The Obama Administration’s Efforts To Stabilize The Housing Market and Help American Homeowners

July 2012

The Administration’s goal is to stabilize the housing market and provide security for homeowners. To meet these objectives in the context of a very challenging market, the Administration developed a broad approach implementing state and local housing agency initiatives, tax credits for homebuyers, neighborhood stabilization and community development programs, mortgage modifications and refinancing, housing counseling, continued Federal Housing Administration (FHA) engagement, support for Fannie Mae and Freddie Mac and increased consumer protections. In addition, Federal Reserve and Treasury Mortgage-Backed Securities purchase programs have helped to keep mortgage interest rates at record lows over the past year. More detail on the Administration’s efforts can be found in the Appendix.

July 2012 Scorecard on Administration’s Comprehensive Housing Initiative

The President’s housing market recovery efforts began immediately after taking office in February 2009. The July 2012 housing scorecard includes the following key indicators of market health and results of the Administration’s comprehensive response, as outlined above:

• Market data show important progress in homes on the market and for underwater mortgages, but continued fragility overall. The number of underwater borrowers fell 5.8 percent from the previous quarter and is down 0.9 percent from one year ago. Also, foreclosure starts and completions declined in June, though officials expect activity to increase in the coming months as firms lift delays in foreclosure processing. In addition, the inventory of houses for sale remained low. At current pace, it would take 6.6 months to sell the supply of existing homes on the market and 4.9 months to clear the new homes on the market; experts consider a six month supply of homes to be a balanced market.

• The Administration’s recovery efforts continue to help millions of families deal with the worst economic crisis since the Great Depression. More than 1.2 million homeowner assistance actions have taken place through the Administration’s Making Home Affordable Program, while the FHA has offered more than 1.4 million loss mitigation and early delinquency interventions. The Administration’s programs continue to encourage improved standards and processes in the industry, with HOPE Now lenders offering families and individuals more than 2.9 million proprietary mortgage modifications through May.

• Homeowners entering HAMP demonstrate a high likelihood of long-term success in the program. As of June, more than one million homeowners have received a permanent HAMP modification, saving approximately $536 on their mortgage payments each month, and an estimated $13.3 billion to date. Eighty-six percent of homeowners entering the program in the last 23 months have received a permanent modification, with an average trial period of 3.5 months. More than 88,000 homeowners have had their principal reduced as part of their HAMP permanent modification, and nearly 87,000 second lien modifications have been completed through the Second Lien Modification Program (2MP). The May Monthly Report can be found at: http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx

Given the current fragility and recognizing that recovery will take place over time, the Administration remains committed to its efforts to prevent avoidable foreclosures and stabilize the housing market.

## SOURCES AND METHODOLOGY

### Mortgage Rates (30-Yr FRM)
- **Weekly** - Freddie Mac

### Housing Affordability
- **Monthly** - National Association of Realtors®
  - NAR’s composite housing affordability index as reported. A value of 100 means that a family with the median income has exactly enough income to qualify for a mortgage on a median-priced home. An index above 100 signifies that family earning the median income has more than enough income to qualify.

### Home Prices
- **Case-Shiller (NSA)**
- **Monthly** - Standard and Poor's
- **FHPA (SA)**
- **Monthly** - Federal Housing Finance Agency
- **CoreLogic - Excluding Distressed Sales (NSA)**
- **Monthly** - CoreLogic

### Home Sales (SA)
- **New**
  - **Monthly** - HUD and Census Bureau
- **Existing**
  - **Monthly** - National Association of Realtors®
- **First Time Buyers**
  - **Monthly** - NAR, Census Bureau, and HUD
- **Distressed Sales (NSA)**
  - **Monthly** - CoreLogic

### Housing Supply
- **Existing Homes for Sale (NSA)**
- **Monthly** - National Association of Realtors®
- **New Homes for Sale (SA)**
- **Monthly** - HUD and Census Bureau
- **New Homes for Sale - Months’ Supply (SA)**
- **Monthly** - Census Bureau
- **Vacant Units Held Off Market**
- **Quarterly** - HUD and Census Bureau

### Mortgage Originations and Refinance Originations
- **Purchase Originations**
  - **Quarterly** - Mortgage Bankers Association and HUD
  - ** monthly** - Mortgage Bankers Association and HUD

### FHA Originations
- **Refinance Originations**
  - **Monthly** - HUD
- **Purchase Originations**
  - **Monthly** - HUD
- **Purchases by First Time Buyer**
  - **Monthly** - HUD

### Mortgage Delinquency Rates (NSA)
- **Prime**
  - **Monthly** - LPS Applied Analytics
  - **Monthly** - HUD
- **Subprime**
  - **Monthly** - LPS Applied Analytics, FHA

### Seriously Delinquent Mortgages
- **Prime**
  - **Monthly** - LPS Applied Analytics, FHA, MBA, and HUD
- **Subprime**
  - **Monthly** - LPS Applied Analytics, FHA, MBA, and HUD

### Underwater Borrowers
- **Quarterly** - CoreLogic

### Foreclosure Actions
- **Notice of Default (Foreclosure Starts)**
  - **Monthly** - Realty Trac
- **Notice of Foreclosure Sale**
  - **Monthly** - Realty Trac
- **Foreclosure Completion**
  - **Monthly** - Realty Trac
- **Short sales**
  - **Monthly** - CoreLogic
- **REO Sales**
  - **Monthly** - CoreLogic

### Change in Aggregate Home Equity Quarterly
- **Federal Reserve Board**
- **Difference in aggregate household owners' equity in real estate as reported in the Federal Reserve Board’s Flow of Funds Accounts of the United States for stated time period.**

### Change in Aggregate Home Equity
- **Seasonally adjusted annual rates divided by 12. A newly constructed house is considered sold when either a sales contract has been signed or a deposit accepted, even if this occurs before construction has actually started.**

### Home Prices
- **Case-Shiller 20-metro composite index, January 2000 = 100. Standard and Poor’s recommends use of not seasonally adjusted index when making monthly comparisons.**
- **FHPA monthly (purchase-only) index for US, January 1991 = 100. CoreLogic National combined index, distressed sales excluded, January 2000 = 100. (Only available as NSA).**

### Home Sales (SA)
- **Seasonally adjusted annual rates divided by 12. Existing-home sales, which include single-family, townhomes, condominiums and co-ops, are based on transaction closings. This differs from the U.S. Census Bureau’s series on new single-family home sales, which are based on contracts or the acceptance of a deposit.**
- **Sum of seasonally adjusted new and existing home sales (above) multiplied by National Association of Realtors® annual estimate of first time buyer share of existing home sales.**
- **Short sales and REO (Real Estate Owned) sales as a percent of total existing home sales (current month subject to revision).**

### Mortgage Originations
- **Refinance Originations**
  - **Monthly** - HUD
  - **Monthly** - FHA
  - **Quarterly** - FHA

### FHA Delinquencies
- **FHA Delinquency Rates (NSA)**
  - **Monthly** - LPS Applied Analytics
  - **Monthly** - FHA

### Seriously Delinquent Mortgages
- **Monthly** - LPS Applied Analytics, FHA, FHA, FHA

### Underwater Borrowers
- **Quarterly** - CoreLogic

### Foreclosure Actions
- **Monthly** - Realty Trac

### Change in Aggregate Home Equity Quarterly
- **Federal Reserve Board**
  - **Difference in aggregate household owners' equity in real estate as reported in the Federal Reserve Board’s Flow of Funds Accounts of the United States for stated time period.**

### Change in Aggregate Home Equity
- **Seasonally adjusted annual rates divided by 12. Existing-home sales, which include single-family, townhomes, condominiums and co-ops, are based on transaction closings. This differs from the U.S. Census Bureau’s series on new single-family home sales, which are based on contracts or the acceptance of a deposit.**

### Home Prices
- **Case-Shiller 20-metro composite index, January 2000 = 100. Standard and Poor’s recommends use of not seasonally adjusted index when making monthly comparisons.**
- **FHPA monthly (purchase-only) index for US, January 1991 = 100. CoreLogic National combined index, distressed sales excluded, January 2000 = 100. (Only available as NSA).**

### Home Sales (SA)
- **Seasonally adjusted annual rates divided by 12. Existing-home sales, which include single-family, townhomes, condominiums and co-ops, are based on transaction closings. This differs from the U.S. Census Bureau’s series on new single-family home sales, which are based on contracts or the acceptance of a deposit.**
- **Sum of seasonally adjusted new and existing home sales (above) multiplied by National Association of Realtors® annual estimate of first time buyer share of existing home sales.**
- **Short sales and REO (Real Estate Owned) sales as a percent of total existing home sales (current month subject to revision).**
### SOURCES AND METHODOLOGY

#### B. Notes on Charts.

1. *Monthly house price trends shown as changes in respective house price indices applied to a common base price set equal to the median price of an existing home sold in January 2003 as reported by the National Association of Realtors. Indices shown: S&P/Case Shiller 20-metro composite index (NSA), January 2000 = 100, FHFA monthly (purchase-only) index for US (SA), January 1991 = 100, and CoreLogic-Distressed Sales Excluded (Monthly) for US (NSA), January 2000 =100.*

2. *S&P/Case-Shiller 20 metro composite index (NSA) as reported monthly. Futures index figures report forward expectations of the level of the S&P/Case Shiller index as of the date indicated, estimated from prices of futures purchased on the Chicago Board of Exchange reported by Radar Logic.*

3. *Reported seasonally adjusted annual rates for new and existing home sales divided by 12.*

4. *HUD estimate of refinance originations based on MBA estimate of dollar volume of refinance originations.*

5. *Cumulative HAMP permanent modifications started, FHA loss mitigation and early delinquency interventions, plus proprietary modifications completed as reported by Hope Now Alliance. Some homeowners may be counted in more than one category. Foreclosure completions are properties entering Real Estate Owned (REO) as reported by Realty Trac.*

6. *Foreclosure starts include notice of default and *lis pendens*, completions are properties entering REO. Both as reported by Realty Trac. See “Foreclosure Actions” above.*

7. *See “Borrower Annual Savings” above.*

8. *FHA market shares as FHA purchase and refinance originations divided by HUD estimates of purchase and refinance mortgage originations as noted in “Mortgage Originations” above. Data for 2010 and 2011 have been revised.*

#### C. Additional Notes.

Additional loan servicers were added to the LPS Applied Analytics data base in March 2012, increasing market coverage of active prime loans in the LPS sample by 0.5 percent and active subprime loans by 20 percent. Since the estimated number of delinquent loans from this source have always been scaled to represent the entire market, the additional market coverage would not necessarily increase the number of delinquent loans reported here. The increased sample size improves the accuracy of the estimates.

The Q4 2011 NSP data shown in prior scorecards were revised with the Q1 2012 data.

Beginning the 2nd quarter of 2012, Corelogic revised the methodology used to estimate the number of underwater borrowers by improving the accuracy of their home value estimates. This resulted in increasing both the share and number of loans underwater, affecting both current and past quarters in the series. CoreLogic provided revised estimates back through the 3rd quarter of 2009.
The Obama Administration’s Efforts To Stabilize The Housing Market and Help American Homeowners | July 2012

Appendix

The Administration has taken a broad set of actions to stabilize the housing market and help American homeowners. Three years ago, stress in the financial system had severely reduced the supply of mortgage credit, limiting the ability of Americans to buy homes or refinance mortgages. Millions of responsible families who had made their monthly payments and had fulfilled their obligations saw their property values fall. They also found themselves unable to refinance at lower mortgage rates.

In February 2009, less than one month after taking office, President Obama announced the Homeowner Affordability and Stability Plan. As part of this plan and through other housing initiatives, the Administration has taken the following actions to strengthen the housing market:

• Supported Fannie Mae and Freddie Mac to ensure continued access to affordable mortgage credit;
• The Federal Reserve and the U.S. Treasury purchased more than $1.4 trillion in agency mortgage backed securities through independent MBS purchase programs, helping to keep mortgage rates at historic lows;
• Launched a modification initiative to help homeowners reduce mortgage payments to affordable levels and to prevent avoidable foreclosures;
• Launched a $23.5 billion Housing Finance Agencies Initiative to increase sustainable homeownership and rental resources;
• Supported the First Time Homebuyer Tax Credit, which helped more than 2.5 million American families purchase homes;
• Provided more than $5 billion in support for affordable rental housing through low income housing tax credit programs and $6.92 billion in support for the Neighborhood Stabilization Program to restore neighborhoods hardest hit by the concentrated foreclosures;
• Created the $7.6 billion HFA Hardest Hit Fund for innovative foreclosure prevention programs in the nation’s hardest hit housing markets;
• Launched the $1 billion Emergency Homeowners Loan Program, as part of the Dodd-Frank Wall Street Reform and Consumer Protection Act, to help unemployed and underemployed homeowners pay a portion of their monthly mortgage.
• Created an FHA Short Refinance Option that helps underwater borrowers refinance into a new, stable, FHA-insured mortgage that is more aligned with actual property values.
• Supported home purchase and refinance activity through the FHA to provide access to affordable mortgage capital and help homeowners prevent foreclosures.
• Implemented a series of changes to the Home Affordable Refinance Program (HARP) in an effort to attract more eligible borrowers who can benefit from refinancing their home mortgages during this time of historically low mortgage rates.

###
