

Making Home Affordable

Program Performance Report Through March 2011

Report Highlights

Over 670,000 Homeowners Granted Permanent Modifications

- More than 36,000 new permanent modifications were reported in March; some began in prior months and were recently entered into the HAMP system of record.
- Homeowners granted permanent modifications realize aggregate reductions in monthly mortgage payments of **nearly \$5.9 billion**, program to date.
- Additionally, servicers continue to start trial modifications at a steady pace, **averaging about 29,000 new trial modifications** for the last six months.
- More **than 1.5 million homeowners** have entered trial modifications since program inception.

Permanent Modifications Perform Well Over Time; Larger Payment Reductions Exhibit Stronger Performance

- Homeowners whose housing payment was cut by more than 50% through a HAMP permanent modification **performed significantly better** than those with payment reductions of 20% or less. After one year, fewer than 12% of borrowers with a payment reduction greater than 50% were 60+ days delinquent.
- At 12 months, more than 84% of homeowners remain in HAMP permanent modifications. The remaining 16% have been disqualified from the program for missing three consecutive payments.
- **HAMP permanent modifications continue to be sustained at better rates** than industry modifications.

Inside: Improved Report Format

- Revamped presentation includes program-level data first, followed by servicer-specific performance data.
- Expanded chart sizes for easier readability.

Making Home Affordable: Summary Results

Program Performance Report Through March 2011

HAMP Activity: First Lien Modifications

HAMP is designed to lower monthly mortgage payments to help struggling homeowners stay in their homes and prevent avoidable foreclosure.

		Total
HAMP Eligibility (As of Feb. 28, 2011)	Eligible Delinquent Loans ¹	2,813,406
	Eligible Delinquent Borrowers ²	1,341,857
Trial Modifications	Trial Plan Offers Extended (Cumulative) ³	1,820,372
	All Trials Started	1,559,023
	Trials Reported Since February 2011 Report ⁴	36,827
	Trial Modifications Canceled (Cumulative)	751,474
	Active Trials	137,363
Permanent Modifications	All Permanent Modifications Started	670,186
	Permanent Modifications Reported Since February 2011 Report	36,432
	Permanent Modifications Canceled (Cumulative) ⁵	83,270
	Active Permanent Modifications	586,916

¹ Estimated eligible 60+ day delinquent loans as reported by servicers as of February 28, 2011, include conventional loans:

- in foreclosure and bankruptcy.
- with a current unpaid principal balance less than \$729,750 on a one-unit property, \$934,200 on a two-unit property, \$1,129,250 on a three-unit property and \$1,403,400 on a four-unit property.
- on a property that was owner-occupied at origination.
- originated on or before January 1, 2009.

Estimated eligible 60+ day delinquent loans exclude:

- FHA and VA loans.
- loans that are current or less than 60 days delinquent, which may be eligible for HAMP if a borrower is in imminent default.

² The estimated eligible 60+ day delinquent borrowers are those in HAMP-eligible loans, minus estimated exclusions of loans on vacant properties, loans with borrower debt-to-income ratio below 31%, loans that fail the NPV test, properties no longer owner-occupied, manufactured housing loans with title/chattel issues that exclude them from HAMP, and loans where the investor pooling and servicing agreements preclude modification. Exclusions for DTI and NPV results are estimated using market analytics.

³ As reported in the weekly servicer survey of large SPA servicers through March 31, 2011.

⁴ Servicers may enter new trial modifications into the HAMP system of record at anytime.

⁵ A permanent modification is canceled when the borrower has missed three consecutive monthly payments. Includes 1,126 loans paid off.

Note: Unless specified, exhibits in this report refer to HAMP first lien modification activity.

Second Lien Modification Program (2MP) Activity

The Second Lien Modification Program (2MP) provides assistance to homeowners in a first lien permanent modification who have an eligible second lien with a participating servicer.

All Second Lien Modifications Started	21,298
---------------------------------------	--------

Note: Number of modifications is net of cancellations, which are primarily due to servicer data corrections.

Home Affordable Foreclosure Alternatives (HAFA) Activity

The Home Affordable Foreclosure Alternatives Program (HAFA) offers incentives for homeowners looking to exit their homes through a short sale or deed in lieu of foreclosure.

All HAFA Agreements Started ¹	12,266
--	--------

HAFA Transactions Completed	5,447
-----------------------------	-------

¹ Servicer agreement with homeowner for terms of potential short sale, which lasts at least 120 days; or agreement for a deed-in-lieu transaction. A short sale requires a third-party purchaser and cooperation of junior lienholders and mortgage insurers to complete the transaction. All HAFA Agreements Started include HAFA Transactions Completed.

Treasury FHA-HAMP Modification Activity

The Treasury FHA-HAMP program provides assistance to eligible homeowners with FHA-insured mortgages.

All Treasury FHA-HAMP Trial Modifications Started	3,860
---	-------

Treasury FHA-HAMP Permanent Modifications Started	2,414
---	-------

See Appendix A2 on Page 17 for servicer participants in additional Making Home Affordable programs.

Making Home Affordable: Summary Results

Program Performance Report Through March 2011

HAMP Trials Started

Source: HAMP system of record. Servicers may enter new trial modifications into the HAMP system of record at any time. For example, 36,827 trials have entered the HAMP system of record since the prior report; of those, 22,002 were trials with a first payment recorded in March 2011.

Homeowner Benefits and Modification Characteristics

- Aggregate savings to homeowners who received HAMP first lien permanent modifications are estimated to total **nearly \$5.9 billion**, program to date, compared with unmodified mortgage obligations.
- The median monthly savings for borrowers in active permanent first lien modifications is \$525.94, or **37% of the median monthly payment** before modification.
- Of trial modifications started, **78% of homeowners were at least 60 days delinquent at trial start**. The rest were up to 59 days delinquent or in imminent default.
- The **primary hardship reasons** for homeowners in active permanent modifications are:
 - 61.0% experienced loss of income (curtailment of income or unemployment)
 - 11.5% reported excessive obligation
 - 2.8% reported an illness of the principal borrower
- Active permanent modifications feature the following **modification steps**:
 - 100% feature interest rate reductions
 - 59.5% offer term extension
 - 30.5% include principal forbearance

Permanent Modifications Started (Cumulative)

Source: HAMP system of record.

Select Median Characteristics of Active Permanent Modifications

Loan Characteristic	Before Modification	After Modification	Median Decrease
Front-End Debt-to-Income Ratio ¹	45.3%	31.0%	-14.3 pct pts
Back-End Debt-to-Income Ratio ²	79.3%	62.5%	-14.8 pct pts
Median Monthly Housing Payment ³	\$1,430.76	\$833.03	-\$525.94

¹ Ratio of housing expenses (principal, interest, taxes, insurance and homeowners association and/or condo fees) to monthly gross income.

² Ratio of total monthly debt payments (including mortgage principal and interest, taxes, insurance, homeowners association and/or condo fees, plus payments on installment debts, junior liens, alimony, car lease payments and investment property payments) to monthly gross income. Borrowers who have a back-end debt-to-income ratio of greater than 55% are required to seek housing counseling under program guidelines.

³ Principal and interest payment.

Making Home Affordable: Summary Results

Program Performance Report Through March 2011

Performance of Permanent Modifications (As of February 28, 2011)

This table shows the performance of permanent HAMP modifications at 3, 6, 9, and 12 months of age and includes modifications that have aged at least 3, 6, 9, or 12 months, as applicable. For example:

Of loans that became permanent in the 3rd quarter of 2010, 10.8% were 60+ days delinquent at six months' seasoning.

Modification Became Permanent in:	Delinquency: Months After Conversion to Permanent											
	3			6			9			12		
	#	60+ Days	90+ Days	#	60+ Days	90+ Days	#	60+ Days	90+ Days	#	60+ Days	90+ Days
Q3 2009	3,584	9.8%	3.5%	4,457	14.9%	9.8%	4,713	19.6%	14.9%	4,701	25.4%	20.6%
Q4 2009	44,375	5.3%	1.4%	48,241	9.6%	5.7%	51,105	15.3%	10.6%	52,291	19.9%	15.3%
Q1 2010	125,805	3.7%	1.0%	152,605	9.7%	5.3%	160,638	16.0%	11.1%	164,881	20.2%	16.0%
Q2 2010	150,535	5.0%	1.4%	160,335	11.8%	7.0%	171,461	16.9%	12.4%			
Q3 2010	86,928	4.7%	1.4%	97,052	10.8%	6.7%						
Q4 2010	58,592	4.3%	1.5%									
ALL	469,819	4.6%	1.3%	462,690	10.7%	6.3%	387,917	16.4%	11.7%	221,873	20.3%	15.9%

- For permanent loans aged at least 3 months as of Feb. 28, 2011, as reported by servicers through March 17, 2011.
- The table stratifies the data by the quarter in which the permanent modification became effective and provides two separate performance metrics:
 - **60+ days delinquent:** All loans that have missed two or more consecutive monthly payments, including 90+ days delinquent loans.
 - **90+ days delinquent:** All loans that have missed three or more consecutive monthly payments.
- Loan payment status is not reported by servicers after program disqualification (90+ days delinquent). Therefore, 90+ days delinquent loans are included in each of the 60+ days delinquent and 90+ days delinquent metrics for all future reporting periods, even though some loans may have cured or paid off following program disqualification.
- This table reflects a total of 63,807 disqualified loans that have aged 3, 6, 9, or 12 months through the February activity period as reported by servicers through March 17, 2011.
- Servicers are required to report monthly payment information on HAMP modifications in the form of an Official Monthly Report (OMR). If a servicer does not report an OMR for a loan in a given month, the performance of that loan is not included in the table for that month. This table reflects improved servicer OMR reporting as the modification ages, causing the total loan count for each quarter in months 6 and beyond to be higher than the count in month 3. Reported loan counts may shift from prior reports due to servicer data corrections.
- Once a loan is paid off, it is no longer reflected in future periods.
- Beyond 12 months, performance will be noted in 6-month increments, beginning next quarter. This table will be published quarterly.

Making Home Affordable: Summary Results

Program Performance Report Through March 2011

Performance of Permanent Modifications by Homeowner Payment Reduction (As of February 28, 2011)

This chart and the table that follows show the performance of permanent HAMP modifications at 3, 6, 9, and 12 months of age as related to homeowner payment reduction. For example: *Of loans that featured a payment reduction between 40% and 50%, 8.5% were 60+ days delinquent at six months' seasoning.*

60+ Day Delinquency Rate by Payment Reduction

Decrease From Before-Modification Principal + Interest Payment:	Delinquency: Months After Conversion to Permanent

¹ Estimated eligible 60+ day delinquent borrowers as reported by servicers as of February 28, 2011, include those in conventional loans:

- in foreclosure and bankruptcy.
- with a current unpaid principal balance less than \$729,750 on a one-unit property, \$934,200 on a two-unit property, \$1,129,250 on a three-unit property and \$1,403,400 on a four-unit property.
- on a property that was owner-occupied at origination.
- originated prior to January 1, 2009.

Estimated eligible 60+ day delinquent borrowers excludes:

- Those in FHA and VA loans.
- Those in loans that are current or less than 60 days delinquent, which may be eligible for HAMP if a borrower is in imminent default.
- Those borrowers with debt-to-income ratios less than 31% or a

negative NPV test.

- Owners of vacant properties or properties otherwise excluded.

Exclusions for DTI and NPV are estimated using market analytics.

² As reported in the weekly servicer survey of large SPA servicers through March 31, 2011.

³ As reported into the HAMP system of record by servicers. Excludes FHA-HAMP modifications. Subject to adjustment based on servicer reconciliation of historic loan files. Totals reflect impact of servicing transfers. Servicers may enter new trial modifications into the HAMP system of record at any time.

⁴ These figures include trial modifications that have been converted to permanent modifications by the servicer and are pending reporting to the HAMP system of record.

⁵ Bank of America, NA includes Bank of America, NA, BAC Home Loans Servicing LP, Home Loan Services and Wilshire Credit Corporation.

⁶ J.P. Morgan Chase Bank, NA includes EMC Mortgage Corporation.

⁷ Formerly National City Bank.

⁸ Wells Fargo Bank, NA includes all loans previously reported under Wachovia Mortgage, FSB.

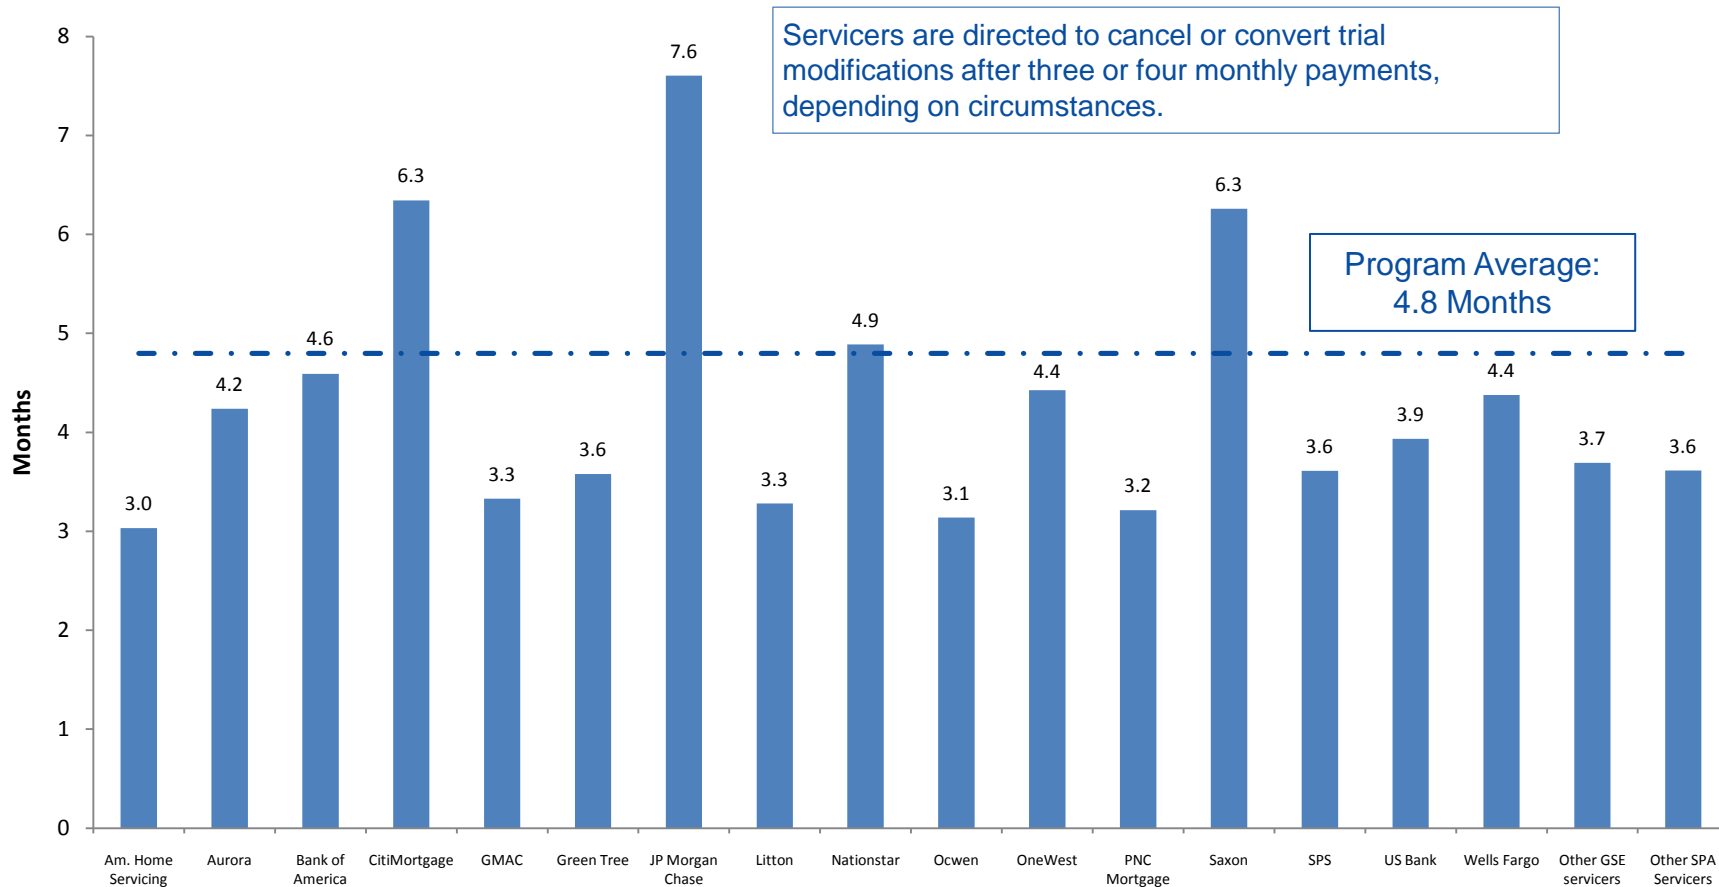

⁹ Other SPA servicers are entities with less than 5,000 estimated eligible 60+ day delinquent borrowers as of February 28, 2011, that have signed participation agreements with Treasury and Fannie Mae. A full list of participating servicers is in Appendix A.

¹⁰ Includes servicers of loans owned or guaranteed by Fannie Mae and Freddie Mac. Includes GSE loans transferred from SPA servicers.

Making Home Affordable: Servicer Results

Program Performance Report Through March 2011

Length of Trial Upon Conversion¹

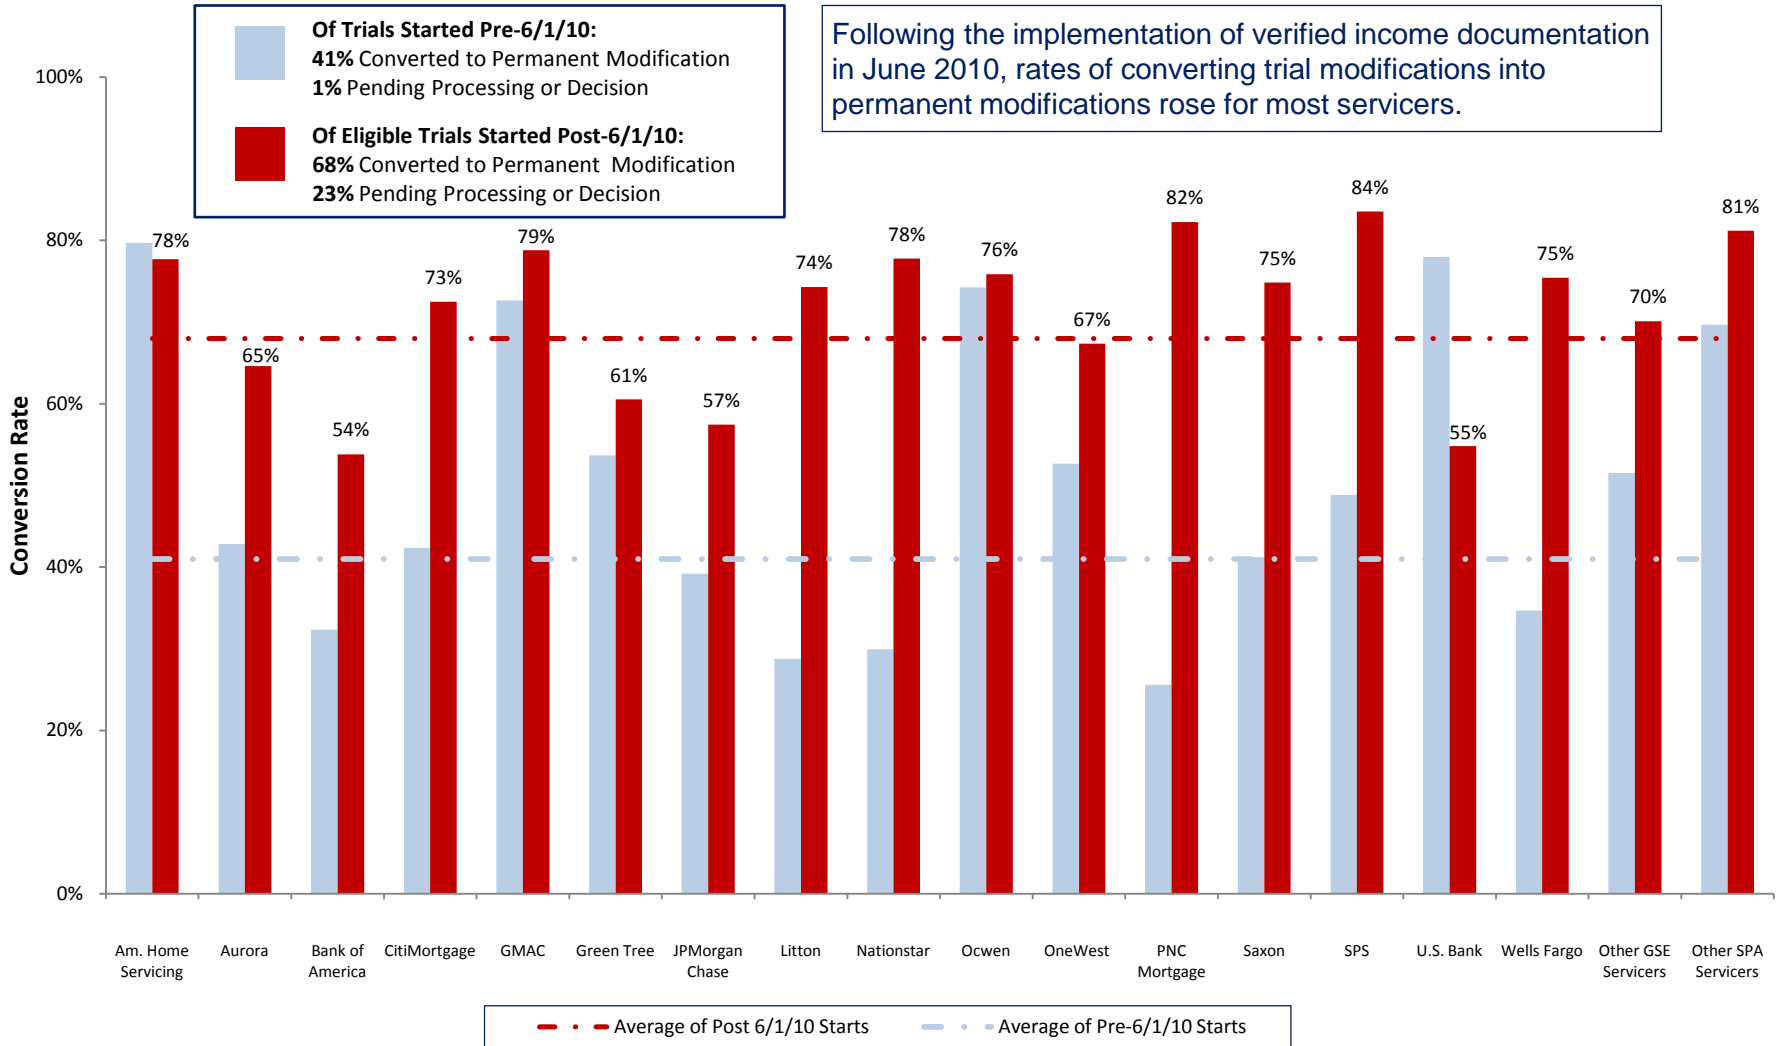

¹ For all permanent modifications started.

Making Home Affordable: Servicer Results

Program Performance Report Through March 2011

Conversion Rate¹

Note: Per program guidelines, effective June 1, 2010 all trials must be started using verified income. Prior to June 1, some servicers initiated trials using stated income information.

¹ As measured against trials eligible to convert – those three months in trial, or four months if the borrower was at risk of imminent default at trial modification start. Permanent modifications transferred among servicers are credited to the originating servicer. Trial modifications transferred are reflected in the current servicer's population.

Making Home Affordable

Program Performance Report Through March 2011

Appendix B1: Description of Compliance Activities

Note: Areas of compliance emphasis and servicer-specific compliance data will be updated quarterly.

Description of Compliance Activities

Freddie Mac, serving as Compliance Agent for Treasury's Home Affordable Modification Program (HAMP), has created a separate division known as Making Home Affordable - Compliance (MHA-C). Using a risk-based approach, MHA-C conducts a number of different types of compliance activities to assess servicer compliance with HAMP guidelines for those servicers that have signed a servicer participation agreement with Treasury, in their servicing of those loans for which Treasury pays incentives (non-GSE loans), as described below.

On-Site Reviews: Implementation – Reviews to assess the servicer's overall execution of HAMP. Areas covered include, but are not limited to, solicitation, eligibility, underwriting, document management, payment processing, reporting, and governance. MHA-C performs reviews of larger servicers on not less than a semi-annual schedule and reviews smaller servicers on at least an annual schedule.

On-Site Reviews: Readiness & Governance – Reviews to assess the servicer's preparedness for complying with new or future HAMP requirements or to research a trend or

potential implementation risk. MHA-C performs such reviews as needed, determined by frequency of new program guidance.

NPV Reviews – Reviews to assess the servicer's adherence to the HAMP NPV guidelines. For those servicers that have elected to recode the NPV model into their own systems (recoders), MHA-C assesses whether the servicer's recoded NPV model is accurately calculating NPV and whether the servicer's model usage is consistent with HAMP guidelines. Recoders are subject to off-site testing at least quarterly and to on-site reviews at least semi-annually. For servicers using the Treasury NPV Web Portal, MHA-C reviews data submissions to the Portal on a monthly basis, and conducts on-site reviews as necessary to evaluate data submission issues.

Loan File Reviews – Reviews of samples of the servicer's non-performing loan portfolio primarily to assess whether required steps in the modification process have been documented in the loan files and whether loan modification decisions were appropriate. This includes reviews of loans that have successfully converted to a permanent modification, to ensure they meet the HAMP guidelines. It also includes reviews of loans that have not been offered HAMP modifications, to ensure that their exclusion

was appropriate ("Second Look" reviews). MHA-C conducts these Loan File reviews on a statistical sample for each servicer (typically 100 loan files per larger servicer). Larger servicers' non-performing loan portfolios are sampled and reviewed on a monthly cycle. MHA-C statistically samples and reviews smaller servicers' non-performing loan portfolios on a quarterly or semi-annual cycle.

Incentive Payment Reviews – Reviews to assess the accuracy and validity of Treasury incentive payments to borrowers and investors, including whether borrower payments are appropriately allocated to borrowers' loan principal in accordance with HAMP guidelines. MHA-C performs such reviews at least annually on the largest servicers.

(See next page for Areas of Compliance Emphasis)

Making Home Affordable

Program Performance Report Through March 2011

Appendix B2: Areas of Compliance Emphasis

The past two years have seen substantive change in MHA programs as well as in the MHA operations of participating servicers. As new programs have been implemented and guidance has matured, Treasury's compliance goal first and foremost has been to ensure that homeowners are appropriately treated in accordance with MHA guidelines and have the opportunity to avoid foreclosure.

In 2011, Treasury will focus more intently on ensuring that servicers are maturing their MHA processes, accurately and timely processing MHA transactions, and employing appropriate internal governance efforts. Treasury will accomplish this by conducting more targeted or focused reviews, assessing servicer Quality Assurance or Internal Audit coverage of MHA activities, and enhancing the level of compliance-related information included in the MHA monthly reports.

The following are current areas of emphasis for MHA-C.

Cancellations

Servicers are required to comply with HAMP guidance when canceling loans in HAMP trials. The Second Look review process conducted by MHA-C has, and will continue to include, a focus on evaluating servicers' cancellation activities, especially those around servicers' timely and appropriate decisioning and borrower communications.

MHA-C has performed targeted reviews of the cancellations of aged trials and will continue these

reviews over the course of the next several months. MHA-C is evaluating whether servicers are making appropriate cancellation decisions, with a specific focus on those loans where the cancellation reason indicates that the borrower had not made timely payments. Servicers are required to maintain documentation supporting cancellation decisions and evidence that borrower notifications are provided timely with all required information.

Pre-Foreclosure Certification

Due to recent concerns around foreclosures and the issuance of related guidance in June 2010, MHA-C is focusing on pre-foreclosure activities and certification requirements. Servicers may not refer any loan to foreclosure or conduct a scheduled foreclosure sale without first satisfying the "reasonable effort" solicitation standard and borrower communication requirements described in HAMP guidelines. In addition, within seven business days of a scheduled foreclosure sale, servicers must provide the foreclosure attorney or trustee with a written certification that the servicer has satisfied the requirements to solicit and evaluate eligible borrowers as defined by HAMP guidelines, and that all other available loss mitigation alternatives have been exhausted and a non-foreclosure outcome could not be reached.

These reviews will include:

- Processes for satisfying the "reasonable effort" standard and for ensuring that consideration of MHA programs and borrower notifications are executed and appropriately documented; and

- Processes for completing consideration of HAMP and other foreclosure alternatives, as appropriate, prior to any foreclosure referral or foreclosure sale; and
- Processes for providing foreclosure attorneys or trustees with accurate and timely certifications prior to a scheduled foreclosure sale.

IR2 Reporting and Data Integrity

Servicers are required to submit HAMP loan-level data to the program's system of record (IR2), and that data is required to be accurate and consistent with source documentation. IR2 data is used to monitor and report on HAMP activity levels and to calculate servicer, borrower, and investor incentive payments. As stated in prior reports, reporting and data integrity controls continue to be a focus. MHA-C conducted preliminary data mapping exercises with the Program Administrator and will be assessing servicers' information technology (IT) controls over IR2 reporting over the coming months, with an emphasis on system interfaces and reconciliations of data between systems.

MHA-C will continue testing IR2 data against source documentation, including loan files, with particular attention on the data elements used in the establishment of borrower payments and the calculation of incentives. MHA-C will also continue to review servicers' calculations for accuracy and consistency with HAMP guidelines.
