

Report Highlights

More Than 50,000 New Permanent Modifications in June

- Total number of permanent modifications increases nearly 15%, with growth in permanent modifications averaging more than 50,000 per month over the last six months.
- Homeowners in permanent modifications are experiencing a median payment reduction of 36%, more than \$500 per month.
- Homeowners in permanent modifications are guaranteed lower payments for five years, then fixed terms at today's low rates for the life of the loan.

Servicers Continue to Work Through Aged Trial Population

- Cancellations continue to rise as servicers comply with Treasury guidance to make decisions on aged trials. Of the newly canceled trials this month, more than 60% had been in trial six months or longer.
- Servicers are still completing their reviews of nearly 166,000 active trials lasting six months or more.
- Approximately 45% of homeowners in canceled trials entered an alternative modification, based on survey data from the eight largest HAMP participants. Fewer than 2% of homeowners in canceled trials went to foreclosure sale.
- The most common causes of cancellations include incomplete documentation, missed trial payments, or mortgage payments already less than 31% of the homeowner's income.

New This Month: Servicer Engagement

- Servicers have shared timetables for participating in the Home Affordable Foreclosure Alternatives Program and the HAMP Second Lien Modification Program (2MP).
- Call center metrics and time to resolve escalated cases are reported for the eight largest participating servicers.

Making Home Affordable Program

Revised 8/06/10

Servicer Performance Report Through June 2010

HAMP Activity: All Servicers

		Total
HAMP Eligibility	Eligible Delinquent Loans ¹	3,125,198
	Eligible Delinquent Borrowers ²	1,623,584
Trial Modifications	Trial Plan Offers Extended ³	1,528,563
	All Trials Started	1,282,912
	Trials Reported Since May 2010 Report ⁴	38,728
	Trial Modifications Canceled	520,814
	Active Trials	364,077
Permanent Modifications	All Permanent Modifications Started	398,021
	Permanent Modifications Begun Since May 2010 Report	51,205
	Permanent Modifications Canceled ⁵	8,823
	Active Permanent Modifications	389,198

¹ Estimated eligible 60+ day delinquent loans as reported by servicers as of May 31, 2010, include conventional loans:

- in foreclosure and bankruptcy.
- with a current unpaid principal balance less than \$729,750 on a one-unit property, \$934,200 on a two-unit property, \$1,129,250 on a three-unit property and \$1,403,400 on a four-unit property.
- on a property that was owner-occupied at origination.
- originated on or before January 1, 2009.

Estimated eligible 60+ day delinquent loans exclude:

- FHA and VA loans.
- loans that are current or less than 60 days delinquent, which may be eligible for HAMP if a borrower is in imminent default.

For servicers enrolling after April 1, 2010 that did not participate in the 60+ day delinquency survey, the delinquency count is from the servicer registration form.

² The estimated eligible 60+ day delinquent borrowers are those in HAMP-eligible loans, minus estimated exclusions of loans on vacant properties, loans with borrower debt-to-income ratio below 31%, loans that fail the NPV test, properties no longer owner-occupied, manufactured housing loans with title/chattel issues that exclude them from HAMP, and loans where the investor pooling and service agreements preclude modification. Exclusions for DTI and NPV results are estimated using market analytics.

³ As reported in the weekly servicer survey through July 1, 2010.

⁴ Servicers may enter new trial modifications anytime before the loan converts to a permanent modification.

⁵ Includes 195 loans paid off.

HAMP Trials Started (Cumulative)

Source: HAMP system of record.

Note: Servicers may enter new trial modifications anytime before the loan converts to a permanent modification.

Permanent Modifications Started (Cumulative)

Source: HAMP system of record.

Making Home Affordable Program

Revised 8/06/10

Servicer Performance Report Through June 2010

Modification Characteristics

- Lower monthly mortgage payments for homeowners in active trial and permanent modifications yield a cumulative reduction of nearly \$3.2 billion.
- The median savings for borrowers in permanent modifications is \$510.19 per month, or 36% of the median before-modification payment.
- 76.8% of homeowners in permanent modifications were 60 days delinquent or more at trial entry; the remainder were up to 59 days late or in imminent default.

Permanent Modifications by Modification Step

Interest Rate Reduction	100%
Term Extension	56.3%
Principal Forbearance	29.1%

Performance of Permanent Modifications (As of May 31, 2010)

Modification Became Permanent in:	Delinquency: Months After Conversion to Permanent								
	3			6			9		
	#	60+ Days*	90+ Days*	#	60+ Days*	90+ Days*	#	60+ Days*	90+ Days*
Q3 2009	3,614	9.7%	3.5%	4,499	14.8%	9.7%	4,764	19.6%	14.9%
Q4 2009	44,595	5.3%	1.4%	48,542	9.7%	5.7%	--	--	--
Q1 2010	126,537	4.0%	1.2%	--	--	--	--	--	--
ALL	174,746	4.5%	1.3%	53,041	10.1%	6.1%	4,764	19.6%	14.9%

Note: For permanent loans aged at least 3 months as of May 31, as reported by servicers through June 17. Please refer to Appendix C on Page 13 for detailed footnotes on this table.

Predominant Hardship Reasons for Permanent Modifications

¹ Includes borrowers who are employed but have faced a reduction in hours and/or wages as well as those who have lost their jobs.

Note: Does not include 17.5% of permanent modifications reported as Other.

Select Median Characteristics of Permanent Modifications

Loan Characteristic	Before Modification	After Modification	Median Decrease
Front-End Debt-to-Income Ratio ¹	44.8%	31.0%	-13.8 pct pts
Back-End Debt-to-Income Ratio ²	79.9%	63.7%	-14.4 pct pts
Median Monthly Payment ³	\$1,422.16	\$837.92	-\$510.19

¹ Ratio of housing expenses (principal and interest on the first mortgage, taxes, insurance and homeowners association and/or condo fees) to monthly gross income.

² Ratio of total monthly debt payments (including principal and interest on the first mortgage, taxes, insurance, homeowners association and/or condo fees, plus payments on installment debts, junior liens, alimony, car lease payments and investment property payments) to monthly gross income. Borrowers who have a back-end debt-to-income ratio of greater than 55% are required to seek housing counseling under program guidelines.

³ Principal and interest payment on the first mortgage.

Total	1,623,584	1,528,563	1,282,912	364,077	389,198

¹ Estimated eligible 60+ day delinquent borrowers as reported by servicers as of May 31, 2010, include those in conventional loans:

- in foreclosure and bankruptcy.
- with a current unpaid principal balance less than \$729,750 on a one-unit property, \$934,200 on a two-unit property, \$1,129,250 on a three-unit property and \$1,403,400 on a four-unit property.
- on a property that was owner-occupied at origination.
- originated prior to January 1, 2009.

Estimated eligible 60+ day delinquent borrowers excludes:

- Those in FHA and VA loans.
- Those in loans that are current or less than 60 days delinquent, which may be eligible for HAMP if a borrower is in imminent default.
- Those borrowers with debt-to-income ratios less than 31% or a negative NPV test.
- Owners of vacant properties or properties otherwise excluded (see footnotes of page 7 for further explanation).

Exclusions for DTI and NPV are estimated using market analytics.

For servicers enrolling after April 1, 2010 that did not participate in the

60+ day delinquency survey, the delinquency count is from the servicer registration form.

² As reported in the weekly servicer survey through July 1, 2010.

³ Active trial and permanent modifications as reported into the HAMP system of record by servicers. Subject to adjustment based on servicer reconciliation of historic loan files.

⁴ Bank of America, NA includes Bank of America, NA, BAC Home Loans Servicing LP, Home Loan Services and Wilshire Credit Corporation.

⁵ J.P. Morgan Chase Bank, NA includes EMC Mortgage Corporation.

⁶ Formerly National City Bank.

⁷ Wachovia Mortgage, FSB consists of Pick-a-Payment loans.

⁸ Wells Fargo Bank, NA includes a portion of the loans previously included in Wachovia Mortgage, FSB.

⁹ Other SPA servicers are entities with less than 5,000 estimated eligible 60+ day delinquent borrowers that have signed participation agreements with Treasury and Fannie Mae. A full list of participating servicers is in the Appendix.

¹⁰ Includes servicers of loans owned or guaranteed by Fannie Mae and Freddie Mac.

Conversion Rate¹

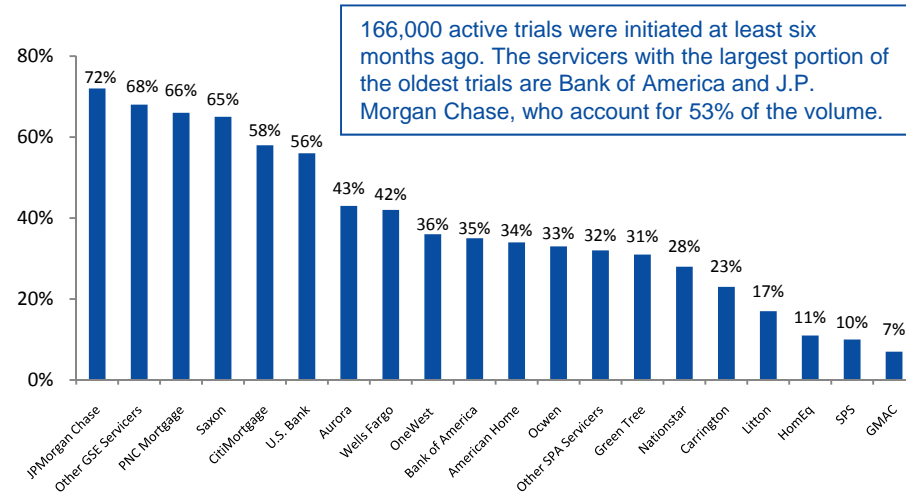

¹ As measured against trials eligible to convert – those three months in trial, or four months if the borrower was in imminent default.

² Per program guidelines, all servicers must be using verified income before starting trial modifications by June 1. These servicers initiated trials prior to the June 1 required deadline using stated income information.

*Other SPA and Other GSE servicers represent a mix of verified and stated income trial starts. Permanent modifications transferred among servicers are credited to the originating servicer.

Aged Trials¹ as Share of Active Trials

166,000 active trials were initiated at least six months ago. The servicers with the largest portion of the oldest trials are Bank of America and J.P. Morgan Chase, who account for 53% of the volume.

¹ Active trials initiated at least six months ago. Note: Excludes Wachovia Mortgage, FSB at 0%.

Making Home Affordable Program

Revised 8/06/10

Servicer Performance Report Through June 2010

Disposition Path Homeowners in Canceled HAMP Trial Modifications Through May 2010 (8 Largest Servicers)¹

Homeowners Whose HAMP Trial Modification Was Canceled in the Process of:

Servicer	Action Pending ²	Bankruptcy	Borrower Current	Alternative Modification	Payment Plan ³	Loan Payoff	Short Sale/Deed in Lieu	Foreclosure Starts	Foreclosure Completions	Total (As of May 2010)
American Home Mortgage Servicing Inc.	60	9	26	16	8	1	0	6	3	129

Wells Fargo Bank NA ⁹	3/10	4/10	4/10	7/10	7/10

¹ As defined by cap amount.

² Per Supplemental Directive 10-01, all servicers were required to start trials using verified income documentation at trial start by June 1, 2010.

³ Servicers had the option to use verified income at any time.

⁴ HAFA guidelines enable short-sale and deed-in-lieu transactions for borrowers at risk of foreclosure.

⁵ Operationally ready means that servicers have implemented the program as outlined in Supplemental Directive 09-09. Dates after May 31, 2010 are estimated.

⁶ Treasury's Second Lien Modification Program was revised in March 2010. Servicers participating in HAMP are not required to sign up for Revised 2MP.

⁷ Bank of America, NA includes Bank of America, NA, BAC Home Loans Servicing LP, Home Loan Services and Wilshire Credit Corporation.

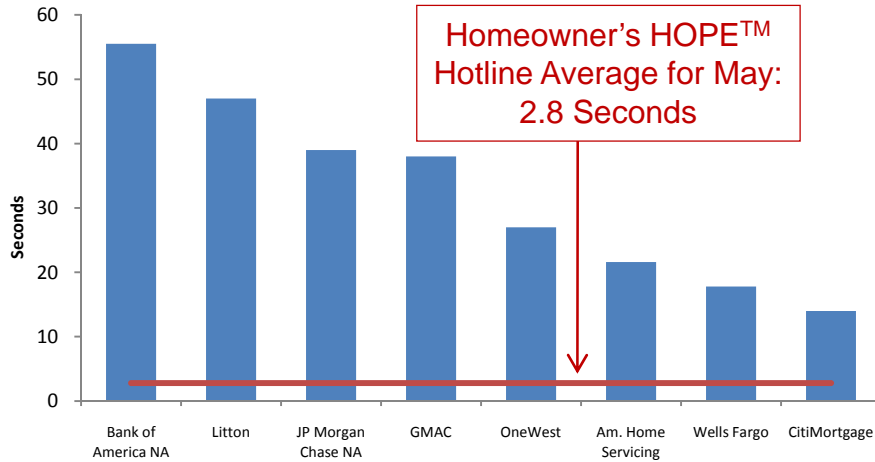

⁸ Prior to April 2010, GMAC operated a program where most documents were provided at trial start, but some supporting documents could be produced during the trial period.

⁹ J.P. Morgan Chase Bank, NA includes EMC Mortgage Corporation.

¹⁰ Wells Fargo Bank, NA includes a portion of the loans previously included in Wachovia Mortgage, FSB. Excludes Wachovia Mortgage FSB Pick-a-Payment Loans. Wachovia Mortgage FSB began verified income trials at signup in July 2009.

¹ Bank of America, NA includes Bank of America, NA, BAC Home Loans Servicing LP, Home Loan Services and Wilshire Credit Corporation.

² J.P. Morgan Chase Bank, NA includes EMC Mortgage Corporation.

³ Wells Fargo Bank, NA includes Wachovia Mortgage FSB and Wachovia Bank NA.

Appendix B: Description of Compliance Activities

Note: Servicer-specific compliance data will be reported quarterly.

Description of Compliance Activities

Freddie Mac, serving as Compliance Agent for Treasury's Home Affordable Modification Program (HAMP), has created a separate division known as Making Home Affordable - Compliance (MHA-C). Using a risk-based approach, MHA-C conducts a number of different types of compliance activities to assess servicer compliance with HAMP guidelines, as described below.

On Site Reviews: Readiness & Governance – A review performed by MHA-C to assess the servicer's preparedness for complying with new/future HAMP requirements, or to research a trend or potential implementation risk. Reviews are performed as needed, determined by frequency of new program additions.

NPV – A review conducted by MHA-C to determine the servicer's adherence to the HAMP NPV guidelines. For those servicers that have elected to recode the NPV model into their own systems (recoders), the testing process is designed to ensure the servicer's NPV model is accurately calculating NPV and that the model usage is consistent with directives. At a minimum, recoders are subject to quarterly off-site testing and semi-annual for on-site reviews. For servicers using the Treasury NPV Web Portal, reviews of data submissions are performed on a monthly basis.

On Site Reviews: Implementation – A review conducted by MHA-C covering the servicer's overall execution of the HAMP program. Areas covered include, among other things, solicitation, eligibility, underwriting, document management, payment processing, reporting, and governance. Reviews are performed at a minimum for larger servicers on a semi-annual schedule and for smaller servicers on an annual schedule.

Loan File Review – A review performed by MHA-C of a servicer's non-performing loan portfolio primarily to assess completeness of relevant documentation and appropriate loan modification decisioning. This includes reviews of

loans which have successfully converted to a permanent modification to ensure they meet the HAMP guidelines, as well as loans that have not been offered HAMP modifications to ensure that the exclusion was appropriate ("Second Look"). Larger servicers are on an alternating permanent modifications and Second Look monthly loan file review cycle. These Loan File reviews consist of a statistical sample (typically 100-150 loan files per larger servicer). Smaller servicers are also statistically sampled on a quarterly or semi-annual cycle.

Incentive Payments – A review performed by MHA-C to determine the accuracy and validity of borrower and investor incentive payments, and to assess whether borrower payments are appropriately allocated to borrowers' loan principal in accordance with HAMP guidelines. They are performed at a minimum annually on the top 21 servicers.

Areas of Compliance Focus

Based on the results of MHA-C's reviews to date and anticipated risks to the program, HAMP compliance efforts will remain focused on the following general areas:

Borrower Solicitation – Servicers are required to solicit eligible borrowers without delay and not conduct foreclosure proceedings until such borrowers are appropriately considered for HAMP. It is critical that servicers not take actions that would lead to borrowers becoming displaced from their home without being given proper consideration for a loan modification or other foreclosure alternative. Servicers should ensure that their operating protocols identify all populations of eligible borrowers. Servicers should ensure that their operating procedures meet or exceed the minimum requirements of Supplemental Directive 10-02 related to borrower solicitation and contact.

Underwriting Documentation – Servicers must retain a complete and consistent set of documentation for all loans considered for HAMP, including evidence supporting borrower income. In addition, appropriate documentation must support all decisions (e.g., denials, permanent

modifications, etc.) made by the servicer. Servicers' quality assurance departments are required, and expected, to play an active role in the ongoing evaluation of the servicers' underwriting process and related documentation.

NPV model usage – Servicers are required to utilize net present value (NPV) models that produce valid and accurate results. In order to eliminate adverse borrower outcomes from negative NPV results, servicers must hold required inputs constant between NPV tests. Servicers should regularly test their recoded NPV models against the Treasury NPV Portal to identify any anomalous or inaccurate results.

Document processing and control – Servicers must have policies and procedures that clearly describe document acquisition, tracking, and retention practices. Any potential for misplaced or lost documents should immediately be addressed so that timely decisions can be made for borrowers eligible for assistance under HAMP. In addition, servicers should ensure that proper training and education is provided for all parties involved in the document management life cycle, including those with responsibility for the servicers' document management technology.

IR2 Data Maintenance – Servicers are required to report timely and accurate information to the Program Administrator's IR2 data base. This information serves not only to measure HAMP's progress, but also as the authoritative source for incentive payments due to borrowers, servicers, and investors. Servicers should be conducting ongoing reviews of their reported data and be prepared to explain circumstances where data is either inconsistent or missing.

Governance – Servicers should ensure that a sound governance process exists for HAMP. An appropriate governance model begins with senior executive accountability and extends to formal policies and procedures for HAMP-related activities, including the development of comprehensive fraud prevention, fair lending, and quality assurance programs.

Appendix C: Detailed Footnotes on Performance of Permanent Modifications

In reference to the table on Page 3, “Performance of Permanent Modifications”:

- The table on page 3 shows the performance of permanent HAMP modifications at 3, 6, and 9 months of age and includes modifications that have aged at least 3, 6, or 9 months, as applicable. The table stratifies the data by the quarter in which the modification became effective and provides two separate performance metrics:
 - **60+ days delinquent:** All loans that have missed two or more consecutive monthly payments, including 90+ days delinquent loans.
 - **90+ days delinquent:** All loans that have missed three or more consecutive monthly payments.
- The table reflects the fact that loan payment status is not reported by servicers after program disqualification (90+ days delinquent). Therefore, 90+ days delinquent loans are included in each of the 60+ days delinquent and 90+ days delinquent metrics for all future reporting periods, even though some loans may have cured or paid off following program disqualification.
- This table reflects a total of 5,064 disqualified loans that have aged 3, 6, or 9 months through the May activity period as reported by servicers through June 17. The table published on July 20 inadvertently excluded 1,793 disqualified loans and partially reported 857 disqualified loans due to an error in the development of the metric.
- Servicers are required to report monthly payment information on HAMP modifications in the form of an Official Monthly Report (OMR). If a servicer does not report an OMR for a loan in a given month, the performance of that loan is not included in the table for that month. This table reflects improved servicer OMR reporting as the modification ages, causing the total loan count in months 6 and 9 to be higher than the count in month 3.
- Once a loan is paid off, it is no longer reflected in future periods.
- The data set forth in this table has been reviewed and verified by an independent third party consultant contracted by Fannie Mae's Internal Audit group.
- This data has also been independently verified by MITRE, an outside review firm retained by Treasury. A report from MITRE is available online:
<http://www.financialstability.gov/docs/MITRE%20Final%20Public%20Version%208-6-10.pdf>
