the Securities and Exchange Commission (SEC) and the investing public the total quantity of past due loans on its books from October 2009 through November 2010. The indictment of the bank follows the indictments of four of its senior executives in 2015, Chief Financial Officer, David Gibson; President, Robert V.A. Harra; Chief Credit Officer, William North; and Controller, Kevyn Rakowski.

According to the indictment, Wilmington Trust was required to report in its quarterly filings with both the SEC and the Federal Reserve the quantity of its loans for which payment was past due for 90 days or more. Investors and banking regulators consider the amount of past due loans at a bank as an important metric in evaluating the health of a bank's loan portfolio. Wilmington Trust, through the actions of defendants Gibson, Harra, North and Rakowski, however, concealed the truth about the health of its loan portfolio from the SEC, the investing public and from Wilmington Trust's regulators. During the course of the alleged conspiracy, in February 2010, Wilmington Trust raised approximately \$273.9 million through a public stock offering. Wilmington Trust received \$330 million in TARP funds and is the first TARP recipient institution to be indicted. This case is being investigated by SIGTARP, the U.S. Attorney's Office for the District of Delaware the FBI, IRS-CI, and FRB-OIG.

Former CEO of \$3 Billion TierOne Bank Sentenced to 11 Years in Prison for Orchestrating Scheme to Hide More than \$100 Million in Losses from Shareholders and Regulators - Bank Applied for \$86 Million from TARP Before Collapsing

On March 23, 2016, Gilbert G. Lundstrom, the former CEO of TierOne Bank, a—now failed—\$3 billion publicly-traded commercial bank, was sentenced to 132 months in prison and ordered to pay a \$1.2 million fine following his conviction after a jury trial for orchestrating a scheme to defraud TierOne's shareholders and misleading regulators by concealing more than \$100 million in losses. Additionally, on March 25, 2016, James Laphen, TierOne's former President and Chief Operating Officer, and Don Langford, TierOne's former Chief Credit Officer were sentenced to 34 months and 21 months, respectively, after pleading guilty in 2014, for their roles in the scheme. Laphen was also fined \$200,000.

According to the trial evidence, Lundstrom designed an aggressive strategy to expand TierOne's portfolio beyond traditional lending in Nebraska to riskier areas, including commercial real estate in Las Vegas, which decimated the bank once the financial crisis hit. Lundstrom then covered up what he referred to as the bank's "death spiral" due to these bad loans, in a conspiracy which included applying

for \$86 million in TARP with false bank books because, as Lundstrom wrote, the bank would be “dead without TARP.” Lundstrom presented one picture of the bank’s health to regulators and for the TARP application, when executives had, in actuality, tallied \$60 million to \$70 million in hidden loan losses written on a napkin. Additionally, Lundstrom lied to shareholders saying that the bank decided against applying for TARP, when, in reality, Lundstrom knew the bank’s regulator did not support the TARP application. In June 2010, following TierOne’s ultimate disclosure of \$120 million in loan losses and its subsequent delisting from the NASDAQ exchange, TierOne was shut down by the FDIC. The FDIC estimated its loss at \$298 million. At the time of the closure, TierOne had more than 750 employees working at its headquarters in Lincoln and its 69 branch offices located in Nebraska, Iowa and Kansas. SIGTARP and the FBI investigated the case, which was prosecuted by the DOJ Criminal Division’s, Fraud Section.

Banker and Real Estate Developer Indicted on Bank Fraud Charges – Excel Bank Failed to Repay Nearly \$5 Million in TARP Funds

On April 13, 2016, Shaun Hayes and Michael Litz were indicted by a federal grand jury on bank fraud charges relating to Excel Bank, which was closed by regulators in 2012. Excel Bank received \$4 million in TARP funds and failed to pay 11 dividends, causing a loss of nearly \$5 million to taxpayers when the bank failed. Around 2009, Hayes was the majority shareholder of Excel Bank’s holding company. Litz was an owner of two major real estate businesses, Eighteen Investments and Bellington Realty. Hayes and Litz were co-owners of McKnight Man I LLC through which they were attempting to develop property. Both Eighteen Investments and the McKnight Man were delinquent on loans at Centru Bank which, in June, 2009, sued Eighteen Investments and Litz and threatened to sue Hayes and Litz, as guarantors on a delinquent loan. The delinquent loans totaled over \$4 million. Around that time, through Hayes’ efforts, Excel Bank opened up a loan production office, which Hayes controlled. The indictment alleges that Hayes used his status as an insider at Excel Bank to cause Excel Bank to buy the pool of delinquent Eighteen Investments from loans from Centru Bank at a discount. The indictment further alleges that Hayes and Litz caused Excel Bank to loan \$3.3 million to a straw borrower who then used those funds to pay off the Eighteen Investments’ pool of loans purchased by Excel Bank and the remaining McKnight Man loan at Centru Bank. These actions were hidden from the bank’s board of directors and officials as well as federal and state bank regulators. This case is being investigated by SIGTARP, the FBI, FHFA-OIG and the FDCI-OIG. Assistant United States Attorneys James E. Crowe, Jr., Reginald L. Harris and Gilbert C. Sison are handling the case for the U.S. Attorney’s Office.

Investigations into Conduct in the Mortgage-Backed Securities Market

Morgan Stanley Agrees to \$2.6 Billion Penalty in Connection with Its Sale of Residential Mortgage Backed Securities as a Precursor to Financial Crisis

On February 11, 2016, TARP recipient, Morgan Stanley, agreed to pay a \$2.6 billion penalty to resolve claims related to its marketing, sale and issuance of residential mortgage-backed securities (“RMBS”) as a precursor to the financial crisis. As part of the agreement, Morgan Stanley admitted its failure to disclose critical information to prospective investors about the quality of the mortgage loans underlying its RMBS, and about its due diligence practices. Investors, including federally insured financial institutions, suffered billions of dollars in losses from investing in RMBS issued by Morgan Stanley in 2006 and 2007. In October 2008, Morgan Stanley received \$10 billion in TARP funds knowing it had misled investors and knowing that its toxic subprime mortgage securities caused billions of dollars in losses. The case was investigated by SIGTARP, the DOJ Civil Division’s Commercial Litigation Branch, the United States Attorney’s Office for the Northern District of California and FHFA-OIG.

Goldman Sachs Agrees to Pay More than \$5 Billion in Connection with Its Sale of Residential Mortgage Backed Securities—Bank Received \$10 Billion from TARP

On April 11, 2016, Goldman Sachs agreed to pay \$5.06 billion as part of a settlement related to Goldman Sachs’ conduct in the packaging, securitization, marketing, sale and issuance of RMBS between 2005 and 2007. The settlement requires Goldman Sachs to pay \$2.385 billion in a civil penalty under the Financial Institutions Reform, Recovery and Enforcement Act (“FIRREA”) and also requires the bank to provide \$1.8 billion in other relief, including relief to underwater homeowners, distressed borrowers and affected communities, in the form of loan forgiveness and financing for affordable housing. Goldman Sachs will also pay \$875 million to resolve claims by other federal entities and state claims. Investors, including federally-insured financial institutions, suffered billions of dollars in losses from investing in RMBS issued and underwritten by Goldman Sachs between 2005 and 2007. The settlement is part of the ongoing efforts of President Obama’s Financial Fraud Enforcement Task Force’s RMBS Working Group, which has recovered tens of billions of dollars on behalf of American consumers and investors for claims against large financial institutions arising from misconduct related to the financial crisis. The RMBS Working Group brings together attorneys, investigators, analysts and staff from multiple state and federal agencies, including SIGTARP, the Department of Justice, U.S. Attorneys’ Offices, the FBI, the U.S. Securities and Exchange Commission (“SEC”), the Department of Housing and Urban Development (“HUD”), HUD’s Office of Inspector General, the FHFA-OIG, the Federal Reserve Board’s OIG, the Recovery Accountability and Transparency Board, the Financial Crimes Enforcement Network and multiple state Attorneys General offices around the country.

Investigations and Enforcement Against Executives and Borrowers for Using or Defrauding TARP Banks

Recruiter in Multi-Million Dollar Mortgage Fraud Scheme Sentenced to Prison — TARP Recipient Bank Used in Scheme

On February 23, 2016, following his November 2015 guilty plea, Chester Peggese, was sentenced to one year and one day in prison for his role in a mortgage fraud scheme in which he paid kickbacks to Paul Ryan, a loan officer of TARP recipient, Broadway Federal Bank (“Broadway Federal”) to process loan applications of various Los Angeles-area churches. Broadway Federal received a total of \$15 million in TARP funds, Ryan pleaded guilty in July 2014 to bank bribery. SIGTARP’s investigation, was conducted with the United States Attorney’s Office for the Central District of California, IRS-CI, FDIC OIG and FBI.

Owner of Debt Collection Agency Sentenced for Bribing Official at TARP Recipient Bank

On January 8, 2016, Leonard G. Pottillo, III, was sentenced to 46 months in prison after pleading guilty to making more than 60 payments totaling approximately \$1,067,000 in bribes to an official at TARP recipient, US Bank, as well as tax evasion in connection with a scheme to buy debt portfolios from banks, including TARP recipient banks, falsify the quality of the debt and then flip the debt to other collection agencies. SIGTARP investigated this case together with the IRS-CI and USSS and it is being prosecuted by the United States Attorney’s Office for the Middle District of Florida.

California Wholesale Executive Pleads Guilty for Role in \$9 Million Bank Fraud Scheme — TARP Bank Victimized

On March 30, 2016, Chung Yu Yeung, a vice president of a wholesale equipment company pleaded guilty to a bank fraud scheme in connection with an elaborate web of lies with multiple shell companies and cooked financial statements to defraud TARP recipients East West Bank and the now failed UCB. Yeung lied about accounts receivable and inventory to secure an \$11 million line of credit, resulting in losses to East West Bank of more than \$9 million. East West Bank received over \$306 million in TARP funds and UCBH, the parent company of UCB, received \$298.7 million in TARP funds prior to its failure in 2009 - less than one year after receiving TARP funds. When UCBH failed the entire TARP investment of \$298.7 million and \$3.7 million dividends were lost. SIGTARP, IRS-CI and the FBI investigated the case and it is being prosecuted by the DOJ Criminal Division’s Fraud Section.

Delaware Real Estate Developer Pleads Guilty to Bank Fraud and Environmental Violation — Fraudulent Loans from TARP Bank Resourced Personal Projects

On March 28, 2016, Joseph L. Capano pleaded guilty to one count of bank fraud and one count of knowingly violating the Clean Water Act for having submitted false funding requests during construction of a real estate development partially

funded by a \$1.5 million loan from TARP recipient, Cecil Bank. Instead of using funds for the construction development, Capano pocketed more than \$146,000 for his personal use, including around \$63,000 for a jewelry purchase. Capano further discharged pollutants into wetlands without a permit during the development and directed employees and contractors perform other wetlands'-prohibited practices. Cecil Bancorp, Inc., of Elkton, MD., the parent company of Cecil Bank, received \$11.56 million in TARP funds in December 2008, of which approximately \$11 million remains outstanding together with twenty-four missed dividend payments totaling \$4,277,200. This case was investigated by SIGTARP together with the United States Attorney's Office for the District of Delaware, FBI, and EPA-CID.

Borrower Sentenced to Prison for Defrauding TARP Recipient Bank

On March 2, 2016, Alberto Solaroli was sentenced to one year and one day in prison and required to pay \$120,000 in restitution after pleading guilty to money laundering relating to a \$1.5 million loan he received from One Bank & Trust, a subsidiary of TARP recipient, One Financial Corporation. SIGTARP investigated this case together with IRS-CI, FBI and the United States Attorney's Office for the Eastern District of Arkansas.

Investigations and Enforcement Relating to TARP Housing Assistance Programs

Five California Residents Plead Guilty to Defrauding Homeowners in Nationwide Home Loan Modification Scam — Defendants Used US Treasury Seals and Fake TARP Information

On March 30, 2016, Roscoe Umali, Jefferson Maniscan, Raymund Dacanay, Isaac Perez, and Joshua Johnson pleaded guilty for their roles in a nationwide home loan modification scam that defrauded over 400 homeowners out of over \$3.8 million. Umali and his cohorts falsely claimed to operate a non-profit company, brazenly used the U.S. Treasury seal on fabricated documents, and purported to be connected to the Treasury's official Home Affordable Modification Program, or HAMP, to induce homeowners to make payments of thousands of dollars in exchange for supposed home loan modification assistance. In reality, however, the defendants convinced homeowners to send them "reinstatement fees" and make several monthly "trial mortgage payments" to the co-conspirators, rather than to the homeowners' lenders and many victims lost their homes. This case was investigated by SIGTARP and is being prosecuted by the United States Attorneys' Office for the Eastern District of Virginia.

Ringleader and Others Who Perpetrated More than \$3 Million Mortgage Loan Modification Scheme Pleads Guilty

On March 22, 2016, Aria Maleki pleaded guilty to conspiring to defraud homeowners across the United States who were seeking mortgage loan modifications. Three of Maleki's co-conspirators also pleaded guilty to the same scheme in February 2016. To induce homeowners to pay upfront fees ranging

from \$2,500 to \$4,300, the defendants falsely represented that the homeowners already had been approved for mortgage loan modifications on extremely favorable terms; the mortgage loan modifications already had been negotiated with the homeowners' lenders; the homeowners qualified for and would receive financial assistance under various government mortgage relief programs, including TARP and HAMP; and if for some reason the mortgage loan modifications fell through, the homeowners would be entitled to a full refund of their fees. More than 1,000 homeowners suffered losses totaling more than \$3 million. Additionally, three other co-defendants were charged in January 2016. This matter is being investigated by SIGTARP, the United States Attorney's Office for the District of Connecticut, DHS-HIS, USPIS, HUD-OIG, FHFA-OIG, FBI, with assistance from the Oklahoma Attorney General's Office.

California Man Charged for Defrauding More than 400 Homeowners Out of \$2.7 Million

On March 3, 2016, Chad Caldaronello, aka Chad Carlson, and aka Chad Johnson was charged with mail fraud as part of his scheme to defraud struggling homeowners. As described in the charging document, Caldaronello, together with co-conspirators, operated several businesses, including HOPE Services and HAMP Services, promising loan modifications to distressed homeowners. Beginning in 2014 and ending in 2015, Caldaronello and his co-conspirators executed a scheme to induce distressed homeowners to pay trial payments to one of his companies. As part of the scheme, Caldaronello and his co-conspirators represented to struggling homeowners that HOPE Services and HAMP Services worked with government agencies and that HOPE Services and HAMP Services were authorized by federal government to help facilitate the loan modification process for homeowners. More than 400 homeowners were defrauded out of over \$2.7 million. Instead of using the funds to help the homeowners, Caldaronello used the funds to pay sales commissions and for his own personal use, including for daily living expenses and trips to Las Vegas. SIGTARP investigated the case with the FBI. The case is being prosecuted by the Central District of California.

SIGTARP Audit Oversight

Through 42 audit and other reports and 200 recommendations, SIGTARP protects additional TARP dollars and TARP programs, and finds savings for the Government.

As TARP has shifted away from Treasury investments in large institutions, SIGTARP has shifted its audit and oversight work to focus on looking for vulnerabilities in TARP to fraud, waste, and abuse, or improper payments, in ongoing TARP housing and small bank programs. SIGTARP's efforts also make these programs more effective and efficient. For example, as Treasury actively disburses \$489 million in TARP to 7 states for the demolition of vacant houses, and recently approved \$161.2 million in TARP to first-time homebuyers, both new activities in TARP, SIGTARP through audit and oversight work is protecting

that money and those programs, recently making 22 recommendations to reduce vulnerabilities in both subprograms.

SIGTARP's audit and oversight work also helps detect fraud, waste, and abuse. SIGTARP's forensic auditing unit provides better insight into fraud, waste, and abuse, and seeks recoveries of monies lost to waste and abuse in TARP. This group is focused on prevention and deterrence to make sure we reduce waste, so that SIGTARP does not have to later chase down improper payments.

With \$17 billion in remaining funds, TARP housing programs continue to need significant oversight. SIGTARP has made 102 recommendations concerning TARP's housing programs. Over the past year, SIGTARP made 33 recommendations to Treasury that were intended to improve TARP programs, protect taxpayer dollars from fraud, waste, and abuse, and make TARP more effective and efficient. These included recommendations that identified for Treasury ways to improve HHF, particularly HHF's Blight Elimination Program and HHF Florida. Treasury has taken some action on SIGTARP's recommendations to improve HHF.

Beginning in mid-2013, Treasury expanded TARP to pay for the demolition of abandoned properties in seven states. In FY 2015, these demolitions started. Treasury has allocated \$489 million in TARP dollars to these demolitions. SIGTARP's team of auditors and evaluators work hard to identify vulnerabilities that could hurt this use of TARP. SIGTARP recently issued an audit finding that the demolition strategy, decisions, and activities, are done by contractors and subcontractors far removed from Treasury, whose identity is unknown to Treasury, with little information flowing to Treasury. Given the importance of protecting these dollars, this group is actively working on an audit to identify areas of risk in the Blight Elimination Program. They will also help identify other areas for other audit groups to work on in this program.

SECTION 2 SIGTARP RECOMMENDATIONS

SIGTARP has a responsibility to conduct oversight over all aspects of TARP programs. Making recommendations to improve the effectiveness and efficiency of Government, and prevent fraud, waste, and abuse, is the traditional role of an office of inspector general. As the Special OIG over TARP, SIGTARP's role is to make TARP better by improving the effectiveness and efficiency of Government TARP programs, and protect TARP from fraud, waste, and abuse.

Within that role, SIGTARP conducts oversight to gain insight into areas where TARP can be improved. SIGTARP's reports and recommendations raise awareness to obstacles to TARP success. SIGTARP recommends improvements in TARP programs to Treasury, other Federal agencies with a role in TARP (such as federal banking regulators in TARP bank programs), as well as others who Treasury has chosen to administer TARP programs, such as mortgage servicers in HAMP, and state housing finance agencies in the Hardest Hit Fund.

Over the past year, SIGTARP made 33 recommendations to Treasury that were intended to improve TARP programs, protect taxpayer dollars from fraud, waste, and abuse, and make the programs more effective and efficient. That goal was stymied as a result of non-responsiveness — Treasury did not respond to SIGTARP's recommendations for months, some nearly one year.

While Treasury has now responded to our numerous recommendations, that response was brought about only after Congressional pressure. For instance, SIGTARP raised concerns in an urgent Alert Letter to Secretary Lew recommending Treasury ensure lived-in homes were not demolished using HHF funds. The need for immediate action was acute as SIGTARP had discovered that lived-in homes had already been torn down and there was the possibility that similar demolitions might occur.

Although urgent, Treasury only addressed the problem after the House Committee on Oversight and Government Reform scheduled a hearing on the issues. Similarly, Treasury did not formally respond to those or the rest of SIGTARP's 2015 recommendations until late March 2016, only after 11 members of Congress wrote a letter to President Obama demanding executive action to address SIGTARP's audits and recommendations concerning HHF.

Addressing this 12 months of SIGTARP audit work, Treasury said that where SIGTARP's recent recommendations are able to be implemented or the "spirit" of the recommendations is able to be addressed, Treasury has either done or is in the process of doing so.

But, in many instances, Treasury has not pointed to additional activity it conducted since SIGTARP made those recommendations. If Treasury's conduct was efficient and effective, SIGTARP would not have made those recommendations. So, Treasury should reconsider and implement these recommendations immediately.

Treasury, however, is making progress in implementing some of SIGTARP's recommendations concerning HHF — a positive sign — and SIGTARP will continue to monitor Treasury's progress.

RECOMMENDATIONS RELATED TO THE HARDEST HIT FUND BLIGHT ELIMINATION PROGRAM

In April 2015, SIGTARP reported that the Hardest Hit Fund Blight Elimination Program is designed in a way that leaves Treasury in the dark on strategies, decisions, and blight elimination activity conducted under HHF and paid for with TARP dollars. Treasury takes a hand-off approach to the HHF Blight Elimination Program and has very limited involvement in the planning or execution of the program. And, Treasury has not taken a risk-based approach to identify and mitigate risks that could form barriers to the most effective use of TARP funds for demolition activity or could lead to fraud, waste, and abuse. To address these concerns, SIGTARP made nine detailed recommendations to improve and protect HHF's blight elimination program from fraud, waste, and abuse. Treasury, however, did not respond to those recommendations until a year later, in April 2016.

While Treasury responded that it has implemented or is in the process of implementing four of these recommendations, it rejected the other five. The SIGTARP recommendations Treasury rejected encouraged Treasury to:

- keep itself informed and gain insight of critical HHF blight eliminations activities,
- increase transparency by publicizing HHF information on Treasury's website,
- engage in comprehensive planning to ensure HHF blight elimination sets target outcomes to increase home values and decrease foreclosure, and
- require quarterly, detailed accounting by state housing finance agencies on how TARP funds are spent.

In December 2015, SIGTARP made three urgent recommendations to ensure taxpayer HHF dollars were not being used to demolish lived-in homes. Although Treasury has taken positive steps to prevent this activity going forward, Treasury rejected SIGTARP's recommendation to claw back \$246,490 in TARP payments used to demolish lived-in residences rather than abandoned zombie properties, as Treasury intended.

Treasury should implement SIGTARP's HHF Blight Elimination recommendations immediately.

RECOMMENDATIONS RELATED TO THE HARDEST HIT FLORIDA

In October 2015, SIGTARP reported that, according to Treasury's data, only 20% of homeowners who applied for help from HHF Florida received assistance. HHF Florida consistently denied homeowners at higher rates (38-45%) than the national average, which improved this year, but is still slightly above the national average.

Also according to Treasury's data, nearly 40% of all homeowners who applied to HHF Florida either withdrew their application or had their application withdrawn by Florida's HFA, which is far higher than the national average. To address these concerns, SIGTARP made 20 detailed recommendations to make HHF Florida more effective. Treasury, however, did not respond to those recommendations until 6 months later, in April 2016.

While Treasury responded that it has implemented or is in the process of implementing half of these 20 recommendations, it rejected the other 10. The SIGTARP recommendations Treasury rejected encouraged Treasury to:

- improve HHF Florida's effectiveness by setting admission rate targets,
- require housing finance agencies to report homeowner application withdrawals, and Treasury to post that information on its website for transparency and accountability,
- identify obstacles to senior citizens struggling to get HHF assistance,
- ensure HHF Florida assists homeowners consistently throughout the state,
- reduce the rate of homeowner applications withdrawn by setting and measuring targets, and
- prevent fraud, waste, and abuse in HHF by monitoring criminal convictions – especially mortgage related ones – for HHF applicants.

Treasury should implement SIGTARP's HHF Blight Elimination recommendations concerning Florida immediately.

RECOMMENDATIONS RELATED TO THE HARDEST HIT FUND AND STATE PENSION OBLIGATIONS

In December 2015, SIGTARP made a detailed recommendation to Treasury to ensure taxpayer HHF funds are used only for foreclosure prevention activities, as required by Emergency Economic Stabilization Act of 2008 ("EESA").

Treasury, however, did not respond to that recommendation until months later, in April 2016, stating that it has implemented or is in the process of implementing this recommendation. SIGTARP encourages Treasury to do so immediately.

SIGTARP RECOMMENDATIONS TABLE

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
1* Treasury should include language in the automobile industry transaction term sheet acknowledging SIGTARP's oversight role and expressly giving SIGTARP access to relevant documents and personnel.	X			
2* Treasury should include language in new TARP agreements to facilitate compliance and oversight. Specifically, SIGTARP recommends that each program participant should (1) acknowledge explicitly the jurisdiction and authority of SIGTARP and other oversight bodies, as relevant, to oversee compliance of the conditions contained in the agreement in question, (2) establish internal controls with respect to that condition, (3) report periodically to the Compliance department of the Office of Financial Stability ("OFS-Compliance") regarding the implementation of those controls and its compliance with the condition, and (4) provide a signed certification from an appropriate senior official to OFS-Compliance that such report is accurate.		X		Although Treasury has made substantial efforts to comply with this recommendation in many of its agreements, there have been exceptions, including in its agreements with servicers in MHA.
3* All existing TARP agreements, as well as those governing new transactions, should be posted on the Treasury website as soon as possible.	X			
4* Treasury should require all TARP recipients to report on the actual use of TARP funds.		X		While Treasury has required CDCI participants to report on their actual use of TARP funds, no other TARP recipients were required to do so. Treasury made the reporting by CPP recipients only voluntary.
5* Treasury quickly determines its going-forward valuation methodology.	X			
6* Treasury begins to develop an overall investment strategy to address its portfolio of stocks and decide whether it intends to exercise warrants of common stock.	X			
7* In formulating the structure of TALF, Treasury should consider requiring, before committing TARP funds to the program, that certain minimum underwriting standards and/or other fraud prevention mechanisms be put in place with respect to the ABS and/or the assets underlying the ABS used for collateral.	X			The Federal Reserve adopted mechanisms that address this recommendation.
8* Agreements with TALF participants should include an acknowledgment that: (1) they are subject to the oversight of OFS-Compliance and SIGTARP, (2) with respect to any condition imposed as part of TALF, that the party on which the condition is imposed is required to establish internal controls with respect to each condition, report periodically on such compliance, and provide a certification with respect to such compliance.			X	
9* Treasury should give careful consideration before agreeing to the expansion of TALF to include MBS without a full review of risks that may be involved and without considering certain minimum fraud protections.	X			This recommendation was implemented with respect to CMBS, and the Federal Reserve did not expand TALF to RMBS.
10* Treasury should oppose any expansion of TALF to legacy MBS without significant modifications to the program to ensure a full assessment of risks associated with such an expansion.	X			This recommendation was implemented with respect to CMBS, and the Federal Reserve did not expand TALF to RMBS.
11 Treasury should formalize its valuation strategy and begin providing values of the TARP investments to the public.	X			Treasury has formalized its valuation strategy and regularly publishes its estimates.
12* Treasury and the Federal Reserve should provide to SIGTARP, for public disclosure, the identity of the borrowers who surrender collateral in TALF.			X	On December 1, 2010, the Federal Reserve publicly disclosed the identities of all TALF borrowers and that there had been no surrender of collateral. SIGTARP will continue to monitor disclosures if a collateral surrender takes place.
13* In TALF, Treasury should dispense with rating agency determinations and require a security-by-security screening for each legacy RMBS. Treasury should refuse to participate if the program is not designed so that RMBS, whether new or legacy, will be rejected as collateral if the loans backing particular RMBS do not meet certain baseline underwriting criteria or are in categories that have been proven to be riddled with fraud, including certain undocumented subprime residential mortgages.			X	The Federal Reserve announced that RMBS were ineligible for TALF loans, rendering this recommendation moot.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
14* In TALF, Treasury should require significantly higher haircuts for all MBS, with particularly high haircuts for legacy RMBS, or other equally effective mitigation efforts.	X			This recommendation was implemented with respect to CMBS, and the Federal Reserve did not expand TALF to RMBS.
15* Treasury should require additional anti-fraud and credit protection provisions, specific to all MBS, before participating in an expanded TALF, including minimum underwriting standards and other fraud prevention measures.	X			The Federal Reserve adopted mechanisms that address this recommendation with respect to CMBS, and did not expand TALF to RMBS.
16* Treasury should design a robust compliance protocol with complete access rights to all TALF transaction participants for itself, SIGTARP, and other relevant oversight bodies.			X	
17* Treasury should not allow Legacy Securities PPIFs to invest in TALF unless significant mitigating measures are included to address these dangers.	X			
18* All TALF modeling and decisions, whether on haircuts or any other credit or fraud loss mechanisms, should account for potential losses to Government interests broadly, including TARP funds, and not just potential losses to the Federal Reserve.	X			
19* Treasury should address the confusion and uncertainty on executive compensation by immediately issuing the required regulations.	X			
20* Treasury should significantly increase the staffing levels of OFS-Compliance and ensure the timely development and implementation of an integrated risk management and compliance program.		X		According to Treasury, OFS-Compliance has increased its staffing level and has contracted with four private firms to provide additional assistance to OFS-Compliance.
21* Treasury should require CAP participants to (1) establish an internal control to monitor their actual use of TARP funds, (2) provide periodic reporting on their actual use of TARP funds, (3) certify to OFS-Compliance, under the penalty of criminal sanction, that the report is accurate, that the same criteria of internal controls and regular certified reports should be applied to all conditions imposed on CAP participants, and (4) acknowledge explicitly the jurisdiction and authority of SIGTARP and other oversight bodies, as appropriate, to oversee conditions contained in the agreement.			X	Treasury closed the program with no investments having been made, rendering this recommendation moot.
22* Treasury should impose strict conflict-of-interest rules upon PPIF managers across all programs that specifically address whether and to what extent the managers can (1) invest PPIF funds in legacy assets that they hold or manage on behalf of themselves or their clients or (2) conduct PPIF transactions with entities in which they have invested on behalf of themselves or others.		X		Treasury has adopted some significant conflict-of-interest rules related to this recommendation, but has failed to impose other significant safeguards.
23* Treasury should require that all PPIF fund managers (1) have stringent investor-screening procedures, including comprehensive "Know Your Customer" requirements at least as rigorous as that of a commercial bank or retail brokerage operation to prevent money laundering and the participation of actors prone to abusing the system, and (2) be required to provide Treasury with the identities of all the beneficial owners of the private interests in the fund so that Treasury can do appropriate diligence to ensure that investors in the funds are legitimate.		X		Treasury's agreements with PPIF managers include investor-screening procedures such as "Know Your Customer" requirements. Treasury has agreed that it will have access to any information in a fund manager's possession relating to beneficial owners. However, Treasury did not impose an affirmative requirement that managers obtain and maintain beneficial owner information.
24* Treasury should require PPIF managers to provide most favored nation clauses to PPIF equity stakeholders, to acknowledge that they owe Treasury a fiduciary duty, and to adopt a robust ethics policy and compliance apparatus.	X			
25 Treasury should require servicers in MHA to submit third-party verified evidence that the applicant is residing in the subject property before funding a mortgage modification.	X			
26* In MHA, Treasury should require a closing-like procedure be conducted that would include (1) a closing warning sheet that would warn the applicant of the consequences of fraud; (2) the notarized signature and thumbprint of each participant; (3) mandatory collection, copying, and retention of copies of identification documents of all participants in the transaction; (4) verbal and written warnings regarding hidden fees and payments so that applicants are made fully aware of them; (5) the benefits to which they are entitled under the program (to prevent a corrupt servicer from collecting payments from the Government and not passing the full amount of the subsidies to the homeowners); and (6) the fact that no fee should be charged for the modification.		X		Treasury rejected SIGTARP's recommendation for a closing-like procedure. However, since this recommendation was issued, Treasury has taken several actions to prevent fraud on the part of either MHA servicers or applicants.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
27 * Additional anti-fraud protections should be adopted in MHA to verify the identity of the participants in the transaction and to address the potential for servicers to steal from individuals receiving Government subsidies without applying them for the benefit of the homeowner.		X		Treasury has taken steps to implement policies and conduct compliance reviews to address this recommendation. However, it remains unclear if Treasury has an appropriate method to ensure the irregularities identified in the compliance reviews are resolved.
28 * In MHA, Treasury should require the servicer to compare the income reported on a mortgage modification application with the income reported on the original loan applications.			X	Treasury has rejected SIGTARP's recommendation and does not require income reported on the modification application to be compared to income reported on the original loan application.
29 * In MHA, Treasury should require that verifiable, third-party information be obtained to confirm an applicant's income before any modification payments are made.	X			
30 * In MHA, Treasury should defer payment of the \$1,000 incentive to the servicer until after the homeowner has verifiably made a minimum number of payments under the mortgage modification program.	X			
31 * In MHA, Treasury should proactively educate homeowners about the nature of the program, warn them about modification rescue fraudsters, and publicize that no fee is necessary to participate in the program.	X			
32 * In MHA, Treasury should require its agents to keep track of the names and identifying information for each participant in each mortgage modification transaction and to maintain a database of such information.		X		While Treasury's program administrator, Fannie Mae, has developed a HAMP system of record that maintains servicers' names, investor group (private, portfolio, GSE), and participating borrowers' personally identifiable information, such as names and addresses, the database does not include the name of the investor.
33 * Treasury should require the imposition of strict information barriers or "walls" between the PPIF managers making investment decisions on behalf of the PPIF and those employees of the fund management company who manage non-PPIF funds.			X	Treasury has refused to adopt this significant anti-fraud measure designed to prevent conflicts of interest. This represents a material deficiency in the program.
34 * Treasury should periodically disclose PPIF trading activity and require PPIF managers to disclose to SIGTARP, within seven days of the close of the quarter, all trading activity, holdings, and valuations so that SIGTARP may disclose such information, subject to reasonable protections, in its quarterly reports.			X	Treasury has committed to publish on a quarterly basis certain high-level information about aggregated purchases by the PPIFs, but not within seven days of the close of the quarter. Treasury has not committed to providing full transparency to show where public dollars are invested by requiring periodic disclosure of every trade in the PPIFs.
35 Treasury should define appropriate metrics and an evaluation system should be put in place to monitor the effectiveness of the PPIF managers, both to ensure they are fulfilling the terms of their agreements and to measure performance.		X		Treasury has stated that it has developed risk and performance metrics. However, more than four years into the program, it is still not clear how Treasury will use these metrics to evaluate the PPIF managers and take appropriate action as recommended by SIGTARP.
36 * The conditions that give Treasury "cause" to remove a PPIF manager should be expanded to include a manager's performance below a certain standard benchmark, or if Treasury concludes that the manager has materially violated compliance or ethical rules.			X	Treasury has refused to adopt this recommendation, relying solely on Treasury's right to end the investment period after 12 months. That timeframe has already expired. Treasury's failure to adopt this recommendation potentially puts significant Government funds at risk.
37 * Treasury should require PPIF managers to disclose to Treasury, as part of the Watch List process, not only information about holdings in eligible assets but also holdings in related assets or exposures to related liabilities.	X			
38 Treasury should require PPIF managers to obtain and maintain information about the beneficial ownership of all of the private equity interests, and Treasury should have the unilateral ability to prohibit participation of private equity investors.			X	Treasury has agreed that it can have access to any information in a fund manager's possession relating to beneficial owners. However, Treasury is not making an affirmative requirement that managers obtain and maintain beneficial owner information. Treasury will not adopt the recommendation to give itself unilateral ability to deny access to or remove an investor, stating that such a right would deter participation.
39 * Treasury and FRBNY should (1) examine Moody's assertions that some credit rating agencies are using lower standards to give a potential TALF security the necessary AAA rating and (2) develop mechanisms to ensure that acceptance of collateral in TALF is not unduly influenced by the improper incentives to overrate that exist among the credit agencies.	X			Treasury and the Federal Reserve have discussed concerns about potential overrating or rating shopping with the rating agencies, and have agreed to continue to develop and enhance risk management tools and processes, where appropriate.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
40 * Treasury should more explicitly document the vote of each Investment Committee member for all decisions related to the investment of TARP funds.	X			
41 * Treasury should improve existing control systems to document the occurrence and nature of external phone calls and in-person meetings about actual and potential recipients of funding under the CPP and other similar TARP-assistance programs to which they may be part of the decision making.	X			
42 * The Secretary of the Treasury should direct the Special Master to work with FRBNY officials in understanding AIG compensation programs and retention challenges before developing future compensation decisions that may affect both institutions' ability to get repaid by AIG for Federal assistance provided.	X			
43 * Treasury should establish policies to guide any similar future decisions to take a substantial ownership position in financial institutions that would require an advance review so that Treasury can be reasonably aware of the obligations and challenges facing such institutions.			X	Treasury stated that it does not anticipate taking a substantial percentage ownership position in any other financial institution pursuant to EESA.
44 * Treasury should establish policies to guide decision making in determining whether it is appropriate to defer to another agency when making TARP programming decisions where more than one Federal agency is involved.		X		Treasury has agreed to work closely with other Federal agencies that are involved in TARP.
45 Treasury should rectify the confusion that its own statements have caused for HAMP by prominently disclosing its goals and estimates (updated over time, as necessary) of how many homeowners the program will help through permanent modifications and report monthly on its progress toward meeting that goal.			X	Despite SIGTARP's repeated highlighting of this essential transparency and effectiveness measure, Treasury has refused to disclose clear and relevant goals and estimates for the program.
46 Treasury should develop other performance metrics and publicly report against them to measure over time the implementation and success of HAMP. For example, Treasury could set goals and publicly report against those goals for servicer processing times, modifications as a proportion of a servicer's loans in default, modifications as a proportion of foreclosures generally, rates of how many borrowers fall out of the program prior to permanent modification, and re-default rates.		X		Although Treasury has increased its reporting of servicer performance, it has not identified goals for each metric and measured performance against those goals. Treasury has not set an acceptable metric for redefaults.
47 Treasury should undertake a sustained public service campaign as soon as possible, both to reach additional borrowers who could benefit from the program and to arm the public with complete, accurate information — this will help to avoid confusion and delay, and prevent fraud and abuse.	X			
48 Treasury should reconsider its position that allows servicers to substitute alternative forms of income verification based on subjective determinations by the servicer.			X	
49 Treasury should re-examine HAMP's structure to ensure that it is adequately minimizing the risk of re-default stemming from non-mortgage debt, second liens, partial interest rate resets after the five-year modifications end, and from many borrowers being underwater.		X		Treasury has adopted some programs to assist underwater mortgages to address concerns of negative equity but has not addressed other factors contained in this recommendation.
50 Treasury should institute careful screening before putting additional capital through CDCI into an institution with insufficient capital to ensure that the TARP matching funds are not flowing into an institution that is on the verge of failure.	X			
51 Treasury should develop a robust procedure to audit and verify the bona fides of any purported capital raise in CDCI and to establish adequate controls to verify the source, amount, and closing of all claimed private investments.	X			
52 Treasury should revise CDCI terms to clarify that Treasury inspection and copy rights continue until the entire CDCI investment is terminated. Additionally, consistent with recommendations made in connection with other TARP programs, the terms should be revised to provide expressly that SIGTARP shall have access to the CDCI's records equal to that of Treasury.	X			

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
53 Treasury should consider more frequent surveys of a CDCI participant's use of TARP funds than annually as currently contemplated. Quarterly surveys would more effectively emphasize the purpose of CDCI.			X	
54 Treasury should ensure that more detail is captured by the Warrant Committee meeting minutes. At a minimum, the minutes should include the members' qualitative considerations regarding the reasons bids were accepted or rejected within fair market value ranges.	X			Treasury has indicated that it has implemented this recommendation. Although the detail of the minutes has improved, Treasury is still not identifying how each member of the committee casts his or her vote.
55 Treasury should document in detail the substance of all communications with recipients concerning warrant repurchases.			X	Treasury has agreed to document the dates, participants, and subject line of calls. It has refused to document the substance of such conversations.
56 * Treasury should develop and follow guidelines and internal controls concerning how warrant repurchase negotiations will be pursued, including the degree and nature of information to be shared with repurchasing institutions concerning Treasury's valuation of the warrants.		X		Treasury has adopted procedures designed to address this recommendation, including a policy to discuss only warrant valuation inputs and methodologies prior to receiving a bid, generally to limit discussion to valuation ranges after receiving approval from the Warrant Committee, and to note the provision of any added information in the Committee minutes. However, Treasury believes that its existing internal controls are sufficient to ensure adequate consistency in the negotiation process.
57 * Treasury should promptly take steps to verify TARP participants' conformance to their obligations, not only by ensuring that they have adequate compliance procedures but also by independently testing participants' compliance.		X		Although Treasury largely continues to rely on self-reporting, stating that it only plans to conduct testing where they have particular concerns as to a TARP recipient's compliance procedures or testing results, it has conducted independent testing of compliance obligations during some compliance reviews.
58 * Treasury should develop guidelines that apply consistently across TARP participants for when a violation is sufficiently material to merit reporting, or in the alternative require that all violations be reported.		X		Treasury states that it has developed guidance and provided that guidance to the exceptional assistance participants that were remaining in TARP as of June 30, 2011. Treasury has not addressed other factors contained in this recommendation, citing its belief that materiality should be subject to a fact and circumstances review.
59 For each HAMP-related program and subprogram, Treasury should publish the anticipated costs and expected participation in each and that, after each program is launched, it report monthly as to the program's performance against these expectations.		X		Treasury has provided anticipated costs, but not expected participation.
60 * Treasury should re-evaluate the voluntary nature of its principal reduction program and, irrespective of whether it is discretionary or mandatory, consider changes to better maximize its effectiveness, ensure to the greatest extent possible the consistent treatment of similarly situated borrowers, and address potential conflict of interest issues.				Treasury plans to maintain the voluntary nature of the program, providing an explanation that on its face seems unpersuasive to SIGTARP. SIGTARP will continue to monitor performance.
61 Treasury should adopt a uniform appraisal process across all HAMP and HAMP-related short-sale and principal reduction programs consistent with FHA's procedures.			X	
62 * Treasury should reconsider the length of the minimum term of HAMP's unemployment forbearance program.	X			For more than a year, Treasury refused to adopt this recommendation, even though average U.S. terms of unemployment were lengthening. However, in July 2011, the Administration announced a policy change, and Treasury has extended the minimum term of the unemployment program from three months to 12 months, effective October 1, 2011.
63 Treasury should launch a broad-based information campaign, including public service announcements in target markets that focus on warnings about potential fraud, and include conspicuous fraud warnings whenever it makes broad public announcements about the HAMP program.	X			
64 When Treasury considers whether to accept an existing CPP participant into SBLF, because conditions for many of the relevant institutions have changed dramatically since they were approved for CPP, Treasury and the bank regulators should conduct a new analysis of whether the applying institution is sufficiently healthy and viable to warrant participation in SBLF.	X			

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
65			X	Treasury refused to adopt this recommendation, citing its belief that current CPP participants may be unfairly disadvantaged in their SBLF applications if their existing CPP investments are not counted as part of their capital base, and that SBLF "already provides substantial hurdles that CPP recipients must overcome" that don't apply to other applicants.
66			X	Treasury refused to adopt this recommendation, suggesting that its adoption would subvert the will of Congress and that SIGTARP's recommendation "may not be helpful" because "it is unclear that using this statutorily mandated baseline will lead to anomalies."
67 *	X			Treasury, as part of its due diligence concerning any proposed restructuring, recapitalization, or sale of its CPP investment to a third party, should provide to SIGTARP the identity of the CPP institution and the details of the proposed transaction.
68 *	X			When a CPP participant refinances into SBLF and seeks additional taxpayer funds, Treasury should provide to SIGTARP the identity of the institution and details of the proposed additional SBLF investment.
69 *	X			Office of Financial Stability ("OFS") should adopt the legal fee bill submission standards contained in the FDIC's Outside Counsel Deskbook, or establish similarly detailed requirements for how law firms should prepare legal fee bills and describe specific work performed in the bills, and which costs and fees are allowable and unallowable.
70 *			X	OFS should include in its open legal service contracts detailed requirements for law firms on the preparation and submission of legal fee bills, or separately provide the instructions to law firms and modify its open contracts, making application of the instructions mandatory.
71 *	X			OFS should adopt the legal fee bill review standards and procedures contained in the FDIC's Outside Counsel Deskbook, or establish similarly specific instructions and guidance for OFS COITRs to use when reviewing legal fee bills, and incorporate those instructions and guidance into OFS written policies.
72 *			X	OFS should review previously paid legal fee bills to identify unreasonable or unallowable charges, and seek reimbursement for those charges, as appropriate.
73 *		X		Treasury should establish detailed guidance and internal controls governing how the MHA Servicer Compliance Assessment will be conducted and how each compliance area will be weighted.
74 *		X		Treasury should ensure that more detail is captured by the MHA Compliance Committee meeting minutes. At a minimum, the minutes should include MHA-C's proposed rating for each servicer, the committee members' qualitative and quantitative considerations regarding each servicer's ratings, the votes of each committee member, the final rating for each servicer, justification for any difference in that rating with MHA-C's proposed rating, and any follow-up including escalation to Treasury's Office of General Counsel or the Assistant Secretary and the outcomes of that escalation.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
75* Treasury should require that MHA servicer communications with homeowner's relating to changes in the status or terms of a homeowner's modification application, trial or permanent modification, HAFA agreement, or any other significant change affecting the homeowner's participation in the MHA program, be in writing.			X	Treasury has refused to adopt this recommendation, saying it already requires a loan servicer to communicate in writing with a borrower an average of 10 times. However, most written requirements apply to a HAMP application and Treasury's response fails to address homeowners who receive miscommunication from servicers on important milestones or changes. More than two years after this recommendation was issued on August 31, 2011, CFPB began requiring servicers to provide written notification to homeowners under a wide range of circumstances, some of which would be helpful to homeowners in or seeking MHA assistance. Treasury should implement these notification requirements in HAMP so that it can assess compliance and take action for non-compliance, such as withholding or clawing back HAMP incentives payments.
76* Treasury should establish benchmarks and goals for acceptable program performance for all MHA servicers, including the length of time it takes for trial modifications to be converted into permanent modifications, the conversion rate for trial modifications into permanent modifications, the length of time it takes to resolve escalated homeowner complaints, and the percentage of required modification status reports that are missing.			X	Treasury told SIGTARP that it already established benchmarks in this area, including that trial periods should last three to four months, and escalated cases should be resolved in 30 days. If these are the benchmarks for acceptable performance, many servicers have missed the mark. Also, Treasury has yet to establish a benchmark for conversion rates from trial modifications to permanent modifications.
77* Treasury should publicly assess the top 10 MHA servicers' program performance against acceptable performance benchmarks in the areas of: the length of time it takes for trial modifications to be converted into permanent modifications, the conversion rate for trial modifications into permanent modifications, the length of time it takes to resolve escalated homeowner complaints, and the percentage of required modification status reports that are missing.			X	Treasury has rejected this recommendation, saying only that it would "continue to develop and improve the process where appropriate."
78* Treasury must ensure that all servicers participating in MHA comply with program requirements by vigorously enforcing the terms of the servicer participation agreements, including using all financial remedies such as withholding, permanently reducing, and clawing back incentives for servicers who fail to perform at an acceptable level. Treasury should be transparent and make public all remedial actions taken against any servicer.			X	Treasury has rejected this important recommendation, stating that it believes that the remedies enacted have been appropriate and that appropriate transparency exists.
79 Treasury should specifically determine the allowability of \$7,980,215 in questioned, unsupported legal fees and expenses paid to the following law firms: Simpson Thacher & Bartlett LLP (\$5,791,724); Cadwalader Wickersham & Taft LLP (\$1,983,685); Locke Lord Bissell & Liddell LLP (\$146,867); and Bingham McCutchen LLP (Inovated from McKee Nelson LLP, \$57,939).			X	Treasury neither agreed nor disagreed with the recommendation.
80 The Treasury contracting officer should disallow and seek recovery from Simpson Thacher & Bartlett LLP for \$91,482 in questioned, ineligible fees and expenses paid that were not allowed under the OFS contract. Specifically, those are \$68,936 for labor hours billed at rates in excess of the allowable maximums set in contract TFS-09-0001, task order 1, and \$22,546 in other direct costs not allowed under contract TFS-09-007, task order 1.			X	Treasury neither agreed nor disagreed with the recommendation.
81 Treasury should promptly review all previously paid legal fee bills from all law firms with which it has a closed or open contract to identify unreasonable or unallowable charges and seek reimbursement for those charges, as appropriate.			X	Treasury only reviewed the legal fee bills for one of the five law firms that SIGTARP had already described as unreasonable. Treasury refuses to seek any reimbursements for those charges.
82 Treasury should require in any future solicitation for legal services multiple rate categories within the various partner, counsel, and associate labor categories. The additional labor rate categories should be based on the number of years the attorneys have practiced law.			X	Treasury neither agreed nor disagreed with the recommendation.
83 Treasury should pre-approve specified labor categories and rates of all contracted legal staff before they are allowed to work on and charge time to OFS projects.			X	Treasury neither agreed nor disagreed with the recommendation.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
84 * Treasury, in consultation with Federal banking regulators, should develop a clear TARP exit path to ensure that as many community banks as possible repay the TARP investment and prepare to deal with the banks that cannot. Treasury should develop criteria pertaining to restructurings, exchanges, and sales of its TARP investments (including any discount of the TARP investment, the treatment of unpaid TARP dividend and interest payments, and warrants).		X		Treasury responded that it continues its efforts to wind down CPP through repayments, restructuring, and sales. Treasury has not addressed the criteria for these investment strategies or consulted with regulators.
85 * Treasury should assess whether it should renegotiate the terms of its Capital Purchase Program contracts for those community banks that will not be able to exit TARP prior to the dividend rate increase in order to help preserve the value of taxpayers' investments.			X	Treasury rejected this recommendation without ever addressing why.
86 Treasury should protect borrower personally identifiable information ("PII") and other sensitive borrower information compiled for the Hardest Hit Fund ("HHF") by: (1) requiring that within 90 days, all Housing Finance Agencies (and their contractors) ("HFAs") participating in HHF develop and implement effective policies and procedures to ensure protection against unauthorized access, use, and disposition of PII and other sensitive borrower information; (2) Treasury reviewing each HFA's policies and procedures to determine if they are effective, and taking such action as is required to ensure effectiveness; (3) requiring that all parties granted access to borrower information should be made aware of restrictions on copying and disclosing this information; (4) requiring annual certification by HFAs to Treasury that they are in compliance with all applicable laws, policies and procedures pertaining to borrower information; and (5) requiring that HFAs promptly notify Treasury and SIGTARP within 24 hours, when a breach of security has occurred involving borrower information.		X		Treasury has said it is implementing this recommendation. SIGTARP will monitor Treasury's efforts to implement the recommendation.
87 * To ensure that the Office of the Special Master consistently grants exceptions to the \$500,000 cash salary cap, the Office of the Special Master should substantiate each exception requested and whether the requests demonstrate or fail to demonstrate "good cause."			X	While Treasury's documentation of granting these cash salaries has improved in that it includes some additional information beyond the company's assertions, that information is primarily market data that the company provides. The recommendation was not to document better, but instead to "substantiate," which requires some criteria for granting exceptions as well as independent analysis beyond the company's assertions. Treasury's policies and procedures do not contain any criteria for approving cash salaries exceeding \$500,000 or any discussion of any analysis by Treasury.
88 * The Office of the Special Master should better document its use of market data in its calculations. At a minimum, the Office of the Special Master should prospectively document which companies and employees are used as comparators in its analysis of the 50th percentile of the market, and it should also maintain records and data so that the relationship between its determinations and benchmarks are clearly understood.	X			In 2012, Treasury began to preserve the independent market data on which it relied to evaluate the market data submitted by the companies.
89 * The Office of the Special Master should develop more robust policies, procedures, or guidelines to help ensure that its pay determination process and its decisions are evenhanded. These measures will improve transparency and help the Office of the Special Master consistently apply the Interim Final Rule principles of "appropriate allocation," "performance-based compensation," and "comparable structures and payments."			X	Although Treasury created written policies and procedures in June 2013, OSM's policy only contains Treasury's rule and language from the statute, all of which was existing prior to OSM's creation. Therefore, OSM has not created its own formal policies. OSM's written procedures are merely a documentation of some of OSM's existing practices and guidelines, but not others as contained in the pay determination letters, and were not a new development of robust policies, procedures or guidelines. They do not establish meaningful criteria Treasury can follow for approving cash salaries exceeding \$500,000, pay exceeding market medians, pay raises, or the use of long-term restricted stock.
90 In order to allow for effective compliance and enforcement in HAMP Tier 2, Treasury should require that the borrower prove that the property has been rented and is occupied by a tenant at the time the borrower applies for a loan modification, as opposed to requiring only a certification that the borrower intends to rent the property. As part of the Request for Mortgage Assistance ("RMA") application for HAMP Tier 2, the borrower should provide the servicer with a signed lease and third-party verified evidence of occupancy in the form of documents showing that a renter lives at the property address, such as a utility bill, driver's license, or proof of renter's insurance. In the case of multiple unit properties under one mortgage Treasury should require that the borrower provide the servicer with evidence that at least one unit is occupied by a tenant as part of the RMA.			X	Treasury responded to this recommendation by requiring that borrowers certify that they intend to rent the property for at least five years and that they will make reasonable efforts to rent. This does not go far enough. Requiring only a self-certification, under penalty of perjury, without a strong compliance and enforcement regime to ensure that the intent is carried out and the property is actually rented, leaves the program vulnerable to risks that TARP funds will pay investors for modifications for mortgages on vacation homes that are not rented, and may delay, as opposed to prevent, foreclosures and increase HAMP redefault rates.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
91 To continue to allow for effective compliance and enforcement in HAMP Tier 2 after the trial modification has started, Treasury should require that, prior to conversion of a trial modification to a permanent modification, the borrower certify under penalty of perjury that none of the occupancy circumstances stated in the RMA have changed.			X	Treasury rejected this recommendation, stating that eligibility is not retested prior to conversion. This does not go far enough. Requiring only a self-certification, without a strong compliance and enforcement regime to ensure that the intent is carried out and the property is actually rented, leaves the program vulnerable to risks that TARP funds will pay investors for modifications for mortgages on vacation homes that are not rented, and may delay, as opposed to prevent, foreclosures and increase HAMP redefault rates.
92 To prevent a property that has received a HAMP Tier 2 modification from remaining vacant for an extended period of time after a lease expires or a tenant vacates, (a) Treasury should require that borrowers immediately notify their servicer if the property has remained vacant for more than three months. (b) Treasury should require servicers to provide monthly reports to Treasury of any properties that have remained vacant for more than three months. (c) Treasury should bar payment of TARP-funded incentives to any participant for a loan modification on a property that has been reported vacant for more than three months, until such time as the property has been re-occupied by a tenant and the borrower has provided third-party verification of occupancy.			X	Treasury told SIGTARP that implementing this recommendation would create significant additional procedures and documentation requirements. With no compliance regime to determine that a renter is in place, the program remains vulnerable to TARP funds being paid to modify mortgages that do not fit within the intended expansion of the program.
93 In order to protect against the possibility that the extension and expansion of HAMP will lead to an increase in mortgage modification fraud, (a) Treasury should require that servicers provide the SIGTARP/CFPB/Treasury Joint Task Force Consumer Fraud Alert to all HAMP-eligible borrowers as part of their monthly mortgage statement until the expiration of the application period for HAMP Tier 1 and 2. (b) Treasury should undertake a sustained public service campaign as soon as possible both to reach additional borrowers who could potentially be helped by HAMP Tier 2 and to arm the public with complete, accurate information about the program to avoid confusion and delay, and to prevent fraud and abuse.			X	Treasury has not implemented this recommendation. It is important that Treasury educate as many homeowners as possible with accurate information about HAMP in an effort to prevent mortgage modification fraud.
94 Given the expected increase in the volume of HAMP applications due to the implementation of HAMP Tier 2, Treasury should convene a summit of key stakeholders to discuss program implementation and servicer ramp-up and performance requirements so that the program roll-out is efficient and effective.			X	Treasury has not implemented this recommendation. Treasury has not held a summit of all key stakeholders to make the program rollout efficient and effective.
95 To ensure servicer compliance with HAMP Tier 2 guidelines and assess servicer performance, (a) Treasury should include additional criteria in its servicer compliance assessments that measure compliance with the program guidelines and requirements of HAMP Tier 2. (b) Treasury should develop and publish separate metrics related to HAMP Tier 2 in the compliance results and program results sections of the quarterly Making Home Affordable ("MHA") servicer assessments of the Top 10 MHA servicers.		X		Treasury assesses servicer compliance by reviewing samples of files of homeowner data in HAMP Tier 1 and Tier 2. Treasury, however, is not reporting Tier 2 information separately as SIGTARP recommended, making targeted insight into HAMP Tier 2 improvements difficult.
96 To allow for assessment of the progress and success of HAMP Tier 2, Treasury should set meaningful and measurable goals, including at a minimum the number of borrowers Treasury estimates will be helped by HAMP Tier 2. Treasury should unambiguously and prominently disclose its goals and report monthly on its progress in meeting these goals.			X	Treasury has rejected this recommendation. Treasury's refusal to provide meaningful and measurable goals leaves it vulnerable to accusations that it is trying to avoid accountability.
97 Treasury should set meaningful and measurable performance goals for the Hardest Hit Fund program including, at a minimum, the number of homeowners Treasury estimates will be helped by the program, and measure the program's progress against those goals.		X		In action memoranda sent to 5 state housing finance agencies in 2012 and one in 2015, Treasury appears to be saying it will hold states accountable to estimated numbers of homeowners to be helped. In an action memorandum sent to one other housing finance agency in 2015, Treasury strongly recommended immediate action to address uncorrected deficiencies in HHF performance, declining performance trends, and program oversight. Treasury should set other targeted goals.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
98 Treasury should instruct state housing finance agencies in the Hardest Hit Fund to set meaningful and measurable overarching and interim performance goals with appropriate metrics to measure progress for their individual state programs.		X		Treasury issued letters to six housing finance agencies (5 in 2012 and 1 in 2015) requiring those states to provide an action plan with measurable interim and overall goals, including benchmarks, to improve the level of homeowner assistance under the HHF program. Treasury should fully adopt SIGTARP's recommendation with the remaining 13 housing finance agencies in the HHF program. SIGTARP will continue to monitor implementation of this recommendation.
99 Treasury should set milestones at which the state housing finance agencies in the Hardest Hit Fund must review the progress of individual state programs and make program adjustments from this review.		X		Treasury issued letters to five housing finance agencies (4 in 2012 and 1 in 2015) requiring those states to provide an action plan with measurable interim and overall goals, after which Treasury said it would make program adjustments. There were some improvements in Florida in 2013. Treasury must have a sustained commitment to making program adjustments.
100 Treasury should publish on its website and in the Housing Scorecard on a quarterly basis the total number of homeowners assisted, funds drawn down by states, and dollars expended for assistance to homeowners, assistance committed to homeowners, and cash on hand, aggregated by all state Hardest Hit Fund programs.		X		Treasury has only partially implemented this recommendation. Treasury recently started publishing some aggregated data on its website. However, Treasury does not publish all of the data SIGTARP recommended nor does Treasury publish any data at all concerning the Hardest Hit Fund in the Housing Scorecard.
101 Treasury should develop an action plan for the Hardest Hit Fund that includes steps to increase the numbers of homeowners assisted and to gain industry support for Treasury-approved HHF programs. Treasury should set interim metrics for how many homeowners it intends to assist in a Treasury-defined time period in each particular program (such as principal reduction, second lien reduction, or reinstatement). If Treasury cannot achieve the desired level of homeowners assisted in any one program area in the defined time period, Treasury should put the funds to better use toward programs that are reaching homeowners.		X		Treasury has expanded the type of assistance offered, but shifted funding from HHF programs that helped homeowners directly to assistance for first time homebuyer downpayments and the demolition of vacant homes. Treasury issued letters to six housing finance agencies (5 in 2012 and 1 in 2015) requiring those states to provide an action plan with measurable interim and overall goals, including benchmarks, to improve the number of homeowners assisted under HHF. Treasury must do more to increase homeowner admission in HHF.
102 Treasury should stop allowing servicers to add a risk premium to Freddie Mac's discount rate in HAMP's net present value test.			X	Treasury has not implemented this recommendation. The addition of a risk premium reduces the number of otherwise qualified homeowners Treasury helps through HAMP. Treasury should implement this recommendation to increase assistance to struggling homeowners.
103 Treasury should ensure that servicers use accurate information when evaluating net present value test results for homeowners applying to HAMP and should ensure that servicers maintain documentation of all net present value test inputs. To the extent that a servicer does not follow Treasury's guidelines on input accuracy and documentation maintenance, Treasury should permanently withhold incentives from that servicer.			X	Treasury has not implemented this recommendation. Servicer errors using NPV inputs and the lack of properly maintained records on NPV inputs have diminished compliance and placed the protection of homeowner's rights to challenge servicer error at risk.
104 Treasury should require servicers to improve their communication with homeowners regarding denial of a HAMP modification so that homeowners can move forward with other foreclosure alternatives in a timely and fully informed manner. To the extent that a servicer does not follow Treasury's guidelines on these communications, Treasury should permanently withhold incentives from that servicer.	X			
105 Treasury should ensure that more detail is captured by the Making Home Affordable Compliance Committee meeting minutes regarding the substance of discussions related to compliance efforts on servicers in HAMP. Treasury should make sure that minutes clearly outline the specific problems encountered by servicers, remedial options discussed, and any requisite actions taken to remedy the situation.			X	Treasury has not implemented this recommendation. SIGTARP found a lack of detail in Treasury's meeting minutes and because Treasury failed to document its oversight, SIGTARP was unable to verify Treasury's role in the oversight of servicers or its compliance agent Freddie Mac.
106 In order to protect taxpayers who funded TARP against any future threat that might result from LIBOR manipulation, Treasury and the Federal Reserve should immediately change any ongoing TARP programs including, without limitation, PPIP and TALF, to cease reliance on LIBOR.			X	Neither Treasury nor the Federal Reserve has agreed to implement this recommendation despite Treasury telling SIGTARP that it "share[s] SIGTARP's concerns about the integrity" of LIBOR, and the Federal Reserve telling SIGTARP that it agreed that "recent information regarding the way the LIBOR has been calculated has created some uncertainty about the reliability of the rate."

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
107 In order to protect taxpayers who invested TARP funds into AIG to the fullest extent possible, Treasury and the Federal Reserve should recommend to the Financial Stability Oversight Council that AIG be designated as a systemically important financial institution so that it receives the strongest level of Federal regulation.	X			On July 8, 2013, the Financial Stability Oversight Council unanimously voted to designate AIG as systemically important.
108 In order to fulfill Treasury's responsibility to wind down its TARP Capital Purchase Program investments in a way that protects taxpayer interests, before allowing a TARP bank to purchase Treasury's TARP shares at a discount to the TARP investment (for example as the successful bidder at auction), Treasury should undertake an analysis, in consultation with Federal banking regulators, to determine that allowing the bank to redeem its TARP shares at a discount to the TARP investment outweighs the risk that the bank will not repay the full TARP investment. Treasury should document that analysis and consultation.			X	Treasury has not agreed to implement this important recommendation.
109 In order to fulfill Treasury's responsibility to wind down its TARP investments in a way that promotes financial stability and preserves the strength of our nation's community banks, Treasury should undertake an analysis in consultation with Federal banking regulators that ensures that it is exiting its Capital Purchase Program investments in a way that satisfies the goals of CPP, which are to promote financial stability, maintain confidence in the financial system and enable lending. This financial stability analysis of a bank's exit from TARP should determine at a minimum: (1) that the bank will remain healthy and viable in the event of an auction of Treasury's preferred shares; and (2) that the bank's exit from TARP does not have a negative impact on the banking industry at a community, state, regional, and national level. Treasury should document that analysis and consultation.			X	Treasury has not agreed to implement this important recommendation.
110 Treasury should better document its decision whether or not to auction its preferred shares in a TARP bank to adequately reflect the considerations made for each bank and detailed rationale.			X	Treasury has not agreed to implement this important recommendation, but is reviewing its practices in light of SIGTARP's recommendations. SIGTARP will monitor Treasury's efforts to implement this recommendation.
111* Each year, Treasury should reevaluate total compensation for those employees at TARP exceptional assistance companies remaining in the Top 25 from the prior year, including determining whether to reduce total compensation.			X	Treasury's new procedures state that OSM may reduce pay, however OSM did not address any guidelines or criteria that it would consider in doing so.
112* To ensure that Treasury effectively applies guidelines aimed at curbing excessive pay and reducing risk taking, Treasury should develop policies, procedures, and criteria for approving pay in excess of Treasury guidelines.			X	Treasury has not established clear policies, procedures, and criteria for approving pay in excess of Treasury's guidelines such as the 50th percentile, cash salaries greater than \$500,000, or use of long term restricted stock.
113* Treasury should independently analyze whether good cause exists to award a Top 25 employee a pay raise or a cash salary over \$500,000. To ensure that the Office of the Special Master has sufficient time to conduct this analysis, Treasury should allow OSM to work on setting Top 25 pay prior to OSM's receiving the company pay proposals, which starts the 60-day timeline.			X	Treasury has not established criteria for awarding an employee a pay raise or a cash salary exceeding \$500,000. Such criteria is important to independently analyzing the basis for awarding pay raises or cash salaries greater than \$500,000 and ensuring consistency in decision-making. Treasury's documentation of its justification does not evidence independent analysis, but instead sets forth the company's assertions and market data supplied by the company.
114* To be consistent with Treasury's Interim Final Rule that the portion of performance-based compensation compared to total compensation should be greater for positions that exercise higher levels of responsibility, Treasury should return to using long-term restricted stock for employees, particularly senior employees such as CEOs.			X	In 2013, Treasury allowed some GM employees not to have long-term restricted stock and effectively approved only 5% of all of Ally employees pay in long-term restricted stock and failed to consider positions and levels of authority on an individual basis, as called for by Treasury's rule. In 2014, Treasury eliminated long-term restricted stock for Ally employees.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status				Comments
	Full	Partial	In Process	None	
115 Treasury should conduct in-depth research and analysis to determine the causes of redefaults of HAMP permanent mortgage modifications and the characteristics of loans or the homeowner that may be more at risk for redefault. Treasury should require servicers to submit any additional information that Treasury needs to conduct this research and analysis. Treasury should make the results of this analysis public and issue findings based on this analysis, so that others can examine, build on, and learn from this research.		X			Treasury took the following action in response to SIGTARP's recommendation: First, Treasury doubled the amount of TARP funding for incentives to be paid to homeowners by adding a \$5,000 "Pay for Performance" homeowner incentive for those that remain in HAMP through the 6th anniversary of their trial modification. While Treasury still allows servicers to apply this to the principal balance of their mortgage, rather than pay it directly to homeowners, Treasury began requiring servicers to recast (re-amortization) of the loan to reduce the homeowners' monthly payment after applying TARP payments to the principal balance. Second, Treasury now requires mortgage servicers to consider homeowners that redefaulted in HAMP Tier 1 for HAMP Tier 2 before any other loss mitigation action. Third, Treasury allows servicers to modify loans at risk of redefault under HAMP Tier 1 with HAMP Tier 2. Recently, Treasury created Streamline HAMP, which can be used to modify HAMP Tier 1 or HAMP Tier 2 modifications that redefaulted or are at risk of redefault.
116 As a result of the findings of Treasury's research and analysis into the causes of HAMP redefaults, and characteristics of redefaults, Treasury should modify aspects of HAMP and the other TARP housing programs in ways to reduce the number of redefaults.		X			Treasury took the following action in response to SIGTARP's recommendation: First, Treasury doubled the amount of TARP funding for incentives to be paid to homeowners by adding a \$5,000 "Pay for Performance" homeowner incentive for those that remain in HAMP through the 6th anniversary of their trial modification. While Treasury still allows servicers to apply this to the principal balance of their mortgage, rather than pay it directly to homeowners, Treasury began requiring servicers to recast (re-amortization) of the loan to reduce the homeowners' monthly payment after applying TARP payments to the principal balance. Second, Treasury now requires mortgage servicers to consider homeowners that redefaulted in HAMP Tier 1 for HAMP Tier 2 before any other loss mitigation action. Third, Treasury allows servicers to modify loans at risk of redefault under HAMP Tier 1 with HAMP Tier 2. Recently, Treasury created Streamline HAMP, which can be used to modify HAMP Tier 1 or HAMP Tier 2 modifications that redefaulted or are at risk of redefault.
117 Treasury should require servicers to develop and use an "early warning system" to identify and reach out to homeowners that may be at risk of redefaulting on a HAMP mortgage modification, including providing or recommending counseling and other assistance and directing them to other TARP housing programs.			X		Although SIGTARP issued this recommendation on April 1, 2013, which would require servicers to contact homeowners who missed payments, Treasury has not required servicers to reach out to past due homeowners. Treasury refuses to make this part of HAMP rules, even though, after SIGTARP raised this concern, CFPB implemented two "early intervention" delinquency notice requirements at 36 and 45 days. Treasury should make this same rule in HAMP so that it can assess compliance and take action for non-compliance, such as withholding or clawing back HAMP incentives payments.
118 In the letter Treasury already requires servicers to send to homeowners who have redefaulted on a HAMP modification about possible options to foreclosure, Treasury should require the servicers to include other available alternative assistance options under TARP such as the Hardest Hit Fund and HAMP Tier 2, so that homeowners can move forward with other alternatives, if appropriate, in a timely and fully informed manner. To the extent that a servicer does not follow Treasury's rules in this area, Treasury should permanently withhold incentives from that servicer.		X			Treasury now requires servicers to consider homeowners that redefaulted in HAMP Tier 1 for HAMP Tier 2 before any other loss mitigation action. Recently, Treasury created Streamline HAMP, which can be used to modify HAMP Tier 1 or HAMP Tier 2 modifications that redefaulted or are at risk of redefault. Treasury does not, however, have a mechanism to require servicers to offer HHF assistance to homeowners that redefault in HAMP. Treasury should require servicers to include other available alternative assistance options under TARP such as the Hardest Hit Fund, as SIGTARP recommended.
119 Treasury and the Federal banking regulators should improve coordination when collaborating on current and future initiatives by (1) defining the roles of all participants at the outset of collaborative efforts by creating precise and directed governing documents (i.e., charters) that clearly address the responsibilities of each entity; and (2) jointly documenting processes and procedures, including flowcharts, risk management tools, and reporting systems to ensure that objectives are met. Each participant should sign off to demonstrate their understanding of, and agreement with, these procedures.				X	Treasury has not agreed to implement this important recommendation.
120 To increase small-business lending by former TARP banks participating in SBLF, Treasury should work with the banks to establish new, achievable plans to increase lending going forward.				X	Treasury has not agreed to implement this important recommendation.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
121 To preserve the amount of capital former TARP banks participating in SBLF have to lend, the primary Federal banking regulators (the Federal Reserve, FDIC, or OCC) should not approve dividend distributions to common shareholders of former TARP banks that have not effectively increased small-business lending while in SBLF.			X	Treasury has not agreed to implement this important recommendation.
122 In order to prevent confusion, promote transparency, and present taxpayers who funded TARP with clear and accurate reporting, when Treasury discusses the amount of TARP funds (or CPP funds) recovered or repaid, Treasury should not count the \$2.1 billion in TARP investments that Treasury refinanced into the Small Business Lending Fund, which is outside of TARP.			X	Treasury has not agreed to implement this important recommendation.
123 To ensure that homeowners in HAMP get sustainable relief from foreclosure, Treasury should research and analyze whether and to what extent the conduct of HAMP mortgage servicers may contribute to homeowners defaulting on HAMP permanent mortgage modifications. To provide transparency and accountability, Treasury should publish its conclusions and determinations.	X			Although Treasury has begun to research whether HAMP mortgage servicers contribute to HAMP defaults by analyzing samples in its onsite compliance visits and by reviewing homeowner files, Treasury should do more to implement SIGTARP's important recommendation.
124 Treasury should establish an achievable benchmark for a redefault rate on HAMP permanent mortgage modifications that represents acceptable program performance and publicly report against that benchmark.		X		Treasury has made progress toward implementing this recommendation. In Treasury's quarterly "MHA Servicer Assessment," published in its October 2013 "Making Home Affordable Performance Report," Treasury included a new servicer performance metric, assessing whether seven HAMP servicers complied with Treasury's guidelines concerning homeowners' HAMP modifications that servicers disqualified. SIGTARP looks forward to working with Treasury to fully implement this recommendation.
125 Treasury should publicly assess and report quarterly on the status of the ten largest HAMP servicers in meeting Treasury's benchmark for an acceptable homeowner redefault rate on HAMP permanent mortgage modifications, indicate why any servicer fell short of the benchmark, require the servicer to make changes to reduce the number of homeowners who redefault in HAMP, and use enforcement remedies including withholding, permanently reducing, or clawing back incentive payments for any servicer that fails to comply in a timely manner.			X	Treasury has not agreed to implement this important recommendation.
126 To protect the investment taxpayers made through TARP in community banks and to ensure that these banks continue to lend in their communities which is a goal of TARP's Capital Purchase Program, Treasury should enforce its right to appoint directors for CPP institutions that have failed to pay six or more quarterly TARP dividend or interest payments.		X		Treasury has made some progress implementing this important recommendation.
127 In enforcing its right to appoint directors to the board of CPP institutions that have failed to pay six or more quarterly dividend or interest payments, Treasury should prioritize appointing directors to the board of those CPP institutions that meet one or more of the following criteria: (1) rejected Treasury's request to send officials to observe board meetings; (2) have failed to pay a large number of TARP dividend payments or that owe the largest amount of delinquent TARP dividends; or (3) is currently subject to an order from their Federal banking regulator, particularly orders related to the health or condition of the bank or its board of directors. In addition, Treasury should use information learned from Treasury officials that have observed the bank's board meetings to assist in prioritizing its determination of banks to which Treasury should appoint directors.			X	Treasury has not agreed to implement this important recommendation.
128 To protect the investment taxpayers made in TARP and to ensure that institutions continue to lend in low and moderate income communities which is the goal of TARP's Community Development Capital Initiative, Treasury should enforce its right to appoint directors to CDCI institutions that have failed to pay eight or more TARP quarterly dividend (or interest) payments.			X	Treasury has not agreed to implement this important recommendation.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status				Comments
	Full	Partial	In Process	None TBD/NA	
129 Treasury should increase the amount of the annual incentive payment paid to each homeowner who remains in HAMP. Treasury should require the mortgage servicer to apply the annual incentive payment earned by the homeowner to reduce the amount of money that the homeowner must pay to the servicer for the next month's mortgage payment (or monthly payments if the incentive exceeds the monthly mortgage payment), rather than to reduce the outstanding principal balance of the mortgage.	X				
130 To educate homeowners and help them avoid becoming victims to mortgage modification fraud, Treasury should prominently display all of the information containing in the Consumer Fraud Alert: "Tips For Avoiding Mortgage Modification Scams" created jointly by SIGTARP, Treasury, and the Consumer Financial Protection Bureau on the home page of websites related to HAMP, including Treasury's TARP website and the "Making Home Affordable" website along with simple and direct information on SIGTARP's mission and how to contact SIGTARP's hotline if they suspect mortgage modification fraud.	X				Treasury has agreed to implement this important recommendation.
131 Treasury should determine how many homeowners who completed a HAMP application for which Treasury paid NeighborWorks under the MHA Outreach and Borrower Intake Project are accepted into a HAMP trial modification and whether that homeowner is granted a permanent HAMP modification. Treasury should continue to monitor these results on a monthly basis. Treasury should publicly report all of these results on a quarterly basis.				X	Treasury has not agreed to implement this important recommendation.
132 Treasury should publicly report for each of the top 10 servicers how many homeowners who completed a HAMP application for which Treasury paid NeighborWorks were denied by the servicer for a HAMP trial modification.				X	Treasury has not agreed to implement this important recommendation.
133 Treasury should use the results of SIGTARP-recommended monitoring and reporting on the MHA Outreach and Borrower Intake Project to determine whether there are areas of improvement.				X	Treasury has not agreed to implement this important recommendation.
134 Treasury should post the original surveys received from CPP and CDCI institutions on how they used TARP funds for each year to the Treasury website. The original surveys and responses should not be subjected to any manipulations or changes to calculate survey results.				X	Treasury has not agreed to implement this important recommendation.
135 Treasury should develop written repeatable operating procedures for submitting and receiving survey responses from CPP and CDCI recipients on how they used TARP funds. The procedures should include the functional roles and responsibilities and automated and manual process steps involved, such as documenting and determining the survey population, compiling and analyzing the responses, verifying and validating the data, resolving discrepancies, and posting the responses on the Treasury website.				X	Treasury has not agreed to implement this important recommendation.
136 Treasury should take aggressive action to enforce its requests that all CPP institutions report annually on their use of TARP funds, and its requirement that all CDCI institutions report annually on their use of TARP funds. At a minimum, Treasury should draft a letter to each CPP and CDCI institution that fails to report each year, and follow up on that letter with the institution. Treasury should exercise its rights to compel reporting on use of TARP funds by CDCI institutions.				X	Treasury has not agreed to implement this important recommendation.
137 Concerning the survey responses posted on Treasury's website submitted by TARP recipients indicating how they used CPP or CDCI funds, Treasury should fix all errors and/or deficiencies, which SIGTARP previously provided to Treasury, and submit documentation to SIGTARP confirming the correction/elimination of these errors.				X	Treasury has not agreed to implement this important recommendation.
138 Treasury should perform a thorough review of any and all submissions by TARP recipients on their use of TARP funds prior to posting the surveys on the Treasury website, and follow up with the institution for any missing information or information that is inconsistent or has an obvious error.				X	Treasury has not agreed to implement this important recommendation.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
139 Treasury should publicly report on all CPP and CDCI institutions that have not submitted a survey response on their use of TARP funds for prior years and continue that reporting in future years.			X	Treasury has not agreed to implement this important recommendation.
140 Treasury should ensure that mortgage servicers who contract with Treasury have sufficient staffing and other resources to review the number of homeowner HAMP applications submitted each month, plus additional applications to decrease any backlog of homeowners who applied in prior months without a decision.		X		This past quarter, Treasury began including in their assessment of the top 7 HAMP servicers, a metric for the percentage of completed HAMP applications not processed within 30 days of receipt, establishing a benchmark of 98% compliance. The 7 mortgage servicers included in Treasury's reporting accounted for approximately 87% of active TARP-funded HAMP modifications as of June 30, 2015. If Treasury finds that servicers are not timely reviewing homeowners HAMP applications, Treasury should take action to hold these servicers accountable, by ensuring that mortgage servicers who contract with Treasury have sufficient staffing and other resources to review the number of homeowner HAMP applications submitted, as SIGTARP recommended, and taking other enforcement action.
141 The Secretary of the Treasury should require OSM to maintain documentation of the substance of all OSM communications with TARP companies.			X	Treasury has not agreed to implement this important recommendation.
142 The Secretary of the Treasury should require all Treasury employees to maintain documentation of all communications with TARP companies regarding compensation.			X	Treasury has not agreed to implement this important recommendation.
143 The Secretary of the Treasury should require OSM to maintain documentation of OSM's communications with Treasury officials regarding compensation at TARP companies.			X	Treasury has not agreed to implement this important recommendation.
144 The Secretary of the Treasury should require OSM to use long-term restricted stock as part of each TARP company's employee's compensation package to ensure compensation is tied to both the employee's and the company's performance, and the full repayment of TARP funds.			X	Treasury has not agreed to implement this important recommendation.
145 The Secretary of the Treasury should direct OSM to conduct an analysis, independent of company proposals and assertions, for an employee of a TARP exceptional assistance company to be paid a cash salary exceeding \$500,000.			X	Treasury has not agreed to implement this important recommendation.
146 The Secretary of the Treasury should direct OSM to document its independent analyses regarding the decision that a TARP exceptional assistance company employee be paid a cash salary exceeding \$500,000.			X	Treasury has not agreed to implement this important recommendation.
147 The Secretary of the Treasury should direct OSM to conduct an analysis, independent of company proposals and assertions, for an employee of a TARP exceptional assistance company to receive an increase in annual compensation.			X	Treasury has not agreed to implement this important recommendation.
148 The Secretary of the Treasury should direct OSM to document its independent analyses regarding the decision that a TARP exceptional assistance company employee will receive an increase in annual compensation.			X	Treasury has not agreed to implement this important recommendation.
149 The Secretary of the Treasury should direct OSM to conduct an analysis, independent of company proposals and assertions, for an employee of a TARP exceptional assistance company to be paid a cash salary that exceeds the market median cash salary for similar positions in similar companies.			X	Treasury has not agreed to implement this important recommendation.
150 The Secretary of the Treasury should direct OSM to document its independent analyses regarding the decision that a TARP exceptional assistance company employee be paid a cash salary exceeding market medians.			X	Treasury has not agreed to implement this important recommendation.
151 The Secretary of the Treasury should direct OSM to include in its written procedures whether it will target, for each Top 25 employee of a TARP exceptional assistance company, median total compensation for similar positions in similar companies.			X	Treasury has not agreed to implement this important recommendation.
152 Treasury require mortgage servicers administering HAMP to designate a single point of responsibility at the transferring servicer and the new receiving servicer to ensure that submitted HAMP applications (whether complete or not), HAMP trial modifications, and HAMP permanent modifications transfer to the new mortgage servicer at the time the mortgage servicing is transferred.			X	Treasury has not agreed to implement this important recommendation.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
153 Treasury should require that a transferring servicer's single point of responsibility employee be responsible for: (1) transferring all information and documents related to the homeowner and HAMP to the new servicer at the time of service transfer; (2) confirming receipt in writing of the HAMP information and documents from the new servicer; (3) ensuring that the transferring servicer retains all documents and information provided to the new servicer related to HAMP; (4) ensuring that the transferring servicer fully complies with all HAMP rules and Treasury reporting requirements related to mortgage servicing transfers; and (5) promptly informing homeowners in writing that their HAMP information and documents were transferred to the new servicer, the date of the transfer of HAMP information and documents, and the name and contact information of the original transferring servicer's single point of responsibility.		X		Treasury has not agreed to implement this important recommendation.
154 Treasury should require that a new receiving servicer's single point of responsibility employee be responsible for: (1) confirming receipt in writing of the HAMP information and documents from the transferring servicer at the time of transfer; (2) ensuring that the receiving servicer fully complies with all HAMP rules and Treasury reporting requirements related to mortgage servicing transfers; and (3) promptly informing homeowners that their HAMP information and documentation has been received, confirming their status in HAMP, and providing the name and contact information of the receiving servicer's single point of responsibility.			X	Treasury has not agreed to implement this important recommendation.
155 Treasury should increase its oversight of mortgage servicers to ensure that they are following all HAMP rules and Treasury reporting requirements related to mortgage servicing transfers on a timely basis, that they have designated a single point of responsibility for transfers, and that single point of responsibility is effectively fulfilling its responsibilities. Treasury should publicly report the results of its oversight in this area in its quarterly servicer assessment, and should assess fines and permanently withhold financial incentives for servicers not in compliance.	X			Treasury has said it is implementing this important recommendation. SIGTARP will monitor Treasury's efforts to implement this recommendation.
156 Treasury should ensure that state housing finance agencies and all of their city or county/land bank/non-profit/for-profit partners have the resources, staffing, training, and knowledge, and are ready for, and can effectively handle the increase in contracting, demolition, and other blight elimination activities contemplated under HHF.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
157 Treasury should keep itself informed and gain insight of critical activities taking place under HHF blight elimination by knowing the identities of all who will participate in blight elimination activity under HHF or receive TARP funds including city or county/land bank/non-profit/for profit partners and their subcontractors through required reporting by state HFAs to Treasury on an ongoing basis.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. However, SIGTARP has begun providing transparency by identifying the partners. See further discussion in Section 2.
158 Treasury should keep itself informed and gain insight of critical activities taking place under HHF blight elimination by requiring reporting by state HFAs on: (1) the neighborhoods selected for HHF blight elimination and the strategy for choosing that neighborhood; and (2) property address including zip codes for any property demolished or removed under HHF.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
159 Treasury should increase transparency by publicizing on its website: (1) a list of all city or county/land bank/non-profit/for-profit partners that will participate in blight elimination activity under HHF on a state by state basis; (2) a list of addresses including zip code where a property has been demolished or removed under HHF on a city and state basis; (3) Treasury's expected target outcomes by city and state; and (4) performance indicators to measure progress by city and state.			X	Although Treasury is not requiring the state housing finance agencies to develop performance indicators, Michigan's state housing finance agency created performance indicators and other state agencies have told SIGTARP that they are in the process of creating (or contracting for the creation of) performance indicators. Even though Treasury does not publish the information SIGTARP recommended, SIGTARP reports quarterly the list of partners who have entered into agreements with the cities/counties that are the applicant/recipients of the blight funds. Several partners publish lists of properties on their own websites as well. Treasury should implement SIGTARP's important recommendation with a sense of urgency. See further discussion in Section 2.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
160 Treasury should engage in comprehensive planning to ensure that blight elimination under HHF progresses in the most effective way by, within 60 days, setting target outcomes for HHF blight elimination of how much Treasury expects blight elimination under TARP to increase home values and decrease foreclosures by city and state. Treasury can consult with the state HFAs as to set realistic target outcomes, but should not defer to state HFAs to define success. Treasury should share its target outcome with each state HFA.		X		SIGTARP raised this important issue for the first time in an April 2012 report on factors implementing implementation of HHF. Although Treasury is not requiring the state housing finance agencies to develop performance indicators, Ohio's, Illinois's, and Michigan's state housing finance agencies created performance indicators and other state agencies have told SIGTARP that they are in the process of creating (or contracting for the creation of) performance indicators. Still, Treasury should implement SIGTARP's important recommendation with a sense of urgency. See further discussion in Section 2.
161 Treasury should engage in comprehensive planning to ensure that blight elimination under HHF progresses in the most effective way by, within 60 days, requiring state HFAs participating in blight elimination activities under TARP to develop performance indicators such as decreases in default rates or foreclosure filings, or increases in home values through home sales and annual tax assessments to measure progress towards Treasury's target reduction in foreclosures and target increase in home values. Treasury should use its expertise and resources to help the state HFAs develop performance indicators. Treasury should require reporting by state HFAs on a periodic basis no less than bi-annually on chosen performance indicators and use that reporting to monitor which cities and states are on track to achieve successfully Treasury's goal and to identify improvements to increase effectiveness.		X		SIGTARP raised this important issue for the first time in an April 2012 report on factors implementing implementation of HHF. Several state housing finance agencies are in the process of creating (or contracting for the creation of) performance indicators. Treasury said it has implemented this recommendation or is in the process of doing so. Treasury should implement SIGTARP's important recommendation with a sense of urgency. See further discussion in Section 2.
162 Treasury should require quarterly detailed accounting by state HFAs of how TARP funds are spent reimbursing local partners for blight elimination activities under HHF that lists actual TARP reimbursed expenditures for each local partner by each category of blight elimination activity, including demolition, acquisition, greening, maintenance, asbestos removal, engineering studies, environmental studies, or any other category of expenditures.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
163 Treasury should require state HFAs to develop a system of internal controls targeted specifically at blight elimination.		X		Treasury said it has implemented this recommendation or is in the process of doing so. In response to SIGTARP's request, six states (Michigan, Ohio, Indiana, Alabama, South Carolina, and Illinois) provided to SIGTARP internal control documentation relating to HHF blight elimination. While this demonstrates a positive step, SIGTARP continues to evaluate the scope and effectiveness of the states' internal controls. Treasury should implement SIGTARP's important recommendation with a sense of urgency. See further discussion in Section 2.
164 Treasury should increase the effectiveness of oversight at both the Treasury and state HFA levels by (1) collecting all contracts and subcontracts for HHF blight elimination activities; and (2) requiring the state HFAs to collect all contracts and subcontracts for HHF blight elimination activities.		X		While Treasury does not collect full contracts and subcontracts, SIGTARP has asked each state HFA to produce them directly to SIGTARP. Doing so leads to the state HFAs collecting this information, where they had not done so previously. Treasury said it has implemented this recommendation or is in the process of doing so. Treasury should implement SIGTARP's important recommendation with a sense of urgency. See further discussion in Section 2.
165 In order to increase HAMP's effectiveness at reaching all HAMP-eligible homeowners, Treasury should hold in-person homeowner outreach events in all major cities and high foreclosure cities within the 10 HAMP-underserved states of Alaska, Arkansas, Indiana, Iowa, Kansas, Michigan, North Dakota, Oklahoma, Tennessee, and Texas. Treasury should ensure that there are sufficient HUD-approved counselors who can help the number of homeowners who attend these events with HAMP applications.			X	Treasury has held no in person outreach events since SIGTARP raised this concern.
166 Treasury should hold additional and sustained public service campaign, and TARP-paid television and radio advertisements in all major cities and high foreclosure cities within the 10 HAMP-underserved states of Alaska, Arkansas, Indiana, Iowa, Kansas, Michigan, North Dakota, Oklahoma, Tennessee, and Texas, as soon as possible to ensure that homeowners have accurate and complete information about the program and to prevent homeowners from becoming victims of fraud schemes.			X	Treasury has held no in person outreach events since SIGTARP raised this concern.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
167 Treasury should identify improper payment risks, and fraud, waste, and abuse risks, related to Hardest Hit Fund down payment assistance and should design an effective Treasury oversight plan with program requirements and guidelines, in addition to compliance efforts to mitigate those risks. In addition to the potential benefits of these programs that Treasury already analyzed, Treasury should analyze the risks associated with down payment assistance programs.			X	Treasury has not agreed to implement this important recommendation.
168 To reduce the likelihood of improper payments to ineligible homeowners and to deter fraud, waste, and abuse in TARP, Treasury should require that state housing finance agencies include in any homebuyer application for any Hardest Hit Fund down payment assistance program a certification to be signed by the homebuyer relating to income, first-time homebuyer status, primary residence status, and any other material requirements for program participation. The certification should specify that any false or fictitious statements concerning such requirements would be the basis for civil penalties and assessments under the False Claims Act, 31 U.S.C. §§ 3729-3733, the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801-3812, and/or criminal penalties under 18 U.S.C. § 1001 or other Federal law. SIGTARP recommends the following certification be included in the application form: I acknowledge that knowingly failing to disclose material information to the name of state housing finance agency, or making or causing to be made a false, fictitious, or fraudulent statement or representation of material fact in an application for use in determining eligibility for a payment under the U.S. Department of Treasury's Hardest Hit Fund's (name of down payment assistance program), constitutes a crime punishable under Federal law. I, therefore, certify, under penalty of perjury that all the information I have given on this form, and in any accompanying statements, is complete, true, and correct and I acknowledge that any material omission or false, fictitious, or fraudulent statement or representation or entry could be the basis for civil penalties and assessments under the False Claims Act, 31 U.S.C. §§ 3729-3733, the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801-3812, and/or criminal penalties under 18 U.S.C. § 1001 or other Federal law.	X		Treasury told SIGTARP it notified the states approved to provide HHF down payment assistance to homebuyers to include standard anti-fraud text in the Dodd-Frank certifications signed by homebuyers. Some states have included the language SIGTARP recommended, with some modifications that still meet SIGTARP's intent. Treasury should ensure SIGTARP's recommendation is implemented in full.	
169 To reduce the risk of fraud, waste and abuse, and to facilitate effective oversight, Treasury should require state housing finance agencies to report quarterly to Treasury the names and addresses of all homebuyers participating in any Hardest Hit Fund funded down payment assistance program.			X	Treasury has not agreed to implement this important recommendation.
170 To reduce the risk of waste and abuse, to facilitate effective oversight, and to protect Treasury's right to the return of TARP funds where a homebuyer participating in any Hardest Hit Fund funded down payment assistance program sells the home prior to the expiration of the lien, Treasury should require that state housing finance agencies develop an effective process to check a homebuyer's continued primary residency in the home prior to releasing the lien. Treasury should conduct effective oversight of that process including providing guidelines for that process in addition to conducting oversight through compliance.			X	Treasury has not agreed to implement this important recommendation.
171 To prevent fraud, waste and abuse particularly through commingling and improper reporting, Treasury should require the participating state housing finance agencies to maintain down payment assistance funds and reporting under Hardest Hit Fund separate from other state down payment assistance programs, both at the state level and at the local city or county level.			X	Treasury has not agreed to implement this important recommendation.
172 To prevent homeowners and homebuyers from becoming victims of fraud, and to arm the public with complete and accurate information, Treasury should sponsor outreach events in each county participating in the Hardest Hit Fund down payment assistance and conduct a media outreach campaign, consisting of, among other things, television, out-of-home (such as billboards and bus and shuttle stop advertisements), radio, and print.			X	Treasury has not agreed to implement this important recommendation.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status				Comments
	Full	Partial	In Process	None	
173 To ensure that any TARP Hardest Hit Fund down payment assistance successfully prevents foreclosures as required by EESA, at the start of the program, Treasury should set target outcomes quantifying expected results from this use of these TARP funds. Treasury can consult with each participating state housing finance agency to set realistic target outcomes, but should not defer to state housing finance agencies to define success. Treasury should share its target outcome with each participating state housing finance agencies.			X		Treasury has not agreed to implement this important recommendation.
174 To ensure that any TARP Hardest Hit Fund down payment assistance successfully prevents foreclosures as required by EESA, at the start of the program, Treasury should require participating state housing finance agencies to develop performance indicators that measure progress towards Treasury's quantified target outcomes. Treasury should use its expertise and resources to help the state housing finance agencies develop performance indicators.			X		Treasury has not agreed to implement this important recommendation.
175 Treasury should require that state housing finance agencies participating in Hardest Hit Fund down payment assistance report, on a periodic basis no less than every six months, on performance indicators. Treasury should use that reporting to monitor which cities/counties and states are on track to achieve Treasury's target outcomes. Treasury should monitor this information and use it to determine whether to continue the TARP assistance past the pilot stage, whether to expand the assistance to other cities/counties or states, and to identify ways to improve the effectiveness of HHF down payment assistance.			X		Treasury has not agreed to implement this important recommendation.
176 Treasury should ensure that state housing finance agencies participating in the Hardest Hit Fund down payment assistance have the resources, staffing, training, and knowledge, and that they are ready for and can effectively handle the expected number of homebuyer applications and other required work.			X		Treasury has not agreed to implement this important recommendation.
177 To improve the effectiveness of the Hardest Hit Fund Florida on an urgent basis, and to ensure that Florida homeowners have the same chance of Hardest Hit Fund assistance as homeowners in other HHF states, Treasury should improve the homeowner admission rate in HHF Florida to a targeted level that would bring it closer to the average homeowner admission rate of the other HHF states. Treasury should set numeric targets that HHF Florida must meet each quarter to reach the targeted homeowner admission rate and include those targets in an action memorandum to Florida's housing finance agency.			X		Treasury has not agreed to – but should – implement this important recommendation with a sense of urgency. See further discussion in Section 2.
178 To improve the effectiveness of the Hardest Hit Fund in all states on an urgent basis, Treasury should form a HHF performance committee to meet each quarter to assess performance by each state housing finance agency in comparison to other state HHF programs, identify obstacles and risks, and develop strategies to mitigate those obstacles and risks. Treasury should memorialize the work of that committee through meeting minutes, and report on those obstacles and risks, as well as mitigation strategies to the Treasury Deputy Secretary twice a year.			X		Treasury provided information indicating that Michigan developed performance indicators and that Ohio, Indiana, and Illinois are starting to assess and analyze the impact of HHF blight elimination activities on reducing and preventing foreclosures. Treasury said it has implemented this recommendation or is in the process of doing so. Treasury should implement SIGTARP's important recommendation with a sense of urgency. See further discussion in Section 2.
179 To improve the effectiveness of the Hardest Hit Fund Florida in reaching homeowners in Florida on an urgent basis, Treasury should, within 60 days, reassess eligibility requirements of each HHF Florida program to ensure that programs target the typical Florida homeowner, keep only those requirements that are absolutely necessary, and eliminate those that are not. Treasury should memorialize the findings of this reassessment.			X		Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None	
180 To give Treasury insight into areas to improve the effectiveness of the Hardest Hit Fund on an urgent basis, Treasury should require all participating state housing finance agencies to report on an overall state HHF level as well as individual HHF program level: the reasons why homeowners were denied assistance along with the corresponding number of homeowners denied for that reason. Treasury should require this reporting on a quarterly and cumulative basis and post that information on its website for transparency and accountability.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
181 To give Treasury insight into areas to improve the effectiveness of the Hardest Hit Fund on an urgent basis, Treasury should require each state housing finance agency to report county-level data for all HHF programs and individual state HHF program on: the number of homeowners who have applied for HHF, the number of homeowners denied, the number of homeowners who withdrew their application after being approved for assistance, the number of homeowners who the state housing finance agency withdrew their application, the number of homeowners whose applications are in process, and the median number of days to process homeowner applications. Treasury should require this reporting on a quarterly and cumulative basis and post this information on its website for transparency and accountability.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
182 To improve the effectiveness of the Hardest Hit Fund Florida on an urgent basis, and ensure that homeowners throughout Florida have the same chance of HHF assistance as homeowners in other counties within the state, Treasury should assess whether HHF Florida is operating in the most effective manner in each county. This should include, at a minimum, Treasury analyzing, within 60 days, which Florida counties have the lowest homeowner admission rates, the highest homeowner denial rates, the highest rate of homeowner applications withdrawn by an advisor agent for Florida's housing finance agency, and the longest application processing times. Treasury setting targets and milestones for improvement in an action memorandum to Florida's housing finance agency. Treasury program staff should, within six months, visit with advisor agents of Florida's housing finance agency in counties hit the hardest but where HHF Florida is least effective, not for a compliance review, but to get an understanding of eligibility requirements that may be too strict to target the typical Florida homeowner seeking HHF assistance, and the challenges and obstacles the advisor agents face in making a decision to deny or withdraw a homeowner.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
183 To give Treasury insight into areas to improve the effectiveness of the Hardest Hit Fund on an urgent basis, Treasury should require that state housing finance agencies report separately the number of homeowners who withdrew their HHF application from the number of homeowners whose HHF application was withdrawn by the state housing finance agency. Treasury should require that reporting on a quarterly and cumulative basis and post that reporting on its website for transparency and accountability.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
184 To improve the effectiveness of the Hardest Hit Fund on an urgent basis, Treasury should reduce to a targeted level the length of time to process a senior citizen's application and give assistance in the Hardest Hit Fund Florida's senior citizen program known as ELMORE. Florida's housing finance agency should view a targeted length of time to process an application under ELMORE not as an excuse to deny a homeowner, but instead as a target for their own improvement in helping homeowners make it through the approval process. Treasury should set numeric targets that HHF Florida must meet each quarter to reach the targeted processing time, and include those targets in an action memorandum to Florida's housing finance agency, and measure progress quarterly.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
185 To improve the effectiveness of the Hardest Hit Fund Florida on an urgent basis, including the median 280 days to process a homeowner's application and the fact that 46% of applications have been withdrawn, Treasury should identify with more detail the obstacle to senior citizens getting assistance from the Hardest Hit Fund Florida's program known as ELMORE by determining which documents senior citizens are having trouble providing. To assist in identifying these documents, Treasury should, within 60 days, separately meet with Florida's Department of Elderly Affairs, and advisor agencies for Florida's housing finance agency in targeted counties with low ELMORE participation in comparison to the number of senior citizens in those counties with reverse mortgages. After identifying the documents that are causing obstacles to homeowner participation, Treasury should determine whether those documents are essential for HHF Florida to provide assistance, and mitigate that obstacle by further reducing required documents (beyond what Treasury and Florida's housing finance agency have already reduced) to only those documents that are essential.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
186 To improve the effectiveness of the Hardest Hit Fund Florida on an urgent basis, Treasury should preclude Florida's housing finance agency from withdrawing a senior citizen's application to the HHF program known as ELMORE based on homeowner non-responsiveness unless Florida's Department of Elderly Affairs has stated in writing that it has done all it can to help the homeowner complete the application and find the required documents.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
187 To identify obstacles to the effectiveness of the Hardest Hit Fund Florida on an urgent basis, Treasury should increase its contact and communication with Florida homeowners, particularly those who have gone through HHF Florida's application process by: (1) within 90 days, Treasury begin communications with Florida homeowners who withdrew their application or had their application withdrawn to understand the reasons why; (2) inviting homeowner advocacy groups representing homeowners who have applied for HHF to an annual summit with Treasury officials similar to Treasury's servicer summit; (3) holding targeted Treasury-sponsored outreach events, for example, at Florida senior citizen centers, and in areas of high underwater Florida homeowners with limited participation in the principal reduction program; and (4) having the new HHF performance committee review and discuss homeowner complaints about HHF Florida at each meeting.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
188 To ensure that HHF Florida is effective and ensure that homeowners throughout Florida have the same chance of HHF assistance as homeowners in other counties within the state, Treasury should hold HHF Florida accountable to maintaining its improvement in homeowner denial rates, by setting a targeted homeowner denial rate that keeps HHF Florida in line with the national average for HHF. Treasury should provide that targeted rate in an action memorandum to Florida's housing finance agency and each quarter ensure that it meets that target.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
189 To improve the efficiency of the Hardest Hit Fund Florida on an urgent basis, Treasury should reduce the length of time HHF Florida takes to process an application from the median of 167 days to a targeted length of time. Treasury should provide that target in an action memorandum to Florida's housing finance agency and each quarter measure progress against that target.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
190 To improve the effectiveness of the Hardest Hit Fund Florida on an urgent basis, Treasury should reduce the rate of homeowner applications withdrawn by the state housing finance agency to a targeted level. Treasury should provide that target in an action memorandum to Florida's housing finance agency and each quarter measure progress against that target.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
191 To improve the effectiveness and efficiency of the Hardest Hit Fund Florida on an urgent basis, Treasury should, within 90 days, determine to either convert the Hardest Hit Fund Pilot Program known as the Modification Enabling Project to a full program or close it and put the funds to better use in existing HHF Florida programs.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

Continued on next page

SIGTARP RECOMMENDATIONS TABLE (CONTINUED)

Recommendation	Implementation Status			Comments
	Full	Partial	In Process None TBD/NA	
192 To prevent fraud, waste, and abuse in the Hardest Hit Fund and non-compliance with the Dodd-Frank Act, Treasury should ensure HHF funds do not go to felons convicted of mortgage-related crimes by searching or requiring state housing finance agencies to search federal, state, and county databases for an applicant homeowner's criminal history, prior to the release of any funds to the applicant, given the fact that convictions are public records. Treasury should make efforts to gain access to other criminal databases.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
193 To prevent fraud, waste, and abuse in the Hardest Hit Fund and non-compliance with the Dodd-Frank Act, Treasury should monitor applicants (and existing recipients) for subsequent mortgage-related convictions that would disqualify the homeowner from receiving HHF funds (or additional HHF funds). If an applicant has been arrested but not yet convicted of a crime that falls within the Dodd-Frank Act exclusion, Treasury should ensure that the state housing finance agency checks to see if the applicant (or existing recipient) has been convicted as a final underwriting step prior to releasing any funds (or further funds) to the homeowner.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
194 To prevent fraud, waste, and abuse in the Hardest Hit Fund, Treasury should ensure that state housing finance agencies conduct regular criminal history background checks on staff or contractors who are paid, either directly or indirectly, with HHF funds by searching federal, state, and county databases.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
195 To prevent fraud, waste, and abuse in the Hardest Hit Fund, Treasury should conduct due diligence by searching public records for an applicant's conviction for non-mortgage related crimes of dishonesty (such as embezzlement, forgery, bank fraud, welfare fraud, unemployment compensation fraud, tax fraud, money laundering, and fast statements), and, if found, conduct further due diligence, including looking into potential misrepresentations of assets and income based on the nature of the crimes.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
196 To increase nationwide stakeholder communication and address obstacles on an urgent need basis, Treasury should hold its servicer summit with the 19 Hardest Hit Fund states on a bi-annual instead of an annual basis to keep proactively apprised of the obstacles and limitations the HHF states are experiencing, and to make timely interventions to better the performance and increase effectiveness in every HHF state in getting assistance to homeowners.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
197 Treasury should immediately direct state housing finance agencies that they should not allow the Hardest Hit Fund to be used strategically to select live-in residences for demolition, and should instead be used solely to select zombie properties for demolition.	X			Treasury told SIGTARP that it told state HFAs that properties should not be legally occupied at the time of review or approval for blight elimination activity for any requests submitted on or after January 15, 2016, and to reflect that guidance in program guidelines. See further discussion in Section 2.
198 Treasury should take all oversight action necessary to ensure that the Hardest Hit Fund is not used for live-in residences, including requiring state housing finance agencies to adopt and implement effective due diligence and other controls and procedures to ensure the properties selected are zombie properties.			X	Treasury agreed to implement this important recommendation. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.
199 Treasury should claw back all Hardest Hit Fund monies used for live-in residences that were selected for the blight elimination program, including TARP payments of \$246,490 for 18 live-in residences in the neighborhood of Area 55, in Evansville, Indiana, and recycle those funds to demolish abandoned zombie properties.			X	Treasury has not agreed to - but should - implement this important recommendation with a sense of urgency. See further discussion in Section 2.
200 In order to ensure that Hardest Hit Funds are used only for foreclosure prevention activities as required by the Emergency Economic Stabilization Act, SIGTARP recommends that Treasury ensure, on a continuous basis, that state housing finance agencies participating in HHF do not use TARP funds to pay state pension obligations that are unrelated to employees who work on HHF, including but not limited to: (1) as part of Treasury's on-site compliance review process, (2) review of all financial reporting from state HFAs to Treasury, and (3) biannual surveys asking each state housing finance agency to certify that no TARP funds were used for state pension obligations.			X	Treasury said it has implemented this recommendation or is in the process of doing so. SIGTARP urges Treasury to do so with a sense of urgency. See further discussion in Section 2.

Note: * Indicates that Treasury considers the recommendation closed and will take no further action.

SECTION 3

NON-BANK PRIVATE MORTGAGE SERVICERS WHO HAVE ALREADY RECEIVED MORE THAN \$1 BILLION FROM TREASURY ARE INCREASING THEIR PARTICIPATION IN HAMP, WHICH RAISES RISKS TO HOMEOWNERS AND THE NEED FOR SIGNIFICANT OVERSIGHT

INTRODUCTION

Mortgage servicers are the single largest factor in determining whether homeowners applying for, or participating in, TARP's signature foreclosure prevention program HAMP are given a fair shot, and whether the program runs effectively and efficiently. This is because Treasury has contracted with mortgage servicers to play a predominant role in HAMP, by making the day-to-day decisions related to HAMP that have enormous implications for homeowners seeking relief. Mortgage servicers decide whether homeowners are eligible for HAMP, whether homeowners get a trial run in the program, and whether that trial run should result in the servicer permanently modifying the homeowners' mortgages. Mortgage servicers decide how the mortgage will be modified, such as whether a homeowner will get a lower interest rate, and if so, what rate. Mortgage servicers decide how much the homeowner will have to pay each month. Mortgage servicers also apply payments they receive, and they make decisions on whether a homeowner should be terminated from the program.¹ Because of this outsized role, all mortgage servicers are required to comply with HAMP rules, and federal laws. Following HAMP rules and federal laws is necessary to protect homeowners from harm.

Non-banks who service mortgages have increased their participation in HAMP, and now play a larger role in HAMP than bank servicers, but that was not always the case.² By the end of 2010, the first full year of the program, six of the ten largest servicers in HAMP were large banks. These large banks serviced mortgages for more than 65% of all homeowners in HAMP. That figure does not even include smaller banks servicing mortgages for homeowners in HAMP.³ Non-banks now service 56% of all homeowners' mortgages in HAMP, and large banks are only responsible for servicing 39% of all HAMP mortgages. Non-banks have been increasing their role in HAMP. Last year alone, non-banks serviced 63% of all mortgages for homeowners new to HAMP.^{4,i}

HAMP and its related programs have become a lucrative business and reliable source of income for non-bank servicers. Treasury pays mortgage servicers for every homeowner who receives a permanent mortgage modification in HAMP. Non-bank mortgage servicers have received \$1.1 billion in Federal TARP dollars from Treasury through the HAMP program.⁵

As non-bank servicers increase their role in HAMP, the risk to homeowners has also increased. Non-bank servicers have less federal regulation than banks that service mortgages.⁶ Some of the largest non-bank servicers have already been found to have violated laws in their treatment of homeowners, and have been the subject of enforcement actions by the federal or a state government. Some of the largest non-bank servicers also have been found to have violated HAMP's rules in their treatment of homeowners. This increased risk to homeowners must be met with increased oversight to ensure that homeowners are treated fairly, and that HAMP and its related programs are effective and efficient.

ⁱ Unless otherwise noted, all figures presented in the report are as of 12/31/2015. Due to timing differences, numbers presented in this report may not match the latest programmatic data in other parts of the report.

NON-BANK MORTGAGE SERVICERS HAVE LESS FEDERAL OVERSIGHT THAN BANK SERVICERS

Homeowners whose mortgages are serviced by banks have additional protection through oversight of the banks by bank examiners, who do not have oversight over non-bank servicers. The bank servicers in HAMP are regulated by, typically, at least two federal bank examiners, including the Federal Reserve (“Federal Reserve”), Office of the Comptroller of the Currency (“OCC”), or Federal Deposit Insurance Corporation (“FDIC”). Banks servicers in HAMP are also subject to oversight by state banking regulators.⁷ Non-bank servicers are not regulated by state or federal bank examiners. With a relatively new Consumer Financial Protection Bureau (“CFPB”), the oversight of non-bank servicers is still developing.⁸

NON-BANK MORTGAGE SERVICERS HAVE ALREADY RECEIVED MORE THAN \$1 BILLION IN FEDERAL DOLLARS FROM TREASURY

Non-bank mortgage servicers have already received more than \$1 billion in Federal dollars from Treasury for their role in HAMP, and some have received more if they are also the investor in the mortgage. Treasury has paid \$2.9 billion in TARP dollars to those who own the mortgages (investors), sending that money through the servicer.⁹ When a servicer is also the investor in the mortgage, the servicer keeps those associated TARP dollars. If the servicer is not the investor, the servicer will collect the federal dollars from Treasury and remit them to the investor.¹⁰

Source: Treasury, TARP Housing Transactions Reports – MHA Incentive Payments, through December 2015, www.treasury.gov/initiatives/financial-stability/reports/Pages/TARP-Housing-Transaction-Reports.aspx, accessed on 4/7/2016.

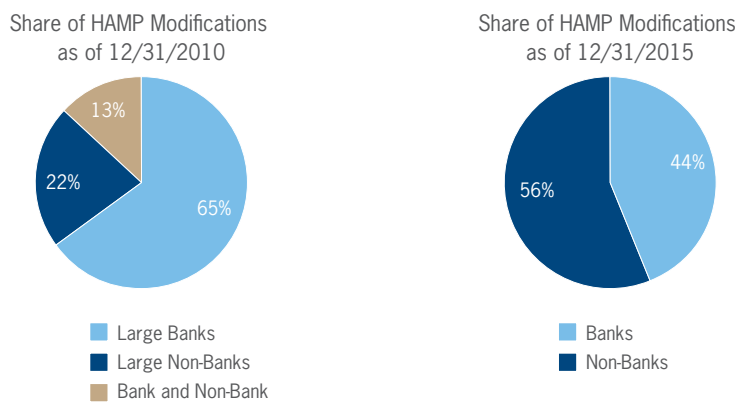

The increase in non-bank servicers' role in HAMP has, not surprisingly, led to an increase in the Federal dollars they are receiving. Of all of the Federal dollars Treasury paid to non-bank servicers, 31% of that (\$1.2 billion) was paid in 2015.ⁱⁱ

ⁱⁱ Figures include only servicer and investor incentives payments, homeowner incentive payments are not included.

NON-BANK SERVICERS NOW SERVICE MORTGAGES FOR 56% OF ALL HOMEOWNERS IN HAMP, WHICH INCLUDES SERVICING MORTGAGES FOR 63% OF HOMEOWNERS NEW TO HAMP LAST YEAR

A significant number of HAMP homeowner mortgages in HAMP, or eligible for HAMP, have been transferred from banks to less-regulated non-bank servicers. Non-bank servicers now have a significantly larger role in HAMP than they have in years past. See Figure 3.1 below for details.

FIGURE 3.1
NON-BANK PARTICIPATION IN HAMP OVER TIME

Note: Treasury's December 2010 reporting of HAMP activity by servicer only included the top 15 individual servicers and grouped all other servicer activity into "Other" categories, without dividing it by bank or non-bank.

Sources: Treasury, Making Home Affordable Program Performance Report – December 2010, January 31, 2011, www.treasury.gov/initiatives/financial-stability/reports/Pages/Making-Home-Affordable-Program-Performance-Report.aspx, accessed 3/31/2016; SIGTARP analysis of Treasury HAMP data as of 12/31/2015.

As a result non-bank servicers now administer HAMP for approximately 56% of all homeowners in HAMP. Within the last year, this shift has escalated. A total of 63% of all homeowners new to HAMP in 2015 have their mortgage serviced by a non-bank. Since 2010, banks have significantly decreased their role in HAMP. As shown in Table 3.2, twenty-one of the largest 25 HAMP servicing transfers were transfers to non-banks.¹¹ Additionally, as discussed in SIGTARP's January 2016 Quarterly Report to Congress, as of December 31, 2015, a total of 259,193 homeowners with HAMP related modifications saw their servicing transferred, 81% of those homeowners (209,059) saw their mortgage transferred to a non-bank servicer.

Note: Includes non-GSE HAMP and FHA HAMP trial and permanent modifications transferred.

Source: SIGTARP analysis of Treasury's HAMP Servicing Transfers data.

As banks play a declining role in HAMP and related programs, a handful of large non-bank servicers have significantly increased their role in HAMP. Ocwen, Nationstar, and SPS have significantly increased their role in HAMP as homeowners saw their mortgage servicing transferred to these non-banks. More than half of all homeowners in HAMP whose loans were transferred saw their mortgage transferred to two large non-bank servicers. Ocwen received 117,226 HAMP transfers (45% of all HAMP transfers), Nationstar received 31,037 HAMP transfers (12% of all HAMP transfers), and SPS received 30,658 HAMP transfers (12% of all HAMP transfers).¹²

INCREASED RISK TO HOMEOWNERS

Homeowners who are harmed when their TARP paperwork is lost in the shuffle of a mortgage transfer

As SIGTARP has reported, many homeowners were harmed when mortgage servicers did not follow HAMP's rules in transferring their mortgage to another servicer.ⁱⁱⁱ Delays, omissions, or miscommunications between current servicers and new servicers during the transfer can seriously delay, deny, or decrease relief provided to HAMP-eligible homeowners. For struggling homeowners seeking or receiving temporary or permanent assistance under HAMP, the harmful effects of their HAMP documentation getting lost in the shuffle could be particularly drastic. Homeowners' applications for HAMP relief may be "lost," delaying the determination of whether they get relief, all while their financial hardships continue. For those in a HAMP trial or permanent modification, their lower mortgage payment may not be honored, or payments may be misapplied due to missing paperwork or miscoding of HAMP data. This could result in mortgages reverting to the original terms that they previously could not afford, or accruing late fees or interest that they also cannot afford. A homeowner may erroneously be deemed delinquent or in default, which may lead to foreclosure proceedings even though the homeowner is current on their HAMP-modified mortgage payments.

SIGTARP reported in October 2014, that there were significant issues with non-bank servicers Ocwen (the largest HAMP servicer), and Nationstar (the 4th largest HAMP servicer) complying with HAMP's rules on transferring mortgages to another servicer.¹³ Additionally, CFPB found that both Ocwen and another large non-bank HAMP servicer, Green Tree Servicing, LLC (now Ditech Financial, LLC ("Ditech")) failed to honor modifications for mortgages that they received after a transfer.¹⁴

Risk to homeowners when other HAMP rules are not followed

Treasury has also found that several non-bank servicers violated HAMP rules – rules designed to protect struggling homeowners. Treasury found in both

ⁱⁱⁱ See SIGTARP January 29, 2014 special report, "Homeowners Can Get Lost In The Shuffle And Suffer Harm When Their Servicer Transfers Their Mortgage But Not The HAMP Application or Modification." at: www.sig tarp.gov/Quarterly%20Reports/October_29_2014_Report_to_Congress.pdf.

the second and third quarter of 2015 that Nationstar needed to substantially improve its compliance with HAMP's rules and performance metrics. Treasury found that Nationstar failed to follow HAMP rules for considering and evaluating homeowners for HAMP. Based on a review of Treasury's compliance evaluations over the past year, SIGTARP identified at least 19 instances where Nationstar failed to provide homeowners struggling to make their mortgage payments with a HAMP application package, and, in the alternative, offered the homeowner a much less favorable repayment plan.¹⁵ Repayment plans are not as advantageous to the homeowner as HAMP. These plans typically result in a temporary increase in the homeowners monthly mortgage payment (as they pay off the past due balance), while HAMP brings the loan current and permanently reduces the monthly payment.¹⁶ A fundamental problem with repayment plans is that homeowners that could not afford the original payment will likely have an even harder time making the higher payments that a repayment plan will require. Repayment plans may not be very effective for homeowners that have not fully recovered from their financial hardship or face financial uncertainty going forward and may make it more likely that a homeowner will default on their loan, whereas HAMP's goal is that the homeowner's new payment should be sustainable.

Treasury built rules into HAMP requiring that servicers offer HAMP prior to placing struggling homeowners into a potentially detrimental repayment plan, but Nationstar broke those rules repeatedly. Nationstar failed to provide struggling homeowners with HAMP packages that provide basic information about HAMP – including how to apply – so that these homeowners could make an informed decision on how to keep their home or at least know all the options available.¹⁷

Treasury also recently found that non-bank servicers in HAMP, Ocwen and Select Portfolio Services, Inc. ("SPS"), violated HAMP rules designed to give homeowners the best chance of success in HAMP. For example, in 2015 Treasury found that, on several occasions, Ocwen failed to put forth "reasonable efforts" to offer struggling homeowners HAMP. In four of the past eight quarters, Treasury found that SPS failed to consistently follow HAMP's rules on the calculation of homeowner income, which is used to determine eligibility and HAMP modification terms.¹⁸

Risk to homeowners of being terminated out of HAMP

One of HAMP's goals was that homeowners' mortgages be modified so that they were not only affordable, but sustainable.¹⁹ However, SIGTARP has reported that of the 1,565,723 homeowners who have received a permanent mortgage modification in HAMP, 507,359 of them (32.4%) have fallen out of the program.^{iv} In some instances, the homeowners were not able to continue making their mortgage payment, even at a reduced level. Non-bank servicers have a higher rate of homeowners falling out of HAMP than bank servicers. HAMP homeowners continue to suffer negative consequences as 34% of HAMP modifications serviced by non-bank servicers end with the homeowner falling out of HAMP, compared to only 28% of HAMP modifications serviced by banks.²⁰ However, in some instances, it is not the fault of the homeowner, but instead a servicer's failure to

^{iv} As of 12/31/2015.

follow HAMP's rules. In January, 2016, SIGTARP reported on the results of recent Treasury on-site exams of servicers, which revealed disturbing violations of HAMP rules: the two largest non-bank servicers of HAMP modifications, Ocwen and Nationstar, had both improperly terminated multiple homeowners from HAMP who should have been allowed to stay in the program.

The harm to a homeowner falling out of HAMP is significant. According to Treasury data:

- 23% of all homeowners who fell out of HAMP moved into foreclosure,
- 12% of homeowners who fell out of HAMP lost their homes through a short sale or deed in-lieu of foreclosure, and
- 28% of homeowners who fell out of HAMP received an alternative modification, usually a private sector modification that is less advantageous than a HAMP modification.

SEVERAL NON-BANK SERVICERS HAVE BEEN SUBJECT TO LAW ENFORCEMENT ACTIONS AS A RESULT OF THEIR FAILURE TO FOLLOW LAWS OR RULES RESULTING IN HARM TO HOMEOWNERS

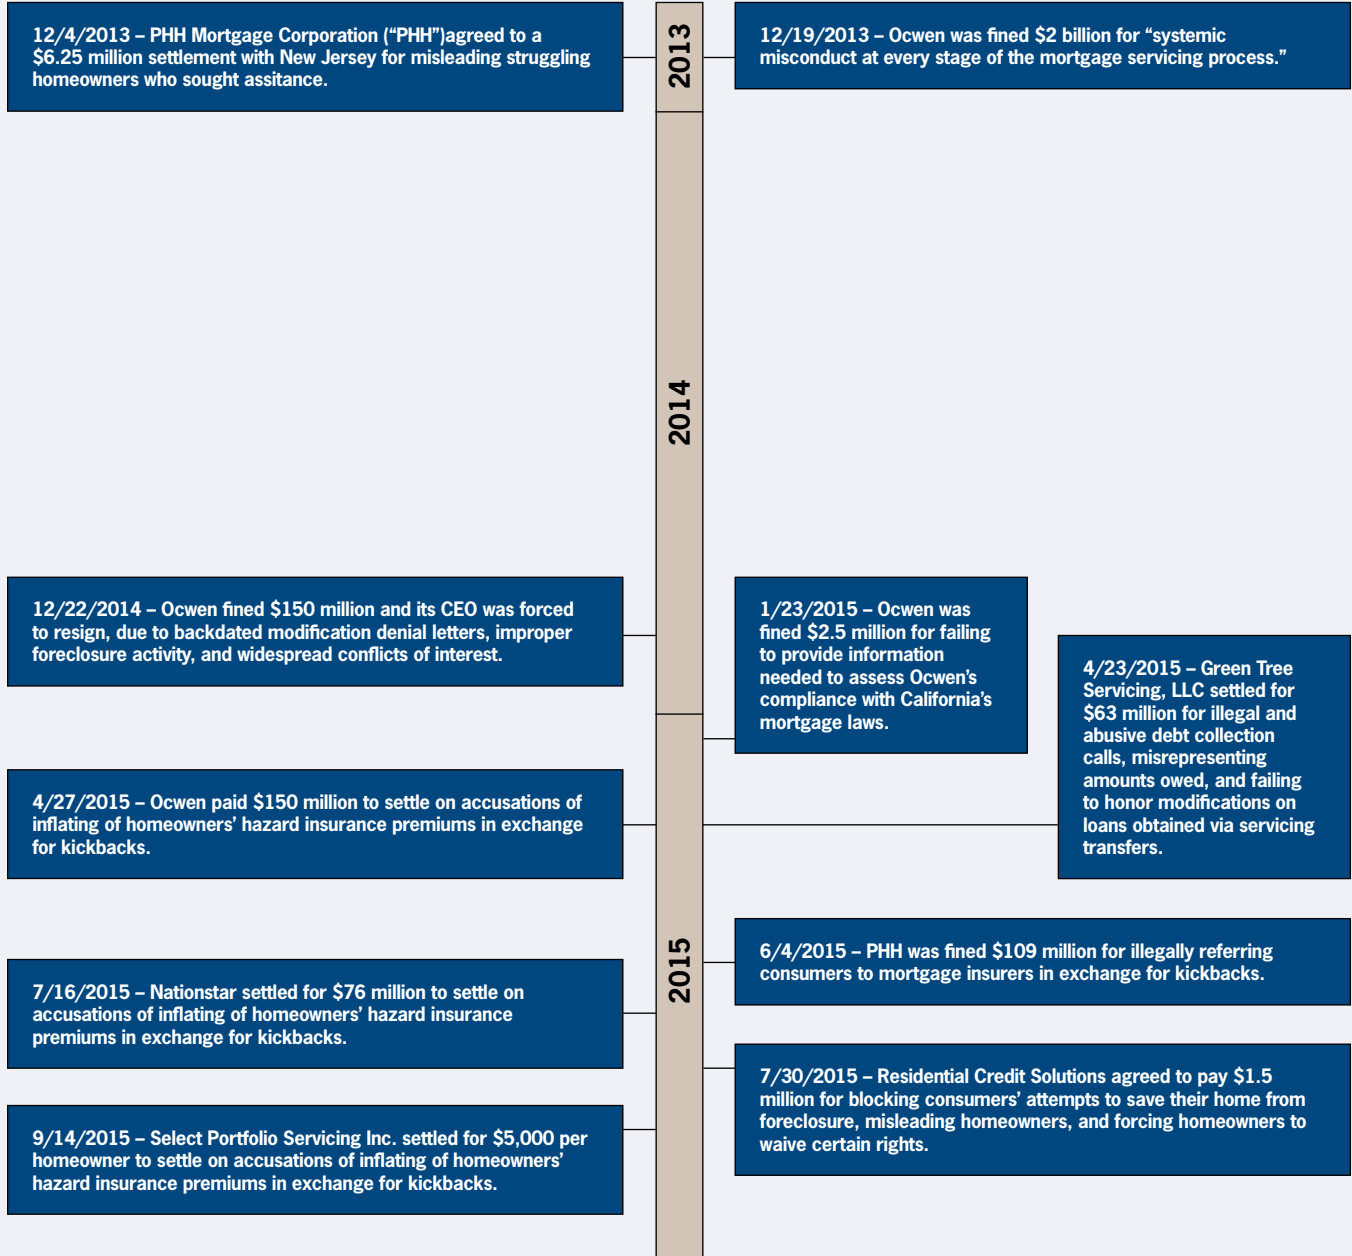

The Department of Justice, Consumer Financial Protection Bureau, and other enforcement and regulatory agencies have found that several large non-bank servicers violated federal laws and regulatory rules, resulting in harm to homeowners.

Recent enforcement actions have found that non-bank servicers engaged in the following violations:

- Misleading struggling homeowners who sought loan modifications and other assistance to avoid foreclosure
- Abusive and illegal debt collection efforts to consumers
- Failure to honor loan modification agreements between consumers and their prior mortgage servicers
- Backdating modification denial letters
- Misrepresenting the amounts people owed
- Inflating insurance premiums by requiring forced place insurance and receiving kickbacks
- Misconduct at every stage of the foreclosure process
- Improper foreclosure activity
- Inadequate information systems and personnel
- Widespread conflicts of interest
- Failure to provide loan information to state regulators so that regulators could assess compliance with state laws.²¹

FIGURE 3.2

TIMELINE OF RECENT ENFORCEMENT AND LEGAL ACTIONS AGAINST NON-BANK SERVICERS

Sources: Various, Refer to Endnote 21.

In December of 2013, Ocwen, the largest HAMP non-bank servicer, was fined \$2 billion by the CFPB and various state attorney generals for systemic misconduct at every stage of the mortgage servicing process. Among the CFPB's key findings were that Ocwen had "Deceived consumers about foreclosure alternatives and improperly denied loan modifications", by providing homeowners false and misleading modification denial reasons, failing to honor trial modifications transferred from other servicers, and attempting to collect payments under the original loan terms on loans that had been modified to help struggling homeowners. Ocwen also "engaged in illegal foreclosure practices" by providing false and misleading information about the foreclosure status of loans belonging to homeowners seeking modifications and engaging in robo-signing of foreclosure documents. Additionally, Ocwen "took advantage of homeowners with servicing shortcuts and unauthorized fees" by failing to timely apply mortgage payments, charging borrowers unauthorized fees, and improperly imposing forced-placed insurance.²²

In December 2014, the New York State Department of Financial Services ("NYDFS") fined Ocwen an additional \$150 million and forced the company to remove its CEO. NYDFS found that Ocwen had widespread foreclosure violations, such as moving ahead with foreclosures on homeowners in the process of obtaining modifications. NYDFS found that Ocwen lacked adequate systems and personnel to properly service mortgages resulting in Ocwen backdating letters to homeowners saying they were denied for a modification. NYDFS also found that Ocwen had widespread conflicts of interest related to, among other issues, a forced place insurance scheme where an Ocwen affiliate received kickbacks for inflated insurance premiums whose costs were passed along to homeowners.²³ According to the Federal Housing Finance Agency Office of Inspector General, forced placed insurance is generally twice as expensive as typical hazard insurance policies and often provides less coverage for the homeowner.²⁴ Per NYDFS, forced place insurance schemes generally involve the following practice:

"...servicers' own insurance agencies had an incentive to purchase forced-placed insurance with high premiums because the higher the premiums, the higher the commissions kicked back by insurers to the servicers or their affiliates. The extra expense of higher premiums, in turn, can push already struggling families over the foreclosure cliff."^{25,v}

When servicers use forced placed insurance it inflates the homeowner's monthly payments, which could lead to default for homeowners in a HAMP permanent modification, making it more difficult for a homeowner to afford their mortgage, even modified under HAMP. Inflated mortgage payments could work against Federal dollars Treasury is spending to prevent foreclosure under HAMP and the Hardest Hit Fund program (where Federal dollars pay off past due mortgage balances and pay the mortgage payments of unemployed homeowners).

^v In addition to regulatory enforcement actions related to forced placed insurance against Ocwen, other large non-bank HAMP servicers, Nationstar and SPS, have settled large class action lawsuits over the past year related to forced placed insurance abuses. In April of 2015 Ocwen agreed to pay out \$140 million, in June of 2015 Nationstar agreed to pay out \$76 million, and in December of 2015 SPS agreed to pay up to \$5,000 per homeowner to victims of forced place insurance schemes. These settlements indicate a large number of homeowners were victimized by this practice.

INCREASED NEED FOR OVERSIGHT OF NON-BANK SERVICERS IN HAMP

The track record on some of the larger non-bank servicers in HAMP violating federal law and regulatory rules elevates the risk to homeowners in or applying to HAMP, heightening the need for strong oversight. While Treasury has found and continues to find that some of these non-bank servicers need to improve following HAMP rules and performance metrics, much more improvement and oversight is needed. Despite CFPB and NYDFS finding systemic and egregious violations by Ocwen, Treasury's oversight, including on-site reviews of Ocwen, did not uncover those same problems. Treasury continues to find that Nationstar needs substantial improvement in complying with HAMP's rules.^{26,vi}

Taxpayers have already funded \$1 billion to non-bank servicers, and will continue to fund more given the non-bank servicers increased role in HAMP. Strong oversight is critical to ensure that these non-bank servicers follow HAMP's rules and the law, give homeowners a fair shot at HAMP, and administer HAMP effectively and efficiently. Violations of the law and HAMP rules raises risks to homeowners. With less regulation, non-bank servicers making decisions in HAMP need strong oversight to ensure homeowners and this TARP program are protected.

^{vi} Treasury has never permanently withheld, or clawed back, TARP dollars from any servicer, regardless of how frequent or how egregious their violations of HAMP's rules.

SECTION 4

TARP OVERVIEW

TARP continues until at least 2023, but it looks different now than it did at the height of the crisis.²⁷ Treasury has ended the TARP investments it made in 2008 and 2009 in large and mid-size companies. At this point, TARP is less about accounting for the great bulk of TARP dollars spent, and more about helping those who still need TARP. From a dollar standpoint, 10 banks, AIG, General Motors, GMAC and Chrysler accounted for 80% of all TARP dollars invested (\$327.6 billion of \$411.7 billion). Treasury has largely recovered those investments, with some losses.¹ What continues are \$38 billion in TARP programs for those who did not recover as quickly, who still feel the effect of the financial crisis, and who continue to need TARP – small banks and homeowners at risk of foreclosure.²⁸ One of TARP’s mandates, as outlined by Congress in the law that created TARP (the Emergency Economic Stabilization Act of 2008), is for Treasury to exercise TARP authority taking into consideration “the need to help families keep their homes.”²⁹ SIGTARP oversight to ensure that these programs operate effectively and efficiently is critical to our nation’s economic stability and continued recovery.

While much smaller than its original astronomical size, TARP as it exists now remains a significant size. A \$38 billion Federal program is bigger than many Federal programs. Putting the size of \$38 billion in ongoing TARP programs in perspective...

- That’s just under total contract amounts to operate the International Space Station (\$39 billion)³⁰
- That’s slightly less than the Highway Trust fund is estimated to take in annual revenue (\$39 billion)³¹
- That’s more money than spent annually in the Pell Grant program (\$28.3 billion)³²
- That’s almost 5 times the amount of money proposed to cleanup damage from the Deepwater Horizon oil spill (\$8 billion)³³
- That’s almost 9 times the annual amount to run NASA’s Exploration Program including programs like the Mars Rover mission (\$4.4 billion)³⁴
- That’s more than 13 times the amount of annual money spent on the Community Development Block Grant program which includes HUD’s blight elimination program (\$2.8 billion)³⁵
- That’s almost 16 times the amount of annual funds to run our National Parks System (\$2.4 billion)³⁶

Federal programs of this magnitude require significant Federal oversight.

¹ TARP has taken total losses or write-offs of \$35.1 billion. The auto manufacturers General Motors and Chrysler exited TARP with an \$11.2 billion loss for taxpayers, and a \$2.9 billion loss, respectively. Treasury broke-even on its TARP investment in the auto finance company Chrysler Financial, but suffered a \$2.47 billion loss on its TARP investment in GMAC now known as Ally Financial. TARP’s official records record the TARP investment in AIG at a loss of \$13.485 billion, although according to Treasury, there is no Federal loss when combined with the bailout of AIG by the Federal Reserve Bank of New York. Bank failures or bankruptcies of 32 banks/bank holding companies including the large CIT Group (that had received \$2.33 billion in TARP) caused losses of more than \$5 billion.

TABLE 4.1

CONTINUING \$38.2 BILLION IN TARP PROGRAMS		
TARP PROGRAM	TIMETABLE	SIZE OF TARP PROGRAM
MAKING HOME AFFORDABLE	Sept. 1, 2023	\$27.8 billion
HARDEST HIT FUND <ul style="list-style-type: none"> • Unemployment assistance and other homeowner assistance programs in 19 states • Demolition of blighted vacant houses in 7 states • First-time homebuyer down payment assistance in 6 states 	Dec. 31, 2020	\$9.6 billion
FHA SHORT REFINANCE	2022 to pay losses	Up to \$125 million
CDCI	Until bank/credit union repayment or Treasury sale of stock in 57 banks/credit unions	\$427 million
CPP	Until bank repayment or Treasury sale of stock in 15 banks + Treasury sale of warrants in 10 banks	\$264 million (\$254 million TARP investment + \$9.8 million warrants)
		\$38.2 billion

Note: On February 19, 2016, Treasury announced that \$2 billion in TARP funding would be transferred to HHF.

Sources: Treasury, *Transactions Report*, 3/25/2016; Treasury, Monthly TARP Update, 4/1/2016. Treasury, responses to SIGTARP data calls, 4/4/2016, and 4/8/2016.

TARP Small Bank Programs

Smaller banks experienced difficulty repaying TARP. Beginning in 2012, Treasury began auctioning off its TARP investments in 198 smaller banks, often at a loss, primarily to institutional investors. The future of TARP's investments of \$700 million in 15 small banks that continue in CPP (+warrants in 10 banks) and 57 small banks/credit unions in TARP's CDCI program remains to be seen.³⁷ There is no deadline for these banks to repay TARP or for Treasury to sell the company stock it received in exchange for the TARP investment.³⁸

TARP Housing Support Programs

TARP housing programs are a different story. Not initially included in Treasury's first three-page TARP proposal to Congress that would have authorized Treasury to spend funds taking into consideration "providing stability or preventing disruption to the financial markets or banking system," TARP housing programs focus on preventing foreclosures.³⁹ Congress required that focus on homeowners when authorizing TARP. The final law, the Emergency Economic Stabilization Act, mandates a dual purpose of restoring stability and liquidity, and ensuring that TARP protects the investments of individuals and families. Congress explicitly stated in that law that the authority given to the Treasury Secretary must be used

in a manner that, among other things, “protects home values” and “preserves homeownership.”⁴⁰

Unlike the rapid TARP investments made in companies, TARP housing programs have struggled to get TARP funds out to homeowners. As a result:

- (1) Both Treasury and Congress (in the Dodd-Frank Act) decreased the amount of TARP funds available for housing programs;
- (2) Treasury has over time extended the application period of these programs in an effort to increase homeowner participation; and
- (3) Treasury has shifted TARP programs and funds from solely providing assistance to homeowners to also pay to demolish vacant/abandoned houses and to help pay for first-time homebuyers’ down payments when buying houses.⁴¹

*Because a homeowner continues in HAMP for six years, TARP will continue until at least 2023. Only about half of the TARP funds available for TARP housing programs (\$20.5 billion of \$37.5 billion) have been spent over the last seven years, leaving \$17 billion in TARP available to be spent.*⁴²

Significant Federal oversight is particularly needed in upcoming years because Treasury has designed TARP programs so that the day-to-day decision making is disbursed among many others not in the Federal Government. These TARP decision-makers have no experience in protecting Federal interests or an express requirement to do so.

The largest housing programs include the following:

- **HAMP** — TARP’s signature foreclosure prevention program known as HAMP has fallen well short of the 3 to 4 million homeowners envisioned for it.⁴³ As of March 31, 2016, just 1.6 million homeowners had received permanent mortgage modifications in HAMP, of which more than 500,000 homeowners later fell out of the program, leaving approximately 1 million homeowners in HAMP. In actuality, over 4 million homeowners were denied a HAMP mortgage modification.⁴⁴ The original \$50 billion TARP dollars made available for HAMP and related programs has been cut to \$27.8 billion. Treasury has extended HAMP’s initial December 31, 2013 application deadline three times to December 31, 2016.⁴⁵ In the 2016 Omnibus Appropriations Bill, Congress terminated HAMP (eliminating the Treasury Secretary’s authority to extend HAMP’s application deadline beyond 2016).⁴⁶

TABLE 4.2

CUMULATIVE HAMP MODIFICATION ACTIVITY, AS OF 3/31/2016				
	Permanent Modifications Started	Permanents Redefaulted	Permanents Paid Off^a	Permanents Active
HAMP Tier 1 - TARP	779,288	276,547	28,641	474,100

HAMP Tier 2	158,599	30,774	1,962	125,863
Total	1,590,052	522,687	88,546	978,819

^a Includes 4,949 permanent HAMP modifications classified as withdrawn.

Source: HAMP IMP: Program Volumes – Program Type and Payor by Tier - March 2016, accessed 4/20/2016.

In eliminating Treasury's ability to extend HAMP's application deadline further, Congress held "harmless" modifications applied for or implemented before December 31, 2016. A homeowner applying in December 2016, for example, would experience a period of time where their application is evaluated by their mortgage servicer (such as Ocwen, Bank of America, Nationstar, JPMorgan Chase or CitiMortgage), and during which time the homeowner submits their required documentation. If approved, the homeowner would start a three-month HAMP trial modification. If the homeowner successfully completes the trial period (and assuming that it happens on a timely three-month basis), the servicer would permanently modify the terms of the mortgage under HAMP (for example, a lowered interest rate). All of these events must happen by December 2017.⁴⁷

The need for significant Federal oversight by Treasury and SIGTARP over HAMP does not end in December 2017. The history of HAMP has shown that the six years a homeowner is in HAMP do not proceed on an automated basis. During this time, mortgage servicers make day-to-day decisions that impact homeowners and the HAMP program. HAMP has a notable history for mistreatment of homeowners by servicers. Some of the largest mortgage servicers in HAMP have been investigated by SIGTARP, and have been the subject of an enforcement action by DOJ, CFPB, and/or state Attorney Generals. SIGTARP has already reported on violations of HAMP rules by servicers in transferring mortgages to another servicer without transferring a HAMP application or modification. SIGTARP has reported on mortgage servicers who wrongfully terminated homeowners out of HAMP because of misapplied payments, holding payments in suspension, or improperly determining that a homeowner had missed three payments. Treasury has repeatedly found instances of each of the largest servicers in HAMP not complying with HAMP rules, while Treasury has continued to pay the servicer TARP dollars. Past violations of the law or HAMP's rules by mortgage servicers who mistreat homeowners highlight the crucial need for Treasury and SIGTARP oversight throughout the lifetime of the program.⁴⁸ Without Federal oversight, homeowners and the program itself would be unprotected.

- **Hardest Hit Fund** — TARP's second largest housing program, the \$9.6 billion Hardest Hit Fund, has also struggled to get assistance to homeowners. This is not a grant program. Instead, these are programs that Treasury approves to provide direct assistance to help homeowners pay their mortgage. As implemented by Treasury, this program has been used primarily to provide assistance to unemployed or underemployed homeowners— 75% of all assistance provided has come in the form of direct unemployment/ underemployment assistance including help paying past due amounts on a mortgage. The estimated number of homeowners the program will provide TARP assistance to has decreased 45% since the beginning of 2011 from 546,562 homeowners to 302,989 homeowners. As of December 31, 2015, 248,620 individual homeowners have received TARP assistance through HHF.⁴⁹ State housing finance agencies make day-to-day decisions. SIGTARP has reported HHF's underperformance in certain states and how some state housing finance agencies are not as effective as others in providing this assistance. On seven occasions, Treasury has conducted oversight to say that a state agency is not performing and must ramp up performance to meet a Treasury-set target.⁵⁰

In 2013, as this program underperformed in providing TARP funds to homeowners, it became clear that the money would not be spent by the December 2017 end date, and Treasury decided to spend these TARP dollars in other ways. First, Treasury shifted some TARP funds that had been previously designated to assist homeowners to a new "blight elimination" demolition program that pays partners with TARP dollars, who use those TARP dollars to reimburse its payments to contractors and subcontractors to demolish vacant/ abandoned houses in seven states. Second, in 2015, Treasury made another shift of TARP funds previously designated for homeowner assistance programs to provide TARP funds for a down payment to "first-time" homebuyers to help them buy a home (or property with up to 4 multifamily units) in six states.⁵¹

The Hardest Hit Fund is a program that looks to grow significantly in the amount of TARP dollars, in the number of state agencies conducting blight demolitions under the program, and in the years the program will continue. While Congress recently ended Treasury's authority to extend the HAMP application period further, Congress gave the Treasury Secretary the authority to extend HHF's original December 31, 2017 expiration date, which it did to December 31, 2020. Congress also authorized the Treasury Secretary to transfer up to \$2 billion in unused TARP dollars from HAMP to the Hardest Hit Fund, which it did on February 19, 2016, becoming a nearly \$10 billion program.⁵²

The need for significant oversight by Treasury and SIGTARP over the Hardest Hit Fund is crucial as this TARP program is in a growth stage and as this program has taken on more risk. Throughout the lifetime of the program, state housing finance agencies in 19 states and some of the same mortgage servicers who participate in HAMP will be making decisions such as which homeowners applying for the program will receive assistance. These state agencies will make decisions as to whether mortgage servicers are complying with their HHF agreements. Six of these state agencies will make decisions

about whether a homebuyer qualifies to receive down payment assistance to buy a home.

Seven of these agencies will also make day-to-day demolition-related decisions. This includes whether demolition or other related work conducted by individuals and entities (such as demolition contractors) was conducted appropriately, and in accordance with program guidelines, so that they should be paid with TARP funds. The presence of 280 partners, each one of them hiring teams of demolition contractors and subcontractors for inspection, asbestos abatement, environmental impact, grading of the dirt on site, greening and maintenance greatly increases the risk of fraud, waste, and abuse in the Hardest Hit Fund from when it was a program that only provided TARP payments to homeowners. SIGTARP has already reported on a lack of transparency in this program and that Treasury does not know of the identity of all of these individuals and entities who receive or will receive TARP funds.⁵³ Increased risk of fraud, waste, and abuse makes SIGTARP's oversight over this TARP program, including enforcement of the law, crucial in the upcoming years.

As our nation moves farther from the financial crisis, it can be natural to not put a Federal focus on programs related to the crisis. As we compare the unprecedented enormity of what TARP was, it can be natural to think of TARP as over, or small. However, if today our Federal Government created a \$38 billion program, particularly one that put the day-to-day decision making in the hands of non-Federal entities, there would be a cry for significant Federal oversight. SIGTARP will continue on watch, preventing fraud, waste, and abuse, enforcing the law when fraud seeps in, and giving insight to obstacles and ways to improve.

TABLE 4.3

REALIZED LOSSES/WRITE-OFFS FOR TARP INVESTMENTS, AS OF 3/31/2016 (\$ MILLIONS)				
TARP Program	Institution	Total TARP Investment	Realized Loss^a Write-Offs^{b,c}	Description
Autos				
	Chrysler		\$1,328 ^a	Sold 98,461 shares and equity stake in the UAW Retiree trust for \$560,000,000

Total Realized Loss	\$29,310		Total Write-Offs	\$5,812
Total TARP Investment	\$350,439			Total Realized Loss, Write-Offs
				\$35,122

Notes: Numbers may not total due to rounding.

^a Includes investments reported by Treasury as realized losses. Treasury changed its reporting methodology in calculating realized losses, effective June 30, 2012. Disposition expenses are no longer included in calculating realized losses.

^b Includes investments reported by Treasury as write-offs. According to Treasury, in the time since some transactions were classified as write-offs, Treasury has changed its practices and now classifies sales of preferred stock at a loss as realized losses.

^c Includes \$1.5 billion investment in Chrysler Financial, \$413 million ASSP investment, and \$641 million AWCP investment.

^d Treasury has sold a total of 1.66 billion AIG common shares at a weighted average price of \$31.18 per share, consisting of 1,092,169,866 TARP shares and 562,868,096 non-TARP shares based upon the Treasury's pro-rata holding of those shares. The non-TARP shares are those received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury. Receipts for non-TARP common stock totaled \$17.55 billion and are not included in TARP collections. The realized loss reflects the price at which Treasury sold common shares in AIG and TARP's cost basis of \$43.53 per common share.

HOUSING SUPPORT PROGRAMS

On February 18, 2009, the Administration announced a foreclosure prevention plan that became the Making Home Affordable (“MHA”) program.⁵⁴ MHA includes the following programs:

- **Home Affordable Modification Program (“HAMP”)** — Mortgage servicers and investors modify eligible first-lien mortgages in default or at imminent risk of default into “affordable and sustainable” loans. The Government-sponsored enterprises (“GSEs”) also participate in non-TARP HAMP.^{55,ii} Homeowners with non-owner-occupied “rental” properties and a wider range of debt-to-income ratios may have their mortgages modified with HAMP Tier 2.⁵⁶ Table 4.4 shows cumulative HAMP activity by program and Tier through March 31, 2016.

TABLE 4.4

Mortgage Servicers: Companies that perform administrative tasks on monthly mortgage payments until the loan is repaid. These tasks include billing, tracking, and collecting monthly payments; maintaining records of payments and balances; allocating and distributing payment collections to investors in accordance with each mortgage loan’s governing documentation; following up on delinquencies; and initiating foreclosures.

Investors: Owners of mortgage loans or bonds backed by mortgage loans who receive interest and principal payments from monthly mortgage payments. Servicers manage the cash flow from homeowners’ monthly payments and distribute them to investors according to Pooling and Servicing Agreements (“PSAs”).

Government-Sponsored Enterprises (“GSEs”): Private corporations created and chartered by the Government to reduce borrowing costs and provide liquidity in the market, the liabilities of which are not officially considered direct taxpayer obligations. On September 7, 2008, the two largest GSEs, the Federal National Mortgage Association (“Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), were placed into Federal conservatorship. They are currently being financially supported by the Government.

ⁱⁱ In 2015, Treasury began using TARP funds to pay a homeowner incentive for GSE-backed HAMP modifications in certain cases.

During the past quarter less homeowners started new HAMP trial modifications (23,836 compared to 26,496 the prior quarter), more homeowners converted from trial to permanent modifications (24,329 compared to 23,680 the prior quarter), and less homeowners redefaulted (15,328 compared to 18,231 the prior quarter), broken down as follows: 9,491 homeowners started trial modifications under Tier 1 and 14,345 under Tier 2; 10,458 homeowners converted from trial to permanent modifications in Tier 1 and 13,871 under Tier 2; and 11,438 HAMP Tier 1 modifications and 3,890 Tier 2 modifications redefaulted.

- **Home Affordable Foreclosure Alternatives (“HAFA”)** — Under HAFA, Treasury uses TARP funds to help homeowners pursue **short sales** and **deeds-in-lieu of foreclosure**.⁵⁷ During the quarter ended March 31, 2016, 5,913 homeowners completed short sales or deeds-in-lieu under HAFA, compared to 6,560 the prior quarter, bringing the total number of homeowners assisted by the program to 218,037. As of February 29, 2016, 12,874 of 215,822 HAFA transactions involved homeowners that had previously received permanent HAMP modifications.⁵⁸
- **Second-Lien Modification Program (“2MP”)** — 2MP modifies second-lien mortgages when the first lien is modified under HAMP.⁵⁹ As of March 31, 2016, 156,484 second liens had been permanently modified under the program and 81,566 of those remain active.⁶⁰
- **Agency-Insured Programs** — These programs help modify eligible first-lien mortgages insured by FHA or guaranteed by the Department of Agriculture’s Office of Rural Development (“RD”).⁶¹ As of March 31, 2016, 115,632 loans have been modified through FHA-HAMP, 83,049 of which remain active, and an additional 207 loans have been modified through RD-HAMP, 133 of which remain active.⁶²

In addition to MHA, Treasury also allocated TARP funds to support two additional housing support efforts. These non-MHA TARP housing programs include:

- **Housing Finance Agency Hardest Hit Fund (“HHF”)** — Homeowner foreclosure prevention programs in 19 states hit hardest by the decrease in home prices and unemployment.⁶³ As of December 31, 2015, the latest data available, 248,620 homeowners had received assistance under HHF.⁶⁴
- **FHA Short Refinance Program** — Under this program 7,130 homeowners current on their mortgage refinance non-FHA **underwater mortgages** into FHA-insured mortgages with lower principal balances. TARP funds provide up to \$125 million to support the program.⁶⁵ As of March 31, 2016, Treasury has paid \$145,330 of loss claims on six defaulted loans that had been refinanced under the program.⁶⁶

Short Sale: Sale of a home for less than the unpaid mortgage balance. A homeowner sells the home and the investor accepts the proceeds as full or partial satisfaction of the unpaid mortgage balance, thus avoiding the foreclosure process.

Deed-in-Lieu of Foreclosure: Instead of going through foreclosure, the homeowner voluntarily surrenders the deed to the home to the investor, as satisfaction of the unpaid mortgage balance.

Underwater Mortgage: Mortgage loan on which a homeowner owes more than the home is worth, typically as a result of a decline in the home’s value. Underwater mortgages also are referred to as having negative equity.

Status of TARP Funds Obligated to Housing Support Programs

Only about half (\$20.5 billion) of the \$37.5 billion in TARP funds available for housing support have been spent through March 31, 2016, of which \$1.5 billion was spent in the most recent quarter.⁶⁷ As shown in Figure 4.1, \$14 billion was spent on MHA incentive payments. As of March 31, 2016, state housing finance agencies had drawn down \$6.4 billion (67% of the \$9.6 allocated funds).^{68,iii,iv}

Figure 4.1 shows the breakdown in expenditures and estimated funding allocations for these housing support programs.

FIGURE 4.1

Notes: Notes: Numbers may not total due to rounding. According to Treasury, these numbers are "approximate."

^a Not all of the funds drawn down by states have been used to assist homeowners. As of December 31, 2015, HFAs had drawn down approximately \$5.8 billion, and, according to the latest data available, only \$4.6 billion (48%) of TARP funds allocated for HHF have gone to help 248,620 homeowners. On 2/19/2016, Treasury formally reallocated \$2 billion from MHA to HHF, congress granted it the authority to do so on 12/18/2015, this increased the program's allocation from \$7.6 billion to \$9.6 billion.

^b Allocation includes up to \$25 million in fees Treasury will incur for the availability and usage of the \$100 million letter of credit. \$20.5 million in program expenditures include a \$10 million pre-funded reserve balance (In March 2013, Treasury funded a reserve account with \$50 million for any future loss claim payments, \$40 million of the reserve balance was returned to Treasury in March 2015), and \$10.5 million in administrative expenses.

Sources: Treasury, responses to SIGTARP data calls, 1/5/2012, 4/4/2016 and 4/21/2016; Treasury, *Transactions Report-Housing Programs*, 3/28/2016; Treasury, *Monthly TARP Update*, 4/1/2016.

As of March 31, 2016, Treasury had active agreements to pay TARP funds to 76 servicers, and had spent \$14 billion in incentives: \$11.7 billion on permanent first-lien modifications (including PRA and HPDP); \$891.3 million on 2MP; and \$1.2 billion on incentives for short sales or deeds-in-lieu of foreclosure under

ⁱⁱⁱ Housing Finance Agencies are state government entities that design and administer each state's HHF programs.

^{iv} On 2/19/2016, Treasury formally reallocated \$2 billion from MHA to HHF, congress granted it the authority to do so on 12/18/2015.

HAEA.^{69,v} For all of the MHA programs, Treasury paid approximately \$7.4 billion to investor or lender incentives, \$3.2 billion to servicer incentives, and \$3.5 billion to homeowner incentives. For just HAMP Tier 1 incentives alone (excluding PRA and HPDP), Treasury has spent \$8.9 billion, of which \$3.8 billion has been spent on investor incentives, \$2.4 billion has been spent on servicer incentives, and \$2.7 billion has been spent on homeowner incentives (that go to the servicer to pay down the homeowners principal balance).^{70,vi}

Treasury uses TARP funds to pay incentives to encourage servicers and investors to help homeowners get into HAMP and other MHA programs, to help homeowners in HAEA pay relocation expenses, and to reward homeowners in HAMP who make their payments on time. Through March 31, 2016, servicers have received 22% of all TARP incentive payments (\$3.2 billion), investors have received 53% (\$7.4 billion), and homeowners have received 25% (\$3.5 billion). Counting only HAMP incentive payments, servicers have received 22% (\$2.6 billion), investors 55% (\$6.5 billion), and homeowners 23% (\$2.7 billion). The nature of these incentives is as follows:

- **Servicer Incentives** – TARP pays servicers up to \$2,000 in one-time incentives for modifying loans under HAMP, modifying or extinguishing loans under 2MP, or facilitating short sale or deed-in-lieu transactions under HAEA. TARP also pays servicers annually for up to 3 years for each active HAMP and 2MP modification.
- **Investor Incentives** – TARP pays investors up to \$1,500 in one-time incentives for agreeing to homeowner HAMP modifications on loans that are not past-due, and in partial reimbursement of principal amounts forgiven under 2MP and HAEA. On a monthly basis for up to five years, TARP also partially reimburses investors for the reduced payments they receive on active HAMP and 2MP modifications. Investors may also receive up to two annual incentive payments to offset potential losses on HAMP modifications in neighborhoods with declining home values under HPDP, and up to three annual incentive payments based on amounts forgiven under PRA.
- **Homeowner Incentives** – Annually, TARP will pay \$1,000 to reduce the principal balance of HAMP homeowners who make their modified mortgage payments on time—for up to five years for homeowners in HAMP (Tier 1 only) and 2MP, and three years under FHA and RD HAMP. Additionally, homeowners who continue to make their HAMP payments on time through the 6th anniversary of their trial period start date receive a \$5,000 TARP incentive payment to reduce their outstanding principal balance further.

Table 4.5 shows incentive payments made to the ten servicers that have received most incentives under MHA (Refer to Appendix D.2 for incentive payments on HAMP modifications).

^v The \$11.7 billion in incentives on permanent first lien modifications includes \$327.6 million in Year 6 incentives on GSE backed modifications that Treasury pays.

^{vi} Figures include \$327.6 million in TARP funded homeowner incentive payments on GSE backed HAMP modifications.

TABLE 4.5

TARP INCENTIVE PAYMENTS BY 10 SERVICERS, ALL MHA PROGRAMS, AS OF 3/31/2016 (\$ MILLIONS)

Source: Treasury, *Transactions Report-Housing Programs*, 3/28/2016.

As shown in Table 4.5, Ocwen Loan Servicing, LLC, received \$3,411.6 million in total incentive payments, the most of any servicer. The four largest HAMP servicers (Ocwen Loan Servicing, LLC; JPMorgan Chase Bank, NA; Wells Fargo Bank, N.A.; and Bank of America, N.A.) received 71% of all incentives paid out. Only 20% of the incentives paid to Ocwen Loan Servicing, LLC went to homeowners, least among the four largest servicers. Conversely, 27% of incentives paid to Bank of America, N.A. went to homeowners, the highest among the four largest servicers. Of the \$14 billion in total incentives paid to all servicers, 25% went to homeowners, 53% went to investors, and the remaining 22% went to the servicers.

HAMP

HAMP was intended “to help as many as three to four million financially struggling homeowners avoid foreclosure by modifying loans to a level that is affordable for borrowers now and sustainable over the long term.”⁷¹ Homeowners can apply for HAMP until December 31, 2016.⁷²

To obtain HAMP, homeowners participate in a three month trial period, followed by a permanent modification. If the homeowner makes all three modified mortgage payments on time during the trial period, the modification is supposed to become permanent with fixed interest rate and terms for five years. After that the rate may increase by up to 1% per year until it reaches the level prevailing at the time the homeowner began the trial.⁷³

According to Treasury’s official HAMP database, 5,961,553 homeowners applied for HAMP between December 2009 and February 2016, the latest data available. As Figure 4.2 shows, 4,147,741 homeowners, or 70% percent of those who applied, were turned down by their servicers. Another 395,125 fell out during the trial period, and another 395,760 redefaulted after they received a permanent HAMP modification.

FIGURE 4.2
HOMEOWNERS APPLYING FOR HAMP, AS OF FEBRUARY 2016

- ✘ Denied Homeowner Applications (4,147,741 homeowners)
- ✘ Fell out during trial period (395,125 homeowners)
- ✘ Redefaulted and fell out of HAMP (395,760)

Notes: Includes HAMP activity between December 2009 and February 2016. Prior to December 2009 Treasury did not require servicers to report HAMP denials. February 2016 is the most recent detailed data made available by Treasury. Analysis includes HAMP Tier 1, HAMP Tier 2, Treasury/FHA HAMP, and Treasury/RD HAMP as Treasury does not require homeowners denied HAMP be categorized by program type.

Sources: Treasury, "HAMP IMP: Trial Fallout and Denials - Vintage & Reason," February 2016, accessed 4/6/2016; Treasury HAMP data.

While Treasury requires that servicers review a completed HAMP application within 30 days, Treasury allows servicers to extend the review time indefinitely if the application is incomplete, even though the homeowner may not be at fault for any delay or incompleteness.

Servicers pre-screen for basic eligibility: mortgage origination no later than January 1, 2009; outstanding balance not to exceed \$729,750 (more for qualifying multi-unit properties); the property is not condemned; and the participation of the servicer and investor.⁷⁴

Servicers follow a sequence of steps to try to reduce the monthly mortgage payment to less than 31% of the homeowner’s monthly income:

1. Add any unpaid interest and fees to the outstanding mortgage balance;
2. Reduce the interest rate in incremental steps to as low as 2%;
3. Extend the term up to 40 years;
4. Defer and cease charging interest on a portion of the principal balance.⁷⁵

If these steps sufficiently reduce the homeowner’s payment and the modification passes the **NPV test**, the homeowner must be offered a HAMP Tier 1 Trial Period Plan.^{vii} If a homeowner is ineligible for HAMP Tier 1, they must be evaluated for HAMP Tier 2, and if ineligible for both programs, servicers must provide homeowners with written notification of the reason the homeowner was rejected.⁷⁶

More Homeowners Continue to Apply for HAMP Relief Than Servicers Process Each Month

Beginning in July 2014, SIGTARP raised concerns over lengthy delays of several months to even a year or more that homeowners faced in getting a decision on their HAMP application from their servicer. Since SIGTARP’s reporting, some servicers have decreased wait times, but others have not, or actually got worse. According to the most recent data available on Treasury’s website, servicers received an aggregate 49,062 requests for HAMP assistance in February 2016, but only processed 43,722 applications in that month (5,340 fewer than received).⁷⁷ So long as servicers continue to receive more applications than they process each month, increasing numbers of homeowners will face delays in getting action on their requests for HAMP assistance.

Figure 4.3 shows the performance of the top HAMP servicers in February 2016 in reviewing the number of homeowner applications they received that month.

Net Present Value (“NPV”) Test:

Compares the money generated by modifying the terms of the mortgage with the amount an investor can reasonably expect to recover in a foreclosure sale.

For more homeowners who were denied HAMP assistance, see “Mortgage Servicers Have Denied Four Million Homeowner Applications for HAMP Assistance,” in SIGTARP’s July 2015 Quarterly Report to Congress, pages 97-117.

For more on the HAMP application process, eligibility criteria, HAMP Waterfall, and basic differences between HAMP Tier 1 and HAMP Tier 2, see SIGTARP’s January 28, 2015 Quarterly Report, page 143-145 and 149-151.

For additional information about the HAMP application and modification process, please see the discussion, “How HAMP Works,” in SIGTARP’s Quarterly Report to Congress, July 29, 2015, pp. 165-170.

^{vii} Servicers may use principal forgiveness (PRA or otherwise) to reduce the homeowner’s payment, at any point during the HAMP Tier 1 or HAMP Tier 2 Waterfall, but are not required to do so.

FIGURE 4.3
SERVICERS ABLE OR UNABLE TO PROCESS THE NUMBER OF HAMP APPLICATIONS RECEIVED THAT MONTH (FEBRUARY 2016)

Source: Treasury, HAMP Application Activity by Servicer, as of February 2016*, www.treasury.gov/initiatives/financial-stability/reports/Documents/HAMP%20Application%20Activity%20by%20Servicer%20February%202016.pdf, accessed 4/6/2016.

According to data reported by Treasury as of February 2016, only 4 out of the 10 servicers who reported receiving the most applications in that month — Select Portfolio Servicing, Inc., Wells Fargo Bank, NA, CitiMortgage Inc, and Bayview Loan Servicing, LLC — succeeded in processing more applications than they received. Those servicers collectively processed only 1,743 more applications than they received. The remaining servicers reported they were unable to process substantial numbers of the applications that they received in the month. Of which Ocwen Loan Servicing, LLC was the worst, processing only 9,419 applications in the most recent month, 3,259 fewer than it received during the period.

Treasury's data shows that 180,064 homeowners had not had their applications processed through February 2016, out of an aggregate of 9,235,255 applications the servicers reported having received. Despite occasional improvement over time, homeowners still face significant delays, however, as SIGTARP has reported, servicers continue to revise previously reported application data, making comparisons to prior periods difficult. As shown in Table 4.6 at the processing rates reported in Treasury's most recent data (February 2016), it would take 7 of the top 10 HAMP servicers longer than three months to process the number of homeowner applications that hadn't yet received a decision, even were they to receive no additional applications; Citi and Bank of America would take longer than six months.

TABLE 4.6

MONTHS TO PROCESS OUTSTANDING APPLICATIONS AT MOST RECENT RATE BY SERVICER, AS OF 2/29/2016

Servicer Name	Applications Processed in February 2016	Total Applications Unprocessed^a	Months to Process the Homeowners who have already applied^b
CitiMortgage Inc	1,476	15,268	10.3

Homeowners Denied HAMP—7 Out of Every 10 Homeowners Who Apply for HAMP Have Been Turned Away By Their Servicer

Although the rate at which servicers have denied homeowners' HAMP applications has decreased over the last several years, it remains high at 59% in 2016. Figure 4.4 shows the aggregate number and percent of homeowners whose HAMP applications were denied by year.

FIGURE 4.4

HOMEOWNERS WHOSE HAMP APPLICATIONS WERE DENIED, BY YEAR, AS OF FEBRUARY 2016

Note: Excludes HAMP denials and trial starts prior to December 2009. Prior to December 2009 Treasury did not require servicers to report HAMP denials.

Source: Treasury, "HAMP 1MP: Trial Fallout and Denials - Servicer, Vintage & Reason," February 2016, accessed 4/6/2016; Treasury HAMP Data.

Figure 4.5 shows the number of homeowners who were denied a HAMP trial modification, and the number who actually started a HAMP trial, by the seven top HAMP servicers Treasury currently reports on in its quarterly MHA Program Performance Report.

FIGURE 4.5
 HOMEOWNERS DENIED A HAMP TRIAL VS. HOMEOWNERS WHO STARTED A HAMP TRIAL, BY SERVICER, AS OF FEBRUARY 2016

Notes: Excludes HAMP denials and trial starts prior to December 2009. Prior to December 2009 Treasury did not require servicers to report HAMP denials. Prior to December 2009 Treasury did not require servicers to report on the status of all HAMP applications received.

^d Wells Fargo Bank, N.A. includes Wachovia Bank, NA and Wachovia Mortgage, FSB.
^e Nationstar Mortgage LLC includes MorEquity, Inc and the former Aurora Loan Services LLC.

Source: Treasury, "HAMP IMP: Trial Fallout and Denials - Servicer, Vintage & Reason," February 2016, accessed 4/6/2016; Treasury HAMP Data.

CitiMortgage, Inc. had the highest denial rate at 88% - nearly 9 out of 10 homeowners. Other servicers denying the highest percentage of homeowners seeking HAMP were JPMorgan Chase (84%) and Bank of America (79%). Ocwen, the servicer with the largest number of HAMP modifications, has denied 70% of homeowners that sought HAMP. All but one of these servicers (Select Portfolio Servicing, Inc.) deny more than half of those who apply.

Trial Modifications

According to Treasury, as of March 2016, 1,914 (15% of the 12,905 active HAMP Tier 1 trials) have lasted at least six months and, of those, 816 (6% of active HAMP Tier 1 trials) have lasted at least a year.⁷⁸ Additionally, 429 HAMP Tier 1 trials were cancelled and did not convert to permanent modifications (along with 1,011 HAMP Tier 2 trails).

HAMP Mortgage Servicing Transfers

Homeowners in and seeking HAMP get “lost in the shuffle” when their mortgage servicers transferred their loans to other servicers, but their HAMP application or modification gets lost or delayed in the transfer. Delays, omissions, or miscommunications between transferring servicers and new servicers during the transfer can seriously delay, deny, or decrease relief provided to HAMP-eligible homeowners. Homeowners applying for HAMP may be required to submit new applications months later, requiring all new documentation because the past documentation may become stale. Many struggling homeowners who could not afford their original mortgage payment may fall further behind in their mortgage payments during a new, extended application period, which may put their homes at risk or hurt their chances of receiving a HAMP modification.

Homeowners already in a HAMP trial or permanent modification are harmed if the new servicer is not timely informed or does not honor the modification. Even when the homeowner makes the modified HAMP payments on time, if the new servicer does not understand that they are in a HAMP modification before the first monthly payment is due, the new servicer will only see the original terms of the mortgage and deem that homeowner as delinquent on the original terms. New servicers also may recalculate income or payments in a way that disadvantages homeowners.

Treasury’s HAMP rules require that HAMP applications, modifications, and related information be transferred with the mortgages, and that servicers report any transfers of HAMP mortgages to Treasury.⁷⁹ Thousands of HAMP homeowners have had their mortgage servicing transferred, with over 75% acquired by a handful of HAMP servicers. Figure 4.6 presents Treasury’s data on the number of HAMP modifications (trial and permanent) transferred between mortgage servicers since the program began.^{viii}

For more details, see SIGTARP’s report, “Homeowners Can Get Lost in the Shuffle and Suffer Harm When Their Servicer Transfers Their Mortgage But Not the HAMP Application or Modification,” in SIGTARP’s October 2014 Quarterly Report, pages 99-112.

^{viii} “HAMP Modification” herein refers to trial and permanent modifications under HAMP (Tier 1 and Tier 2), FHA HAMP, and RD HAMP. Treasury does not collect detailed information on VA HAMP, as its incentives are not paid using TARP funds.

FIGURE 4.6
CUMULATIVE HAMP SERVICING TRANSFERS – TRIAL AND PERMANENT MODIFICATIONS TRANSFERRED

Note: Analysis excludes 7,528 intracompany transfers.

Source: SIGTARP analysis of Treasury HAMP Servicing Transfer Data.

Through March 2016, Treasury data show that 266,995 mortgages in a HAMP trial or permanent modification had been transferred, of which 1,768 took place in 2016. This compares to 108,806 HAMP servicing transfers in 2013, the year with the most HAMP servicing transfer activity.

According to Treasury’s data, three firms—Ocwen, Select Portfolio Servicing, Inc., and Nationstar Mortgage, LLC—acquired the servicing for 181,382 HAMP loans, or 68% of the total number transferred. Ocwen, alone, acquired 117,227 loans, 44% of the total number transferred. Table 4.7 provides detail on HAMP mortgage servicing transfers, showing the number of transfers between the top ten selling and acquiring servicers.

For more details on HAMP mortgage servicing transfers, see “HAMP Mortgage Servicing Transfers,” in SIGTARP’s April 2015 Quarterly Report, pages 142-147

Source: SIGTARP Analysis of Treasury HAMP Data.

According to Treasury's data, the firms most active in acquiring HAMP mortgage servicing through transfers have changed over time. In the first two years of the program, large bank servicers were among the most active acquirers of HAMP mortgage servicing. In 2009 and 2010, Wells Fargo Bank, NA and Bank of America, NA, respectively, led all servicers in the acquisition of HAMP mortgage servicing; by contrast, non-bank servicer Ocwen Loan Servicing, LLC ("Ocwen") was the most active receiver of HAMP mortgage servicing transfers in each of the next four years through 2014. According to Treasury data, Specialized Loan Servicing, LLC has been the most active acquirer of HAMP mortgage servicing transfers thus far in 2016.

Payment Increases on HAMP-Modified Mortgages

Most homeowners who received HAMP permanent mortgage modifications saw the interest rates on their loans cut in order to reduce their monthly payments and make their mortgages more affordable and sustainable over the long term.⁸⁰ After five years, a homeowner's interest rate can increase, stepping up incrementally by 1% per year until it reaches the rate prevailing at the time the homeowner entered into their trial period. Beginning in 2014 homeowners in HAMP have seen their interest rates rise and monthly mortgage payments go up this year, some by as much as \$1,788 per month.⁸¹

TABLE 4.8

HAMP TIER 1 PERMANENT MODIFICATIONS WITH SCHEDULED PAYMENT INCREASES BY YEAR, AS OF 2/29/2016							
Year Modified	Total Active Permanent Modifications	Permanent Modifications with Scheduled Payment Increases	Modification Status	Interest Rate ^a		Monthly Payment ^a

Notes:

^a Analysis of HAMP permanent modifications with scheduled interest rate and payment increases excludes 55,472 HAMP permanent modifications with incomplete records.

Source: SIGTARP analysis of Treasury HAMP data.

As shown in Table 4.8, 705,722 of the 856,765 (82%) homeowners who had active HAMP Tier 1 permanent modifications as of February 29, 2016 are scheduled for or have experienced these interest rate and payment increases.⁸² These homeowners saw their median interest rate for these loans drop from 6.38% to 2.0% and their median monthly payment drop from \$1,425 to \$777.⁸³ HAMP permanent modifications reduced the median interest rate for these homeowners' loans to 2% and their median monthly payment to \$777.⁸⁴ The scheduled payment increases will cause their median interest rate to rise to 4.5% and their median payment to increase to \$999.⁸⁵ Some homeowners could eventually see their mortgage payments increase by \$1,788 per month; and after all payment increases, the highest mortgage payment any homeowner would pay per month would be \$8,276.⁸⁶

As of February 29, 2016, according to Treasury data, 287,439 homeowners in active HAMP modifications saw their first payment increase and an additional 152,098 will see their payments increase by the end of 2016.⁸⁷

Homeowners in All States Will Be Affected by Payment Increases

Homeowners in all states will experience payment increases, however homeowners in four states account for more than half of the HAMP permanent modifications scheduled for interest rate and payment increases: California, Florida, New York, and Illinois.⁸⁸ Homeowners in 11 jurisdictions face mortgage payment increases that are more than the \$205 national median: California, Hawaii, Maryland, Massachusetts, Nevada, New Jersey, New York, Utah, Virginia, Washington, and Washington, DC.⁸⁹ While 82% of homeowners nationally with HAMP-modified mortgages face scheduled interest rate and payment increases, that percentage is even higher in 16 jurisdictions: Arizona, California, Hawaii, Illinois, Massachusetts, Minnesota, Nevada, New Hampshire, New Jersey, New York, Oregon, Puerto Rico, Rhode Island, Utah, Washington, and Washington, DC.⁹⁰ For state by state detail of scheduled HAMP payment and interest increases, refer to Appendix D.4.

Homeowners Who Have Redefaulted on HAMP Permanent Modifications or Are at Risk of Redefaulting

As of March 31, 2016, 522,687 homeowners fell three months behind in payments and redefaulted out of the program – often into a less advantageous private sector modification or, even worse, into foreclosure.⁹¹ So far in 2016 there were only 24,329 new modifications, while there were 15,328 redefaults. Additionally, as of March 31, 2016, 83,095 (8% of active HAMP permanent modifications) had missed one to two monthly mortgage payments and, thus, are at risk of redefaulting out of the program.⁹²

The likelihood of homeowners redefaulting on their HAMP modifications increases as their modifications age, with homeowners redefaulting on the oldest HAMP permanent modifications at a rate of 60%.^{ix} About half of all homeowners who received a HAMP permanent modification received it in 2009 and 2010. As

^{ix} According to Treasury, Treasury's calculation of redefault rates may exclude some modifications due to missing or invalid data.

of January 2016, homeowners who received HAMP permanent modifications in 2009 redefaulted at rates ranging from 55% to 60%, and homeowners who received HAMP permanent modifications in 2010 redefaulted at rates ranging from 45% to 53%.^{93,x}

According to a Treasury survey of 20 servicers, as of February 29, 2016, 23% of homeowners that redefaulted in HAMP moved into the foreclosure process, 12% lost their home via a short sale or deed-in-lieu of foreclosure, and 28% received an alternative (private sector) modification.⁹⁴

Servicer Redefault Rates

As of March 31, 2016, of 1,372,028 homeowners' HAMP permanent modifications currently serviced by 10 of the largest servicers, 442,232, or 32%, subsequently redefaulted, as shown in Table 4.9.

^x The most recent HAMP redefault data provided to SIGTARP by Treasury only covers through January 2016 and does not account for modifications that redefaulted after 60 months.

TABLE 4.9

HOMEOWNERS' HAMP PERMANENT MODIFICATIONS AND REDEFAULTS CURRENTLY WITHIN SERVICERS' PORTFOLIOS, BY SERVICER, AS OF 3/31/2016

Notes: HAMP include HAMP Tier 1 and Tier 2 modifications, including those that received assistance under the Home Price Decline Protection ("HPDP") and Principal Reduction Alternative ("PRA") programs. Includes both TARP and GSE modifications. Includes modifications listed by the current servicer of the loan.

^a Ocwen Loan Servicing, LLC includes the former Litton Loan Servicing, LLC, GMAC Mortgage, LLC, and Homeward Residential.

^b Wells Fargo Bank, N.A. includes Wachovia Bank, NA and Wachovia Mortgage, FSB.

^c JPMorgan Chase Bank, N.A. includes EMC Mortgage Corporation.

^d Bank of America includes the former BAC Home Loans Servicing LP, Home Loan Services, and Wilshire Credit Corporation.

^e Formerly GreenTree Servicing LLC.

Source: Treasury, "HAMP 1MP: Program Volumes - Combined Tier 1/Tier 2: Top 25 HAMP Servicers - March 2016," accessed 4/21/2016.

Four servicers account for more than half of homeowners' HAMP permanent modifications that redefaulted: Ocwen Loan Servicing, LLC, with 115,157 homeowners' permanent modifications redefaulted; Wells Fargo Bank, N.A., with 62,550 homeowners' permanent modifications redefaulted, Nationstar Mortgage LLC, with 52,110 homeowners' permanent modifications redefaulted and JPMorgan Chase Bank, NA, with 47,856 homeowners' permanent modifications redefaulted.⁹⁵ Of the 10 largest servicers participating in HAMP, the three with the highest percentage of homeowners' HAMP permanent modifications that redefaulted were Specialized Loan Servicing LLC, with 42.6% of homeowners' permanent modifications redefaulted; Select Portfolio Servicing, Inc., with 40.6% of homeowners' permanent modifications redefaulted; and Seterus Incorporated, with 40.2% of homeowners' permanent modifications redefaulted, as compared with the average for the 10 of 32.2%.⁹⁶

Redefaults: Impact on Taxpayers Funding TARP

Taxpayers have lost about \$2 billion in TARP funds paid to servicers and investors as incentives for 276,547 homeowners' non-GSE, HAMP (Tier 1) permanent

mortgage modifications that redefaulted.⁹⁷ As of March 31, 2016, Treasury has distributed \$10.7 billion in TARP funds for 779,288 homeowners' non-GSE, HAMP (Tier 1) permanent modifications.⁹⁸ According to Treasury, \$5.9 billion of that was designated for investor incentives, \$2.4 billion for servicer incentives, and \$2.3 billion for homeowner incentives.⁹⁹ (Homeowner incentives are paid to servicers that, in turn, apply the payment to a homeowner's mortgage). According to Treasury, 19% of those funds were paid for incentives on homeowners' HAMP permanent modifications that later redefaulted.¹⁰⁰

Table 4.10 shows payments for homeowners' HAMP permanent modifications (active, redefaulted, and paid off mortgages) that are currently within servicers' portfolios.

TABLE 4.10

TARP INCENTIVE PAYMENTS ON HOMEOWNERS' HAMP PERMANENT MODIFICATIONS CURRENTLY WITHIN SERVICERS' PORTFOLIOS, AS OF 3/31/2016 (\$ MILLIONS)

Servicer Name	TARP Incentive Payments for Permanents Active	TARP Incentive Payments for Permanents Redefaulted	TARP Incentive Payments for Permanents Paid Off	Total TARP Incentive Payments for Permanents All	Percentage of Total TARP Incentive Payments for Permanents Redefaulted
Ocwen Loan Servicing, LLC ^a	\$2,365.6	\$622.3	\$87.1	\$3,107.5	20%

Other	515.9	204.8	34.9	756.4	27%
Total	\$8,237.2	\$2,004.4	\$358.4	\$10,653.0^f	19%

Notes: Total incentive payments by the current status of the permanent modification (active, redefaulted, or paid off) is broken out in the table by the current servicer of the loan. The incentive payment totals may not tie to the actual amount paid to the servicer as servicing transfers are not taken into account when the current servicer on the loan is used. Totals shown here exclude payments and/or drafts performed for modifications that are not currently Permanent Modifications. Totals shown here include payments under the HAMP Tier 1, Home Price Decline Protection ("HPDP") and Principal Reduction Alternative ("PRA") programs tied to these loans. Figures do not include TARP funded incentives on GSE loans.

^a Ocwen Loan Servicing, LLC includes the former Litton Loan Servicing, LLC, GMAC Mortgage, LLC, and Homeward Residential.

^b JPMorgan Chase Bank, NA includes EMC Mortgage Corporation.

^c Bank of America N.A. includes the former Countrywide Home Loans Servicing, BAC Home Loans Servicing LP, Home Loan Services, and Wilshire Credit Corporation.

^d Wells Fargo Bank, N.A. includes Wachovia Bank, NA and Wachovia Mortgage, FSB.

^e Nationstar Mortgage LLC includes MorEquity, Inc and the former Aurora Loan Services LLC.

^f Totals include \$52.9 million on modifications that the servicer classified as "withdrawals."

Source: Treasury, response to SIGTARP data call, 4/8/2016.

More than half of TARP funds that Treasury spent for HAMP permanent modifications that redefaulted were for mortgages currently serviced by three servicers, Ocwen Loan Servicing, LLC, Select Portfolio Servicing, Inc., and Wells Fargo Bank, N.A. (listed in Table 4.10).^{101,xi} Approximately 90% of TARP funds Treasury spent for HAMP permanent modifications that redefaulted were for mortgages currently serviced by 10 servicers (listed in Table 4.10).¹⁰²

Redefaults: Impact on States

Homeowners are redefaulting throughout the nation. In most states at least 35% of homeowners in the HAMP program have redefaulted on their modifications.¹⁰³ Table 4.11 shows a state level breakdown of the number of homeowners with HAMP permanent modifications, the number of homeowners with active permanent modifications, the number who have redefaulted on modifications, and the redefault rates.

^{xi} Total incentive payments by the current status of the permanent modification (active, redefaulted, or paid off) is broken out in the table by the current servicer of the loan. The incentive payment totals may not tie to the actual amount paid to the servicer as servicing transfers are not taken into account when the current servicer on the loan is used.

HAMP Tier 2

Effective June 1, 2012, HAMP Tier 2 expanded HAMP to allow for modifications on mortgages of non-owner-occupied "rental" properties that are tenant-occupied or vacant.¹⁰⁴ HAMP Tier 2 also allows homeowners with a wider range of debt-to-income situations to receive modifications, and may be used to provide assistance to homeowners that have, or are at risk of, redefaulting in HAMP Tier 1 Modifications.¹⁰⁵

Homeowners that meet basic eligibility criteria, but are not eligible for a HAMP Tier 1 modification, are evaluated for HAMP Tier 2 if their servicer and investor/lienholder participates. When considering a mortgage for HAMP Tier 2, the servicer will apply the following actions to determine whether the modification will result in a payment that is between 25-42% of the homeowner's monthly income and is no greater than the homeowner's payment before the modification.^{xii}

^{xii} Servicers may modify loans with a post modification payment as low as 10% or as high as 55% under HAMP Tier 2, as long as the threshold is consistently applied across all loans they service.

1. Add any unpaid interest and fees to the outstanding balance;
2. Change the interest rate to the prevailing rate for a 30-year conforming fixed interest rate mortgage less 50 basis points;^{xiii}
3. Extend the term to up to 40 years;
4. At the servicer's option, defer the due date and cease charging interest on a portion of the outstanding balance (principal forbearance) so that the interest bearing portion of the mortgage is no more than 115% of market value of the property at the time of the evaluation.

If these steps sufficiently reduce the homeowner's payment and the modification passes the NPV test, the homeowner would be offered a HAMP Tier 2 Trial Period Plan.¹⁰⁶

According to Treasury, as of March 31, 2016, a total of 60 of the 76 servicers with active MHA servicer agreements had fully implemented HAMP Tier 2, including all of the 10 largest servicers.¹⁰⁷ According to Treasury, as of March 31, 2016, it had paid \$729 million in TARP funds for incentives on 158,599 HAMP Tier 2 permanent modifications, 125,863 of which remain active.¹⁰⁸ Approximately 22,593 of homeowners in active HAMP Tier 2 permanent modifications were previously in HAMP Tier 1 permanent modifications.¹⁰⁹ Figure 4.7 shows HAMP Permanent Modification Activity by Quarter and Tier.

^{xiii} Prior to July 1, 2014 the post modification interest rate used on HAMP Tier 2 modifications was the 30-year conforming fixed interest rate mortgage plus 50 basis points, effective July 1, 2014 Treasury reduced this by 50 basis points, effective January 1, 2015 the rate was further reduced by 50 basis points. As a result, the post modification interest rate for Tier 2 modifications is now the 30-year conforming fixed interest rate mortgage less 50 basis points. Treasury, "Supplemental Directive 12-04: MHA Dodd-Frank Certification, Borrower Identity and Owner-Occupancy Verification," 7/13/2012, www.hmpadmin.com/portal/news/docs/2012/hampupdate071312.pdf, accessed 4/1/2016; Treasury, "Supplemental Directive 12-02, MHA Extension and Expansion," 3/9/2013, www.hmpadmin.com/portal/programs/docs/hamp_servicer/sd1202.pdf, accessed 4/1/2016; Treasury, "Making Home Affordable Program Handbook for Servicers of Non-GSE Mortgages, Version 5.0," 1/6/2016, www.hmpadmin.com/portal/programs/docs/hamp_servicer/mhahandbook_5.pdf, accessed 4/1/2016.

FIGURE 4.7

HAMP PERMANENT MODIFICATION STARTED BY QUARTER AND TIER, AS OF 3/31/2016

Note: Includes TARP and GSE permanent modifications.

Sources: Treasury, HAMP IMP Programs Volumes Supplemental – Modification Effective Month by Tier – March 2016, accessed 4/21/2016.

As shown in Figure 4.7, HAMP Tier 2 activity has increased relative to HAMP Tier 1 over the past few years. During the last 12 months 54,332 homeowners obtained HAMP Tier 2 modifications compared to 49,142 homeowners that received HAMP Tier 1 modifications in that period.

HAMP Tier 2 mortgage modification activity and property occupancy status is shown in Table 4.12.

TABLE 4.12

HAMP TIER 2 FIRST LIEN MODIFICATION ACTIVITY AND OCCUPANCY STATUS, AS OF 3/31/2016

Property Type	Trials Started	Trials Cancelled	Trials Active	Trials			
				Converted Permanent	Permanents Disqualified	Permanents Paid-Off	Permanents Active
Borrower Occupied	176,932	12,681	14,994	149,257	29,165	1,761	118,275
Tenant Occupied	9,675	637	876	8,162	1,397	125	6,640
Vacant	1,431	115	136	1,180	212	20	948
Total	188,038	13,433	16,006	158,599	30,774	1,906	125,863

Source: Treasury, "HAMP IMP Program Volumes – Tier 2 Property Type – March 2016," accessed 4/21/2016.

According to Treasury data, of the 188,038 HAMP Tier 2 trial mortgage modifications started, 176,932 (94%), were for owner-occupied properties; 9,675 (5%), were for tenant-occupied properties (as represented by homeowner at time of application), and 1,431 (1%) were for vacant properties.¹¹⁰ In the quarter ending March 31, 2016, 14,345 Tier 2 trials were started (down from 15,299 in the preceding quarter), 13,871 trials converted to permanent modifications (up from 12,657 in the preceding quarter), and 3,890 Tier 2 modifications redefaulted (down from 4,890 in the preceding quarter). As of March 31, 2016 there were 125,863 homeowners active in HAMP Tier 2 trial modifications, compared to 116,202 at the previous quarter end.¹¹¹

Streamline HAMP

Effective January 1, 2016 Streamline HAMP became active. Streamline HAMP removes some of the eligibility requirements, such as income and front-end-debt-to-income ratios, and lessens the requirements for homeowners to provide documentation. The program is available to homeowners at least 90 days delinquent on their mortgage. Treasury requires large servicers to have a policy for evaluating homeowners for this program, but it is optional for smaller servicers. According to Treasury, Streamline HAMP is intended to reach more homeowners, and get them into HAMP more efficiently, than other HAMP programs. As of March 31, 2016, Treasury has not reported any Streamline HAMP activity.

Home Affordable Unemployment Program (“UP”)

In July 2010, Treasury created UP, under which eligible unemployed homeowners seeking HAMP assistance can have their mortgage payments, for up to 12 months, temporarily postponed or reduced to no more than 31% of their monthly gross income (including unemployment benefits). Homeowners can apply for assistance under the program until December 31, 2016.¹¹²

Homeowners who are approved to receive unemployment benefits who apply for HAMP, and are not more than 12 months delinquent, must be evaluated for and offered UP if eligible, regardless of the borrower’s monthly mortgage payment ratio or a prior payment default on a HAMP trial or permanent modification.¹¹³ Alternatively, servicers may evaluate unemployed borrowers for HAMP and offer a HAMP trial period plan instead of an UP forbearance plan if, in the servicer’s business judgment, HAMP is the better loss mitigation option.¹¹⁴ Re-employed borrowers with reduced income still facing a hardship must be considered for HAMP. If the borrower is eligible, any payments missed prior to and during the period of the UP forbearance plan are capitalized as part of the normal HAMP modification process.¹¹⁵ If the UP forbearance period expires and the borrower is ineligible for HAMP, the borrower may be eligible for MHA foreclosure alternatives, such as HAFA.¹¹⁶

As of February 29, 2016, which is the latest data available from Treasury, 45,326 homeowners had started a UP forbearance plan—less than one-third of the 170,714 homeowners who had applied for UP relief.¹¹⁷ As of February 29,

For more information on HAMP UP, see ‘Home Affordable UP: A Highly Underutilized Program,’ in SIGTARP’s October 2014 Quarterly Report, pages 136-137, and SIGTARP’s October 2013 Quarterly Report, pages 95-96.

2016, 1,518 homeowners (just over 3% of those who had started an UP plan) were actively participating in the program.¹¹⁸ The number of homeowners in an active UP plan has declined in seven of the last 12 months and, as of February 29, 2016, was less than half of the corresponding number as of February 28, 2015.¹¹⁹

TABLE 4.13

CUMULATIVE HOMEOWNER HAMP UP ACTIVITY, AS OF 2/29/2016

	Dec. 2010	Dec. 2011	Dec. 2012	Dec. 2013	Dec. 2014	Dec. 2015	Feb. 2016
Homeowners Requesting UP Assistance ^a	24,402	66,842	98,270	125,557	145,622	167,794	170,714
UP Forbearance Plans Started	6,961	18,403	30,525	38,445	42,142	44,990	45,326
Completed UP Forbearance Plans ^b	584	8,835	14,583	20,250	22,628	24,145	24,332
Active UP Forbearance Plans	5,967	6,113	7,786	5,482	3,671	1,548	1,518

Notes:

^a "Homeowners Requesting UP Assistance" is the sum of "Total UP Forbearance Plans Started" and "Total UP Forbearance Requested & Denied" as reported by Treasury.

^b Under Treasury guidance, "completed" UP plans include situations where the "forbearance plan term (including any extensions) have expired, where the borrower has been re-employed, or where the borrower has moved into another forbearance plan, such as a Federal Declared Disaster (FDD) or Hardest Hit Fund plan."

Source: Treasury, Home Affordable Unemployment Program Non-GSE Forbearance Plans Worksheets, various dates.

As shown in Table 4.13, as of February 29, 2016, approximately half (54%, or 24,332) of homeowners completed their UP forbearance plan successfully, while 43% (19,476) fell out of UP.¹²⁰ According to Treasury data, fewer than one out of every five homeowners who started an UP plan went on to receive a HAMP modification (including 5,154 homeowners who successfully completed their UP plans, and 3,192 who did not).¹²¹ Servicer participation in UP is voluntary—there is no TARP funding for UP, and HAMP servicers are not paid for participating—which may in part explain the program's low utilization. Through February 29, 2016, only 3,681 of the homeowners who obtained UP assistance had previously been in a HAMP modification.¹²²

Home Affordable Foreclosure Alternatives ("HAFA")

Starting in April 5, 2010,^{xiv} Treasury began providing incentives to servicers, homeowners, and investors to encourage short sales or deeds-in-lieu of foreclosure as alternatives to foreclosure.¹²³ Under HAFA, the servicer forfeits the ability to pursue a **deficiency judgment** against a borrower when the proceeds from the short sale or deed-in-lieu are less than the outstanding amount on the mortgage. In exchange for facilitating a HAFA transaction, the program also pays servicers up to \$1,500, and reimburses investors up to \$8,000 for a portion (currently two-thirds) of payments made to subordinate lienholders in exchange for releasing the lien and the borrower's liability.¹²⁴ HAFA may be used to help prevent foreclosures on primary residences, investment properties, or second/vacation homes.

Relocation assistance may be paid to qualifying homeowners or tenants as long as the homeowner or tenant resided in the property at the time HAFA assistance

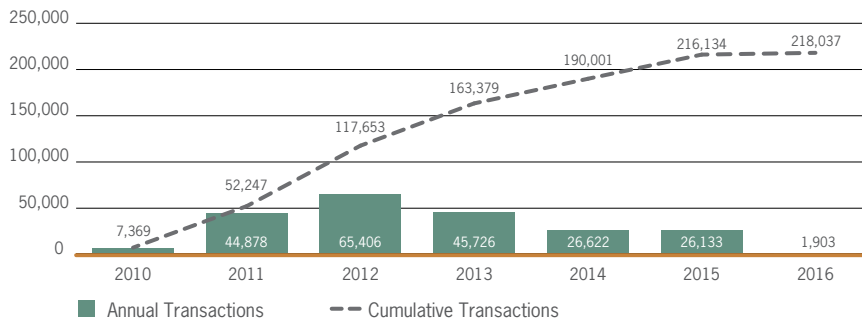

Deficiency Judgment: Court order authorizing a lender to collect all or part of an unpaid and outstanding debt resulting from the borrower's default on the mortgage note securing a debt. A deficiency judgment is rendered after the foreclosed or repossessed property is sold when the proceeds are insufficient to repay the full mortgage debt.

^{xiv} Treasury announced that some servicers could implement HAFA before April 5, 2010.

was requested and was required to vacate as a condition of the short sale or deed-in-lieu.^{xv} In October 2014, Treasury announced an increase from \$3,000 to \$10,000 in the relocation assistance payable to eligible homeowners and tenants who are required to vacate the property as a condition to the short sale or deed-in-lieu transaction for HAFA transactions closing after February 1, 2015.¹²⁵ If the homeowner qualifies for HAFA relocation assistance, they are paid when the short sale or deed-in-lieu is closed. If the property was only occupied by a tenant and not the homeowner, then the servicer must provide the relocation assistance directly to the tenant, with no proceeds going to the homeowner.¹²⁶

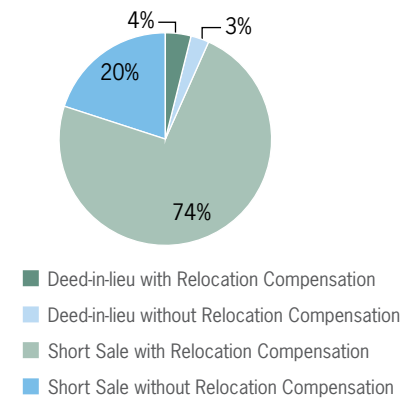

Through March 31, 2016, HAFA has assisted 218,037 homeowners, approximately 203,886 with short sales and 14,151 with deed-in-lieu transactions.¹²⁷ According to Treasury’s data, in the twelve months ended March 31, 2016, just 21,033 HAFA transactions have been completed, down from 26,884 in the twelve months ended March 31, 2015. HAFA transactions have decreased quarter over quarter in 7 of the last 10 quarters.¹²⁸ According to Treasury’s data, 77% of HAFA transactions through March 31, 2016, involved relocation assistance, while 23% did not.¹²⁹ As of that date, Treasury had paid \$1.2 billion in incentives to borrowers, servicers and investors.¹³⁰

FIGURE 4.9

^{xv} For deed-in-lieu transactions, the servicer can allow the borrower to remain in the home as a renter (referred to as a “deed-for-lease”) or to repurchase the property later, but such transactions are not eligible for relocation assistance. Treasury, “Making Home Affordable Program Handbook for Servicers of Non-GSE Mortgages, Version 5.0,” 1/6/2016, www.hmpadmin.com/portal/programs/docs/hamp_servicer/mhahandbook_5.pdf, accessed 4/1/2016.

Housing Finance Agency Hardest Hit Fund (“HHF”)

In February 2010, the Administration launched the Housing Finance Agency Innovation Fund for the Hardest Hit Housing Markets (“Hardest Hit Fund” or “HHF”) to use \$7.6 billion in TARP funds for “innovative measures to help families in the states that have been hit the hardest by the aftermath of the housing bubble.”¹³¹ In February 2016, Treasury announced that \$2 billion in TARP funds would be reallocated to HHF, increasing the total HHF amount to \$9.6 billion.¹³² Of the \$2 billion allocated, \$1 billion was allocated immediately to 18 of 19 states participating in HHF.^{xvi} This TARP-funded housing support program was to be developed and administered by state housing finance agencies (“HFAs”) in 18 states and the District of Columbia with Treasury’s approval and oversight.^{133,xvii} Treasury picked states that it deemed to have significant home price declines and high unemployment rates.¹³⁴

Program Assistance

As of December 31, 2015, Treasury has approved the use of HHF funds to provide three types of assistance:

- homeowner assistance to help at-risk homeowners, largely unemployment/underemployment assistance, in HHF states avoid foreclosure and remain in their homes;
- homebuyer assistance to help buyers purchase properties in HHF states; and
- demolition assistance to help state HFAs demolish vacant and abandoned properties (blight elimination).

As of December 31, 2015, 74.9% of the HHF funds spent by state HFAs went to unemployment assistance, including to help pay past-due amounts on a mortgage.¹³⁵ As SIGTARP found in its April 2012 audit, these were the only types of assistance for which the Government sponsored enterprises (“GSE”s) previously directed servicers to participate. The additional HHF assistance provided to homeowners can be broken down to 21.5% for mortgage modification assistance, including principal reduction assistance, 0.4% for second-lien reduction assistance, and 0.1% for transition assistance.¹³⁶

As of December 31, 2015, three state HFAs (Michigan, Ohio, and Indiana) had spent \$135.1 million (up from \$99.4 million as of the prior quarter) to demolish 9,293 properties under the Blight Elimination Program, representing 2.9% of all HHF expenditures. According to information reported to Treasury by those three state HFAs as of December 31, 2015 (the only ones to report HHF demolition activity to Treasury), HHF Michigan had spent \$111.2 million (82% of all Blight spending) to demolish 7,435 properties, HHF Ohio spent \$19 million (14% of

^{xvi} The 18 states that received additional HHF funding were able to apply for a portion of the remaining \$1 billion by submitting their application to Treasury. Applications were due to Treasury by March 11, 2016.

^{xvii} Participating HFAs in HHF are from: Alabama, Arizona, California, Florida, Georgia, Illinois, Indiana, Kentucky, Michigan, Mississippi, Nevada, New Jersey, North Carolina, Ohio, Oregon, Rhode Island, South Carolina, Tennessee, and Washington, DC. According to Treasury, as of March 31, 2016, there were 80 active HHF programs run by the 19 state HFAs. According to Treasury, nine state HFAs had previously reported that they had stopped accepting applications for assistance from homeowners after determining that their allocated HHF funds would likely be spent on homeowners already approved for HHF assistance (Illinois, Kentucky, Michigan, New Jersey, Rhode Island, Ohio, Oregon, Tennessee and Washington, DC), although, as of March 31, 2016, five of them indicated they were again accepting applications for HHF assistance under select programs (Illinois, Kentucky, New Jersey, Oregon, and Washington, DC).

all Blight spending) to demolish 1,588 properties, and HHF Indiana spent \$4.9 million (4% of all Blight spending) to demolish 270 properties.¹³⁷

Two state HFAs, HHF Florida and HHF Illinois have reported spending HHF funds for down payment assistance programs. Florida has spent \$10.2 million, less than 0.3% of all HHF expenditures, to assist 687 homebuyers, and Illinois has spent \$3.3 million, less than 0.1% of all HHF expenditures, to assist 435 homebuyers under its down payment assistance program.¹³⁸

States' TARP Allocations and Spending for HHF

Of the \$9.6 billion in TARP funds available for HHF, as of March 31, 2016, state HFAs collectively had drawn down \$6.4 billion (67%), up from \$5.8 billion in the prior quarter. As of December 31, 2015, 74.9% of this funding went to unemployment assistance.¹³⁹ However, as of December 31, 2015, the latest date for which detailed spending data is available from the state HFA Quarterly Financial Reports, which are one quarter behind,^{xviii} only \$4.6 billion had been spent on direct assistance to 248,620 individual homeowners; three state HFAs had spent another \$135.1 million on blight elimination (which does not directly assist individual homeowners); two state HFA had spent \$13.4 million to provide 1,122 homebuyers with down payment assistance. As of December 31, 2015, HHF states had also spent \$603.5 million in HHF funds on administrative expenses, held \$514.2 million as unspent cash-on-hand, and had an aggregate of \$1.8 billion remaining in undrawn funds available for HHF.¹⁴⁰

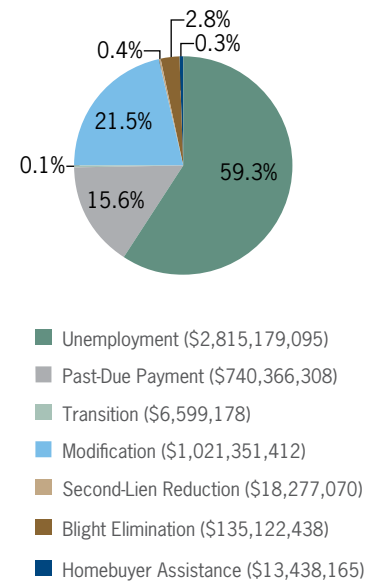

Treasury approves state HFAs' allocation of their available HHF funds to specific HHF programs in each state, documented in HHF participation agreements entered into between the state HFA and Treasury, and the state HFAs then commit and disburse those funds. According to Treasury, committed program funds are funds that the state HFAs have committed and intend to disburse to homeowners, homebuyers, and others who have been approved to participate in HHF programs. State HFAs vary as to when and how they capture and report funds as committed and, in the financial reports submitted to Treasury, state HFAs record committed funds variously as program assistance, cash-on-hand, or undrawn funds.

Generally, state HFAs can only reallocate HHF funds between programs by amending their participation agreements with Treasury. However, for state HFAs that have committed approximately 80% or more of their allocated HHF funds, Treasury has established a "streamlined reallocation process," which allows those HFAs that Treasury has authorized to use it to reallocate funds among its HHF programs, subject only to getting Treasury's written approval rather than formally amending their HHF participation agreements. As of March 31, 2016, five state HFAs—Rhode Island, Illinois, Oregon, Ohio, and North Carolina—have been approved to use this streamlined process.¹⁴¹ In the quarter ended March 31, 2016, none of the five states approved for the "streamlined reallocation process" reallocated funds.¹⁴²

Figure 4.11 shows state uses of TARP funds obligated for HHF by percent, as of December 31, 2015, the most recent figures available.

For more information on HHF homebuyer assistance, please see pages 122–126.

^{xviii} The HFA Quarterly Financial Reports reconcile each type of cash disbursement to funds drawn from Treasury, reporting all expenses based on actual cash disbursements. Cash-on-hand may also include lien recoveries and borrower remittances.

FIGURE 4.11

STATE HFA USES OF \$7.6 BILLION OF TARP FUNDS AVAILABLE FOR HHF, BY PERCENT, AS OF 12/31/2015

Note: State spending figures from each state's Quarterly Financial Report are as of December 31, 2015, the most recent available, and include actual cash expense disbursements and cash-on-hand (which may include lien recoveries and borrower remittances).

* Oregon data reported as percentages of total program and administration expenses, plus cash on hand, reported as of December 31, 2015. The unique structure of certain of Oregon's HHF programs (which extended new mortgage loans, and then recycled principal and interest received from those loans back into the program) enabled HHF Oregon to report total HHF funds used of \$251.2 million as of that date: \$199.1 million in homeowner assistance, \$35.5 million in administrative expenses, and \$16.6 million held as cash-on-hand.

Sources: Treasury, *Transactions Report-Housing Programs*, 3/28/2016; Treasury, responses to SIGTARP data calls.

Homeowner Assistance in HHF Programs

In the beginning of 2011, state HFAs collectively estimated that they would help 546,562 homeowners with HHF.¹⁴³ Since then, with Treasury’s approval, state HFAs have reduced that to 302,989 homeowners (243,573 fewer homeowners than they estimated helping with HHF in 2011, a reduction of 45%).¹⁴⁴ According to Treasury, as of December 31, 2015, state HFAs had spent \$4.6 billion to help 248,620 individual homeowners. For the quarter ended December 31, 2015 alone, states spent \$201.8 million to help 6,843 homeowners.¹⁴⁵ Five state HFAs have reduced their estimates by more than 50%: Illinois (53% reduction), Florida (64% reduction), Nevada (66% reduction), Rhode Island (74% reduction), and Michigan (83% reduction). Homeowners may be counted more than once if they receive assistance from multiple HHF programs.

Table 4.14 provides each state HFA’s estimate of the number of homeowners it projects it will help and the actual number of homeowners helped as of December 31, 2015.^{xix}

TABLE 4.14

Continued on next page

For more information on HHF, see: SIGTARP’s April 12, 2012, audit report, “Factors Affecting Implementation of the Hardest Hit Fund Program,” and SIGTARP’s July 2014 Quarterly Report, “Treasury Should Use HAMP and HHF Together to Help as Many Homeowners as Possible Avoid Foreclosure,” pages 277-290.

^{xix} Program participation and homeowners assisted data does not take into account the status of the mortgage (i.e., active, delinquent, in foreclosure, foreclosed, or sold) of homeowners who received TARP-funded HHF assistance.

HHF ESTIMATED AND ACTUAL NUMBER OF BORROWERS ASSISTED AND ASSISTANCE PROVIDED BY STATE HFAS AS OF 12/31/2015 (CONTINUED)

Recipient	Estimated Number of Participating Households to be Assisted by 12/31/2017 ^a	Actual Borrowers Receiving Assistance as of 12/31/2015	Assistance Provided as of 12/31/2015 ^b
Tennessee	7,355	7,355	\$169,983,367
District of Columbia	1,300	706	13,748,499
Total	302,989	248,620	\$4,637,158,326

Notes:

^a Total of the individual program estimates each state HFA provides for all HHF programs (includes highest estimate of a range), which according to Treasury may not necessarily match the number of actual borrowers (unique households) that the states expect to assist because some households may participate in more than one HHF program. The aggregate estimate of homeowners excludes the number of homebuyers the states estimate assisting, and the number of blighted properties to be eliminated.

^b Actual cash disbursements for program expenses reported on each state's Quarterly Financial Report excludes assistance spent on Blight Elimination and Homebuyer Assistance.

Sources: Latest HFA Participation Agreements as of 12/31/2015 (subsequent amendments are not included); Fourth Quarter 2015 HFA Performance Data quarterly reports, Quarterly Performance Reports, and HFA Aggregate Quarterly Report; Treasury, response to SIGTARP data call, 4/4/2016.

According to Treasury, nine state HFAs had reported that they had previously stopped accepting applications for assistance from homeowners after determining that their allocated HHF funds would be spent on homeowners who already have been approved for HHF assistance: Illinois, Kentucky, Michigan, New Jersey, Ohio, Oregon, Rhode Island, Tennessee, and Washington, DC.¹⁴⁶ According to Treasury, however, as of March 31, 2016, five of them indicated they were again accepting applications for HHF assistance under select programs (Illinois, Kentucky, New Jersey, Oregon, and Washington, DC).¹⁴⁷

HHF Assistance for At-Risk Homeowners: State by State HHF Performance

Fewer than half of all homeowners who sought HHF assistance from their state HFA have gotten it, based on a national average as of December 31, 2015 (the latest data available): only 42% of homeowners who requested HHF assistance were admitted.¹⁴⁸ Table 4.15 shows the number of homeowners who applied for HHF assistance, the number of homeowners who received assistance, and the homeowner admission rate for each participating state HFA, as of December 31, 2015.

For more information on the challenges facing homeowners seeking HHF assistance, see SIGTARP's special report, "Homeowners Have Struggled with Low Admission Rates and Lengthy Delays in Getting Help from TARP's Second-Largest Housing Program—the Hardest Hit Fund," in its October 28, 2015 Quarterly Report (pages 107-121).

TABLE 4.15

HHF HOMEOWNER ADMISSION RATE BY HHF STATE, PROGRAM TO DATE, AS OF 12/31/2015

TREASURY OPENS TARP TO HOMEBUYERS

APPROVES DOWN PAYMENT ASSISTANCE TO “FIRST-TIME” HOMEBUYERS

Beginning in April 2015, Treasury began approving the use of TARP’s HHF funds to provide down payment assistance to homebuyers (“Homebuyer Assistance”), not just homeowners, starting with HHF Florida, which reallocated \$50 million to its Down Payment Assistance Program.^{153,xx} Although Treasury had previously rejected a similar proposal from HHF Florida in 2010, Treasury officials told SIGTARP the 2015 proposal was more narrowly focused on preventing foreclosures and took into consideration the state’s declining unemployment rates.

Since approving HHF Florida’s request, Treasury has approved five additional state housing finance agencies (“HFAs”) to reallocate a total of \$176.2 million in HHF funding to Homebuyer Assistance as of April 1, 2016: HHF Illinois (\$30 million), HHF North Carolina (\$30 million), HHF Kentucky (\$15.5 million), HHF Rhode Island (\$2.7 million), and HHF Arizona (\$48 million). HHF Florida reported to Treasury that it had provided an average of \$14,812 in Homebuyer Assistance to 687 homebuyers as of December 31, 2015 (HHF data on file with Treasury is one quarter behind). As of December 31, 2015, Illinois has reported providing \$3.3 million in assistance to 435 homebuyers (an average of \$7,500 per homebuyer).¹⁵⁴ On April 1, 2016, two states, North Carolina and Kentucky, received Treasury approval for increased allocations, of \$15 million and \$8.5 million, respectively, to their Down Payment Assistance programs.¹⁵⁵

Through Homebuyer Assistance, homebuyers can receive a one-time payment ranging from up to \$7,500 to up to \$20,000 for down payment and closing costs for their property purchase.

Treasury’s approval of Homebuyer Assistance further changes HHF’s use. As with Treasury’s previous expansion of HHF to include the demolition of vacant and abandoned properties (blight elimination), Homebuyer Assistance represents a shift away from providing direct assistance to individual homeowners at risk of losing their homes. TARP for the first time now assists homebuyers rather than at-risk homeowners. As with blight elimination, this new use of TARP and the design of the assistance present vulnerabilities to fraud, waste, and abuse. And, as with blight elimination, SIGTARP promptly recommended to Treasury steps to strengthen TARP against those vulnerabilities, and to facilitate effective oversight.^{xxi}

For more on SIGTARP’s Recommendations to Treasury, see SIGTARP’s July 2015 Quarterly Report, pages 58-63 and 396-399.

^{xx} Funding was reallocated from Florida’s unemployment assistance and reinstatement assistance programs.

^{xxi} SIGTARP, Letter to Treasury, 5/19/2015 (reprinted at SIGTARP, Quarterly Report to Congress, July 29, 2015, Appendix K).

“First-Time Homebuyers”

Although Treasury’s public statements about this TARP assistance claim it is for first-time homebuyers, it is not limited to those purchasing their first home. Instead, HHF Homebuyer Assistance piggy-backs on existing, non-HHF homebuyer programs in each of the six states. For Homebuyer Assistance, a “first-time homebuyer” is generally defined as someone who has not owned their primary residence in the past three years (unless they qualify for a specific veteran’s or other eligibility exception).^{xxii}

According to Treasury, each of the state HFAs will target this assistance to homebuyers in counties hit hard by the housing crisis (as measured by mortgage delinquencies, foreclosures, negative equity, short- and REO sales), and that had a threshold level of new mortgage originations.¹⁵⁶ HHF Illinois estimates helping the largest number of homebuyers (4,000), while HHF Kentucky and HHF Rhode Island project helping the fewest: 1,316 and 135 homebuyers, respectively. The table below summarizes additional key features of Homebuyer Assistance in these states.

HHF HOMEBUYER ASSISTANCE PROGRAM				
State HFA	Program Approved	Allocated TARP Funds	Homebuyer Assistance Cap	Estimated Homebuyers
Florida	4/21/2015	\$50 million	\$15,000	3,333
Illinois	7/30/2015	\$30 million	\$7,500	4,000
North Carolina	8/21/2015	\$30 million	\$15,000	2,000
Kentucky	10/28/2015	\$15.5 million	\$15,000	1,316
Rhode Island	11/24/2015	\$2.7 million	\$20,000	135
Arizona	12/18/2015	\$48 million	\$20,000*	2,816
Total		\$176.2 million		13,600

* The lesser of 10% of purchase price amount or \$20,000.

Sources: Each state HFA’s Commitment to Purchase Financial Instrument and HFA Participation Agreement and subsequent amendments, various dates, accessed 4/1/2016; Treasury response to SIGTARP data call, 4/4/2016.

TARP Homebuyer Assistance is Not Limited to Low Income Homebuyers

Treasury did not limit this TARP assistance to low income homebuyers. Homebuyers with incomes up to nearly double the area median income in certain states can receive these TARP funds. HHF Kentucky, for example, will provide TARP assistance to homebuyers with up to 175% of area median income. HHF Kentucky is not alone. HHF Arizona will provide TARP assistance to homebuyers with incomes of up to one and a half times the state’s median income. The other

^{xxii} Eligible first-time homeowners must purchase their home using a 30-year fixed rate first mortgage loan that meets applicable FHA, VA, USDA-Rural Development, and Fannie Mae/Freddie Mac requirements.

state HFAs will provide TARP assistance available to homebuyers with up to 140% of area median income.^{xxiii}

HHF HOMEBUYER ASSISTANCE PROGRAM

State HFA	Homebuyer Income Limit (% of Area Median)	Homebuyer Debt-to-Income Limit
Florida	140%	45%
Illinois	140%	45%
North Carolina	140%	45%
Kentucky	175%	45%
Rhode Island	140%	43–45%
Arizona	150%	43–45%

Sources: Each state HFA's Commitment to Purchase Financial Instrument and HFA Participation Agreement and subsequent amendments, various dates, accessed 4/18/2016.

TARP Homebuyer Assistance is Not Limited to Purchases of Low- or Mid-Priced Houses, or of Existing Houses

Homebuyers may also qualify for Homebuyer Assistance when purchasing houses that cost more than triple the median home price in participating states. For example, HHF Kentucky makes Homebuyer Assistance available for purchases of homes up to \$294,000, compared to a median house price of \$86,700 in that state.¹⁵⁷ Similarly, HHF Rhode Island's guidelines allow a purchase price of \$407,195 (median house price: \$133,000), and HHF Arizona allows Homebuyer Assistance for purchases of homes costing up to \$356,352—three times that state's median house price of \$121,300.¹⁵⁸ It is difficult to evaluate the purchase price limits that apply to homebuyers in other HHF states, as those limits are set by reference to the states' non-HHF homebuyer program criteria, and are not transparent and included in the state HFAs' agreements with Treasury.

Two state HFAs' agreements with Treasury do not prohibit and thus potentially make this TARP assistance available for properties that are newly constructed (HHF Kentucky and HHF Rhode Island).^{159,xxiv} Of the six state HFAs approved by Treasury to offer Homebuyer Assistance under HHF, HHF Rhode Island is the only one to require that Homebuyer Assistance be used to help first-time buyers of properties that had previously suffered foreclosures, short sales, or receiverships via state or municipal property disposition programs.

TARP Homebuyer Assistance Could Go to Real Estate Investors to Buy Multifamily Properties

Treasury allows these TARP funds to be used to support real estate investment in multifamily properties as long as the buyer occupies one unit as a primary residence. HHF Illinois will provide TARP assistance for the purchase of properties

^{xxiii} Homebuyers must also be "creditworthy," with FICO scores exceeding specified minimums.

^{xxiv} According to Treasury, Homebuyer Assistance will not be available in Florida to purchase newly constructed properties even though Florida HFA's Participation Agreement does not explicitly prohibit it from doing so.

with up to 2 units, while HHF in Florida, North Carolina, Rhode Island and Arizona will provide TARP assistance for the purchase of even larger, 2-4 unit structures. HHF Kentucky explicitly limits TARP assistance to purchases of a single-family unit.

HHF DOWN PAYMENT ASSISTANCE PROGRAM

State HFA	Multifamily Allowed	New Construction Allowed*
Florida	✓ (2-4 Units)	X
Illinois	✓ (1-2 Units)	X
North Carolina	✓ (2-4 Units)	X
Kentucky	X	✓
Rhode Island	✓ (2-4 Units)	✓
Arizona	✓ (2-4 Units)	X

* Provision of TARP assistance to purchase newly constructed properties is not explicitly excluded by the terms the respective HFA Participation Agreement. According to Treasury officials, HHF Florida will not provide Homebuyer Assistance to purchase newly constructed properties, even though its HFA Participation Agreement does not explicitly prohibit it from doing so.

Sources: Each state HFA's Commitment to Purchase Financial Instrument and HFA Participation Agreement and subsequent amendments, various dates, accessed 4/18/2016.

Oversight and Preventing Fraud, Waste, and Abuse

Although piggy-backing on states' existing non-HHF programs may provide Treasury comfort that a particular state HFA has a program infrastructure in place, existing state programs may not effectively protect against fraud, waste, and abuse for a federal program. For effective TARP oversight, Treasury must protect TARP programs. On May 19, 2015, SIGTARP sent a letter to Treasury outlining potential vulnerabilities in this new type of HHF assistance and made recommendations designed to help Treasury prevent fraud, waste, and abuse and protect the program as strongly as possible. Strong protection starts with Treasury monitoring down payment assistance activities, including requiring detailed reporting and an up-to-date list of homebuyers receiving TARP funds and their addresses. However, Treasury does not require this, and only requires limited reporting on the assistance provided.

Requiring detailed reporting helps Treasury uncover risks associated with improper TARP payments, commingling of funds and reporting (state and federal), and fraud, waste, and abuse. For example, the program may be at risk if the sale of a home is not at arm's-length, such as if the buyer is related or affiliated to the prior owner. Also, because the program provides for assistance to buy multifamily homes up to four units (as long as one is a primary residence), this is essentially providing TARP assistance to real estate investors, which raises other risks to the program. There is also the risk that the homebuyer-landlord buys the multi-unit property and evicts existing tenants living in the other units. As a result, there is a risk that a program designed to keep people in their homes could be used to force families out of their homes. Having the property addresses would give Treasury the strongest independent oversight check to ensure the program is protected.

Where TARP assistance targets certain homebuyers, requiring a homebuyer to certify to requirements such as limited income, first-time buyer status, and primary residence, under penalty of law using one consistent federal certification could deter a homebuyer from falsifying documents, and provide a strong remedy for enforcement. SIGTARP proposed language for this certification. Controls are also needed to ensure applicants are first-time buyers. Treasury should also protect its own right to the return of TARP funds if the homebuyer sells the home while HHH has a lien (for 5 years in Florida) by requiring information on which homebuyers and homes are involved. By sponsoring in-person events, Treasury protects against internet scams SIGTARP has investigated in HAMP, while arming homebuyers with accurate and complete information from a trusted source.

SIGTARP also recommended that Treasury conduct comprehensive planning to facilitate effective oversight. Risks exist if Treasury defers to a state agency with an existing non-HHH program and assumes that, beyond federal dollars and follow-up compliance spot-testing, Treasury's work or help is not needed or required. Treasury should ensure that state HFAs are ready for and can effectively handle what is required in a TARP program, which it cannot do with limited monitoring.

Also, Treasury allowed this use of TARP after researching a TARP required nexus—specific decreases in foreclosure rates resulting from higher home prices. Treasury should hold itself and state HFAs accountable to meeting these targets (or other targets it creates), and reporting on whether the program is on track in each state to meet this nexus. Otherwise, how will Treasury or the taxpayers who fund TARP know if these specific dollars actually result in decreased foreclosures? These TARP dollars were taken from programs that helped homeowners at risk of foreclosure. Treasury should report on program performance by showing tangible results that taking these specific TARP dollars away from homeowners and giving them instead to homebuyers was worth it because it saved at-risk neighbors from foreclosure.

THE HARDEST HIT FUND'S BLIGHT ELIMINATION PROGRAM TO DEMOLISH VACANT AND ABANDONED HOMES

TARP's Hardest Hit Fund ("HHF") Blight Elimination Program, launched in mid-2013,^{xxv} represents a significant shift in Treasury's approach to the use of HHF that now allows for substantial payments of TARP funds to cities, counties, land banks, non-profit and for-profit partners, and other parties, including demolition contractors, rather than to homeowners or to mortgage servicers to help keep homeowners in their homes.

As of April 1, 2016, Treasury had approved the allocation of a total of over \$489 million in TARP funds to this HHF program to demolish and "green" vacant and abandoned single and multifamily residential structures, which includes a new allocation for Michigan's program.^{xxvi} Treasury has approved seven state housing finance agencies ("HFAs") to participate in the Blight Elimination Program: Michigan, Ohio, Indiana, Illinois, South Carolina, Alabama and, most recently, Tennessee,^{xxvii} by shifting TARP funds from HHF homeowner assistance programs. As of April 1, 2016, the HHF Blight Elimination Program already represented approximately 46% of the total HHF allocation in Michigan, 30% in Indiana, 15% in Alabama, 12% in Ohio, 11% in South Carolina, 2% in Tennessee and 1% in Illinois.^{xxviii}

BLIGHT ELIMINATION PROGRAM ALLOCATIONS, AS OF 4/1/2016		
State HFA	Allocation	
	Blight (Millions)	% of HFA's Total HHF
Michigan	\$ 263.6	46%
Ohio	79.5	12%
Indiana	75.0	30%
Illinois	5.4*	1%
Alabama	25.0	15%
South Carolina	35.0	11%
Tennessee	5.5	2%
Total	\$ 489.0	

*Includes \$3.5 million that, according to Treasury, HHF Illinois recovered from other HHF programs and committed to blight elimination.

^{xxviii} On April 1, 2016, Treasury approved an increase in Michigan's Blight program from \$207.7 million to \$263.6 million, bringing the Blight Program total for all states to \$489 million.

For more information on the Hardest Hit Fund's Blight Elimination Program, see SIGTARP's April 21, 2015, Audit, "Treasury Should Do More to Increase the Effectiveness of the TARP Hardest Hit Fund Blight Elimination Program."

This TARP program has great potential to help heal the ills of vacant and abandoned properties in hard-hit communities, but only if it is not diverted from its intended purpose, and is protected from fraud, waste, and abuse.

Effective oversight by Treasury is critical to protecting taxpayers, while allowing state HFAs flexibility to tailor their HHF programs to suit local needs. SIGTARP recommended that Treasury increase transparency, including publicizing blight elimination activity on its website and requiring detailed quarterly accounting by state HFAs on how TARP funds are spent reimbursing local partners for blight-related activities. Tracking the program on a periodic basis, according to the audit report, would allow Treasury and the HFAs to give guidance to the city, county, and other partners that could allow for a greater impact for homeowners.

State HFAs' Reported Blight Elimination Program Activity

Treasury requires state HFAs to report limited information on demolitions under the HHF Blight Elimination Program on a quarterly basis. These reports, which are one quarter behind, do not appear on Treasury's website, but are instead hyperlinked to the state HFA websites. The following pages report on HHF Blight Elimination Program activities (including demolitions) reported by individual state HFAs, which in some cases continue to show zero or limited activity.

As of December 31, 2015, the latest available, three state HFAs—those in Michigan, Ohio and Indiana—are the only ones to report funded demolitions to Treasury. As of that date, those participating state HFAs reported that HHF blight elimination had funded the demolition and greening of a total of 9,293 properties (up 30% from the 7,162 reported as of the prior quarter), with one state HFA, HHF Michigan, accounting for almost 80% of the total (7,435 properties).

As of December 31, 2015, both HHF Illinois and HHF South Carolina reported zero demolitions, but did report that 154 structures and 425 structures, respectively, were being reviewed for demolition eligibility. As of December 31, 2015, HHF Alabama, in its first Blight Elimination Program report, reported zero demolitions, but 12 structures were being reviewed for demolition eligibility.

BLIGHT ELIMINATION PROGRAM ACTIVITY, AS OF 12/31/2015

State HFA	TARP Expenditures Cumulative (Millions)	Properties Removed Cumulative
Michigan	\$111.2	7,435
Ohio	\$19.0	1,588
Indiana	\$4.9	270
Illinois	\$—	0
Alabama	\$—	0
South Carolina	\$—	0
Tennessee	\$—	0
Total	\$135.1	9,293

Sources: Each state HFA's Quarterly Performance Report as of 12/31/2015.

Taxpayers are entitled to transparency regarding how states are using these TARP funds. The information currently available to the public through Treasury on the use of these funds is scarce. SIGTARP is publishing on the following pages the limited, basic information made available on HHF state websites that the state HFAs reported to Treasury. Because these reports are one quarter behind (as of December 31, 2015), and given how quickly the state HFAs are spending HHF Blight Elimination Program funds, the reported information is supplemented with more recent data and reports gleaned from other public sources.

SIGTARP reported in April 2015 that much of the decision-making and actual blight elimination activities are in the hands of city or county land banks, non-profits or for-profit partners, whose identities are unknown to Treasury. SIGTARP recommended, among other things, that Treasury keep itself informed of the critical activities taking place in this new program (including knowing the identities of the program partners), and develop and implement appropriate oversight tools as well as target outcomes for the program.

TARP Recipients

SIGTARP is also publishing a list for each HHF state of HHF Blight Elimination Program partners who receive TARP funds and contract for the work to be done. Partner information is based on information from state HFAs.

HHF BLIGHT ELIMINATION PROGRAM PARTNERS WHO RECEIVE TARP FUNDS

- Non Profit Entities (109)
- For Profit Entities (8)
- Individuals (94)
- Cities/Countries (4)
- Other Public Agencies (31)
- Land Banks (34)

MICHIGAN

Approved by Treasury: Q2 2013

Program Description:* “decreasing foreclosures and stabilizing neighborhoods through the demolition and greening of vacant and abandoned single-family and multi-family structures in designated areas across Michigan.”

Current Allocation: \$263.6^{xxx} Million (46% of total HHF Michigan allocation)

Eligibility: Single-family (1-4 units) and multi-family (4+ units) residential

Structure of Assistance: 0% 5-year loan secured by a lien on the property, forgiven at 20% per year. If sold before that date, the balance is due to HHF.

Per Property Cap: \$25,000; includes payoff of existing lien (if applicable), demolition costs, a \$500 one-time project management fee, and a \$750 maintenance fee

Current HHF Estimate: 10,542 properties (based on HHF Michigan's \$263.6 Million allocation, at the full cap of \$25,000 per property)

Cumulative Program Activity Reported by HHF Michigan (as of 12/31/2015):**

Applications Received: 10,995

Denied: 0 (0%); Approved: 7,435 (67.6%); In Process: 2,804 (25.5%); Withdrawn: 756 (6.9%)

Total Assistance Provided: \$111,173,791

Median Assistance Spent on Acquisition: \$0^{xxx}

Median Assistance Spent on Demolition: \$10,548

Median Assistance Spent on Greening:^{xxxi} \$2,700

As of December 31, 2015, HHF Michigan reported to Treasury that it had spent \$111.2 million (42% of the \$263.6 million allocated to HHF Michigan for blight elimination) to remove and green 7,435 properties. This is a 27% increase over the 5,850 reported removed as of the third quarter of 2015. The average cost was \$14,953 per property (the average cost has increased \$620 from the \$14,333 average cost through September 30, 2015). For the fourth consecutive quarter, HHF Michigan reported that it demolished more properties (1,585) under the Blight Elimination Program than the homeowners it assisted under all its other HHF programs combined (1,263).

^{xxix} On April 1, 2016, Treasury approved an increase in Michigan's Blight program from \$207.7 million to \$263.6 million.

^{xxx} While the median Assistance spent on Acquisition may be \$0, there still may be actual acquisition expenses.

^{xxxi} Prior to March 31, 2015, Michigan reported "site restoration expenses" as part of demolition costs, and reported "Median Assistance Spent on Greening" as \$0. Beginning with the second quarter of 2015, Michigan began reporting the "Greening expense" separately.

OHIO

Approved by Treasury: Q3 2013

Program Description:* “stabilize property values by removing and greening vacant and abandoned properties in targeted areas to prevent future foreclosures for existing homeowners.”

Current Allocation: \$79.5 Million (12% of total HHF Ohio allocation)^{xxxii}

Eligibility: 1-4 unit residential properties, as well as “mixed use” properties^{xxxiii}

Structure of Assistance: 0% 3-year loan secured by a lien on the property, forgiven at end of term. If sold before that date, the balance is due to HHF.

Per Property Cap: \$25,000; includes acquisition (if applicable), payoff of existing loan, approved demolition, remediation and greening of the site, maintenance and administration for up to 3 years.

OH Estimate: 5,000 properties (based on HHF Ohio’s initial \$60 Million allocation, at the full cap of \$25,000 per property)

Cumulative Program Activity Reported by HHF Ohio (as of 12/31/2015):**

Applications Received: 1,746

Denied: 1 (0.1%); Approved: 1,588 (90.9%); In Process: 139 (8%); Withdrawn: 18 (1%)

Total Assistance Provided: \$19,033,387

Median Assistance Spent on Acquisition:	\$108
Median Assistance Spent on Demolition:	\$8,100
Median Assistance Spent on Greening:	\$500 ^{xxxiv}

As of December 31, 2015, HHF Ohio reported that it had spent \$19 million (24% of the \$79.5 million allocated to HHF Ohio for blight elimination as of March 31, 2016) to remove and green 1,588 properties. This is a 35% increase over the 1,177 properties reported as of the third quarter of 2015. The average cost was \$11,986 per property (up from the \$11,807 average cost through September 30, 2015). For the third consecutive quarter, HHF Ohio reported that it demolished more properties (411) under the Blight Elimination Program than the homeowners it assisted under all its other HHF programs combined (1).

Obtaining more current data is difficult because there is no source of comprehensive data on properties removed, and participating cities and counties do not publish separate data. HHF Ohio is one of two state HFAs that allows “mixed use” properties to be demolished in their program, in addition to 1-4 unit residential properties.

States report estimated participation individually for each HHF program they operate. Estimated program participation shows the aggregate estimate for each state. Therefore, these totals do not necessarily translate into the number of unique households that the states expect to assist because some households may participate in more than one HHF program.

Sources: Ohio Homeowner Assistance LLC, Save the Dream Ohio: Quarterly Reports, Quarterly Performance Reports, Q1 2014 through Q4 2015, no date; Ohio Homeowner Assistance LLC, ninth through eleventh Amendment to Agreement, 12/12/2013, 2/27/2014, and 12/18/2014.

INDIANA

Approved by Treasury: Q4 2013

Program Description:* “decrease foreclosures, stabilize homeowner property values and increase neighborhood safety in communities across the state of Indiana through the demolition and greening of vacant, abandoned and blighted residential properties.”

Allocation: \$75 Million (30% of total HHF Indiana allocation)

Eligibility: Residential (non-commercial)^{xxxv}

Structure of Assistance: 0% 3-year loan secured by a lien on the property, forgiven 33.3% per year. If sold before that date, the balance is due to HHF.

Per Property Cap: \$25,000; includes the costs of acquisition (if necessary), demolition and up to \$1,000/year for property stabilization for a period of 3 years.

IN Estimate: 3,000-5,000 properties (3,000 at the full cap of \$25,000 per property)

Cumulative Program Activity Reported by HHF Indiana (as of 12/31/2015):**

Applications Received: 3,078

Denied: 0 (0%); Approved: 270 (9%); In Process:^{xxxvi} 2,808 (91%); Withdrawn: 0 (0%)

Total Assistance Provided: \$4,915,260

Median Assistance Spent on Acquisition: \$5,021

Median Assistance Spent on Demolition: \$14,918

Median Assistance Spent on Greening: \$4,441

As of December 31, 2015, HHF Indiana reported spending \$4.9 of its \$75 million blight elimination allocation to remove 270 properties. Obtaining more current data is difficult because there is no source of comprehensive data on properties removed, and participating cities and counties do not publish separate data.

^{xxxv} HHF Indiana’s program guidelines limit eligible properties to 1-4 units. Indiana Housing and Community Development Authority Blight Elimination Program, 1/2014.

^{xxxvi} The cumulative number of applications still in process as of the reporting date is the cumulative “Total Number of Structures Submitted for Eligibility Review” less the sum of the cumulative number approved, denied and withdrawn.

**Indiana Housing and Community Development Authority, Indiana's Hardest Hit Fund, Quarterly Reports to the U.S. Treasury, Quarterly Performance Report, Q4 2015, no date.

ILLINOIS

Approved by Treasury: Q2 2014

Program Description:* “to decrease preventable foreclosures through neighborhood stabilization achieved through the demolition and greening of vacant, abandoned and blighted residential properties throughout Illinois. Such vacant, abandoned and blighted residential properties will be returned to use through a process overseen by approved units of government and their not-for-profit partner(s).”

Allocation: \$5.4^{xxxvii} Million (1% of total HHF Illinois allocation)

Eligibility: 1-4 unit residential structures

Structure of Assistance: 0% 3-year loan secured by a lien on the property, forgiven one-third per year. If sold before that date, the balance is due to HHF.

Per Property Cap: \$35,000, which may include the following on a per unit basis (if applicable): acquisition, closing costs, demolition, lot treatment/greening, \$3,000 flat fee for maintenance, and up to \$1,750 for administrative expenses.

IL Estimate: 50 properties (at the full cap of \$35,000 per property)

Cumulative Program Activity Reported by HHF Illinois (as of 12/31/2015):**

Applications Received: 154

Denied: 0 (0%); Approved: 0 (0%); In Process: 143 (97%); Withdrawn: 11 (3%)

Total Assistance Provided: \$0

Median Assistance Spent on Acquisition:	\$0
Median Assistance Spent on Demolition:	\$0
Median Assistance Spent on Greening:	\$0

As of December 31, 2015, HHF Illinois reported that, more than one year after it was approved by Treasury, it had still not expended any of the \$5.4 million it has committed to the Blight Elimination Program,^{xxxviii} and had not removed any properties as of that date. Obtaining more current data is difficult because there is no source of comprehensive data on properties removed, and participating cities and counties do not publish separate data.

^{xxxvii} Treasury, response to SIGTARP, 12/7/2015.

^{xxxviii} Includes \$3.5 million that, according to Treasury, HHF Illinois recovered from other HHF programs and committed to blight elimination.

SOUTH CAROLINA

Approved by Treasury: Q3 2014

Program Description:* “decrease foreclosures and stabilize homeowner property values in communities across South Carolina through the demolition of vacant, abandoned, and blighted residential structures, and subsequent greening/improvement.”

Allocation: \$35 Million (11% of total HHF South Carolina allocation)

Eligibility: Single-family (1-4 units) and multi-family (4+ units) residential

Structure of Assistance: 0% 3-year loan secured by a lien on the property, forgiven at one-third per year. If sold before that date, the balance is due to HHF.

Per Property Cap: \$35,000; includes acquisition costs (if applicable); demolition and greening/improvement costs; and a \$2,000 one-time project management fee to cover management and maintenance expenses for a period of three years.

SC Estimate: 1,000-1,300 properties (1,000 at the full cap of \$35,000 per property)

Cumulative Program Activity Reported by HHF South Carolina (as of 12/31/2015):**

Applications Received: 425

Denied: 4 (1%); Approved: 0 (0%); In Process: 391 (92%); Withdrawn: 30 (7%)

Total Assistance Provided: \$0

Median Assistance Spent on Acquisition: \$0

Median Assistance Spent on Demolition: \$0

Median Assistance Spent on Greening: \$0

As of December 31, 2015, HHF South Carolina reported it had not expended any of the \$35 million Blight Elimination Program allocation approved by Treasury, and had not funded the removal of any properties as of that date. Obtaining more current data is difficult because there is no source of comprehensive data on properties removed, and participating cities and counties do not publish separate data.

Alabama’s HHF Programs

Treasury obligated \$162,521,345 in HHF funds to Alabama.¹⁶⁰ Alabama was the only HHF state of 19 states not to receive any additional HHF funds from the \$2 billion allocated from HAMP as announced by Treasury on February 19, 2016.^{xl} At the end of 2010, HHF Alabama estimated that it would help as many as 13,500 homeowners with HHF but had reduced that by 47%, to 7,100 homeowners, as of December 31, 2015. As of that date, HHF Alabama had helped 4,377 individual homeowners with its HHF programs, the majority of them with the Unemployed Homeowners Program.¹⁶¹ HHF Alabama’s Short Sale program, launched in March 2013, had not helped a single homeowner during its two-year history, and its Loan Modification Program, launched in the same quarter, had helped just 44 homeowners.

In addition to decreasing the number of homeowners it estimated helping, HHF Alabama has shifted \$25 million of its HHF funds (15%) away from existing HHF programs to blight elimination. This represents a shift from making payments directly to homeowners or their mortgage servicers to help keep homeowners in their homes. Treasury’s Blight Elimination Program allows for substantial payment of TARP funds to land banks, non-profits and other parties, including demolition contractors, in cash and mortgages that can be forgiven over time. For more information see the blight program update on page 145 of this Quarterly Report.

As of December 31, 2015, HHF Alabama had only spent 22% of its HHF funds to help homeowners, the lowest amount of any state in the HHF program.¹⁶² The state’s HFA had drawn down \$47 million (29%) of its HHF funds as of December 31, 2015, the most recent data available, and spent \$35.6 million (22% of its obligated funds) to help homeowners.¹⁶³ The remaining \$9.1 million (6%) was spent on administrative expenses, and \$3.0 million (2%) was held as cash-on-hand.¹⁶⁴ No HHF funds have yet been spent on the Blight Elimination Program.

Figures 4.13 and 4.14 show, in the aggregate and by program, respectively, the number of homeowners HHF Alabama estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

FIGURE 4.12

AL HHF EXPENDITURES, BY PROGRAM CATEGORY PROGRAM THROUGH DECEMBER 31, 2015

Source: Alabama Housing Finance Authority, Treasury Reports, Quarterly Performance Report Q4 2015, no date (may differ from cash disbursements reported on the state’s Quarterly Financial Report).

^{xl} In its press release announcing the allocation of \$2 billion to HHF, Treasury stated: “As of February 15, 2016, Alabama has utilized approximately 29 percent of its existing allocation, and is therefore ineligible for funding in the first phase of Fifth Round Funding.”

FIGURE 4.13

AZ HHF EXPENDITURES, BY PROGRAM CATEGORY

PROGRAM THROUGH DECEMBER 31, 2015

Source: Arizona (Home) Foreclosure Prevention Funding Corporation, Hardest Hit Fund Reporting (quarterly performance reports), Quarterly Performance Report Q4 2015, no date (may differ from cash disbursements reported on the state's Quarterly Financial Report).

Arizona's HHF Programs

Treasury obligated \$267,766,006 in HHF funds to Arizona, however, on February 19, 2016, Treasury increased that amount by \$28,282,519.^{165,xli} At the end of 2010, HHF Arizona estimated that it would help as many as 11,959 homeowners with HHF but had reduced that by 48%, to 6,263, as of December 31, 2015. As of that date, HHF Arizona had helped 4,219 individual homeowners with its HHF programs, with the largest numbers in the unemployment/underemployment and the principal reduction assistance programs. Arizona's down payment assistance program, launched in December 2015, estimates helping 2,816 homebuyers over the life of the program.¹⁶⁶

As of December 31, 2015, the state's HFA had drawn down \$174.6 million (65%) of its HHF funds.¹⁶⁷ As of December 31, 2015, the most recent data available, HHF Arizona had spent \$141.6 million (53% of its obligated funds) to help homeowners.¹⁶⁸ The remaining \$20.0 million (7%) was spent on administrative expenses, and \$14.3 million (5%) was held as cash-on-hand.¹⁶⁹

Figures 4.16 and 4.17 show, in the aggregate and by program, respectively, the number of homeowners HHF Arizona estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

^{xli} On February 19, 2016, Treasury announced \$2 billion of TARP funds would be transferred to HHF and distributed to 18 of 19 HHF states.

FIGURE 4.16
HHF ARIZONA PROGRAM PERFORMANCE, ALL HHF PROGRAMS, AS OF 12/31/2015

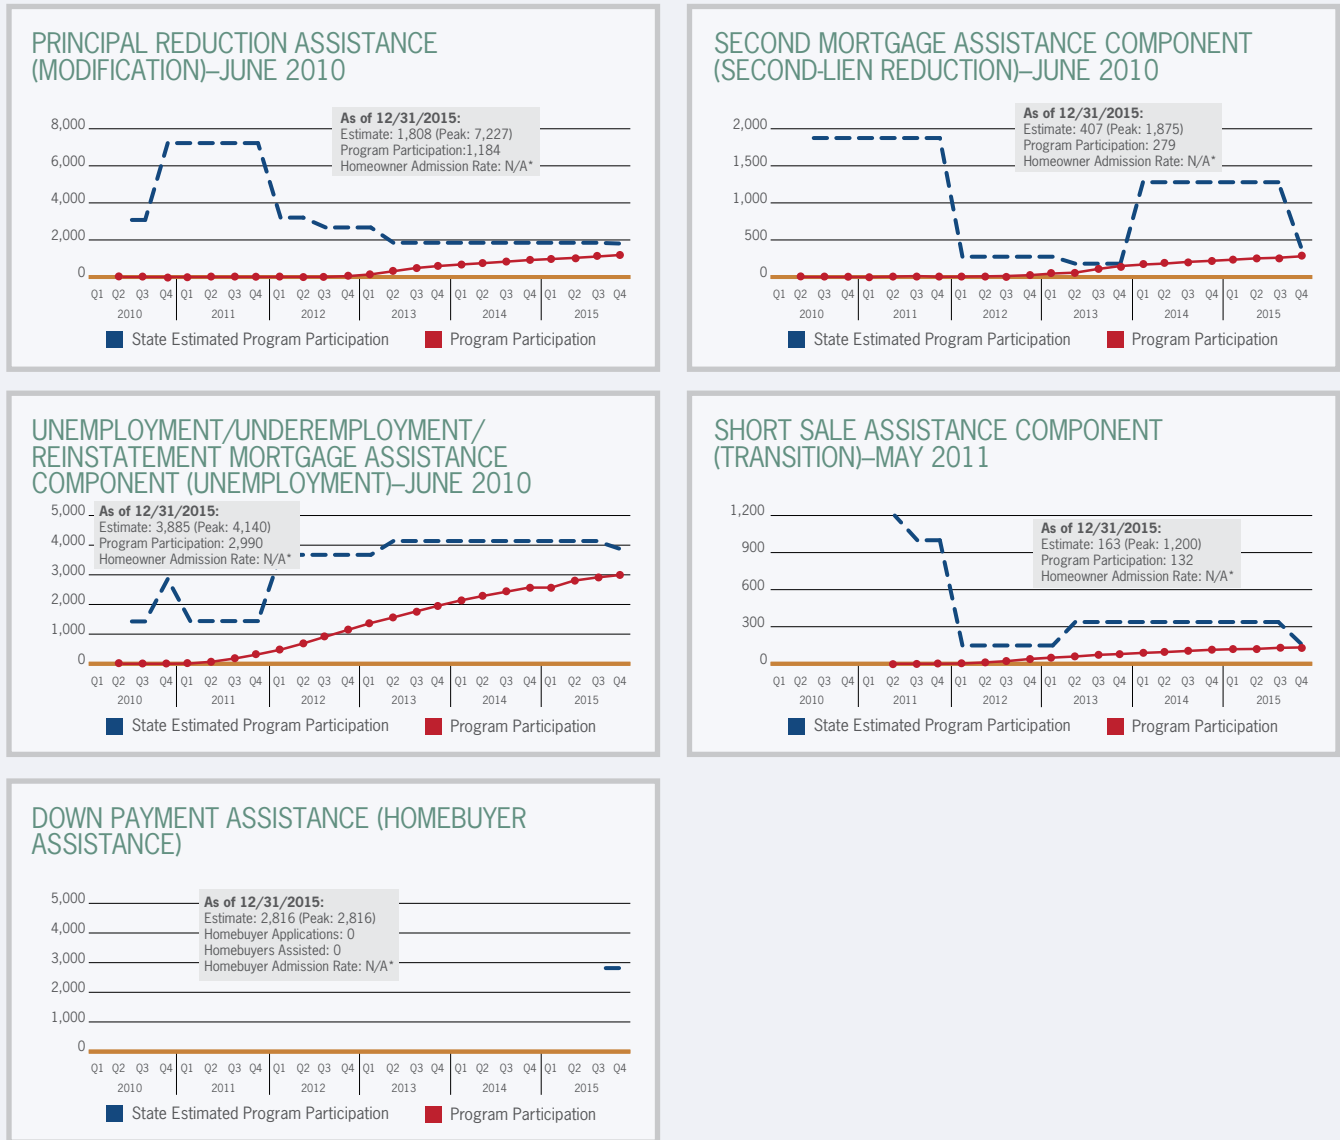

Notes: Estimated includes highest estimate of a range, but excludes the number of homebuyers the state estimates assisting. California's HHF Programs

Treasury obligated \$1,975,334,096 in HHF funds to California, however, on February 19, 2016, Treasury increased that amount by \$213,489,977.^{170,xlii} At the end of 2010, HHF California estimated that it would help as many as 101,337 homeowners with HHF but had reduced that by 27%, to 73,800, as of December 31, 2015. As of that date, HHF California had helped 56,203 individual homeowners with its HHF programs, the largest number with unemployment and past due payment assistance.¹⁷¹ As of December 31, 2015, HHF California had defunded two programs: the NeighborWorks Sacramento Short Sale Gateway Program (September 2013) and the Los Angeles Housing Department Principal Reduction Program (February 2014).¹⁷² Both defunded programs ended without helping a single homeowner.

As of December 31, 2015, California's HFA had drawn down \$1,467.5 million (74%) of its HHF funds.¹⁷³ As of December 31, 2015, HHF California had spent \$1,235.8 million (63% of its obligated funds) to help homeowners.¹⁷⁴ The remaining \$129.7 million (7%) was spent on administrative expenses, and \$138.0 million (7%) was held as cash-on-hand.¹⁷⁵

Figures 4.19 and 4.20 show, in the aggregate and by program, respectively, the number of homeowners HHF California estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

FIGURE 4.18

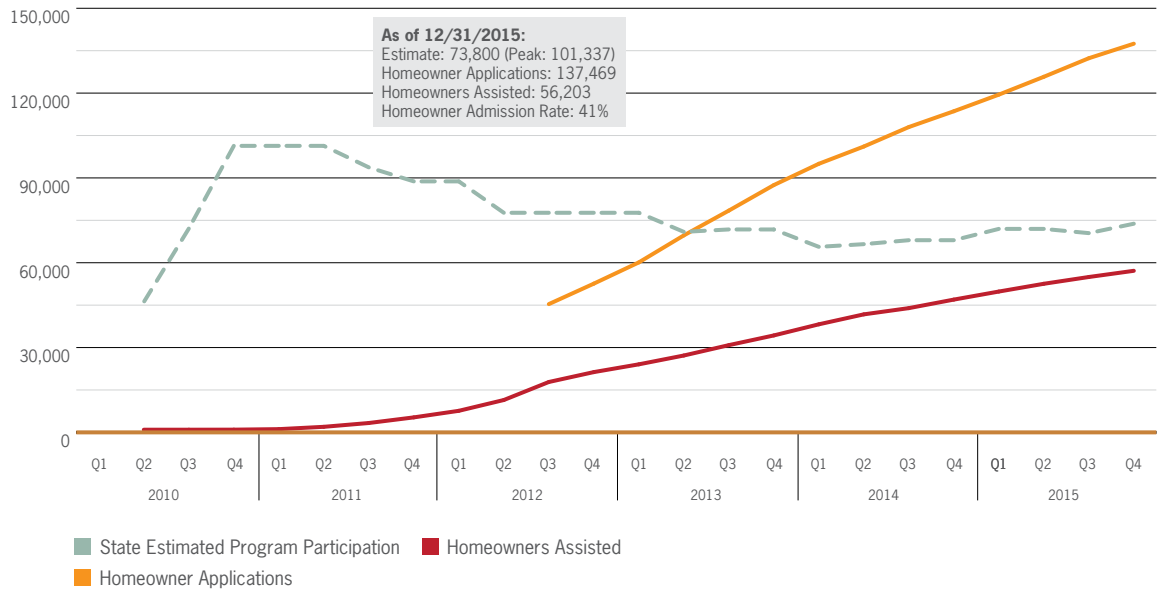

CA HHF EXPENDITURES, BY PROGRAM CATEGORY
PROGRAM THROUGH DECEMBER 31, 2015

Source: CalHFA Mortgage Assistance Corporation, "Keep Your Home California, Reports & Statistics, Quarterly Reports," Quarterly Performance Reports Q4 2015, no date (may differ from cash disbursements reported on the state's Quarterly Financial Report).

^{xlii} On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states. On April 1, 2016, Treasury approved the following allocations of California's HHF funds: Unemployment Mortgage Assistance Program is increased by \$166.4 million, Mortgage Reinstatement Assistance Program is increased by \$2.5 million, Principal Reduction Program is increased by \$11.8 million, Transition Assistance Program is increased by \$0.2 million, and the Reverse Mortgage Assistance Pilot Program is reduced by \$1.3 million.

Florida's HHF Programs

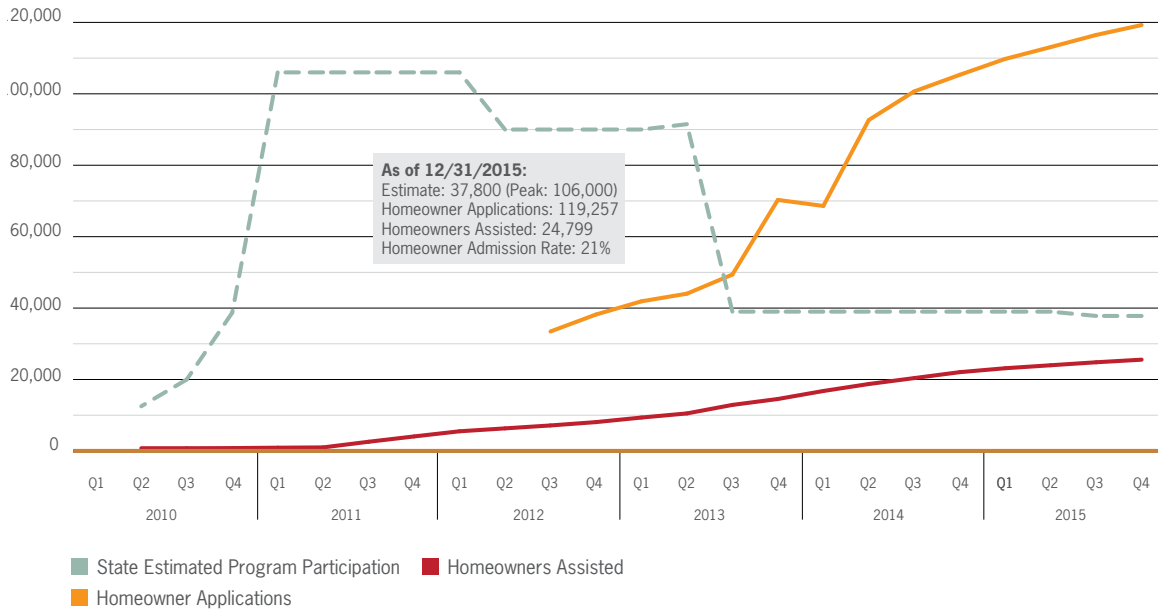

Treasury obligated \$1,057,839,136 of HHF funds to Florida, however, on February 19, 2016, Treasury increased that amount by \$77,896,538.^{176,xliii} At the start of 2011, HHF Florida estimated that it would help as many as 106,000 homeowners with HHF but had reduced that by 64%, to 37,800, as of December 31, 2015. As of that date, HHF Florida had helped 24,799 individual homeowners through its HHF programs, with the largest numbers in the unemployment and reinstatement programs.¹⁷⁷ HHF Florida had also provided HHF assistance to 687 homebuyers through its down payment assistance program. Approved in April 2013, HHF Florida's Modification Enabling Program had only assisted 158 homeowners in more than two years, as of December 31, 2015.

As of December 31, 2015, the state's HFA had drawn down \$668.3 million (63%) of its HHF funds.¹⁷⁸ As of December 31, 2015, the most recent data available, HHF Florida had spent \$560.4 million (53% of its obligated funds) to help homeowners, and \$10.2 million (1%) to help homebuyers.¹⁷⁹ The remaining \$58.9 million (6%) was spent on administrative expenses, and \$43.7 million (4%) was held as cash-on-hand.¹⁸⁰

Figures 4.22 and 4.23 show, in the aggregate and by program, respectively, the number of homeowners HHF Florida estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

^{xliii} On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states.

Georgia's HHF Programs

Treasury obligated \$339,255,819 in HHF funds to Georgia, however, on February 19, 2016, Treasury increased that amount by \$30,880,575.^{181,xliv} At the end of 2010, HHF Georgia estimated that it would help as many as 18,300 homeowners with HHF but had reduced that by 30%, to 12,800, as of December 31, 2015. As of that date, HHF Georgia had helped 7,444 individual homeowners through its HHF programs, the vast majority with the unemployment program.¹⁸² As of December 31, 2015, HHF Georgia's Recast/Modification program had helped only 33 homeowners (compared to an estimate of 1,000), and its Mortgage Reinstatement program had assisted only 240 homeowners (compared to a current estimate of 2,800), since those programs were approved in December 2013.

As of December 31, 2015, the state's HFA had drawn down \$194 million (57%) of its HHF funds.¹⁸³ As of December 31, 2015, the most recent data available, HHF Georgia had spent \$135.6 million (40% of its obligated funds) to help homeowners.¹⁸⁴ The remaining \$25.4 million (8%) was spent on administrative expenses, and \$34.3 million (10%) was held as cash-on-hand.¹⁸⁵

Figures 4.25 and 4.26 show, in the aggregate and by program, respectively, the number of homeowners HHF Georgia estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

IL HHF EXPENDITURES, BY PROGRAM CATEGORY

PROGRAM THROUGH DECEMBER 31, 2015

Source: Illinois Housing Development Authority, Illinois Hardest Hit Program, Reporting, Quarterly Performance Report Q4 2015, no date (may differ from cash disbursements reported on the state's Quarterly Financial Report).

Illinois's HHF Programs

Treasury obligated \$445,603,557 in HHF funds to Illinois, however, on February 19, 2016, Treasury increased that amount by \$118,174,500.^{186,xlv} In mid-2011, HHF Illinois estimated that it would help as many as 29,000 homeowners with HHF but had reduced that by 53%, to 13,500, as of December 31, 2015. As of that date, HHF Illinois had helped 14,013 individual homeowners through its HHF programs, with the largest numbers in the unemployment and home preservation modification programs. HHF Illinois had also provided HHF assistance to 435 homebuyers through its down payment assistance program.¹⁸⁷ According to Treasury, Illinois stopped accepting new applications from struggling homeowners seeking help from the state's HHF programs after September 30, 2013, but, as of March 31, 2016, was again accepting applications for select programs.¹⁸⁸

In addition to decreasing the number of homeowners it estimated helping, HHF Illinois has shifted \$5.4 million (1%) of its HHF funds away from existing HHF programs to blight elimination, as well as \$30 million to the down payment assistance program.^{xlvi} This represents a shift from making payments directly to homeowners or their mortgage servicers to help keep homeowners in their homes. Treasury's Blight Elimination Program allows for substantial payments of TARP funds to land banks, non-profits and other parties, including demolition contractors, in cash and mortgages that can be forgiven over time. For more information see the blight program update on pages 141-142, and the down payment assistance program on pages 122-126 of this Quarterly Report.

As of December 31, 2015, the state's HFA had drawn down \$395 million (89%) of its HHF funds.¹⁸⁹ As of December 31, 2015, the most recent data available, HHF Illinois had spent \$340.9 million (77% of its obligated funds) to help homeowners and \$3.3 million to help homebuyers.¹⁹⁰ The remaining \$34.1 million (8%) was spent on administrative expenses, and \$24.3 million (5%) was held as cash-on-hand.¹⁹¹ No funds had yet been spent on blight elimination.¹⁹²

Figures 4.28 and 4.29 show, in the aggregate and by program, respectively, the number of homeowners HHF Illinois estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

^{xlv} On February 19, 2016, Treasury announced \$2 billion of TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states.

^{xlvi} According to Treasury, as of 12/7/2015, HHF Illinois also committed an additional \$3.5 million in funds recovered from other HHF programs (lien satisfactions, borrower repayments, etc.) to blight elimination, bringing total commitments for blight elimination to \$5.4 million.

FIGURE 4.28

HHF ILLINOIS PROGRAM PERFORMANCE, ALL HHF PROGRAMS, AS OF 12/31/2015

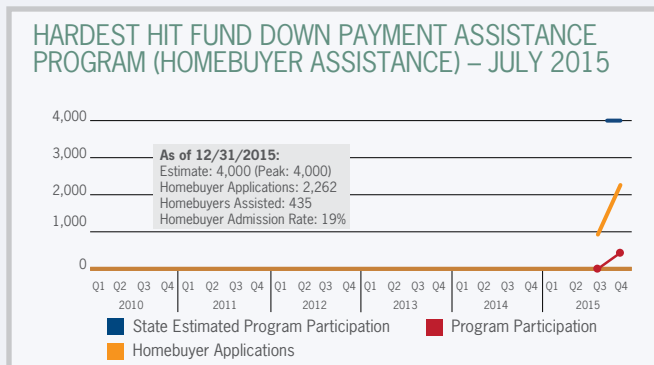

Notes: Estimated includes highest estimate of a range, but excludes Illinois estimate of the number of blighted properties to be eliminated and the number of homebuyers the state estimates assisting. Indiana's HHF Programs

Treasury obligated \$221,694,139 in HHF funds to Indiana, however, on February 19, 2016, Treasury increased that amount by \$28,565,323.^{193,xlvii} At the start of 2011, HHF Indiana estimated helping as many as 16,257 homeowners with HHF but had reduced that by 37%, to 10,184, as of December 31, 2015. As of that date, HHF Indiana had helped 6,869 individual homeowners through its HHF programs, with the largest number in its unemployment program. HHF Indiana's Recast Program, which began in March 2013, had only 120 participants, while the Transition Assistance Program, also started on the same date, had just 13 participants.¹⁹⁴

In addition to decreasing the number of homeowners it estimated helping, HHF Indiana has shifted \$75 million (34%) of its HHF funds away from existing HHF programs to blight elimination. This represents a shift from making payments directly to homeowners or their mortgage servicers to help keep homeowners in their homes. Treasury's Blight Elimination Program allows for substantial payments of TARP funds to land banks, non-profits and other parties, including demolition contractors, in cash and mortgages that can be forgiven over time. For more information see the blight program update on pages 136-140 of this Quarterly Report.

As of December 31, 2015, the state's HFA had drawn down \$146.6 million (66%) of its HHF funds.¹⁹⁵ As of December 31, 2015, the most recent data available, HHF Indiana had spent \$94.1 million (42% of its obligated funds) to help homeowners.¹⁹⁶ HHF Indiana had also spent \$4.9 million to demolish 270 properties as of December 31, 2015.¹⁹⁷ The remaining \$24.8 million (11%) was spent on administrative expenses, and \$23.5 million (11%) was held as cash-on-hand.¹⁹⁸

Figures 4.31 and 4.32 show, in the aggregate and by program, respectively, the number of homeowners HHF Indiana estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

KY HHF EXPENDITURES, BY PROGRAM CATEGORY

PROGRAM THROUGH DECEMBER 31, 2015

Source: Kentucky Housing Corporation, Quarterly Performance Report Q4 2015 (may differ from cash disbursements reported on the state's Quarterly Financial Report).

Kentucky's HHF Program

Treasury obligated \$148,901,875 in HHF funds to Kentucky, however, on February 19, 2016, Treasury increased that amount by \$30,148,245.^{199,xlviii} At the end of 2010, HHF Kentucky estimated that it would help as many as 15,000 homeowners but had reduced that by 45%, to 8,241, as of December 31, 2015. As of that date, through its unemployment program, HHF Kentucky had helped 7,552 individual homeowners. On April 1, 2016, Treasury approved the allocation of an additional \$8.5 million to HHF Kentucky's down payment assistance program, bringing the total for that program to \$15.5 million. Kentucky estimates helping a total of 1,316 homebuyers with this program.²⁰⁰

As of December 31, 2015, the state's HFA had drawn down \$124.5 million (84%) of its HHF funds and spent \$99.9 million (67% of its obligated funds) to help homeowners.²⁰¹ The remaining \$13.8 million (9%) was spent on administrative expenses, and \$12.6 million (8%) was held as cash-on-hand.²⁰²

Figures 4.34 and 4.35 show, in the aggregate and by program, respectively, the number of homeowners HHF Kentucky estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

^{xlviii} On February 19, 2016, Treasury announced \$2 billion of TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states. On April 1, 2016, Treasury approved the following allocations of Kentucky's HHF funds: Unemployment Bridge Program is increased by \$20.8 million, and the Down Payment Assistance Program is increased by \$8.5 million.

Michigan's HHF Programs

Treasury obligated \$498,605,738 in HHF funds to Michigan however, on February 19, 2016, Treasury increased that amount by \$74,491,816.^{203,xlix} At the end of 2010, HHF Michigan estimated that it would help as many as 49,422 homeowners with HHF but had reduced that by 83%, to 8,542, as of December 31, 2015. As of that date, HHF Michigan had helped 29,278 individual homeowners through its HHF programs, with the largest numbers in the past-due payment assistance and unemployment programs.²⁰⁴ As of March 31, 2016, HHF Michigan has stopped accepting new applications under its primary HHF programs.

In addition to decreasing the number of homeowners it estimated helping, as of April 1, 2016, HHF Michigan has shifted \$263.6 million (46%) of its HHF funds away from existing HHF programs to blight elimination.²⁰⁵ This represents a shift from making payments directly to homeowners or their mortgage servicers to help keep homeowners in their homes. Treasury's Blight Elimination Program allows for substantial payments of TARP funds to land banks, non-profits and other parties, including demolition contractors, in cash and mortgages that can be forgiven over time. For more information, see the blight program update on pages 130-132 of this Quarterly Report.

As of December 31, 2015, the state's HFA had drawn down \$440.8 million (88%) of its HHF funds.²⁰⁶ As of December 31, 2015, the most recent data available, HHF Michigan had spent \$230.6 million (46% of its obligated funds) to help homeowners; it had also spent \$111.2 million (22%) to demolish 7,435 vacant properties.²⁰⁷ The remaining \$31.4 million (6%) was spent on administrative expenses, and \$71.3 million (14%) was held as cash-on-hand.²⁰⁸

Figures 4.37 and 4.38 show, in the aggregate and by program, respectively, the number of homeowners HHF Michigan estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

^{xlix} On February 19, 2016, Treasury announced \$2 billion of TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states. On April 1, 2016, Treasury approved the following allocations of Michigan's HHF funds: Loan Rescue Program is increased by \$18.6 million and the Blight Elimination Program is increased by \$55.9 million

Mississippi's HHF Program

Treasury obligated \$101,888,323 in HHF funds to Mississippi, however, on February 19, 2016, Treasury increased that amount by \$19,340,040.^{209,1} At the end of 2010, HHF Mississippi estimated that it would provide HHF unemployment assistance to as many as 3,800 homeowners, but had reduced that by 8%, to 3,500, as of December 31, 2015. As of that date, HHF Mississippi had helped 3,589 individual homeowners with its single HHF program.²¹⁰

As of December 31, 2015, the state's HFA had drawn down \$76.6 million (75%) of its HHF funds and spent \$62.1 million (61% of its obligated funds) to help homeowners.²¹¹ The remaining \$10.7 million (11%) was spent on administrative expenses, and \$4.1 million (4%) was held as cash-on-hand.²¹²

Figure 4.39 shows, in the aggregate, the number of homeowners HHF Mississippi estimated it would help with its HHF program, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

Nevada's HHF Programs

Treasury obligated \$194,026,240 in HHF funds to Nevada, however, on February 19, 2016, Treasury increased that amount by \$8,885,641.^{213,li} In mid-2011, HHF Nevada estimated that it would help as many as 23,556 homeowners with HHF, but had reduced that peak estimate by 66%, to 8,026, as of December 31, 2015. As of that date, HHF Nevada had helped 5,344 individual homeowners with its HHF programs, with the largest numbers in the unemployment and principal reduction programs.²¹⁴ As of December 31, 2015, HHF Nevada had defunded two programs: Nevada's Home Retention Program, launched in September 2013, and its Recast Refinance program, launched in June 2014. Neither program had helped a single homeowner.²¹⁵

As of December 31, 2015, the state's HFA had drawn down \$112 million (58%) of its HHF funds.²¹⁶ As of December 31, 2015, the most recent data available, HHF Nevada had spent \$88.4 million (46% of its obligated funds) to help homeowners.²¹⁷ The remaining \$16.1 million (8%) was spent on administrative expenses, and \$8.7 million (4%) was held as cash-on-hand.²¹⁸

Figures 4.41 and 4.42 show, in the aggregate and by program, respectively, the number of homeowners HHF Nevada estimated it would help with its HHF programs, the number of homeowners actually assisted and homeowner admission rate, as of December 31, 2015.

^{li} On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states.

New Jersey's HHF Program

Treasury obligated \$300,548,144 in HHF funds to New Jersey however, on February 19, 2016, Treasury increased that amount by \$69,231,301.^{219,lii} From the end of 2010 to the end of 2013, HHF New Jersey estimated helping 6,900 homeowners with HHF but had reduced that by 1%, to 6,845, as of December 31, 2015. As of that date, HHF New Jersey had helped 6,017 individual homeowners with its HHF programs, the majority through its unemployment program.²²⁰ According to Treasury, HHF New Jersey had previously stopped accepting new applications from homeowners after November 30, 2013, but, as of March 31, 2016, was again accepting applications under select programs.²²¹

As of December 31, 2015, HHF New Jersey had drawn down \$270.5 million (90%) of its HHF funds and spent \$229.1 million (76%) of its obligated funds on program expenses to help homeowners.²²² The remaining \$24.4 million (8%) was spent on administrative expenses, and \$20.6 million (7%) was held as cash-on-hand.²²³

Figures 4.44 and 4.45 show, in aggregate, the number of homeowners estimated to participate in HHF New Jersey's programs (estimated program participation), the reported number of homeowners who participated in one or more programs (program participation), and the total number of individual homeowners assisted overall, and by program respectively, as of December 31, 2015.

North Carolina's HHF Programs

Treasury obligated \$482,781,786 in HHF funds to North Carolina, however, on February 19, 2016, Treasury increased that amount by \$78,016,445.^{224,liii} From mid-2011 to mid-2013, HHF North Carolina estimated that it would help as many as 22,290 homeowners with HHF but had reduced that by 12%, to 19,619, as of December 31, 2015. As of that date, HHF North Carolina had helped 21,100 individual homeowners, through its HHF programs, with the largest number in its two unemployment programs.²²⁵ HHF North Carolina has ended two programs that had not assisted any homeowners: the Permanent Loan Modification Program (August 2013) and the Principal Reduction Recast Program (December 2013). HHF North Carolina's Modification Enabling Pilot Project, approved in December 2013, had just 27 participants as of December 31, 2015. On April 1, 2016, Treasury approved allocating an additional \$15 million in North Carolina's HHF funds to its down payment assistance program, bringing the total for that program to \$30 million.

As of December 31, 2015, the state's HFA had drawn down \$438 million (91%) of its HHF funds and spent \$350.7 million (73%) of their obligated funds on program expenses to help homeowners.²²⁶ The remaining \$57.7 million (12%) was spent on administrative expenses, and \$37.3 million (8%) was held as cash-on-hand.²²⁷

Figures 4.47 and 4.48 show, in the aggregate and by program, respectively, the number of homeowners HHF North Carolina estimated it would help with its programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

^{liii} On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states. On April 1, 2016, Treasury approved the following allocations of North Carolina's HHF funds: Mortgage Payment Program is increased by \$25.8 million, Second Mortgage Refinance Program is increased by \$0.6 million, Principal Reduction Recast/Lien Extinguishment for Unaffordable Mortgages is increased by \$25.8 million, and Down Payment Assistance is increased by \$15 million.

Ohio's HHF Programs

Treasury obligated \$570,395,099 in HHF funds to Ohio, however, on February 19, 2016, Treasury increased that amount by \$97,590,720.^{228,liv} At the end of 2010, HHF Ohio estimated that it would help as many as 63,485 homeowners with HHF but had reduced that by 35%, to 41,201, as of December 31, 2015. As of that date, HHF Ohio had helped 24,533 individual homeowners with its HHF programs, with the largest numbers in the past due payment and unemployment assistance programs.²²⁹ HHF Ohio ended its Short Refinance Program in December 2012, which had not helped a single homeowner over the program's life. HHF Ohio's Transition Assistance Program, launched in September 2010, had only helped 75 homeowners during more than five years of operation through December 31, 2015. According to Treasury, HHF Ohio had stopped accepting new applications from homeowners after April 30, 2014.²³⁰

In addition to decreasing the number of homeowners it estimated helping, HHF Ohio has shifted \$79.5 million (14%) of its HHF funds away from existing HHF programs to blight elimination as of December 31, 2015.²³¹ This represents a shift from making payments directly to homeowners or their mortgage servicers to help keep homeowners in their homes. Treasury's Blight Elimination Program allows for substantial payments of TARP funds to land banks, non-profits and other parties, including demolition contractors, in cash and mortgages that can be forgiven over time. For more information, see the blight program update on pages 133-135 of this Quarterly Report.

As of December 31, 2015, the state's HFA had drawn down \$520.2 million (91%) of its HHF funds.²³² As of December 31, 2015, the most recent data available, HHF Ohio had spent \$425.1 million (75% of its obligated funds) to help homeowners; it had also spent \$19 million to demolish and remove 1,588 properties under its blight elimination program.²³³ The remaining \$51.2 million (9%) was spent on administrative expenses, and \$30 million (5%) was held as cash-on-hand.²³⁴

Figures 4.50 and 4.51 show, in the aggregate and by program, respectively, the number of homeowners HHF Ohio estimated it would help with its HHF programs, the number of homeowners actually assisted, and the homeowner admission rate, as of December 31, 2015.

^{liv} On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states.

Oregon's HHF Programs

Treasury obligated \$220,042,786 in HHF funds to Oregon, however, on February 19, 2016, Treasury increased that amount by \$36,425,456.^{235,lv} As of September 30, 2014, HHF Oregon estimated that it would help as many as 15,280 homeowners with HHF, but had reduced that estimate by 1%, to 15,150, as of December 31, 2015. As of that date, HHF Oregon had helped 11,777 individual homeowners with its HHF programs, with the largest numbers in the unemployment and past due payment assistance programs.²³⁶ As of December 31, 2015, HHF Oregon had ended two programs for which the HFA had reported helping no homeowners: the Loan Modification Assistance Program (June 2013) and the Transition Assistance Program (December 2011). According to Treasury, HHF Oregon had previously stopped accepting new applications from homeowners after June 30, 2014, but, as of March 31, 2016, was again accepting applications for select programs.²³⁷

As of December 31, 2015, the state's HFA had drawn down 100% of its HHF funds.²³⁸ As of December 31, 2015, the most recent data available, HHF Oregon had spent \$199.1 million (90%) to help homeowners, \$35.5 million (16%) on administrative expenses, and held \$16.6 million (8%) as cash-on-hand.²³⁹ The unique structures of two of HHF Oregon's programs, the Loan Refinance Assistance Program and the Rebuilding American Homeownership Assistance Pilot Project—under which Oregon extends new mortgage loans to homeowners, receives principal and interest payments while it holds the new loans and recovers principal when it sells the loans to third parties—allow the state to recycle large amounts back into HHF, which can then either be used to provide additional homeowner assistance or held as cash-on-hand. As of December 31, 2015, Oregon's HFA reported having recovered \$27.7 million in funds from homeowners who left the program before their HHF award was fully forgiven (lien release), including under those programs.²⁴⁰

Figures 4.53 and 4.54 show, in the aggregate and by program, respectively, the number of homeowners HHF Oregon estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

^{lv} On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states. On April 1, 2016, Treasury approved the following allocations of Oregon's HHF funds: Mortgage Payment Assistance is increased by \$18.8 million, and Loan Payment Assistance is increased by \$10.6 million.

Rhode Island's HHF Program

Treasury obligated \$79,351,573 in HHF funds to Rhode Island, however, on February 19, 2016, Treasury increased that amount by \$9,680,817.^{241,lv} At the end of 2010, HHF Rhode Island estimated that it would help as many as 13,125 homeowners with HHF, but had reduced that estimate by 74%, to 3,413, as of December 31, 2015. As of that date, HHF Rhode Island had helped 3,075 individual homeowners with its HHF programs, with the largest numbers in the unemployment and past due payment programs.²⁴² According to Treasury, HHF Rhode Island stopped accepting new applications from struggling homeowners seeking help from HHF after January 31, 2013. However, in November 2015, Treasury approved HHF Rhode Island's request to reallocate funds to a new homebuyer assistance program.²⁴³

As of December 31, 2015, the state's HFA had drawn down 100% of its HHF funds.²⁴⁴ As of December 31, 2015, the most recent data available, HHF Rhode Island had spent \$64.6 million (81% of its obligated funds) to help homeowners.²⁴⁵ The remaining \$8.6 million (11%) was spent on administrative expenses, and \$7.2 million (9%) was held as cash-on-hand.²⁴⁶

Figures 4.56 and 4.57 show, in the aggregate and by program, respectively, the number of homeowners HHF Rhode Island estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

South Carolina's HHF Programs

Treasury obligated \$295,431,547 in HHF funds to South Carolina, however, on February 19, 2016, Treasury increased that amount by \$22,030,274.^{247,lvii} At the end of 2010, HHF South Carolina estimated that it would help as many as 34,100 homeowners with HHF but had reduced that by 46%, to 18,350, as of December 31, 2015. As of that date, HHF South Carolina had helped 10,373 individual homeowners through its HHF programs, with the largest numbers in the past-due assistance and unemployment programs.²⁴⁸ HHF South Carolina ended its program to provide second-lien reduction assistance to homeowners in August 2011 and its HAMP modification assistance program in October 2013. Neither of those programs had assisted a single homeowner. HHF South Carolina's remaining modification assistance program, approved in October 2013, had only 149 participants as of December 31, 2015.

In addition to decreasing the number of homeowners it estimated helping, HHF South Carolina has shifted \$35 million (12%) of its HHF funds away from existing HHF programs to blight elimination. This represents a shift from making payments directly to homeowners or their mortgage servicers to help keep homeowners in their homes. Treasury's Blight Elimination Program allows for substantial payments of TARP funds to land banks, non-profits and other parties, including demolition contractors, in cash and mortgages that can be forgiven over time. For more information see the blight program update on pages 143-144 of this Quarterly Report.

As of December 31, 2015, the state's HFA had drawn down \$200 million (68%) of its HHF funds, and had spent \$159.9 million (54% of its obligated funds) to help homeowners; no HHF funds had been spent on blight elimination.²⁴⁹ The remaining \$28.9 million (10%) was spent on administrative expenses, and \$12.7 million (4%) was held as cash-on-hand.²⁵⁰

Figures 4.59 and 4.60 show, in the aggregate and by program, the number of homeowners HHF South Carolina estimated it would help with its HHF programs, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

lvii On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states.

Tennessee’s HHF Program

Treasury obligated \$217,315,593 in HHF funds to Tennessee, however, on February 19, 2016, Treasury increased that amount by \$51,945,211.^{251,lviii} At the end of 2011, HHF Tennessee estimated that it would provide HHF assistance to as many as 13,500 homeowners through its single HHF unemployment program but had reduced that by 46%, to 7,355, as of December 31, 2015. As of that date, HHF Tennessee had helped 7,355 individual homeowners.²⁵² According to Treasury, as of September 30, 2014, HHF Tennessee stopped accepting new applications from struggling homeowners.²⁵³

In addition to decreasing the number of homeowners it estimated helping, HHF Tennessee shifted \$5.5 million of its HHF funds away from existing HHF programs to blight elimination. This represents a shift from making payments directly to homeowners or their mortgage servicers to help keep homeowners in their homes. Treasury’s Blight Elimination Program allows for substantial payments of TARP funds to land banks, non-profits and other parties, including demolition contractors, in cash and mortgages that can be forgiven over time. For more information see the blight program update on page 146 of this Quarterly Report.

As of December 31, 2015, the state’s HFA had drawn down \$198.3 million (91%) of its HHF funds and spent \$170 million (78%) to help homeowners.²⁵⁴ The remaining \$19.3 million (9%) was spent on administrative expenses, and \$10.5 million (5%) was held as cash-on-hand.²⁵⁵

Figures 4.62 and 4.63 show, in the aggregate and by program, respectively, the number of homeowners HHF Tennessee estimated it would help with its HHF programs, the number of homeowners actually assisted, and the homeowner admission rate, as of December 31, 2015.

Washington, DC's HHF Program

Treasury obligated \$20,697,198 in HHF funds to Washington, DC, however, on February 19, 2016, Treasury increased that amount by \$4,924,602.^{256,lix} At the end of 2010, Washington, DC's HFA estimated that it would provide HHF assistance to as many as 1,000 homeowners with its single HHF HomeSaver unemployment program but had increased that to 1,300 as of December 31, 2015. As of that date, HHF DC had helped 705 individual homeowners.²⁵⁷ According to Treasury, HHF DC had previously stopped accepting new homeowner applications after November 22, 2013, but, as of March 31, 2016, was again accepting applications for select programs.²⁵⁸

As of December 31, 2015, HHF DC had drawn down \$18.2 million (88%) of its HHF funds and spent \$13.7 million (66% of its obligated funds) to help individual homeowners.²⁵⁹ The remaining \$3.5 million (17%) was spent on administrative expenses and \$1.7 million (8%) was held as cash-on-hand.²⁶⁰

Figure 4.64 shows in the aggregate and by program, respectively, the number of homeowners HHF DC estimated it would help with its HHF program, the number of homeowners actually assisted and the homeowner admission rate, as of December 31, 2015.

FIGURE 4.64

HHF WASHINGTON, DC PROGRAM PERFORMANCE, AS OF 12/31/2015

Notes: Estimated includes highest estimate of a range. Applications are the total number of unique borrower applicants reported to Treasury, which Treasury began reporting as of Q3 2012. Homeowner Admission Rate is cumulative Homeowners Assisted as a percent of Homeowner Applications.

^{lix} On February 19, 2016, Treasury announced \$2 billion in TARP funding would be transferred to HHF and distributed to 18 of 19 HHF states.

FINANCIAL INSTITUTION SUPPORT PROGRAMS

Capital Purchase Program

Treasury's stated goal for CPP was to invest in "healthy, viable institutions" as a way to promote financial stability, maintain confidence in the financial system, and enable lenders to meet the nation's credit needs.²⁶¹

Treasury used \$204.9 billion in TARP funds predominantly to purchase preferred equity interests in 707 financial institutions that paid dividends. For more information on dividend rate increases, including the date of rate increases, see Appendix E.1 of this Quarterly Report, which is available on SIGTARP's website.

As of March 31, 2016, 25 institutions remained in CPP, 15 with outstanding principal investments; in 10 of them, Treasury holds only warrants to purchase stock. See Table 4.18 for information on the remaining institutions. Taxpayers were still owed \$5.3 billion, including \$5.1 billion in write-offs expected or realized losses and \$254.3 million in CPP investments outstanding.²⁶² For a complete list of CPP institutions where Treasury has realized losses and write-offs, see Appendix E.4 of this Quarterly Report, which is available on SIGTARP's website. As of March 31, 2016, 12 of the 15 banks with remaining principal investments had missed at least six dividends and interest payments, totaling \$43 million, but Treasury has not exercised its right to appoint directors to their boards.²⁶³

Notes: Numbers may not total due to rounding. Ten remaining banks with remaining warrants.

✓ Treasury has assigned an observer to the Board of Directors.

Sources: Treasury, *Transactions Report*, 3/25/2016; Treasury, *Dividends and Interest Report*, 4/11/2016.

As of March 31, 2016, Treasury has recovered \$197.4 billion of the CPP principal.²⁶⁴ However, only 262 banks, or 37%, fully repaid CPP principal.²⁶⁵ Four CPP banks merged with other CPP banks; Treasury sold its investments in 39 banks for less than par and sold at auction its investments in 190 banks (Treasury sold 167 of these at a loss); and 32 institutions or their subsidiary banks failed, with an expected total loss to TARP.²⁶⁶ Figure 4.65 shows the status of the 707 CPP recipients as of March 31, 2016.

Treasury converted \$363.3 million in preferred stock for 28 CPP bank investments into CDCI, which therefore is still an outstanding obligation to TARP. Additionally, \$2.2 billion in CPP investments in 137 banks was refinanced in 2011 into SBLF, a non-TARP Treasury program.²⁶⁷

As of March 31, 2016, Treasury had received approximately \$12.1 billion in interest and dividends from CPP recipients and \$8.1 billion through the sale of CPP warrants.²⁶⁸ For a complete list of CPP share repurchases, see Appendix C: “Transaction Detail.”

Dividends and Interest

As of March 31, 2016, Treasury had received \$12.1 billion in dividends on its CPP investments.²⁶⁹ However, as of that date, missed dividend and interest payments by 170 institutions, including banks that missed payments that are no longer in TARP, totaled approximately \$524.3 million. Seven of the 707 banks that received CPP investments have never made a single dividend payment to Treasury. Two, Saigon National Bank and Grand Mountain Bankshares, have remaining CPP principal investments and three, Midwest Bank Holdings, Inc., One Georgia Bank, and Rising Sun Bancorp, have filed for bankruptcy.

For institutions that miss five or more dividend (or interest) payments, Treasury has stated that it would seek consent from such institutions to send observers to the institutions’ board meetings, which it assigned to 13 current CPP recipients.²⁷⁰ Twelve banks have rejected Treasury’s requests to send an observer to the institutions’ board meetings.²⁷¹ The banks had initial CPP investments of as much as \$27 million, have missed as many as 29 quarterly dividend payments to Treasury, and have been overdue in dividend payments by as much as \$4.1 million.²⁷² Six of these banks have since been sold at a loss to Treasury at auction.²⁷³ Appendix E of this Quarterly Report, which is available on SIGTARP’s website, lists the banks that rejected Treasury observers.

Appendix E of this Quarterly Report, which is available on SIGTARP’s website, lists CPP recipients that had unpaid dividend (or interest) payments as of March 31, 2016.

CPP Recipients: Bankrupt or with Failed Subsidiary Banks

As of March 31, 2016, 32 CPP participants had gone bankrupt or had a subsidiary bank fail, as indicated in Table 4.19.²⁷⁴ Treasury anticipates a total loss on its TARP investment in these institutions.

FIGURE 4.65

STATUS OF CPP RECIPIENTS, AS OF 3/31/2016

Note: 10 banks repaid CPP principal but remain in TARP with Treasury holding only warrants.

Source: Treasury, response to SIGTARP data call, 4/8/2016.

For a complete list of CPP recipients and institutions making dividend or interest payments, see Appendix C: “Transaction Detail.”

Notes: Numbers may not total due to rounding.

^a Date is the earlier of the bankruptcy filing by holding company or the failure of subsidiary bank.

^b The amount of Treasury's investment prior to bankruptcy was \$89,874,000. On 3/8/2010, Treasury exchanged its \$84,784,000 of preferred stock in Midwest Banc Holdings, Inc. (MBHI) for \$89,388,000 of MCP, which is equivalent to the initial investment amount of \$84,784,000, plus \$4,604,000 of capitalized previously accrued and unpaid dividends.

^c Treasury recouped \$6 million of its investment once the company's plan of reorganization became effective.

Sources: Treasury, *Transactions Report*, 3/25/2016.

For more information on Treasury's auctions of CPP shares, see "The Legacy of TARP's Bank Bailout Known as the Capital Purchase Program," in SIGTARP's January 2015 Quarterly Report, pages 83-102 and, SIGTARP recommendations regarding CPP preferred stock auctions, in SIGTARP's October 2012 Quarterly Report, pages 180-183.

Realized Restructurings, Recapitalizations, Exchanges, and Sales of CPP Investments

Certain CPP institutions may ask Treasury to restructure its investment, convert its CPP preferred shares into a more junior form of equity, accept a lower valuation, or sell its investment to a third party at a discount in order to facilitate that party's acquisition of a troubled institution. Treasury may incur partial losses on its investment in the course of these transactions.

For a list of all restructurings, recapitalizations, exchanges, and sales of CPP investments through March 31, 2016, see Appendix E of this Quarterly Report, which is available on SIGTARP's website.

CPP Preferred Stock Auctions

Treasury auctioned its TARP investments in 190 CPP banks at a total loss of \$1.1 billion (\$813.5 million in principal and \$253.5 million in missed dividends and interest).²⁷⁵ Treasury auctioned its TARP investment in 167 banks at a loss (in some, at a discount of up to 90%).²⁷⁶ Treasury forfeited the right to collect missed dividends and interest payments from 67 banks that had missed six or more dividends, and the right to appoint up to two directors to the bank's board.

Appendix E of this Quarterly Report, which is available on SIGTARP's website, shows details for the auctions of preferred stock in CPP banks through March 31, 2016.

Only two banks were successful in buying back all of the TARP shares at auction. Only 8% of total TARP shares were repurchased by 38 CPP banks. Only about half (53%) of those 38 banks were successful in repurchasing more than half of the outstanding TARP investment in their banks, which they did at discounts as large as 40%.

Private fund investors, including hedge funds and private equity firms, have purchased 70% of Treasury's total auctioned shares in 178 banks. These investors are mostly unknown to the banks and not from the banks' communities. One capital management company was successful in its bids on 91 banks, and acquired 24% of all TARP shares in CPP community banks auctioned by Treasury. Another capital management company successfully bid on 109 banks, acquiring 13% of all TARP shares in CPP community banks auctioned by Treasury. An additional asset management company successfully acquired shares in 40 banks, or 9% of all TARP shares in CPP community banks auctioned by Treasury. Household-name brokers also purchased shares on behalf of other entities (12%) and 23 banks also purchased at auction. Figure 4.66 shows the percentage of Treasury's TARP shares in CPP community banks purchased by each category of auction buyer.

Other (16) non-TARP banks successfully bid on 33 banks (4%) of TARP. Two banks were each successful in their bids on shares of 12 banks, while the other banks mostly made bids on just one or two banks.

Institutional investors successfully bid for 3% of all TARP shares auctioned by Treasury in 41 CPP community banks (mostly one large retirement fund). Institutional investment funds purchased TARP shares in six CPP community banks.

There were 72 senior executives, including presidents, CEOs, and members of the board of directors of CPP banks, who successfully bid to purchase 3% of total TARP shares in 20 CPP community banks.

One senior executive of a CPP bank purchased the outstanding TARP shares at his bank. One bank holding company purchased 100% of TARP shares in two banks in its region, and two private fund investors purchased 100% of TARP shares in seven banks and another in one bank.

Warrant Disposition

Treasury received the right to purchase a certain number of shares of common stock at a predetermined price — warrants — to permit Treasury to benefit from a firm's potential recovery.²⁷⁷

As of March 31, 2016, Treasury received \$3.9 billion for warrants sold back to 188 CPP public institutions, \$8.1 billion from the sale of CPP warrants. As of that same date, 306 privately held institutions, and the warrants of which had been immediately exercised, bought back the resulting additional preferred shares for a total of \$195.6 million.²⁷⁸ Appendix E.7 of this Quarterly Report, which is available on SIGTARP's website, lists all publicly traded institutions that repaid TARP and repurchased warrants and Appendix E.7 lists all privately held institutions that had done so as of March 31, 2016.

Treasury also held 26 public auctions for warrants it received under CPP, TIP, and AGP, raising a total of approximately \$5.4 billion, as shown in Appendix E.8 of this Quarterly Report, which is available on SIGTARP's website.

Treasury has conducted three private auctions to sell the warrants of 44 CPP institutions for \$75.9 million, as listed in Appendix E.6 of this Quarterly Report, which is available on SIGTARP's website.

For more information on warrant disposition, see SIGTARP's audit report of May 10, 2010, "Assessing Treasury's Process to Sell Warrants Received from TARP Recipients."

For more information on CDCI institutions that remain in TARP and their use of TARP funds, see the report in SIGTARP's April 2014 Quarterly Report: "Banks and Credit Unions in TARP's CDCI Program Face Challenges."

Community Development Financial Institutions ("CDFIs"): Financial institutions eligible for Treasury funding to serve urban and rural low-income communities through the CDFI Fund. CDFIs were created in 1994 by the Riegle Community Development and Regulatory Improvement Act.

Community Development Capital Initiative

The Administration announced the Community Development Capital Initiative ("CDCI") on October 21, 2009. According to Treasury, the program was intended to help small businesses obtain credit.²⁷⁹ Under CDCI, TARP made \$570.1 million in investments in the preferred stock or subordinated debt of 84 eligible banks, bank holding companies, thrifts, and credit unions certified as **Community Development Financial Institutions ("CDFIs")** by Treasury. According to Treasury, these lower-cost capital investments were intended to strengthen the capital base of CDFIs and enable them to make more loans in low and moderate-income communities.²⁸⁰ CDCI was open to certified, qualifying CDFIs or financial institutions that applied for CDFI status by April 30, 2010.²⁸¹

According to Treasury, CPP-participating CDFIs that were in good standing could exchange their CPP investments for CDCI investments.²⁸² CDCI closed to new investments on September 30, 2010.²⁸³

Treasury invested \$570.1 million in 84 institutions under the program — 36 banks or bank holding companies and 48 credit unions.²⁸⁴ Of the 36 investments in banks and bank holding companies, 28 were conversions from CPP (representing \$363.3 million of the total \$570.1 million); the remaining eight were not CPP participants. Treasury provided an additional \$100.7 million in CDCI funds to 10 of the banks converting CPP investments. Only \$106 million of the total CDCI funds went to institutions that were not in CPP.

Status of Funds

As of March 31, 2016, 57 institutions remained in CDCI. Twenty-five institutions have fully repaid Treasury and have exited CDCI. Five institutions have partially repaid and remain in the program. One CDCI credit union merged with another CDCI credit union, leaving only one of the credit unions remaining in the program. Premier Bancorp, Inc., Wilmette, Illinois, previously had its subsidiary bank fail and almost all of Treasury's \$6.8 million investment was lost.²⁸⁵

As of March 31, 2016, taxpayers were still owed \$434.1 million related to CDCI.²⁸⁶ According to Treasury, it had realized losses of \$6.7 million in the program that will never be recovered, leaving \$427.4 million outstanding.²⁸⁷ According to Treasury, \$135.9 million of the CDCI principal (or 24%) had been repaid as of March 31, 2016.²⁸⁸ As of March 31, 2016, Treasury had received approximately \$56.8 million in dividends and interest from CDCI recipients.²⁸⁹ Tables 4.21 through 4.26 show banks and credit unions remaining in CDCI by region and state as of March 31, 2016. Table 4.20 lists the current status of all CDCI investments as of March 31, 2016.

Missed Dividends

As of March 31, 2016, three institutions still in CDCI had unpaid dividend or interest payments to Treasury totaling \$243,025.²⁹⁰ As a result of a bankrupt institution that exited CDCI without remitting its interest payments, the total value of all missed payments equals \$559,649. Treasury has the right to appoint two directors to the board of directors of institutions that have missed eight dividends and interest payments, whether consecutive or nonconsecutive.²⁹¹ As of March 31, 2016, Treasury had not appointed directors to the board of any CDCI institution.²⁹² Treasury has sent an observer to the board meetings of one institution, First Vernon Bancshares, Inc., Vernon, Alabama, however no observer is currently attending board meetings of this institution.²⁹³ Treasury made a request to send an observer to the board meetings of First American International Corp., Brooklyn, New York, in February 2013, but the institution, which remains in TARP as of March 31, 2016, rejected Treasury's request.²⁹⁴ Table 4.28 lists CDCI institutions that are not current on dividend or interest payments.

Institutions with Enforcement Actions

Banks and credit unions participating in CDCI continue to be subject to oversight by Federal regulators. In January 2015, a bank and a credit union that participate in CDCI were each the subject of enforcement actions by their respective Federal regulators. On January 13, 2015, the National Credit Union Administration (“NCUA”) issued an order of assessment of civil money penalty to Santa Cruz Community Credit Union, Santa Cruz, California.²⁹⁵ On January 29, 2015, the Federal Deposit Insurance Corporation (“FDIC”) issued a consent order to Tri-State Bank of Memphis, Memphis, Tennessee.²⁹⁶

Terms for Senior Securities and Dividends

An eligible bank, bank holding company, or thrift could apply to receive capital in an amount up to 5% of its **risk-weighted assets**. A credit union (which is a member-owned, nonprofit financial institution with a capital and governance structure different from that of for-profit banks) could apply for Government funding of up to 3.5% of its total assets — roughly equivalent to the 5% of risk-weighted assets for banks.²⁹⁷ Participating credit unions and S corporations issued subordinated debt to Treasury in lieu of the preferred stock issued by other CDFI participants.²⁹⁸ Many CDFI investments have an initial dividend rate of 2%, which increases to 9% after eight years. Participating S corporations pay an initial rate of 3.1%, which increases to 13.8% after eight years.²⁹⁹ A CDFI participating in CPP had the opportunity to request to convert those shares into CDCI shares, thereby reducing the annual dividend rate it pays the Government from 5% to as low as 2%.³⁰⁰ According to Treasury, CDFIs were not required to issue warrants because of the de minimis exception in EESA, which grants Treasury the authority to waive the warrant requirement for qualifying institutions in which Treasury invested \$100 million or less.

If during the application process a CDFI’s primary regulator deemed it to be undercapitalized or to have “quality of capital issues,” the CDFI had the opportunity to raise private capital to achieve adequate capital levels. Treasury would match the private capital raised on a dollar-for-dollar basis, up to a total of 5% of the financial institution’s risk-weighted assets. In such cases, private investors had to agree to assume any losses before Treasury.³⁰¹

Risk-Weighted Assets: Risk-based measure of total assets held by a financial institution. Assets are assigned broad risk categories. The amount in each risk category is then multiplied by a risk factor associated with that category. The sum of the resulting weighted values from each of the risk categories is the bank’s total risk-weighted assets.

For more on SIGTARP's September 2012 recommendation to Treasury and the Federal Reserve regarding AIG's designation as a systemically important financial institution, see SIGTARP's July 2013 Quarterly Report, pages 201-203.

For more information on AIG and how the company changed while under TARP, see SIGTARP's July 2012 Quarterly Report, pages 151-167.

For a more detailed description of the AIG Recapitalization Plan, see SIGTARP's January 2014 Quarterly Report, pages 219-220.

For more information on Treasury's sales of AIG common shares and AIG's buybacks of shares, see SIGTARP's July 2013 Quarterly Report, page 131.

For more information on Treasury's Equity Ownership Interest in AIG, see SIGTARP's January 2014 Quarterly Report, page 220.

Systemically Significant Failing Institutions Program

According to Treasury, the **Systemically Significant Failing Institutions** ("SSFI") program was established to "provide stability and prevent disruptions to financial markets from the failure of a systemically significant institution."³⁰² Through SSFI, between November 2008 and April 2009, Treasury invested \$67.8 billion in TARP funds in American International Group, Inc. ("AIG"), the program's sole participant.³⁰³ AIG also received bailout funding from the Federal Reserve Bank of New York ("FRBNY"). In January 2011, FRBNY and Treasury restructured their agreements with AIG to use additional TARP funds and AIG funds to pay off amounts owed to FRBNY and transfer FRBNY's common stock and its interests to Treasury.³⁰⁴

AIG has repaid the amounts owed to both Treasury and FRBNY. Treasury's investment in AIG ended on March 1, 2013.³⁰⁵

According to Treasury, taxpayers have received full payment on FRBNY's loans, plus interest and fees of \$6.8 billion; full repayment of the loans to two **special purpose vehicles** ("SPVs"), called Maiden Lane II and Maiden Lane III, plus \$8.2 billion in gains from securities cash flows and sales and \$1.3 billion in interest; and full payment of the insurance-business SPVs, plus interest and fees of \$1.4 billion.³⁰⁶ Treasury's books and records reflect only the shares of AIG that Treasury received in TARP, reflecting that taxpayers have recouped \$54.4 billion of the \$67.8 billion in TARP funds spent and realized losses on the sale of TARP shares from an accounting standpoint of \$13.5 billion.³⁰⁷ However, because TARP funds paid off amounts owed to FRBNY in return for stock, Treasury's position is that the Government has made \$4.1 billion selling AIG common shares and \$959 million in dividends, interest, and other income.³⁰⁸

Systemically Significant Institutions ("SSFI"): Term referring to any financial institution whose failure would impose significant losses on creditors and counterparties, call into question the financial strength of similar institutions, disrupt financial markets, raise borrowing costs for households and businesses, and reduce household wealth.

Special Purpose Vehicle ("SPV"): A legal entity, often off-balance-sheet, that holds transferred assets presumptively beyond the reach of the entities providing the assets, and that is legally isolated from its sponsor or parent company.

Targeted Investment Program

Treasury invested \$20 billion in Citigroup Inc. (“Citigroup”) and \$20 billion in Bank of America Corp. (“Bank of America”), through the Targeted Investment Program (“TIP”) to “strengthen the economy and protect American jobs, savings, and retirement security [where] the loss of confidence in a financial institution could result in significant market disruptions that threaten the financial strength of similarly situated financial institutions.”³⁰⁹ Both banks repaid TIP in December 2009.³¹⁰ On March 3, 2010, Treasury auctioned the Bank of America warrants it received under TIP for \$1.24 billion.³¹¹ On January 25, 2011, Treasury auctioned the Citigroup warrants it had received under TIP for \$190.4 million.³¹²

Asset Guarantee Program

Under the Asset Guarantee Program (“AGP”), Treasury, the Federal Deposit Insurance Corporation (“FDIC”), the Federal Reserve, and Citigroup agreed to provide loss protection on a \$301 billion pool of Citigroup assets in exchange for warrants and \$7 billion in preferred stock, later exchanged for \$4 billion in **trust preferred securities (“TRUPS”)** to Treasury and \$3 billion to the FDIC.³¹³

On December 23, 2009, Citigroup and Treasury terminated the AGP agreement. The Government suffered no loss.³¹⁴ At that time, Treasury agreed to cancel \$1.8 billion of the TRUPS issued by Citigroup, reducing the premium it received from \$4 billion to \$2.2 billion, in exchange for the early termination of the loss protection. FDIC retained all of its \$3 billion in securities, \$800 million of which it transferred to Treasury.³¹⁵ Treasury exchanged those transferred securities into Citigroup subordinated notes, which it then sold for \$894 million.³¹⁶

Treasury received an additional \$12 million in proceeds from the \$2.2 billion sale of the remaining Citigroup TRUPS.³¹⁷ Treasury auctioned the Citigroup warrants for \$67.2 million.³¹⁸

Bank of America announced a similar asset guarantee agreement, but the final agreement was never executed. Bank of America paid \$425 million to the Government as a termination fee (\$276 million to Treasury, \$92 million to FDIC, and \$57 million to the Federal Reserve).³¹⁹

Trust Preferred Securities (“TRUPS”):

Securities that have both equity and debt characteristics created by establishing a trust and issuing debt to it.

For a discussion of the basis of the decision to provide Federal assistance to Citigroup, see SIGTARP’s audit report, “Extraordinary Financial Assistance Provided to Citigroup, Inc.,” dated January 13, 2011.

AUTOMOTIVE INDUSTRY SUPPORT PROGRAMS

During the financial crisis, Treasury, through TARP, launched three automotive industry support programs for General Motors (“GM”), Ally Financial (formerly GMAC), Chrysler LLC (“Chrysler”), and Chrysler Financial Services Americas LLC (“Chrysler Financial”): the Automotive Industry Financing Program (“AIFP”), the Auto Supplier Support Program (“ASSP”), and the Auto Warranty Commitment Program (“AWCP”). According to Treasury, these programs were established “to prevent the collapse of the U.S. auto industry, which would have posed a significant risk to financial market stability, threatened the overall economy, and resulted in the loss of one million U.S. jobs.”³²⁰ Treasury spent \$79.7 billion in TARP funds on the auto bailout, which resulted in a \$16.6 billion loss to taxpayers.³²¹

TABLE 4.29

TARP AUTOMOTIVE PROGRAM INVESTMENTS AND PRINCIPAL REPAYMENTS AND RECOVERIES, AS OF 3/31/2016 (\$ BILLIONS)

Realized Loss on Investment	(\$11.2^d)	(\$2.5)	(\$2.9)		(\$16.6)

Notes: Numbers may not total due to rounding.

^a Principal repaid includes a series of debt payments totaling \$160 million recovered from GM bankruptcy.

^b Investment includes an \$884 million Treasury loan to GM, which GM invested in GMAC in January 2009.

^c Principal repaid includes \$560 million Fiat paid in July 2011 for Treasury's remaining equity stake in Chrysler and for Treasury's rights under an agreement with the UAW retirement trust related to Chrysler shares.

^d Realized loss on investment and amount still owed to taxpayers include the \$826 million claim in GM's bankruptcy, which Treasury wrote off in the first quarter of 2014.

Sources: Treasury, *Transactions Report*, 3/25/2016; Treasury, response to SIGTARP data call, 4/4/2016; Treasury, Monthly TARP Update, 4/1/2016.

Automotive Industry Financing Program

Of the \$78.6 billion in TARP funding for AIFP, Treasury recovered only approximately \$38.3 billion related to its GM investment, \$14.7 billion related to its Ally Financial/GMAC investment, \$7.6 billion related to its Chrysler investment, and \$1.5 billion related to its Chrysler Financial investment, as well as \$5.6 billion in dividends and interest, resulting in losses of \$16.6 billion as of March 31, 2016.³²²

GM

Taxpayers lost \$11.2 billion on the \$49.5 billion TARP AIFP investment in GM.³²³

Ally Financial, formerly known as GMAC

Of the \$17.2 billion TARP investment in Ally Financial, taxpayers lost \$2.5 billion.³²⁴

Chrysler

Of the \$12 billion TARP AIFP investment in Chrysler (including Chrysler Financial), taxpayers suffered a \$2.9 billion loss.³²⁵

Auto Supplier Support Program (“ASSP”) and Auto Warranty Commitment Program (“AWCP”)

On March 19, 2009, Treasury committed \$5 billion to ASSP to “help stabilize the automotive supply base and restore credit flows,” with loans to GM (\$290 million) and Chrysler (\$123.1 million). The loans were fully repaid in April 2010.³²⁶

AWCP guaranteed Chrysler and GM vehicle warranties during the companies’ bankruptcy, with Treasury obligating \$640.8 million — \$360.6 million for GM and \$280.1 million for Chrysler. Both loans were fully repaid to Treasury.³²⁷

Treasury invested a total of \$650.6 million in GM and \$403.2 million in Chrysler through ASSP and AWCP, which was recovered without loss.

For more information on Auto Industry Support Programs, see SIGTARP’s July 29, 2015 Quarterly Report, pages 330-336.

For details on Treasury’s actions and transactions to liquidate its investment in GM, see SIGTARP’s July 2015 Quarterly Report, pages 332-333.

For more details on Treasury’s investments in Ally Financial while in TARP, see SIGTARP’s January 28, 2015 Quarterly Report, pages 289-292.

Asset-Backed Securities (“ABS”): Bonds backed by a portfolio of consumer or corporate loans (e.g., credit card, auto, or small business loans). Financial companies typically issue ABS backed by existing loans in order to fund new loans for their customers.

Commercial Mortgage-Backed Securities (“CMBS”): Bonds backed by one or more mortgages on commercial real estate (e.g., office buildings, rental apartments, hotels).

For detailed discussion of TALF, see SIGTARP’s July 2014 Quarterly Report, pages 258-261.

For more information on the UCSB, see SIGTARP’s October 2014 Quarterly Report, page 320.

For more information on the selection of PPIP managers, see SIGTARP’s October 7, 2010, audit report entitled “Selecting Fund Managers for the Legacy Securities Public-Private Investment Program.”

For more information on PPIP, including information on the securities purchased, see SIGTARP’s April 2014 Quarterly Report, pages 231-244.

ASSET SUPPORT PROGRAMS

Three TARP programs have focused on supporting markets for specific asset classes: the Term Asset-Backed Securities Loan Facility (“TALF”), the Unlocking Credit for Small Businesses (“UCSB”) program, and the Public-Private Investment Program (“PPIP”).

TALF

TALF was designed to support **asset-backed securities (“ABS”)** transactions by providing eligible borrowers \$71.1 billion in loans through the Federal Reserve Bank of New York (“FRBNY”) to purchase non-mortgage-backed ABS and **commercial mortgage-backed securities (“CMBS”)**.³²⁸ As of February 6, 2013, all TARP funding for TALF was either deobligated or recovered.³²⁹ Of the \$71.1 billion in TALF loans, none defaulted and no loans remained outstanding as of March 31, 2016.³³⁰ Additionally, Treasury has received \$671.1 million in income on the asset disposition facility it set up with the program through March 31, 2016.³³¹

UCSB

Through the UCSB loan support initiative to encourage banks to increase small business lending, Treasury purchased \$368.1 million in 31 Small Business Administration 7(a) securities, which are securitized small-business loans.³³² According to Treasury, on January 24, 2012, Treasury sold its remaining securities and ended the program with a total investment gain of about \$9 million for all the securities, including sale proceeds and payments of principal, interest, and debt.³³³

PPIP

According to Treasury, the purpose of the Public-Private Investment Program (“PPIP”) was to purchase **legacy securities** through Public-Private Investment Funds (“PPIFs”). Treasury selected nine fund management firms to establish PPIFs to invest in mortgage-backed securities using **equity** capital from private sector investors combined with TARP equity and **debt**.³³⁴ As of March 31, 2016, the entire PPIP portfolio had been liquidated, and all PPIP funds had been legally dissolved.³³⁵ All \$18.6 billion in TARP funding that was drawn down was fully repaid by PPIP fund managers.³³⁶ Treasury also received approximately \$3.5 billion in gross income payments and capital gains and warrants that it sold for \$87 million.³³⁷

Legacy Securities: Real estate-related securities originally issued before 2009 that remained on the balance sheets of financial institutions because of pricing difficulties that resulted from market disruption.

Equity: Investment that represents an ownership interest in a business.

Debt: Investment in a business that is required to be paid back to the investor, usually with interest.

SECTION 5

**TARP OPERATIONS AND
ADMINISTRATION**

TARP ADMINISTRATIVE AND PROGRAM OPERATING EXPENDITURES

According to Treasury, as of March 31, 2016, it had spent \$432 million on TARP administrative costs and \$1.3 billion on programmatic operating expenditures, for a total of \$1.7 billion since the beginning of TARP.³³⁸

Much of the work on TARP is performed by private vendors rather than Government employees. Treasury reported that as of March 31, 2016, it employs 24 career civil servants, 43 term appointees, and 19 reimbursable detailees, for a total of 86 full-time employees.³³⁹ Between TARP's inception in 2008 and March 31, 2016, Treasury had retained 101 private vendors — 21 financial agents and 80 contractors — to help administer TARP.³⁴⁰ According to Treasury, as of March 31, 2016, 28 private vendors were active — five financial agents and 23 contractors, some with multiple contracts.³⁴¹ The number of private-sector staffers who provide services under these agreements dwarfs the number of people working for OFS. According to Fannie Mae and Freddie Mac, as of March 31, 2016, together they had about 439 people dedicated to working on their TARP contracts.³⁴² According to Treasury, as of March 31, 2016 — the latest numbers available vary due to reporting cycles — at least another 77 people were working on other active OFS contracts, including financial agent and legal services contracts, for a total of approximately 516 private-sector employees working on TARP.³⁴³

Table 5.1 provides a summary of the expenditures and obligations for TARP administrative and programmatic operating costs through March 31, 2016. The administrative costs are categorized as “personnel services” and “non-personnel services.” Appendix E provides a summary of OFS service contracts, which include costs to hire financial agents and contractors, and obligations through March 31, 2016, excluding costs and obligations related to personnel services, travel, and transportation.

TABLE 5.1

TARP ADMINISTRATIVE AND PROGRAMMATIC OBLIGATIONS AND EXPENDITURES		
Budget Object Class Title	Obligations for Period Ending 3/31/2016	Expenditures for Period Ending 3/31/2016
Administrative		
Personnel Services		
Personnel Compensation & Benefits	\$151,855,439	\$151,855,439
Total Personnel Services	\$151,855,439	\$151,855,439
Non-Personnel Services		
Travel & Transportation of Persons	\$2,757,739	\$2,746,745
Transportation of Things	11,960	11,960
Rents, Communications, Utilities & Misc. Charges	730,561	730,561
Printing & Reproduction	872	872
Other Services	321,062,874	274,346,004
Supplies & Materials	2,395,166	2,394,806
Equipment	246,699	246,699
Land & Structures	-	-
Investments & Loans	-	-
Grants, Subsidies & Contributions	-	-
Insurance Claims & Indemnities	-	-
Dividends and Interest	711	711
Total Non-Personnel Services	\$327,206,582	\$280,478,358
Total Administrative	\$479,062,021	\$432,333,797
Programmatic	\$1,344,595,096	\$1,256,459,069
Total Administrative and Programmatic	\$1,823,657,117	\$1,688,792,866

Notes: Numbers may not total due to rounding. The cost associated with "Other Services" under TARP Administrative Expenditures and Obligations are composed of administrative services including financial, administrative, IT, and legal (non-programmatic) support. Amounts are cumulative since the beginning of TARP.

GLOSSARY

This appendix provides a glossary of terms that are used in the context of this report.

Asset-Backed Securities (“ABS”): Bonds backed by a portfolio of consumer or corporate loans (*e.g.*, credit card, auto, or small business loans). Financial companies typically issue ABS backed by existing loans in order to fund new loans for their customers.

Commercial Mortgage-Backed Securities (“CMBS”): Bonds backed by one or more mortgages on commercial real estate (*e.g.*, office buildings, rental apartments, hotels).

Community Development Financial Institutions (“CDFIs”): Financial institutions eligible for Treasury funding to serve urban and rural low-income communities through the CDFI Fund. CDFIs were created in 1994 by the Riegle Community Development and Regulatory Improvement Act.

Debt: Investment in a business that is required to be paid back to the investor, usually with interest.

Deed-in-Lieu of Foreclosure: Instead of going through foreclosure, the homeowner voluntarily surrenders the deed to the home to the investor as satisfaction of the unpaid mortgage balance.

Deficiency Judgment: Court order authorizing a lender to collect all or part of an unpaid and outstanding debt resulting from the borrower’s default on the mortgage note securing a debt. A deficiency judgment is rendered after the foreclosed or repossessed property is sold when the proceeds are insufficient to repay the full mortgage debt.

Equity: Investment that represents an ownership interest in a business.

Government-Sponsored Enterprises (“GSEs”): Private corporations created and chartered by the Government to reduce borrowing costs and provide liquidity in the market, the liabilities of which are not officially considered direct taxpayer obligations. On September 7, 2008, the two largest GSEs, the Federal National Mortgage Association (“Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), were placed into Federal conservatorship. They are currently being financially supported by the Government.

Investors: Owners of mortgage loans or bonds backed by mortgage loans who receive interest and principal payments from monthly mortgage payments. Servicers manage the cash flow from homeowners’ monthly payments and distribute them to investors according to Pooling and Servicing Agreements (“PSAs”).

Legacy Securities: Real estate-related securities originally issued before 2009 that remained on the balance sheets of financial institutions because of pricing difficulties that resulted from market disruption.

Mortgage Servicers: Companies that perform administrative tasks on monthly mortgage payments until the loan is repaid. These tasks include billing, tracking, and collecting monthly payments; maintaining records of payments and balances; allocating and distributing payment collections to investors in accordance with each mortgage loan’s governing documentation; following up on delinquencies; and initiating foreclosures.

Net Present Value (“NPV”) Test: Compares the money generated by modifying the terms of the mortgage with the amount an investor can reasonably expect to recover in a foreclosure sale.

Risk-Weighted Assets: Risk-based measure of total assets held by a financial institution. Assets are assigned broad risk categories. The amount in each risk category is then multiplied by a risk factor associated with that category. The sum of the resulting weighted values from each of the risk categories is the bank’s total risk-weighted assets.

Short Sale: Sale of a home for less than the unpaid mortgage balance. A homeowner sells the home and the investor accepts the proceeds as full or partial satisfaction of the unpaid mortgage balance, thus avoiding the foreclosure process.

Special Purpose Vehicle (“SPV”): A legal entity, often off-balance-sheet, that holds transferred assets presumptively beyond the reach of the entities providing the assets, and that is legally isolated from its sponsor or parent company.

Systemically Significant Institutions: Term referring to any financial institution whose failure would impose significant losses on creditors and counterparties, call into question the financial strength of similar institutions, disrupt financial markets, raise borrowing costs for households and businesses, and reduce household wealth.

Trust Preferred Securities (“TRUPS”): Securities that have both equity and debt characteristics created by establishing a trust and issuing debt to it.

Underwater Mortgage: Mortgage loan on which a homeowner owes more than the home is worth, typically as a result of a decline in the home’s value. Underwater mortgages also are referred to as having negative equity.

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numeric notes were taken verbatim from Treasury's 3/25/2016, Transactions Report. All amounts and totals reflect cumulative receipts from inception through 3/31/2016.

Sources: Treasury, Transactions Report, 3/25/2016; Treasury, Dividends and Interest Report, 4/11/2016.

¹Investment Status Definition Key

²Full investment outstanding - Treasury's full investment is still outstanding

³Redeemed - institution has repaid Treasury's investment

⁴Sold - by auction, an offering, or through a restructuring

⁵Exited bankruptcy/receivership - Treasury has no outstanding investment

⁶Currently not collectible - investment is currently not collectible; therefore there is no outstanding investment and a corresponding (Realized Loss) / (Write-off) in full - all of Treasury's investment amount

⁷In part - part of the investment is no longer held by Treasury, but some remains

⁸Warrants outstanding - Treasury's warrant to purchase additional stock is still outstanding, including any exercised warrants

⁹Warrants not outstanding - Treasury has disposed of its warrant to purchase additional stock through various means as described in the Warrant Report (such as sale back to company and auctions) or Treasury did not receive a warrant to purchase additional stock.

1 All pricing is at par.

2 Total Cash Back includes net capital repayments, interest and dividends, warrant proceeds, and other income (less expenses).

3 Capital repayments includes gross capital repayments, gross auction proceeds, Treasury's investment proceeds, exchanges into CDOs, and SBLF fundings.

4 Includes: (i) placement fees in private auctions of a CPP issuer's securities where Treasury pays placement fees to the placement agents in an amount equal to a minimum of \$50,000 (per issuer) or 1.00% of gross aggregate proceeds for each security and (ii) unreimbursed underwriting fees in public offerings. Placement fees in private auctions are paid approximately one month after settlement.

5 Net proceeds from sales and auctions can be calculated by adding the "Amount" and "Free" columns under the "Capital Repayment/Disposition/Auction" plus any amount in the "Gain" column. Note that "Free" is a negative number.

6 This transaction was included in previous Transaction Reports with Merrill Lynch & Co., Inc. listed as the qualifying institution and a 10/28/2008 transaction date, footnoted to indicate that settlement was deferred pending merger. The purchase of Merrill Lynch by Bank of America was completed on 1/1/2009, and this transaction under the CPP was funded on 1/9/2009.

7 The warrant disposition proceeds amount are stated pro rata in respect of the CPP investments in Bank of America Corporation that occurred on 10/28/2008 and 1/9/2009. The total net disposition proceeds from CPP warrants on 3/3/2010 was \$305,913,040, consisting of \$183,547,824 and \$122,365,216.

8 Proceeds from the disposition of "IP" warrants on 3/20/10 appear on a following page of this report.

9 Privately-held qualified financial institution; Treasury received a warrant to purchase additional shares of preferred stock (unless the institution is a CDFI), which it exercised immediately.

10 To promote community development, financial institutions (CDFIs), Treasury does not require warrants as part of its investment in certified CDFIs when the size of the investment is \$50 million or less.

11 Treasury cancelled the warrants received from this institution due to its designation as a CDFI.

12 Redemption pursuant to Title VII, Section 7001(g) of the American Recovery and Reinvestment Act of 2009.

13 This amount does not include accrued and unpaid dividends, which must be paid at the time of capital repayment.

14 The proceeds associated with the disposition of this investment do not include accrued and unpaid dividends.

15 Subchapter S corporation; Treasury received a warrant to purchase additional Subordinated Debentures (unless the institution is a CDFI), which it exercised immediately.

16 In its qualified equity offering, this institution raised more capital than Treasury's original investment, therefore, the number of Treasury's shares underlying the warrant was reduced by half.

17 This institution participated in the expansion of CPP for small banks.

18 Treasury received an additional investment through the expansion of CPP for small banks.

19 Treasury made three separate investments in Citigroup Inc. (Citigroup) under the CPP, targeted Investment Program (TIP), and Asset Guarantees Program (AGP) for a total of \$49 billion. On 6/9/2009, Treasury entered into an agreement with Citigroup to exchange up to \$25 billion of Treasury's investment in Fixed Rate Cumulative Preferred Stock, Series H (CPP Shares) for a total of \$49 billion. On 7/23/2009 and 7/30/2009, Treasury exchanged a total of \$25 billion of the CPP Shares for Series M Common Stock Equivalent (Series M) and a warrant to purchase shares of Series M.

20 On 3/17/2009, Series M automatically converted to 7,692,307,692 shares of common stock and the associated warrant terminated on receipt of certain shareholder approvals.

21 On 8/24/2009, Treasury exchanged its Series C preferred stock issued by Popular, Inc. for a like amount of non-tax-deductible trust preferred securities issued by Popular Capital Trust III, administrative trustee for Popular, Inc. Popular, Inc. paid a \$13 million exchange fee in connection with this transaction.

22 This institution converted to a bank holding company structure and Treasury exchanged its securities for a like amount of securities that comply with the CPP terms applicable to bank holding companies. The institution in which Treasury's original investment was made is shown in parentheses.

23 As of the 2/20/2010, this report, this institution is in bankruptcy proceedings.

24 On 12/10/2009, the bankruptcy reorganization plan of CIT Group Inc. became effective and Treasury's preferred stock and warrant investment were extinguished and replaced by contingent value rights (CVRs). On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

25 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

26 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

27 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

28 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

29 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

30 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

31 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

32 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

33 On 2/11/2010, Treasury exchanged its Series A preferred stock issued by Superior Bancorp. Inc. for a like amount of non-tax-deductible Trust Preferred Securities issued by Superior Bancorp. Inc. On 2/8/2010, the CVRs expired without value as the terms and conditions for distribution of common shares to CVR holders were not met.

CPP TRANSACTIONS DETAIL, AS OF 3/31/2016 (CONTINUED)

- 35 On 8/31/2010, following the completion of the conditions related to Pacific Bancorp's Pacific Capital plan, Treasury exchanged its \$180,634,000 of preferred stock in Pacific Capital for \$180,634,000 plus \$14,411,000 of capitalized previously accrued and unpaid dividends. On 9/27/2010, following the completion of the conversion conditions set forth in the Certificate of Designations for the MCP, all of Treasury's MCP was converted into 360,833,250 shares of common stock of Pacific Capital. Following a reverse stock split effective 1/28/2010, Treasury held 3,608,332 shares of Pacific common stock. Effective 11/30/2012, Pacific Capital merged with and into UnionBank Corporation and each outstanding share of common stock of the Company was converted into the right to receive \$46.00 per share in cash, and Treasury received \$165,983,272 in respect of its common stock and \$393,121 in respect of its warrant.
- 36 This institution qualified to participate in the Community Development Capital Initiative (CDCI), and has completed an exchange of its Capital Purchase Program investment for Treasury's CDCI investment. Therefore this disposition amount does not represent cash proceeds to Treasury.
- 37 At the time of this institution's exchange into the CDCI program, the warrant preferreds were included in the total amount of preferred stock exchanged for Treasury's CDCI investment. Therefore this disposition amount does not represent cash proceeds to Treasury.
- 38 On 9/30/2010, Treasury completed the exchange of its \$80,347,000 of preferred stock in Hampton Roads Bancshares, Inc. (Hampton) for a like amount of mandatorily convertible preferred stock (MCP), pursuant to the terms of the exchange agreement between Treasury and Hampton entered into on 8/12/2010. Since Hampton also fulfilled the conversion conditions set forth in the Certificate of Designations for the MCP, Treasury's \$80,347,000 of MCP was subsequently converted into 52,225,550 shares of common stock.
- 39 Treasury entered into an agreement on 1/28/2011, with North American Financial Holdings, Inc. for the sale of all preferred stock and warrants issued by Capital Bank Corporation to Treasury for an aggregate purchase price of \$41,279,000. Since the conditions to closing of the sale were satisfied, the closing of the sale also occurred on 1/28/2011.
- 40 On 2/18/2011, Treasury completed the exchange of its \$135,000,000 of preferred stock (including accrued and unpaid dividends thereon) in Central Pacific Financial Corp. for not less than 5,620,117 shares of common stock, pursuant to an exchange agreement dated 2/17/2011.
- 41 As a result of the acquisition of Fidelity Resources Company (the acquired company) by Veritek Holdings, Inc. (the acquirer), the preferred stock and exercised warrants issued by the acquired company on 6/26/2009 were exchanged for a like amount of securities of the acquirer, pursuant to the terms of an agreement among Treasury, the acquired company, and the acquirer entered into on 3/23/2011.
- 42 As a result of the acquisition of NC Bancorp, Inc. (the acquirer), Treasury exchanged \$6,880,000 of its preferred stock in NC Bancorp, Inc. and \$71,526,000 of its preferred stock in Metropolitan Bank Group, Inc. for \$81,892,000 of a new series of preferred stock in Metropolitan Bank Group, Inc., which is equivalent to the combined initial investment amount of \$78,406,000 plus \$3,486,000 of capitalized previously accrued and unpaid dividends, pursuant to the terms of an agreement among Treasury, the acquired company and the acquirer entered into on 3/30/2011. Exercised warrants were also exchanged at the time of the agreement.
- 43 Treasury completed a transaction with Harris Financial Corp., a wholly-owned subsidiary of Bank of Montreal ("BMO"), for the sale of (i) all Marshall & Leley Corporation ("M&L") Preferred Stock held by Treasury for a purchase price of \$1,715,000,000 plus accrued dividends and (ii) the Treasury-held M&L Warrant for an amount equal to \$3,250,000, pursuant to the terms of the agreement between Treasury and BMO entered into on 5/16/2010.
- 44 Treasury completed a transaction with the American Recovery and Reinvestment Act of 2009 using proceeds received in connection with the institution's participation in the Small Business Lending Fund.
- 45 Treasury completed a transaction with the American Recovery and Reinvestment Act of 2009 - part of the repayment amount obtained from proceeds received in connection with the institution's participation in the Small Business Lending Fund, which occurred at a later date.
- 46 On 11/5/2010, Pierce Commercial Bank, Tacoma, WA, was closed by the Washington Department of Financial Institutions, and the Federal Deposit Insurance Corporation (FDIC) was named Receiver.

								TOTAL TREASURY COMMUNITY DEVELOPMENT INITIATIVE (CDCI) INVESTMENT AMOUNT							\$427,442,600

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numbered notes are taken verbatim from Treasury's 3/25/2016, Transactions Report.

1 This institution qualified to participate in the Community Development Capital Initiative (CDCI), and has exchanged its Capital Purchase Program investment for an equivalent amount of investment with Treasury under the CDCI program terms.
 2 Treasury made an additional investment in this institution at the time it entered the CDCI program.
 3 On 10/28/2011, Treasury completed the exchange of all Carver Bancorp, Inc. ("Carver") preferred stock held by Treasury for 2,321,286 shares of Carver common stock, pursuant to the terms of the agreement between Treasury and Carver entered into on 6/29/2011. Accrued and previously unpaid dividends were paid on the date of the exchange.
 4 On 3/23/2012, Premier Bank, Wilmette, IL, the banking subsidiary of Premier Bancorp, Inc., was closed by the Illinois Department of Financial and Professional Regulation - Division of Banking, and the Federal Deposit Insurance Corporation (FDIC) was named Receiver. On 1/29/2013, UST received \$79,900 representing the total amount of distributions paid to creditors as a result of the liquidation of Premier Bancorp, Inc.
 5 Repayment pursuant to Section 5 of the CDCI Certificate of Designation.
 6 Repayment pursuant to Section 6.10 of the CDCI Securities Purchase Agreement.
 7 Repayment pursuant to Section 5 of the CDCI Exchange Agreement.
 8 Repayment pursuant to Section 6.11 of the CDCI Securities Purchase Agreement.
 9 Repayment pursuant to Section 5.11 of the CDCI Exchange Agreement.
 10 On 10/31/2014, in connection with the merger of Union Settlement Federal Credit Union (Lower East Side), Treasury exchanged its \$295,000 in aggregate principal amount of Union senior subordinated securities for a like amount of additional Lower East Side senior subordinated securities. Accrued dividends on the Union senior subordinated securities were paid on the date of the exchange.
 11 On 12/23/2014, in connection with the merger of Butte Federal Credit Union (Butte) with Self-Help Credit Union (SHFCU), Treasury exchanged its \$1,000,000 in senior subordinated securities for a like amount of SHFCU senior subordinated securities. Accrued and unpaid interest were paid on the date of the exchange.
 12 On 10/17/2013, Treasury completed the sale to Wilshire Bancorp, Inc. ("Wilshire") of all of the preferred stock that had been issued by BankAsiana ("BankAsiana") to Treasury for a purchase price of \$5,250,000 plus accrued dividends, pursuant to the terms of the agreement between Treasury, Wilshire and BankAsiana entered into on 9/25/2013 in connection with the merger of Wilshire and BankAsiana.

AIFP TRANSACTION DETAIL, AS OF 3/31/2016 (CONTINUED)

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numbered notes were taken verbatim from Treasury's 3/25/2016, Transactions Report.

As used in this table and its footnotes:

GMAC refers to GMAC LLC, and now known as Ally Financial, Inc. ("Ally").

"Old GM" refers to General Motors Corporation, which is now known as Old GM Liquidation Company.

"New GM" refers to General Motors Company, the company that purchased Old GM's assets on 7/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code. See also footnote 11.

"Chrysler FinCo" refers to Chrysler Financial Services Americas LLC.

"Chrysler Holding" refers to CG Holding LLC, the company formerly known as "Chrysler Holding LLC".

"Old Chrysler" refers to Old Carco LLC (fka Chrysler LLC).

"New Chrysler" refers to Chrysler Group LLC, the company that purchased Old Chrysler's assets on 6/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code.

1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
2. Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.
3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC. Treasury reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)
4. This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
6. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued there under were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)
8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/9/2009, \$30.1 billion of funds had been disbursed by Treasury.
9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued there under were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
10. In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
11. Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Company.
12. Pursuant to a corporate reorganization completed on 10/19/2009, Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC.
13. The loan was funded through Chrysler LB Receivables Trust, a special purpose vehicle created by Chrysler FinCo. The amount of \$1,500,000,000 represents the maximum amount of \$1.5 billion on 4/9/2009.
14. This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.
15. The loan was used to capitalize Chrysler SPV LLC, a special purpose vehicle created by Old Chrysler.
16. This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/5/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. Treasury's commitment was \$3.04 billion of the total \$4.1 billion debtor-in-possession credit facility (the "Chrysler DIP Loan"). As of 6/30/2009, Treasury's commitment to lend under the Chrysler DIP Loan had terminated. The remaining principal amount reflects the final amount of funds disbursed under the Chrysler DIP Loan.
17. This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.
18. This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement with New Chrysler fully executed on 6/10/2009. Under the terms of the credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed on 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to New Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in New Chrysler.
19. Pursuant to the agreement explained in footnote 18, \$500 million of this debt obligation was assumed by New Chrysler.
20. Under loan agreement, as amended on 7/23/2009, Treasury was entitled to proceeds Chrysler Holdco received from Chrysler FinCo equal to the greater of \$1.375 billion or 40% of the equity value of Chrysler FinCo. Pursuant to a termination agreement dated 5/14/2010, Treasury agreed to accept a settlement payment of \$1.9 billion as satisfaction in full of all existing debt obligations (including additional notes and accrued and unpaid interest) of Chrysler Holdco, and upon receipt of such payment to terminate all such obligations.
21. Amount of the Treasury investment exchange includes the exercised warrants from Treasury's initial investments.
22. Under the terms of an agreement dated 12/30/2009, the convertible preferred shares will mandatorily convert to common stock under the conditions and the conversion price as set forth in the terms of the agreement.
23. On 4/30/2010, the Plan of Liquidation for the debtors of Old Chrysler approved by the respective bankruptcy court became effective (the "Liquidation Plan"). Under the Liquidation Plan, the loan Treasury had provided to Old Chrysler was extinguished without repayment, and all assets of Old Chrysler were transferred to a liquidation trust. Treasury retained the right to recover the proceeds from the liquidation from time to time of the specified collateral security attached to such loan.
24. On 10/27/2010, Treasury accepted an offer by General Motors Company (GM) to repurchase all of the approximately \$2.1 billion preferred stock at a price per share of \$25.50, which is equal to 102% of the liquidation preference, subject to the closing of the proposed initial public offering of GM's common stock. The repurchase was completed on 12/15/2010.
25. On 11/17/2010, Treasury agreed to sell 358,546,795 shares of common stock at \$32.7525 per share (which represents the \$33 public sale price less underwriting discounts and fees) pursuant to an underwriting agreement. Following settlement, the net proceeds to Treasury were \$11,743,303,903. On 11/26/2010, the underwriters exercised their option to purchase an additional \$3,782,019 shares of common stock from Treasury at the same purchase price resulting in additional proceeds of \$1,761,495,577. Treasury's aggregate net proceeds from the sale of common stock pursuant to the underwriting agreement total \$13,504,799,480.
26. On 12/30/2010, Treasury converted \$5,500,000,000 of the total convertible preferred stock then outstanding and held by Treasury (including exercised warrants) into 531,850 shares of common stock of Ally. Following this conversion, Treasury holds \$5,937,500,000 of convertible preferred stock.
27. On 3/7/2011, Treasury entered into an agreement with Ally Financial, Inc. (Ally) and certain other parties to amend and restate the \$2,667,000,000 in aggregate liquidation proceeds of its Ally trust preferred securities so to facilitate a public underwritten offering. At the time of amendment and restatement, Treasury received all outstanding accrued and unpaid dividends and a distribution fee of \$28,170,000.
28. On 3/2/2011, Treasury entered into an underwritten offering for all of its Ally trust preferred securities, the proceeds of which were \$2,638,830,000, which together with the distribution fee referred to in footnote 27, provided total disposition proceeds to Treasury of \$2,667,000,000. This amount does not include the accumulated and unpaid dividends on the trust preferred securities from the date of the amendment and restatement through but excluding the closing date that Treasury will receive separately at settlement.
29. On 3/31/2011, the Plan of Liquidation for Motors Liquidation Company (Old GM) became effective. Treasury's \$986 million loan to Old GM was converted to an administrative claim and the assets remaining with Old GM, including Treasury's liens on certain collateral and other rights attached to the loan, were transferred to liquidation trusts. On 12/15/2011, Old GM was dissolved, as required by the Plan of Liquidation. Treasury retained the right to recover additional proceeds; however, any additional recovery is dependent on actual liquidation proceeds and pending litigation.
30. In June 2009, Treasury provided a \$6.6 billion loan commitment to Chrysler Group LLC and received a 9.9 percent equity ownership in Chrysler Group LLC (Chrysler). In January and April 2011, Chrysler met the first and second of three performance related milestones. As a result, Fiat's ownership automatically increased from 20% to 30%, and Treasury's ownership was reduced to 8.6%. On 5/24/2011, Fiat, through the exercise of an equity call option, purchased an incremental 1.6% fully diluted ownership interest in Chrysler for \$1,268 billion, reducing Treasury's ownership to 6.6% (or 6.0% on a fully diluted basis). On 7/21/2011, Fiat, through the exercise of an equity call option, purchased Treasury's ownership interest for \$500 million. In addition, Fiat paid \$60 million to Treasury for its rights under an agreement with the UAW retirement trust pertaining to the trusts shares in Chrysler.
31. On 5/24/2011, Chrysler Group LLC terminated its ability to draw on the remaining \$2,066 billion outstanding under this loan facility.
32. On 12/21/2012, Treasury received a \$201,345,422 pro-rata tax distribution on its common stock from Ally Financial, Inc. pursuant to the terms of the Sixth Amended and Restated Limited Liability Company Operating Agreement of GMAC LLC dated 5/22/2009.
33. On 12/21/2012, Treasury sold 200,000,000 shares of common stock at \$27.50 per share pursuant to a letter agreement. Following settlement, the net proceeds to Treasury were \$5,500,000,000.
34. On January 18, 2013, Treasury gave Citigroup Global Markets, Inc. and J.P. Morgan Securities, LLC discretionary authority, as its sales agent, to sell subject to certain parameters up to 58,392,078 shares of common stock from time to time during the period ending on April 17, 2013 (or upon completion of the sale).
35. Completion of the sale under this authority occurred on April 11, 2013.
36. On 6/12/2013, Treasury sold 30,000,000 shares of GM common stock in a registered public offering, at \$34.11 per share for net proceeds to Treasury of \$1,031,700,000.
37. Pursuant to pre-arranged written trading plans dated May 6, 2013, as amended, Treasury gave Citigroup Global Markets, Inc. and J.P. Morgan Securities, LLC discretionary authority, as its sales agent, to sell subject to certain parameters up to 142,814,136 shares of common stock from time to time during the period ending on September 13, 2013 (or upon completion of the sale). Completion of the sale under this authority occurred on September 13, 2013.
38. On September 26, 2013, Treasury gave Citigroup Global Markets, Inc. and J.P. Morgan Securities, LLC discretionary authority, as its sales agent, to sell subject to certain parameters up to 70,214,460 shares of common stock from time to time during the period ending on December 20, 2013 (or upon completion of the sale). Completion of the sale under this authority occurred on November 20, 2013.
39. On November 20, 2013, Ally completed a private placement of an aggregate of 216,667 shares of its common stock for an aggregate price of approximately \$1.3 billion and the repurchase of all outstanding shares of its Fixed Rate Cumulative Mandatory Convertible Preferred Stock, Series F-2, held by Treasury, including payment for the elimination or relinquishment of any right to receive additional shares of common stock to the issuer (the "Share Adjustment Right"). Ally paid to Treasury a total of approximately \$5.93 billion for the repurchase of the Series F-2 Preferred Stock and the elimination of the Share Adjustment Right. As a result of the private placement, Treasury's common ownership stake was diluted from 73.8 percent to 63.45 percent. Treasury continues to own 981,971 shares of common stock in Ally.
40. On November 21, 2013, Treasury gave J.P. Morgan Securities, LLC discretionary authority, as its sales agent, to sell, subject to certain parameters, the remaining shares of common stock, from time to time during the period ending on February 15, 2014 (or upon completion of the sale). Completion of the sale under this authority occurred on December 9, 2013.
41. On January 23, 2014, Treasury sold 410,000 shares of Ally common stock in a private offering at \$73.75 per share for gross proceeds of \$30,233,750,000.
42. On April 15, 2014, Treasury sold 95,000,000 shares of Ally common stock in an IPO at \$25.00 per share for net proceeds of \$2,375,000,000.
43. On 5/14/2014, the underwriters partially exercised their option to purchase an additional 72,451,670 shares of Ally common stock from Treasury at \$25.00 resulting in additional proceeds of \$1,811,141,750.
44. On August 14, 2014, Treasury gave Goldman Sachs discretionary authority, as its sales agent, to sell subject to certain parameters up to 8,890,000 shares of common stock from time to time during the period ending November 12, 2014 (or upon completion of sale). Completion of sale under this authority occurred on September 12, 2014.
45. On September 12, 2014, Treasury gave Goldman Sachs discretionary authority, as its sales agent, to sell subject to certain parameters up to 11,249,044 of common stock from time to time during the period ending on December 11, 2014 (or upon completion of the sale). Completion of the sale under this authority occurred on October 16, 2014.
46. On December 24, 2014, Treasury sold 54,926,296 shares of Ally common stock in an underwritten offering at \$23.25 per share for net proceeds of \$1,277,036,382.

* For the purpose of this table, income (dividends and interest) are presented in aggregate for each AIFP participant.

† According to Treasury, the GM warrant was "Exchanged out of bankruptcy exit."

‡ This table includes AMCP transactions.

Initial Total					\$5,000,000,000			\$413,076,735					\$413,076,735
Total Proceeds from Additional Notes													\$101,074,947

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numbered notes were taken verbatim from Treasury's 3/25/2016, Transactions Report.

- The loan was funded through GM Supplier Receivables, LLC, a special purpose vehicle created by General Motors Corporation. The amount of \$3,500,000,000 represents the maximum loan amount. The loan will be incrementally funded. The credit agreement was fully executed on 4/9/2009, but was made effective as of 4/3/2009. General Motors Company assumed GM Supplier Receivables LLC on 7/10/2009.
- The loan was funded through Chrysler Receivables SPV LLC, a special purpose vehicle created by Chrysler LLC. The amount of \$1,500,000,000 represents the maximum loan amount. The loan will be incrementally funded. The credit agreement was fully executed on 4/9/2009, but was made effective as of 4/7/2009. Chrysler Group LLC assumed Chrysler Receivables SPV LLC on 6/10/2009.
- Treasury issued notice to the institution of the permanent reduced commitment on 7/8/2009; the reduction was effective on 7/1/2009.
- Does not include accrued and unpaid interest due on the amount of principal repayment, which interest must be paid at the time of principal repayment.
- All outstanding principal drawn under the credit agreement was repaid.
- Treasury's commitment was \$2.5 billion (see note 3). As of 4/5/2010, Treasury's commitment to lend under the credit agreement had terminated and the borrower has paid its obligations with respect to the Additional Note. The final investment amount reflects the total funds disbursed under the loan, all of which have been repaid.
- Treasury's commitment was \$1 billion (see note 3). As of 4/7/2010, Treasury's commitment to lend under the credit agreement had terminated and the borrower has paid its obligations with respect to the Additional Note. The final investment amount reflects the total funds disbursed under the loan, all of which have been repaid.

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numbered notes were taken verbatim from Treasury's 3/25/2016, *Transactions Report*.

- 1 In consideration for the guarantee, Treasury received \$4.03 billion of preferred stock, which pays 8% interest.
- 2 Treasury made three separate investments in Citigroup Inc. ("Citigroup") under CPP, TIP, and AGP for a total of \$49 billion. On 6/9/2009, Treasury entered into an agreement with Citigroup to exchange all of Treasury's investments. On 7/30/2009, Treasury exchanged all of its Fixed Rate Cumulative Perpetual Preferred Stock Series G (AGP Shares), received as premium with the AGP agreement, "dollar for dollar" for Trust Preferred Securities.
- 3 On 12/23/2009, Treasury entered into a Termination Agreement with the other parties to the Master Agreement which served to terminate Treasury's guarantee and obligations under the Master Agreement. In connection with the early termination of the guarantee, Treasury agreed to cancel \$1.8 billion of the AGP Trust Preferred Securities, and the Federal Deposit Insurance Corporation (FDIC) and Treasury agreed that, subject to the conditions set out in the Termination Agreement, the FDIC may transfer \$800 million of Trust Preferred Securities to Treasury at the close of Citigroup's participation in the FDIC's Temporary Liquidity Guarantee Program.
- 4 On 9/29/2010, Treasury entered into an agreement with Citigroup Inc. to exchange \$2,234,000,000 in aggregate liquidation preference of trust preferred securities for \$2,246,000,000 in aggregate liquidation preference of trust preferred securities with certain modified terms. At the time of exchange, Citigroup Inc. paid the outstanding accrued and unpaid dividends.
- 5 On 9/30/2010, Treasury entered into an agreement with Citigroup Inc. to exchange \$2,234,000,000 in aggregate liquidation preference of trust preferred securities for \$2,246,000,000 in aggregate liquidation preference of trust preferred securities with certain modified terms. At the time of exchange, Citigroup Inc. paid the outstanding accrued and unpaid dividends.
- 6 On 12/28/2012, as contemplated by the Termination Agreement and the Letter Agreement dated 12/23/2009, between Treasury and the Federal Deposit Insurance Corporation (FDIC), Treasury received from the FDIC, Citigroup Inc. trust preferred securities in aggregate liquidation preference equal to \$800 million and approximately \$183 million in dividend and interest payments from those securities.
- 7 On 2/4/2013, Treasury exchanged \$800 million in Citigroup Capital XXXI Trust Preferred Securities (TRuPS) for \$894 million in Citigroup subordinated notes pursuant to an agreement between Citigroup and Treasury executed on 2/4/2013. Accrued interest on the TRuPS was received at the time of the exchange.
- 8 On 2/8/2013, Treasury completed the sale of its Citigroup subordinated notes for \$894 million plus accrued interest, pursuant to an underwriting agreement executed on 2/8/2012.

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numbered notes were taken verbatim from Treasury's 3/25/2016, Transactions Report, and Treasury's 4/11/2016, Dividends and Interest Report.

- 1 The loan was funded through TALF LLC, a special purpose vehicle created by The Federal Reserve Bank of New York ("FRBNY"). The amount of \$20,000,000,000 represents the maximum loan amount. The loan will be incrementally funded.
- 2 On 7/19/2010, Treasury, the FRBNY and TALF LLC entered into an amendment of the credit agreement previously entered into on 3/3/2009, which amendment reduced Treasury's maximum loan amount to \$4,300,000,000.
- 3 On 6/28/2012, Treasury, the FRBNY and TALF LLC entered into an amendment of the credit agreement previously amended 7/19/2010, which reduced Treasury's maximum loan amount to \$1,400,000,000.
- 4 On 1/15/2013, Treasury, the FRBNY and TALF LLC entered into an amendment that stated that, due to the fact that the accumulated fees collected through TALF exceed the total principal amount of TALF loans outstanding, Treasury's commitment of TARP funds to provide credit protection is no longer necessary.
- 5 Repayment amounts do not include accrued interest proceeds received on 2/6/2013, which are reflected on the Dividends & Interest Report.

AIFP TRANSACTION DETAIL, AS OF 3/31/2016 (CONTINUED)

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numbered notes were taken verbatim from the Treasury's 3/25/2016, Transactions Report, and Treasury's 4/11/2016, Dividends and Interest Report.

- 1. On 4/17/2009, Treasury exchanged its Series D Fixed Rate Cumulative Preferred Shares for Series E Fixed Rate Non-Cumulative Preferred Shares with no change to Treasury's initial investment amount. In addition, in order for AG to fully redeem the Series E Preferred Shares, it had an additional obligation to Treasury of \$1,604,576,000 to reflect the cumulative unpaid dividends for the Series D Preferred Shares due to Treasury through and including the exchange date.
- 2. The investment amount reflected Treasury's commitment to invest up to \$30 billion less a reduction of \$165 million representing retention payments AG Financial Products made to its employees in March 2009.
- 3. This transaction does not include AG's commitment to an additional \$165 million paid from its operating income over the life of the facility. A \$35 million payment was received by Treasury on 5/27/2011.
- 4. On 11/14/2011, (A) Treasury exchanged \$27,835,000,000 of Treasury's investment in AG's Fixed Rate Non-Cumulative Perpetual Preferred Stock (Series F) which is equal to the amount funded (including amounts drawn at closing under the Series F equity capital facility, for (i) the transfered SPV preferred interests and (ii) 167,623,733 shares of AG Common Stock, and (B) Treasury exchanged \$2,000,000,000 of undrawn Series F for 20,000 shares of preferred stock under the new Series G Cumulative Mandatory Convertible Preferred Stock (Series G) for \$24,546,133 shares of AG Common Stock.
- 5. On 11/14/2011, Treasury exchanged an amount equivalent to the \$40 billion initial investment plus capitalized interest from the April 2009 exchange (see note 1 above) of Fixed Rate Non-Cumulative Perpetual Preferred Stock (Series D) for \$24,546,133 shares of AG Common Stock.
- 6. On 11/14/2011, Treasury received 562,868,096 shares of AG Common Stock in exchange for AG's Credit Facility Trust, which trust was established in connection with the credit facility between AG and the Federal Reserve Bank of New York. This credit facility was repaid and terminated pursuant to this recapitalization transaction.
- 7. The trust had received 562,868,096 shares of AG Common Stock in exchange for AG's Credit Facility Trust, which trust was established in connection with the credit facility between AG and the Federal Reserve Bank of New York. This credit facility was repaid and terminated pursuant to this recapitalization transaction.
- 8. The amount of Treasury's AIA Preferred Units and AICO Junior Preferred Interests holdings do not reflect preferred amounts.
- 9. Proceeds include amounts applied to pay (i) accrued preferred returns and (ii) redeem the outstanding liquidation amounts.
- 10. On 9/27/2011, Treasury completed the sale of 200,000,000 shares of common stock at \$23.00 per share for total proceeds of \$5,800,000,000, pursuant to an underwriting agreement executed on 5/24/2011.
- 11. On 9/27/2011, Treasury completed the sale of 200,000,000 shares of common stock at \$23.00 per share for total proceeds of \$5,800,000,000, pursuant to an underwriting agreement executed on 5/24/2011.
- 12. On 9/13/2012, Treasury completed the sale of 206,896,532 shares of common stock at \$23.00 per share for total proceeds of \$5,099,993,964, pursuant to an underwriting agreement executed on 5/6/2012.
- 13. On 9/13/2012, Treasury completed the sale of 188,324,989 shares of common stock at \$33.50 per share for total proceeds of \$6,799,999,936, pursuant to an underwriting agreement executed on 5/6/2012.
- 14. On 8/2/2012, Treasury completed the sale of 188,324,989 shares of common stock at \$33.50 per share for total proceeds of \$6,799,999,936, pursuant to an underwriting agreement executed on 8/3/2012.
- 15. On 9/14/2012, Treasury completed the sale of 636,923,079 shares of common stock at \$32.50 per share for total proceeds of \$20,699,999,938, pursuant to an underwriting agreement executed on 9/10/2012.
- 16. On 12/14/2012, Treasury completed the sale of 734,169,156 shares of common stock at \$28.50 per share for total proceeds of \$21,010,451,570, pursuant to an underwriting agreement executed on 12/10/2012.

Notes: Numbers affected by rounding. Data as of 3/31/2016. Numbered notes were taken verbatim from Treasury's 3/25/2016, Transactions Report.

¹ Subject to adjustment
² The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.
³ Investment Amount is stated after applying the appropriate month's factor, and includes accrued interest paid at settlement, if applicable.
⁴ If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).
⁵ In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the investment amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.
⁶ Disposition Amount is stated after applying the appropriate month's factor and includes accrued interest received at settlement, if applicable. If the disposition is listed as PMF, the disposition amount will be adjusted after publication of the applicable month's factor.
⁷ If a disposition is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security is priced according to the prior-month's factor. The PMF disposition amount will be adjusted after publication of the applicable month's factor.
⁸ Total Program Proceeds To Date includes life-to-date disposition proceeds, life-to-date principal received, life-to-date interest received, and senior security proceeds (excluding accruals).
⁹ The sum of Current Face Amount and Life-to-date Principal Received will equal Purchase Face Amount for CUSIPs that were originally purchased as TBAs only after the applicable month's factor has been published and trailing principal & interest payments have been received.

PIIP TRANSACTION DETAIL, AS OF 3/31/2016 (CONTINUED)

Notes: Numbers may not total due to rounding. Data as of 3/31/2016. Numbered notes were taken verbatim from Treasury's 3/25/2016, Transactions Report.

- 1 The equity amount may be incrementally funded. Commitment amount represents Treasury's maximum obligation if the limited partners other than Treasury fund their maximum equity capital obligations.
- 2 The ban may be incrementally funded. Commitment amount represents Treasury's maximum obligation if Treasury and the limited partners other than Treasury fund 100% of their maximum equity obligations.
- 3 Adjusted to show Treasury's maximum obligations to a fund.
- 4 On 1/4/2010, Treasury and the fund manager entered into a Winding-Up and Liquidation Agreement.
- 5 Distributions after capital repayments will be considered profit and are paid pro rata (subject to prior distribution of Contingent Proceeds to Treasury) to the fund's partners, including Treasury, in proportion to their membership interests. These figures exclude prorata distributions to Treasury of gross investment proceeds (reported on the Dividends & Interest report), which may be made from time to time in accordance with the terms of the fund's Limited Partnership Agreement.
- 6 Following termination of the TOW fund, the \$3.33 billion of obligations have been reallocated to the remaining eight funds pursuant to consent letters from Treasury dated as of 3/22/2010. \$133 million of maximum equity capital obligation and \$267 million of maximum debt obligation were reallocated per fund, after adjustment for the \$17.6 million and \$26.9 million equity capital reallocations from private investors in the TOW fund to the Wellington fund and the AG GECC fund, respectively. The \$356 million of final investment in the TOW fund will remain a part of Treasury's total maximum S-PPIP investment amount.
- 7 Amount adjusted to show Treasury's final capital commitment (membership interest) and the maximum amount of Treasury's debt obligation that may be drawn down in accordance with the Loan Agreement.
- 8 On 9/26/2011, the General Partner notified Treasury that the Investment Period was terminated in accordance with the Limited Partnership Agreement. As a result, the Final Investment Amount, representing Treasury's debt obligation, has been reduced to the cumulative amount of debt funded.
- 9 Cumulative capital drawn at end of the Investment Period.
- 10 The Amount is adjusted to reflect pro-rata equity distributions that have been deemed to be capital repayments to Treasury.
- 11 Distribution represents a gain on funded capital and is subject to revision pending any additional fundings of the outstanding commitment.
- 12 On 8/23/2012, AllianceBernstein agreed to de-obligate its unused debt commitment. The Final Investment Amount represents the cumulative capital drawn as of the de-obligation.
- 13 On 6/5/2013, Invesco Mortgage Recovery Master Fund L.P. made a distribution to Treasury that is the result of adjustments made to positions previously held by the Invesco Legacy Securities Master Fund, L.P. "Partnership", of which The U.S. Department of the Treasury is a Limited Partner. The adjusted distribution was made 18 months after the Final Distribution on 9/28/2012.
- 14 On 7/8/2013, Invesco Mortgage Recovery Master Fund L.P. made a distribution to Treasury arising from the Settlement Agreement between Jefferies LLC and Invesco Advisers, Inc. dated as of 3/20/2013.
- 15 On 1/28/2015, Western Asset Management Company made a distribution to Treasury in respect of certain settlement proceeds.

Notes: Numbers may be affected by rounding. Data as of 3/31/2016. Numbered notes are taken verbatim from Treasury's 3/28/2016, Transactions Report-Housing Programs.

- On July 3, 2009, the SPA with Chase Home Finance, LLC was terminated and superseded by new SPAs with J.P. Morgan Chase Bank, NA and EMC Mortgage Corporation.
- Wachovia Mortgage, FSB was merged with Wells Fargo Bank, NA, and the remaining Adjusted Cap stated above represents the amount previously paid to Wachovia Mortgage, FSB prior to such merger.
- This institution executed an Assignment and Assumption Agreement (a copy of which is available on www.FinancialStability.gov) with respect to all rights and obligations for the transferred loan modifications. The amount transferred is realized as a cap adjustment and not as initial cap.
- On 8/27/10, an amendment was executed to reflect a change in the legal name of the institution.
- Morticity, Inc. executed a servicing agreement with Nationstar Mortgage, LLC, that took effect 2/1/2011. All mortgage loans including all HAMP loans were transferred to Nationstar. The remaining Adjusted Cap stated above represents the amount previously paid to Morticity, Inc. prior to such agreement.
- The remaining Adjusted Cap stated above represents the amount paid to servicer prior to SPA termination.
- Bank of America, N.A., Home Loan Services, Inc. and USLife Credit Corporation were merged into BAC Home Loans Servicing, LP, and the remaining Adjusted Cap stated above represents the amount previously paid to each servicer prior to such merger.
- In April 2011, EMC Mortgage, an indirect subsidiary of J.P. Morgan Chase & Co. transferred the servicing of all loans to J.P. Morgan Chase Bank, NA. The remaining Adjusted Cap stated above represents the amount previously paid to EMC Mortgage prior to such transfer.
- RBC Bank (USA) was merged with PNC Bank, NA, and the remaining Adjusted Cap stated above represents the amount previously paid to RBC Bank (USA) prior to such merger.
- On July 1, 2012, Saxon Mortgage Services, Inc. ceased servicing operations by selling its mortgage servicing rights and transferring the servicing relationships to thirdparty servicers. The remaining Adjusted Cap stated above represents the amount previously paid to Saxon Mortgage Services, Inc. prior to ceasing servicing operations.
- As of July 3, 2012, Aurora Loan Services LLC has discontinued its servicing function and sold all remaining servicing rights to Nationstar Mortgage. The remaining Adjusted Cap stated above represents the amount previously paid to Aurora Loan Services LLC, prior to ceasing servicing operations.
- Effective September 1, 2011, Ltiton Loan Servicing, LP was acquired by Owen Financial Corporation. The remaining Adjusted Cap stated above represents the amount previously paid to Ltiton prior to such acquisition.
- In May 2010, US mortgage servicing business HomeEq was sold to Owen Financial Corporation. The remaining Adjusted Cap stated above represents the amount previously paid to HomeEq prior to such sale.
- December 2012, Owen Financial Corporation completed the acquisition of Homeward Residential, Inc. The remaining Adjusted Cap stated above represents the amount previously paid to Homeward prior to such acquisition.
- Effective June, 2014, MHA Penn Financial LLC (f/a Shearpoint Mortgage Servicing, a AAA servicer, completed the acquisition of Resurgent Capital Services L.C., also a AAA servicer. The Adjusted Cap of Resurgent Capital Services L.C. stated above represents the amount previously paid to Resurgent under the MHA obligations pursuant to certain Servicer Participation Agreements prior to such acquisition.
- Effective February 15, 2013, Owen Loan Servicing, LLC acquired certain assets of GMAC Mortgage, LLC, pursuant to a Sale Order entered in connection with the bankruptcy cases of Residential Capital, LLC and certain of its affiliated debtors.

* The Cap of Incentive Payments represents the potential total amount allocated to each servicer and includes the maximum amount allotted for all payments on behalf of borrowers and payments to servicers and lenders/investors. The Cap is subject to adjustment based on the total amount allocated to the program and individual servicer usage for borrower modifications. Each adjustment to the Cap is reflected under Adjustment Details.

TABLE C.15

FHA SHORT REFINANCE PROGRAM, AS OF 3/31/2016

Note	Date	Seller Name	Transaction Type	Investment Description	Initial Investment Amount	Investment Adjustments	Investment Amount	Pricing Mechanism
1	9/9/2010	Citigroup, Inc., New York, NY	Purchase	Facility Purchase Agreement	\$8,117,000,000	-	\$8,117,000,000	N/A
2	3/4/2013					(\$7,092,000,000)	\$1,025,000,000	N/A
3	3/31/2015					(\$900,000,000)	\$1,250,000,000	N/A
Total Investment Amount					\$1,250,000,000			

Notes: Numbers may be affected by rounding. Data as of 3/31/2016. Numbered notes are taken verbatim from Treasury's 3/28/2016, Transactions Report-Housing Programs.

- On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the mortgages refinanced under the FHA Short Refinance program during the eligibility period. After that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury could incur fees for the availability and usage of the L/C up to a maximum amount of \$11.7 million.
- On March 4, 2013, the U.S. Department of the Treasury and Citibank, N.A. entered into Amendment No. 1 to the L/C Facility Agreement, which reduced the maximum amount of the L/C from \$8 billion to \$1 billion, extends by two years the period of time Treasury has to increase the L/C to cover new loans that are entered into the program; and modified the fee structure paid to Citibank, N.A. Based on this new fee structure and the lower L/C, Treasury expects that the fees incurred for the availability and usage of the L/C will not exceed \$25 million.
- On March 31, 2015, the U.S. Department of the Treasury and Citibank, N.A. entered into Amendment No. 2 to the L/C Facility Agreement. Amendments included reducing the maximum amount of the L/C from \$1 billion to \$100 million; extending by approximately two years the term of the L/C and the period of time Treasury has to increase the L/C to cover new loans entered into the program; and modifying the structure of administrative fees associated with the facility.

TABLE D.6

ADDITIONAL MAKING HOME AFFORDABLE ("MHA") HOUSING SUPPORT PROGRAMS, AS OF 3/31/2016							
Program	Date Announced	Date Started	Purpose	Estimated Number of Homeowners to be Assisted	Homeowners Assisted		TARP Expenditures (In Billions)
					Permanents Started	Permanents Active	
Principal Reduction Alternative ("PRA") ^a	6/3/2010	10/1/2010	To provide incentives to investors to modify homeowners' mortgages under HAMP by reducing the principal amount owed.	—	211,795 ^b	155,401 ^b	\$2.0
Home Price Decline Protection ("HPDP") ^a	7/31/2009	9/1/2009	To provide additional TARP-funded incentives to investors to modify mortgages through HAMP by partially offsetting possible losses from home price declines.	—	228,006 ^b	134,977 ^b	0.38
Second Lien Modification Program ("2MP")	4/28/2009	8/13/2009	To provide incentives to servicers, investors, and borrowers to modify second mortgages (second liens) – with a partial or full extinguishment of the loan balance – for homeowners with a corresponding first mortgage (first lien) that was modified under HAMP.	"A Second Lien Program to Reach up to 1 to 1.5 Million Homeowners," according to Treasury, "Making Home Affordable, Program Update, Fact Sheet," 4/28/2009.	156,484	81,566	0.89
Treasury/Federal Housing Administration-Home Affordable Modification Program ("Treasury/FHA-HAMP")	7/30/2009 ^c	8/15/2009	To provide TARP-funded, HAMP-like incentives to servicers and homeowners to modify mortgages insured by the FHA.	"Tens of thousands of FHA borrowers will now be able to modify their mortgages in the same manner as so many others who are taking advantage of the Administration's Making Home Affordable program," according to HUD Secretary Shaun Donovan, HUD Press Release, "HUD Secretary Donovan Announces New FHA-Making Home Affordable Loan Modification Guidelines," 7/30/2009.	115,632	83,049	0.27

ADDITIONAL MAKING HOME AFFORDABLE (“MHA”) HOUSING SUPPORT PROGRAMS, AS OF 3/31/2016 (CONTINUED)

Program	Date Announced	Date Started	Purpose	Estimated Number of Homeowners to be Assisted	Homeowners Assisted		TARP Expenditures (In Billions)
					Permanents Started	Permanents Active	
Department of Agriculture Rural Development-Home Affordable Modification Program (“RD-HAMP”)	9/17/2010 ^c	9/24/2010	To provide TARP-funded, HAMP-like incentives to servicers and borrowers for modifications of mortgages insured by RD.	—	207	133	— ^d
Treasury/Federal Housing Administration Second Lien Program (“Treasury/FHA-2LP”) ^f	3/26/2010 ^c	8/6/2010	To provide TARP-funded incentives to servicers and investors to partially or fully extinguish second mortgages (second liens) for mortgages modified and insured by the FHA.	—	0	0	0.00
Department of Veterans Affairs-Home Affordable Modification Program (“VA HAMP”)	1/8/2010 ^c	2/1/2010	To provide non-TARP-funded, HAMP-like incentives to servicers and borrowers for modifications of mortgages insured by the VA.	—	934	709	— ^e

Notes:

^a Program is a subprogram of the Home Affordable Modification Program (“HAMP”).

^b Includes HAMP Tier 1 and Tier 2 modifications.

^c In its April 6, 2009 Supplemental Directive, Treasury announced that “Mortgage loans insured, guaranteed or held by a Federal Government agency (e.g., FHA, HUD, VA and Rural Development) may be eligible for the HAMP, subject to guidance issued by the relevant agency. Further details regarding inclusion of these loans in the HAMP will be provided in a subsequent Supplemental Directive.”

^d As of March 31, 2016, \$536,394 has been expended for RD-HAMP.

^e Treasury does not provide incentive compensation related to VA-HAMP.

^f As of December 31, 2013, the FHA2LP program had expired.

CPP-RELATED MISSED DIVIDEND AND INTEREST PAYMENTS, AS OF 3/31/2016 (CONTINUED)

Company	Dividend or Payment Type	Number of Missed Payments	Observers Assigned to Board of Directors ²	Value of Missed Payments ³	Value of Unpaid Amounts ^{3,4,5}
Gateway Bancshares, Inc.	Cumulative	2		\$163,500	\$163,500
CIT Group Inc. ^{****,9}	Cumulative	2		29,125,000	29,125,000
UCBH Holdings, Inc. ^{****}	Cumulative	1		3,734,213	3,734,213
Exchange Bank ^{*****}	Non-Cumulative	1		585,875	585,875
Tifton Banking Company ^{****}	Non-Cumulative	1		51,775	51,775
Total				\$607,341,928	\$524,332,054

Notes: Numbers may not total due to rounding. Approximately \$40.6 million of the \$524.3 million in unpaid CPP dividend/interest payments are non-cumulative and Treasury has no legal right to missed dividends that are non-cumulative.

* Missed interest payments occur when a Subchapter S recipient fails to pay Treasury interest on a subordinated debenture in a timely manner.

** Partial payments made after the due date.

*** Completed an exchange with Treasury. For an exchange of mandatorily convertible preferred stock or trust preferred securities, dividend payments normally continue to accrue. For an exchange of mandatorily preferred stock for common stock, no additional preferred dividend payments will accrue.

**** Filed for bankruptcy or subsidiary bank failed. For completed bankruptcy proceedings, Treasury's investment was extinguished and no additional dividend payments will accrue. For bank failures, Treasury may elect to file claims with bank receivers to collect current and/or future unpaid dividends.

***** Treasury sold or is selling its CPP investment to the institution or a third party. No additional preferred dividend payments will accrue after a sale, absent an agreement to the contrary.

■ Treasury has appointed one or more directors to the Board of Directors.

✓ Treasury has assigned an observer to the Board of Directors.

¹ SIGTARP and Treasury do not use the same methodology to report unpaid dividend and interest payments. For example, Treasury generally excludes institutions SIGTARP would include, such as those: (i) that have completed a recapitalization, restructuring, or exchange with Treasury (though Treasury does report such institutions as non-current during the pendency of negotiations); (ii) for which Treasury sold the CPP investment to a third party, or otherwise disposed of the investment to facilitate the sale of the institution to a third party; (iii) that filed for bankruptcy relief; or (iv) that had a subsidiary bank fail. If a completed transaction resulted in payment to Treasury for all unpaid dividends and interest, SIGTARP does not include the institution's obligations under unpaid amounts.

² For First BancCorp and Pacific Capital Bancorp, Treasury had a contractual right to assign an observer to the board of directors. For the remainder, Treasury obtained consent from the institution to assign an observer to the board of directors.

³ Includes unpaid cumulative dividends, non-cumulative dividends, and Subchapter S interest payments but does not include interest accrued on unpaid cumulative dividends.

⁴ Excludes institutions that missed payments but (i) have fully caught-up or exchanged new securities for missed payments, or (ii) have repaid their investment amounts and exited the Capital Purchase Program.

⁵ Includes institutions that missed payments and (i) completed an exchange with Treasury for new securities, (ii) purchased their CPP investment from Treasury, or saw a third party purchase its CPP investment from Treasury, or (iii) are in, or have completed bankruptcy proceedings or its subsidiary bank failed.

⁶ For Midwest Banc Holdings, Inc., the number of missed payments is the number last reported from SIGTARP Quarterly Report to Congress 4/20/2010, prior to bankruptcy filing; missed payment amounts are from Treasury's response to SIGTARP data call, 10/13/2010.

⁷ Treasury reported four missed payments by Community Bank of the Bay before it was allowed to transfer from CPP to CDCI. Upon transfer, Treasury reset the number of missed payments to zero.

⁸ For South Financial Group, Inc. and TIB Financial Corp, the number of missed payments and unpaid amounts reflect figures Treasury reported prior to the sale.

⁹ For CIT Group Inc., the number of missed payments is from the number last reported from SIGTARP Quarterly Report to Congress 1/30/2010, shortly after the bankruptcy filing; missed payment amounts are from Treasury's response to SIGTARP data call, 10/13/2010.

¹⁰ Completed exchanges:

- The exchange between Treasury and Hampton Roads, and the exchange between Treasury and Sterling Financial did not account for unpaid dividends. The number of missed payments and unpaid amounts reflect the figures Treasury reported prior to the exchange.

- The exchange between Treasury and Central Pacific Financial Corp., and the exchange between Treasury and Pacific Capital Bancorp did account for unpaid dividends, thereby eliminating any unpaid amounts. The number of missed payments reflects the amount Treasury reported prior to the exchange.

Sources: Treasury, *Dividends and Interest Report*, 4/11/2016; Treasury, response to SIGTARP data call, 4/4/2016.

Notes: Numbers may be affected due to rounding.

^a M&T Bank Corporation ("M&T") has redeemed the entirety of the preferred shares issued by Wilmington Trust Corporation plus accrued dividends. In addition, M&T has also repaid Treasury's original \$600 million investment. On August 21, 2012, Treasury sold all of its remaining investment in M&T at par.

^b The new investment amount of \$122 million includes the original investment amount in BBCN Bancorp, Inc. (formerly Nara Bancorp, Inc.) of \$67 million and the original investment of Center Financial Corporation of \$55 million.

^c The new investment amount of \$81.9 million includes the original investment amount in Metropolitan Bank Group, Inc. of \$71.5 million plus the original investment amount in NC Bank Group, Inc. of \$6.9 million plus unpaid dividends of \$3.5 million.

^d The subsidiary bank of Superior Bancorp, Inc. failed on April 15, 2011. All of Treasury's TARP investment in Superior Bancorp is expected to be lost.

^e The new investment amount of \$42.8 million includes the original investment amount in Crescent Financial Bancshares, Inc. (formerly Crescent Financial Corporation) of \$24.9 million and the original investment of ECB Bancorp, Inc. of \$17.9 million.

Notes: Numbers may not total due to rounding.

^a Treasury sold 70,028 of its shares in Old Second in the 3/1/2013 auction and the remaining 2,972 shares in the 3/15/2013 auction.

^b Treasury additionally sold 1,100 shares of its Series C stock in First Community Financial Partners, Inc. in this auction, but its largest investment in the bank was sold in the auction that closed on 9/12/2012, and the data for the disposition of its investment is listed under the 9/12/2012 auction in this table.

^c Treasury sold 8,000 of its shares in First Western Financial, Inc. on 7/27/2012 and the remaining 12,440 in the 6/24/2013 auction.

^d This institution was auctioned separately from the other set that closed on the same date because it is a publicly traded company.

^e The original investment in Guaranty Federal Bancshares, Inc. was \$17 million. The bank had previously paid down \$5 million, leaving a \$12 million investment remaining.

12/23/2015	Calwest Bancorp/South County Bank	233,000	233.0
2/17/2016	Calvert Financial Corporation	52,000	52.0
3/23/2016	US Metro Bank	143,000	143.0
Total		675,980,081	\$4,134,325.9

Notes: Numbers may not total due to rounding. This table represents the preferred shares held by Treasury as a result of the exercise of warrants issued by non-publicly traded TARP recipients. These warrants were exercised immediately upon the transaction date. Treasury may hold one warrant for millions of underlying shares rather than millions of warrants of an individual financial institution.

^a S-Corporation Institution: issued subordinated debt instead of preferred stock.

^b Transferred to CDCI.

^c For The Bank of Currituck, the Transactions Report listed "N/A" for the final disposition date, description, and proceeds.

^d Treasury made two investments in Medallion Bank one on 12/22/2009 for \$9.7 million which corresponds to the 55,000 warrants repurchased and another on 2/27/2009 for \$11.8 million which corresponds to the 590,000 warrants repurchased.

^e Treasury made two investments in Catskill Hudson Bancorp, Inc. one on 12/22/2009 for \$3.5 million which corresponds to the 113,000 warrants repurchased and another on 2/27/2009 for \$3.0 million which corresponds to the 150,000 warrants repurchased.

^f The liquidation preference is at 10,000 per share as opposed to the typical 1,000 per share.

^g Warrant sales to third parties.

^h State Street Corporation reduced its original amount of warrants issued through a qualified equity offering.

ⁱ Treasury sold its TARP investment to a third party and assigned a value of zero to the warrant portion.

Notes: Numbers may not total due to rounding. Appendix F includes all vendor contracts administered under Federal Acquisition Regulations, interagency agreements, and financial agency agreements entered into in support of OFS since the beginning of the program. The table does not include salary, benefits, travel, and other non-contract related expenses. For some contracts, 0 is obligated if no task orders have been awarded and so those contracts are not reflected in this table.

¹ EnnisKnupp Contract TOFS-10-D-0004, was novated to Hewitt EnnisKnupp (TOFS-10-D-0004).

² Awarded by other agencies on behalf of OFS and are not administered by PSD.

³ Awarded by other branches within the PSD pursuant to a common Treasury service level and subject to a reimbursable agreement with OFS.

⁴ Thacher Proffitt & Wood, Contract TOS09-014B, was novated to Sonnenschein Nath & Rosenthal (TOS09-014C).

⁵ McKee Nelson Contract, TOFS-09-D-0005, was novated to Bingham McCutchen.
