Appendix 4 - Financial Statement

Note: This report was published on February 16, 2010, following the closure the federal agencies in Washington D.C., due to severe weather conditions from February 8th through February 11th.

Treasury is pleased to present the Office of Financial Stability's Monthly 105(a) Report for January 2010.

The Troubled Assets Relief Program or TARP was established by Treasury pursuant to the Emergency Economic Stabilization Act of 2008 or EESA. This law was adopted on October 3, 2008 in response to the severe financial crisis facing our country. To carry out its duties, Treasury developed a number of programs under TARP to stabilize our financial system and housing market, which, together with the American Recovery and Reinvestment Act, laid the financial foundation for economic recovery. In December 2009, the Secretary of the Treasury certified the extension of TARP authority until October 2010 as permitted under the law. The Secretary outlined a strategy for going forward that balances the capacity to respond to threats to the financial system that could undermine economic recovery with the need to exercise fiscal discipline and reduce the burden on taxpayers. This strategy has four elements:

- Wind down many existing programs: The Capital Purchase Program, the Targeted Investment Program and the Asset Guarantee Program, – all of which succeeded in helping to stabilize the financial system – are closed and expected to return a profit to taxpayers.
 - In the Agency Financial Report for Fiscal Year 2009 (FY 2009), the estimated cost to Treasury was \$41.6 billion for the approximately \$365 billion expended in FY 2009 -- far less than originally anticipated.
 - \$162 billion of investments in large banks has been repaid. This represents two-thirds of all TARP investments in banks.
- New commitments will be focused on three areas:
 - i. foreclosure mitigation and stabilization of the housing market;
 - ii. provision of capital to small and community banks as a source of credit for small businesses; and
 - iii. support for the securitization markets underlying those sectors.
- Treasury will not use remaining TARP funds unless necessary to respond to an immediate and substantial threat to the economy stemming from financial instability.
- Manage existing TARP investments in a commercial manner and dispose of them as soon as practicable.

Key Developments

The President's Budget

On February 1, 2010, the Obama Administration released the Budget of the U.S. Government for the Fiscal Year 2011 (FY2011 Budget). As reflected in the FY2011 Budget for Treasury:

- The projected cost for TARP has fallen to \$117 billion from the previous estimate of \$341 billion. This is based on estimated total expenditures of not more than \$550 billion, far less than the \$700 billion originally authorized.

- Treasury will continue to assist responsible homeowners avoid foreclosure, and intends to transfer, through legislation, \$30 billion of funds from TARP to a new program to help community and smaller banks give small businesses access to affordable credit.

This follows the Mid-Session Review of the Budget of the U.S. Government for the Fiscal Year 2010, which removed \$250 billion that had been previously placed in reserve for additional financial stabilization efforts, as confidence in the stability of our financial markets and institutions had improved dramatically over the past year.

TARP Programs

The following key developments took place in January 2010 under the TARP programs:

- The Home Affordable Modification Program (HAMP) released its December Servicer Performance Report. Through December 2009, more than 850,000 homeowners have had a median payment reduction exceeding \$500 (including borrowers that were in trial modification periods), and more than 110,000 permanent mortgage modifications have been approved. While homeowners receive benefits when the trial modification starts, Treasury pays incentives only once the permanent modification starts. To date, Treasury has disbursed approximately \$30 million and has committed more than \$35 billion (of a total potential allocation from TARP funds of \$50 billion) for future incentive payments. (A copy of the full report is included as Appendix 3.)
 - Also in January, the first servicer -- Bank of America -- committed to participate in the Second Lien Program under HAMP, and updated guidance was released for servicer documentation requirements in order to expedite conversions of current trial modifications to permanent ones. This guidance also implemented an important program improvement for future trial period plans by requiring servicers to fully validate borrower financial information before offering a trial plan.
- Treasury released a TARP Warrant Disposition Report that describes how the taxpayer has benefitted from the warrants received by Treasury under the Capital Purchase Program (CPP). The report, which can be found at http://www.FinancialStability.gov/latest/pr_01202010.html, shows that:
 - Taxpayers have received more than \$4 billion from warrants sales in 34 banks.
 - Treasury still holds warrants (or shares received upon exercise of warrants at the time of investment) in more than 600 banks that participated in the CPP. Treasury will sell the warrants of 18 banks that have fully repaid their TARP assistance in the near future.
- Treasury released the initial quarterly report on the Legacy Securities Public-Private Investment Program ("PPIP"). Treasury has committed to invest \$30 billion in partnership with private investors in order to help restart important securitization markets. The report includes a summary of PPIP capital activity, portfolio holdings and current pricing, and fund performance. (A copy of the full report is included as Appendix 2.)

Initiative for Community Development Financial Institutions

On February 3, 2010, President Obama announced details of the new TARP program to invest lower-cost capital in Community Development Financial Institutions (CDFIs), which are banks, thrifts and credit unions that function in markets that are underserved by traditional financial institutions. They target more than 60 percent of their small business lending and other economic development activities to the country's hardest-hit communities. Under this program:

- CDFIs will be eligible to receive capital investments of up to 5 percent of risk-weighted assets, compared to a limit of up to 2 percent as initially outlined in October – significantly increasing the potential impact on lending in low-income communities.
- CDFIs would pay dividends to Treasury at a rate of 2 percent, compared to the 5 percent under the CPP.
- Consistent with the use of TARP funds to promote financial stability and protect the taxpayer, CDFIs will need approval from their banking regulator to participate in this program. In cases where a CDFI might not otherwise be approved by its regulator, it will be eligible to participate so long as it can raise enough private capital that – when matched with Treasury capital up to 5 percent of risk-weighted assets (RWA) – it can reach viability.

Where is TARP Money Going?

Although TARP authority has been extended, Treasury has notified Congress that it does not expect to use more than \$550 billion of the \$700 billion authorized for TARP. Treasury has used this authority to make investments that have helped to stabilize the financial system, restore confidence in the strength of our financial institutions, restart markets that are critical to financing American households and businesses, and prevent avoidable foreclosures in the housing market and keep people in their homes. As of January 31, 2010, approximately \$545 billion had been planned for TARP programs, and of that amount:¹

- \$484.73 billion has been committed to specific institutions under signed contracts.
- \$376.03 billion has been paid out by Treasury under those contracts.

A large part of the total investments to date occurred in 2008 under the Capital Purchase Program. The commitments made in 2009 include amounts extended under the Obama Administration's Financial Stability Plan. These include funds committed under the Home Affordable Modification Program, the Legacy Securities Public-Private Investment Program, Automotive Industry Financing Program and the other programs described in this report. Taxpayers can track progress on all of the financial stability programs and investments, as well as repayments, on Treasury's website www.FinancialStability.gov. Specifically, taxpayers can look at investments within two business days of closing in the TARP transaction reports at www.FinancialStability.gov/latest/reportsanddocs.html.

¹ See footnote 2 on page 5.

Figure 1 shows the planned TARP investment amounts together with the total funds disbursed and investments that have been repaid by program as of January 31, 2010. Figure 2 shows the planned TARP investments by program as of January 31, 2010. Please see Appendix 1 for a description of the programs listed in the charts.

Figure 1: TARP Summary through January 2010 (\$ billions)²

	Planned Investments	Commitments	Total Disbursed/Outlays	Repayments
Capital Purchase Program	\$ 204.89	\$ 204.89	\$ 204.89	\$ 121.94
Targeted Investment Program	\$ 40.00	\$ 40.00	\$ 40.00	\$ 40.00
Asset Guarantee Program	\$ 5.00	\$ 0	\$ 0	\$ -
Consumer and Business Lending Initiative	\$ 60.00	\$ 20.00	\$ 0.10	\$ -
Legacy Securities Public-Private Investment Program	\$ 30.00	\$ 27.02	\$ 4.71	\$ 0.36
AIG	\$ 69.84	\$ 69.84	\$ 45.34	\$ -
Auto Industry Financing Program	\$ 85.39	\$ 84.84	\$ 79.69	\$ 3.33
Home Affordable Modification Program ²	\$ 50.00	\$ 36.87 ²	\$ 0.03 ²	\$ -
Totals	\$545.12	\$483.46	\$374.76	\$165.63

Figure 2: Planned TARP Investments (\$ billions) through January 2010

² In Figure 1, TARP funds for the Home Affordable Modification Program do not include \$1.26 billion to offset costs of program changes for the “Helping Families Save Their Homes Act of 2009” (\$1.244 billion) or administrative expenditures relating to the Special Inspector General for the TARP (\$15 million). Including the foregoing, as of January 31, 2010, total TARP commitments and amounts paid out as adjusted were \$484.73 billion and \$376.03 billion, respectively.

Figure 3 shows the amount of TARP investments by both the amount obligated – or committed for investment – and the amount disbursed or actually paid out, over each month since inception.

Figure 3: Funds committed and paid out under TARP from October 2008 through January 2010

Program Updates

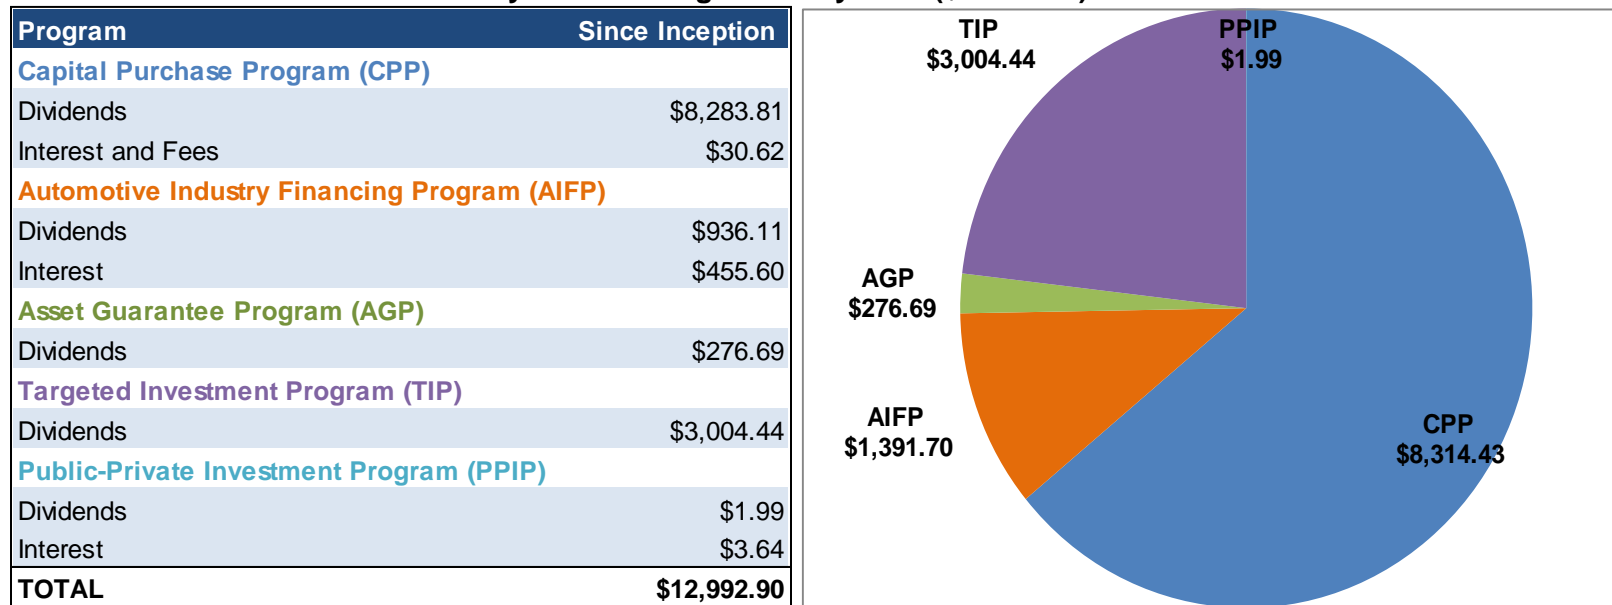

Dividends and Interest Received

Most of the TARP money has been used to make investments in preferred stock or loans of financial institutions.

- In January, Treasury received \$105.96 million in dividends and interest from TARP investments.
- Since inception, Treasury has received \$12.99 billion in total dividends, interest and fees.

Figure 4 shows the amount of dividends and interest received by TARP program since inception and in the month of January 2010.

Figure 4: Dividends and Interest received by TARP through January 2010 (\$ millions)

Treasury’s Dividends and Interest Reports for TARP programs are available at <http://www.FinancialStability.gov/latest/reportsanddocs.html>.

Capital Purchase Program

A major part of TARP has been the Capital Purchase Program (CPP). Under this program, Treasury invested in banks and other financial institutions to increase their capital. Banks may use the CPP money in a number of ways, including shoring up capital, investing in assets, and increasing lending. The CPP investment amount was determined by the size of the bank. The CPP investments were no less than one percent and no greater than three percent (five percent for small banks) of the recipient's risk-weighted assets.

The CPP remained open through 2009 for investments in small banks, with terms aimed at encouraging participation by small community banks that are qualified financial institutions (QFIs) under CPP terms. The last application deadline under the CPP was in November 2009 and final closings occurred in December 2009.

Details on the Capital Purchase Program are available at <http://www.FinancialStability.gov/roadtostability/capitalpurchaseprogram.html>.

CPP Dividends and Repayments

Treasury receives dividend or interest payments on its CPP investments. Banks participating in the CPP pay Treasury a dividend rate of 5 percent per year for the first five years and 9 percent per year thereafter, most on a cumulative basis. S-corporation banks pay an interest rate of 7.7 percent per year for the first five years and 13.8 percent thereafter.

58 of the banks that received investments under CPP have repaid Treasury in full. When a bank repays, it is also required to pay any accrued and unpaid dividends or interest. Treasury continues to work with federal banking regulators who must evaluate requests from CPP participants interested in repaying Treasury's investment.

CPP Warrants

Treasury also received warrants in connection with most of its CPP investments. Community development banks were not required to issue warrants. When a publicly traded bank repays Treasury for a preferred stock investment, the bank has the right to repurchase its warrants. The warrants do not trade on any market and do not have observable market prices. If the bank wishes to repurchase its warrants, an independent valuation process is used to establish fair market value. If an institution chooses not to repurchase its warrants, Treasury is entitled to sell them.

Privately held banks that received CPP funds issued Treasury a warrant for additional shares of preferred stock, which Treasury immediately exercised. Proceeds from the repurchases of shares acquired from a warrant are included as cash received from sales of warrants in Figure 5 below.

Figure 5 shows the cumulative CPP activity since program inception. Figure 6 shows number of banks by investment amount and total CPP funds disbursed by investment amount through January.

Figure 5: CPP Snapshot since inception

CPP Cumulative Investments		Income to Treasury	
Number of Institutions:	707*	Total Dividends	\$8.28 billion
Amount Invested:	\$204.9 billion	<i>January Dividends</i>	\$0.755 million
Largest Investment:	\$25 billion	Total Interest	\$17.62 million
Smallest Investment:	\$301,000	Total Fee Income	\$13 million
*Banks in 48 states, D.C. and Puerto Rico		Total Warrant Income	\$4.03 billion**
Repayments		<i>Number of Institutions</i>	40
Full Repayments:	\$121.65 billion	<i>Repurchase Amount</i>	\$2.92 billion **
<i>Number of Institutions:</i>	58	<i>Auction Amount</i>	\$1.11 billion
Partial Repayments:	\$290.73 million	Total Income	\$12.34 billion
<i>Number of Institutions:</i>	8	**Includes proceeds from exercised warrants	
Total Amount Repaid:	\$121.94 billion		

Figure 6: Number of banks by investment amount (left) and total CPP funds disbursed by investment amount (right)

Bank Lending and Intermediation Surveys

Each month, Treasury asks banks participating in the CPP to provide information about their lending activities and publishes the results in two reports described below. These two reports are intended to help the public easily assess the lending and intermediation activities of participating banks.

The *Monthly Lending and Intermediation Snapshots* report gathers and provides data on the lending and other intermediation activities for the 22 largest financial institutions that received TARP investments under the CPP. On January 15, 2010, Treasury released the results of its twelfth survey of banks' activities, including the following information on November lending:

- The overall outstanding loan balance (of all respondents) was flat from October to November at the top 22 participants in the Capital Purchase Program (CPP), while total originations of new loans increased 2 percent from October to November. In November, the 22 surveyed institutions originated approximately \$244 billion in new loans. Total originations of loans by all respondents rose in four categories (mortgages, credit card loans, C&I renewals of existing accounts, and C&I new commitments) and fell in four loan categories (HELOCs, other consumer lending products, CRE renewals of existing accounts, and CRE new commitments).

This monthly lending report provides data on consumer lending, commercial lending, and total lending for all CPP participants. Figure 7 summarizes total loan activity among all CPP participants.

Figure 7: Summary of CPP Monthly Lending Report Data (\$ millions)

All CPP Recipients				
Date	Number of Respondents	Total Average Consumer Loans	Total Average Commercial Loans	Total Average Loans
2/28/2009	519	\$2,898,031	\$2,380,691	\$5,278,662
3/31/2009	553	\$2,885,662	\$2,359,016	\$5,244,690
4/30/2009	541	\$2,852,650	\$2,329,536	\$5,182,182

* Adjusted to include only institutions that reported both 10/31/09 data and 11/30/09 data (using consistent reporting methodology)

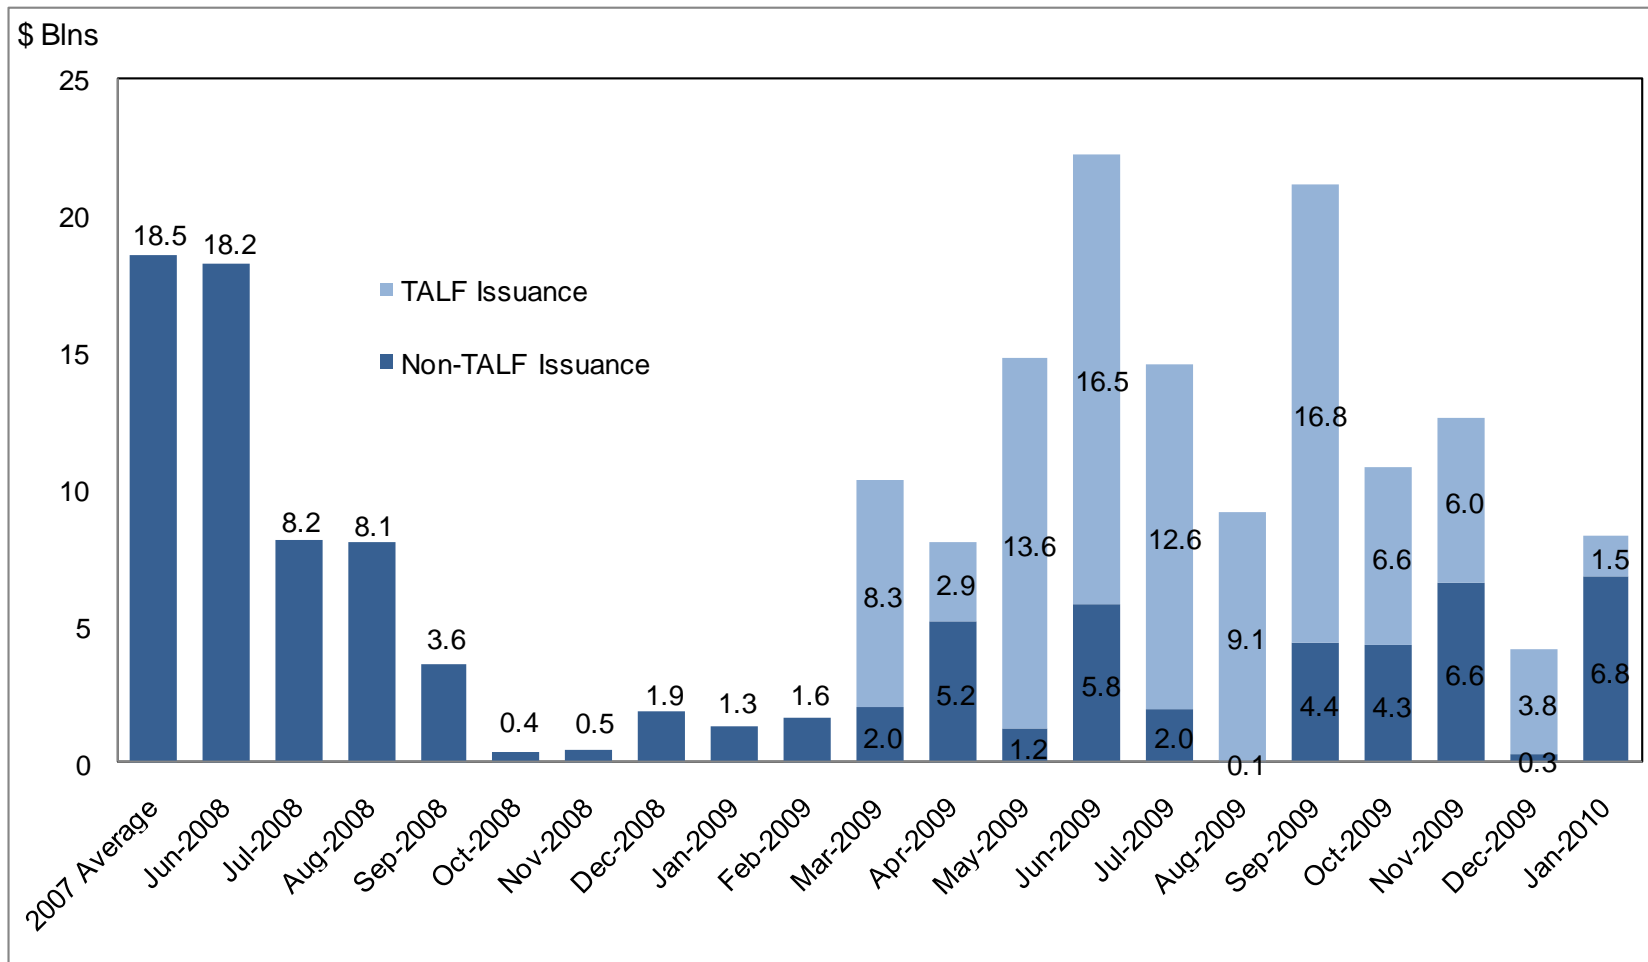

Term Asset-Backed Securities Loan Facility

Under the **Term Asset-Backed Securities Loan Facility (TALF)**, the Federal Reserve Bank of New York makes loans to buyers of asset-backed securities in order to stimulate consumer and business lending by the issuers of those securities. Treasury uses TARP funds to provide credit support for the TALF.

- The asset-backed securities (ABS) that are eligible for the TALF must be backed by new or recently originated auto loans, student loans, credit card loans, equipment loans, floorplan loans, insurance premium loans, loans guaranteed by the Small Business Administration, residential mortgage servicing advances, or commercial mortgage loans, including legacy loans.
- The markets for ABS are an important source of credit for consumers and businesses. These markets essentially stopped functioning during the financial crisis. The purpose of TALF is to help restart these markets and help consumers and businesses obtain credit.
- The first TALF subscription took place on March 19, 2009 and there have been 18 monthly ABS and commercial mortgage-backed securities (CMBS) subscriptions as of January 31, 2010. A total of approximately \$61.65 billion of TALF-eligible legacy and new ABS and CMBS issuance has been lent against.
- In August 2009, Treasury and the FRBNY announced the extension of the TALF for newly-issued ABS and legacy CMBS through March 31, 2010. In addition, TALF will make loans against newly issued CMBS through June 30, 2010. There were no further additions to the types of collateral eligible for the TALF.

Figure 8 shows the increase in issuance of consumer ABS since the launch of TALF in March 2009.

Figure 8: Total Consumer ABS Issuance through January 2010

Details on TALF are available at <http://www.FinancialStability.gov/roadtostability/lendinginitiative.html>

Certification

As Assistant Secretary for Financial Stability at the United States Department of the Treasury, I am the official with delegated authority to approve purchases of troubled assets under the Troubled Assets Relief Program. I certify to the Congress that each decision by my office to approve purchases of troubled assets during this reporting period was based on the office's evaluation of the facts and circumstances of each proposed investment, including recommendations from regulators, in order to promote financial stability and the other purposes of the Emergency Economic Stabilization Act of 2008.

/s/ Herbert M. Allison, Jr.

How Treasury Exercises Its Voting Rights..... 17

What is the Capital Purchase Program (CPP)?

- Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. With a strengthened capital base, banks have an increased capacity to lend to businesses and consumers and to support the U.S. economy.
- Although many banks were fundamentally sound, because of the capital restraints caused by the troubled market conditions, they were hesitant to lend. The level of confidence between banks and other financial institutions was also low, so they were unwilling to lend to each other. Restoring capital and confidence is essential to allowing the financial system to work effectively and efficiently.
- This program is now closed. Of \$205 billion invested, \$122 billion has already been repaid and Treasury expects it will result in a profit to the taxpayers.

How does the CPP work?

- Through the CPP, Treasury invested in banks to increase their capital and to enable them to continue lending to businesses and consumers and otherwise serve their customers. Banks use the CPP money in a number of ways, including to shore up capital, invest in assets, and increase lending.
- Treasury purchased senior preferred shares and other interests from qualifying U.S.-controlled banks, savings associations, and other financial institutions. Treasury also receives warrants to purchase common shares or other securities from the banks.
- Banks participating in the CPP pay Treasury dividends on the preferred shares at a rate of five percent per year for the first five years following Treasury's investment and at a rate of nine percent per year thereafter. S-corporation banks pay an interest rate of 7.7 percent per year for the first five years and 13.8 percent thereafter. Preferred shares (or stock) are a form of ownership in a company.
- Banks may repay Treasury under the conditions established in the purchase agreements as amended by the American Recovery and Reinvestment Act. Treasury also has the right to sell the securities. The repayment price is equal to what Treasury paid for the shares, plus any unpaid dividends or interest.
- When a publicly-traded bank repays Treasury for the preferred stock investment, the bank has the right to repurchase its warrants. The warrants do not trade on any market and do not have observable market prices. If the bank wishes to repurchase warrants, an independent valuation process is used to establish fair market value. If an institution chooses not to repurchase the warrants, Treasury is entitled to sell the warrants. In November and December 2009, Treasury began public offerings registered with the Securities and Exchange Commission for the sale of warrants using a modified Dutch auction methodology.

What is the Supervisory Capital Assessment Program (SCAP) and Capital Assistance Program (CAP)?

- The Supervisory Capital Assessment Program and Capital Assistance Program were important components of the Financial Stability Plan to help ensure that banks have a sufficient capital cushion in a more adverse economic scenario. SCAP was a comprehensive capital assessment exercise, or “stress test”, for the largest 19 U.S. bank holding companies and a complement to the CAP.
- In November 2009, Treasury announced the closure of the Capital Assistance Program. Of the 19 banks that participated in the SCAP, 18 demonstrated no need for additional capital or fulfilled their need in the private market.
- GMAC was the only financial institution not able to raise sufficient capital in the private market, and in December 2009, GMAC and Treasury completed the investment contemplated in May, an additional \$3.8 billion, which was funded under the Automotive Industry Financing Program.
- Following announcement of the stress test results, the largest banking institutions raised over \$140 billion in high-quality capital and over \$60 billion in non-guaranteed unsecured debt in the private markets. Banks used private capital to repay TARP investments, allowing TARP to fulfill its function as a bridge to private capital.

How did SCAP and CAP work?

- Federal banking supervisors conducted forward-looking assessments to estimate the amount of capital banks would need to absorb losses in a more adverse economic scenario and to provide the transparency necessary for individuals and markets to judge the strength of the banking system. Results of the stress tests were released on May 7, 2009.
- Some banks were required to take steps to improve the quality and/or the quantity of their capital to give them a larger cushion to support future lending even if the economy performs worse than expected. Banks had a range of options to raise capital in the private markets, including common equity offerings, asset sales and the conversion of other forms of capital into common equity. Banks that did not satisfy their requirement by using these options could request additional capital from the government through the CAP. Financial institutions had to submit a detailed capital plan to supervisors, who consulted with Treasury on the development and evaluation of the plan. Any bank needing to augment its capital buffer at the conclusion of the SCAP was required to develop a detailed capital plan in June 2009, and had until November 2009 to implement that capital plan.
- In cases in which the SCAP indicated that an additional capital buffer was warranted, institutions had an opportunity to turn first to private sources of capital, but were also eligible to receive government capital via investment available immediately through the CAP. Eligible U.S. banks that did not participate in the SCAP could have applied to their primary federal regulator to receive capital under the CAP.

What is the Asset Guarantee Program (AGP)?

- Under the AGP, Treasury acted to support the value of certain assets held by qualifying financial institutions, by agreeing to absorb unexpectedly large losses on certain assets. The program was designed for financial institutions whose failure could harm the financial system and was used in conjunction with other forms of exceptional assistance.
- The program is closed. Treasury expects it will result in a profit to the taxpayers.

Who received assistance under the AGP?**Citigroup**

- TARP funds were committed as a reserve to cover up to \$5 billion of possible losses on a \$301 billion pool of Citigroup's covered assets. As a premium for the guarantee, Treasury received \$4.034 billion of preferred stock, subsequently exchanged for trust preferred securities, with identical terms as Citigroup's agreement under the TIP, and Treasury also received warrants to purchase approximately 66 million shares of common stock at a strike price of \$10.61 per share. For the period that the Citigroup asset guarantee was outstanding, Citigroup made no claims for loss payments to any federal party and consequently Treasury made no guarantee payments of TARP funds to Citigroup.
- In December 2009, Treasury, the Federal Deposit Insurance Corporation (FDIC), the Federal Reserve Bank of New York (FRBNY) and Citigroup, agreed to terminate Citigroup's AGP agreement, pursuant to which: (1) Treasury's guarantee commitment was terminated, (2) Treasury agreed to cancel \$1.8 billion of the trust preferred securities issued by Citigroup from \$4.034 billion to \$2.234 billion for early termination of the guarantee, (3) the FDIC and Treasury agreed that, subject to certain conditions, the FDIC may transfer \$800 million of trust preferred securities to Treasury at the close of Citigroup's participation in the FDIC's Temporary Liquidity Guarantee Program, and (4) Citigroup agreed to comply with the executive compensation provisions EESA's Section 111 and to review the actual incentive compensation agreements for Citigroup's top 30 earners to be sure they comport with the Federal Reserve Board of Governors' incentive compensation principles as set forth in the Board of Governors' guidance.

Bank of America

- In January 2009, Treasury, the Federal Reserve and the FDIC agreed to share potential losses on a \$118 billion pool of financial instruments owned by Bank of America, consisting of securities backed by residential and commercial real estate loans and corporate debt and derivative transactions that reference such securities, loans and associated hedges.
- In September 2009, Treasury, the Federal Reserve and Bank of America agreed to terminate the asset guarantee arrangement announced in January 2009. In connection with that termination and in recognition of the benefits provided by entering into the term sheet for such arrangement, Bank of America paid the U.S. government \$425 million.

What is the Targeted Investment Program (TIP) and the AIG Investment?

- Pursuant to EESA, Treasury has provided exceptional assistance on a case-by-case basis in order to stabilize institutions that were considered systemically significant to prevent broader disruption of financial markets.
- Treasury provided this assistance by purchasing preferred stock, and also received warrants to purchase common stock, in the institutions.

How did the TIP work?

- Under the TIP, Treasury purchased \$20 billion in preferred stock from Citigroup, Inc. and \$20 billion in preferred stock from Bank of America Corporation. Both preferred stock investments paid a dividend of eight percent per annum. The TIP investments were in addition to CPP investments in these banks.
- As part of an exchange offer designed to strengthen Citigroup's capital, Treasury exchanged all of its CPP preferred stock in Citigroup for a combination of common stock and trust preferred securities, and the TIP preferred shares were exchanged for trust preferred securities.
- In December 2009, Bank of America and Citigroup repaid their TIP investments in full. Treasury continues to hold warrants acquired from each bank under the TIP.
- The program is closed. Treasury expects it will result in a profit to the taxpayers.

How does the AIG Investment work?

- In November 2008, Treasury purchased \$40 billion in preferred stock from American International Group (AIG).
- In April 2009, Treasury also created an equity capital facility, under which AIG may draw up to \$29.8 billion as needed in exchange for issuing additional shares of preferred stock to Treasury.
- As of January 31, 2010, AIG has drawn \$5.34 billion from the facility. The preferred shares that Treasury received in return for the draw pay a non-cumulative dividend of ten percent per year.

What is the Automotive Industry Financing Program (AIFP)?

- The Automotive Industry Financing Program (AIFP) was developed in December 2008 to prevent a significant disruption of the U.S. automotive industry, because the potential for such a disruption posed a systemic risk to financial market stability and would have had a negative effect on the economy. Short-term funding was initially provided to General Motors (GM) and Chrysler on the condition that they develop plans to achieve long-term viability. In cooperation with the Administration, GM and Chrysler developed satisfactory viability plans and successfully conducted in bankruptcy proceedings sales of their assets to new entities. Chrysler's sale process was completed in 42 days and GM's was completed in 40 days. Treasury provided additional assistance during the respective periods.
- Treasury has provided approximately \$80 billion in loans and equity investments to GM, GMAC, Chrysler, and Chrysler Financial. The terms of Treasury's assistance impose a number of restrictions. Among others, the companies must adhere to rigorous executive compensation standards and other measures to protect the taxpayer's interests, including limits on the institution's expenditures and other corporate governance requirements.
- In the related Auto Supplier Support Program (ASSP), Treasury provided loans to ensure that auto suppliers receive compensation for their services and products, regardless of the condition of the auto companies that purchase their products.

Chrysler

- On January 2, 2009, Treasury loaned \$4 billion to Chrysler Holding to give it time to implement a viable restructuring plan. On March 30, the Administration determined that the business plan submitted by Chrysler failed to demonstrate viability and announced that in order for Chrysler to receive additional taxpayer funds, it needed to find a partner. Chrysler made the determination that forming an alliance with Fiat was the best course of action for its stakeholders.
- Treasury continued to support Chrysler as it formed an alliance with Fiat. In connection with Chrysler's bankruptcy proceedings filed on April 30, 2009, Treasury provided an additional \$1.9 billion under a debtor-in-possession financing agreement to assist Chrysler during the bankruptcy. On June 10, 2009, pursuant to a court-approved order, substantially all of Chrysler's assets were sold to the newly formed entity, Chrysler Group LLC (New Chrysler). Treasury committed to loan \$6.6 billion to New Chrysler in working capital funding. New Chrysler also assumed \$500 million of Chrysler Holding's initial loans from Treasury. When the sale to New Chrysler was completed, Treasury received 9.9% of the common equity in New Chrysler.
- The original \$4 billion loan to Chrysler Holding, excluding the \$500 million of debt that was assumed by New Chrysler, remains outstanding and in default. In July 2009, Chrysler Holding agreed to pay to Treasury 40% of any distributions from Chrysler Financial received by Chrysler Holdings with a preference on the first \$1.375 billion in distributions. In exchange, Treasury agreed to certain forbearance with respect to Chrysler Holding's loans.

- Treasury currently owns 9.9% of the equity in New Chrysler, and is owed \$5.1 billion of debt from New Chrysler (excluding capitalized interest). The original loans to Chrysler remain outstanding, but are reduced by \$500 million of debt that was assumed by New Chrysler. Current equity ownership in New Chrysler is as follows: the Chrysler Voluntary Employee Benefit Association (VEBA) (67.7%), Fiat (20%), Treasury (9.9%) and the Government of Canada (2.5%).

Chrysler Financial

- On January 16, 2009, Treasury announced that it would lend up to \$1.5 billion to a special purpose vehicle (SPV) created by Chrysler Financial to enable the company to finance the purchase of Chrysler vehicles by consumers.
- To satisfy the EESA warrant requirement, the Chrysler Financial SPV issued additional notes entitling Treasury to an amount equal to five percent of the maximum loan amount. Twenty percent of those notes vested upon the closing of the transaction, and additional notes were to vest on each anniversary of the transaction closing date. The loan was fully drawn by April 9, 2009.
- On July 14, 2009, Chrysler Financial fully repaid the loan, including the vested additional notes and interest.

General Motors

- On December 31, 2008, Treasury agreed to loan \$13.4 billion to General Motors Corporation to fund working capital. Under the loan agreement, GM was also required to implement a viable restructuring plan. The first plan GM submitted failed to establish a credible path to viability, and the deadline was extended to June 1 for GM to develop an amended plan. Treasury loaned an additional \$6 billion to fund GM during this period. To achieve an orderly restructuring, GM filed for bankruptcy on June 1, 2009. Treasury provided \$30.1 billion under a debtor-in-possession financing agreement to assist GM during the bankruptcy.
- The new entity, General Motors Company (New GM), began operating on July 10, 2009, following its purchase of most of the assets of the Old GM. When the sale to New GM was completed on July 10, Treasury converted most of its loans to 60.8% of the common equity in the New GM and \$2.1 billion in preferred stock. Treasury continued to hold \$6.7 billion in loans.
- In December 2009, New GM began quarterly repayments of \$1.0 billion on its \$6.7 billion loan from Treasury. And in January 2010, New GM and Treasury amended the loan agreement so that funds remaining in the escrow will be used to repay the balance of the loan in June 2010.
- The New GM currently has the following ownership: Treasury (60.8%), GM Voluntary Employee Benefit Association (VEBA) (17.5%), the Canadian Government (11.7%), and Old GM's unsecured bondholders (10%).

GMAC

- In December 2008, Treasury purchased \$5 billion in senior preferred equity from GMAC LLC, and received an additional \$250 million in preferred shares through warrants that Treasury exercised at closing. At the same time, Treasury also agreed to lend to \$1 billion of TARP funds to GM (one of GMAC's owners), to purchase additional ownership interests in GMAC's rights offering up. GM drew \$884 million under that commitment in January 2009, and then in May 2009, Treasury exercised its option to exchange that loan for 35.4% of the common membership interests in GMAC.
- In May 2009, regulators required GMAC to raise additional capital by November 2009 in connection with the SCAP. On May 21, 2009, Treasury purchased \$7.5 billion of convertible preferred shares from GMAC and received warrants that Treasury exercised at closing for an additional \$375 million in convertible preferred shares, which enabled GMAC to partially meet the SCAP requirements. Additional Treasury investments in GMAC were contemplated to enable GMAC to satisfy the SCAP requirements.
- On December 30, 2009, Treasury:
 - invested an additional \$3.8 billion in GMAC, consisting of \$2.54 billion of trust preferred securities (TRUPs), which are senior to all other capital securities of GMAC, and \$1.25 billion of Mandatory Convertible Preferred Stock (MCP), and received warrants, which were immediately exercised, to purchase an additional \$127 million of TRUPs and \$63 million of MCP;
 - converted \$3 billion of its existing MCP, which was purchased in May 2009, into common stock;
 - exchanged \$5.25 billion of preferred stock into MCP; and
 - for the conversion price of the MCP to common stock, acquired a "reset" for an adjustment in 2011, if beneficial to Treasury, based on the market price of GMAC's private capital transactions occurring in 2010.
- As a result of the December 2009 transactions, Treasury's equity ownership of GMAC increased from 35 percent to 56.3 percent and Treasury holds \$11.4 billion of MCP in GMAC. Treasury has the right to appoint two additional directors to the GMAC Board of Directors, so that four of nine directors will be appointed by Treasury.
- GMAC remains subject to the executive compensation and corporate governance requirements of Section 111 of EESA, and to the oversight of the Special Master for Executive Compensation.

Consumer and Business Lending Initiatives**What are the Small Business and Community Development Financial Institutions Initiatives?**

- To ensure that credit flows to entrepreneurs and small business owners, Treasury has taken measures to complement the Administration's actions to help small businesses recover and grow, including several tax cuts under the American Recovery and Reinvestment Act and a temporary increase in the Small Business Administration (SBA) guarantee for certain types of loans.
- On February 3, 2010, President Obama announced details of the new TARP program to invest lower-cost capital in Community Development Financial Institutions (CDFIs). Under this program, CDFI banks, thrifts and credit unions that target more than 60 percent of their small business lending and other economic development activities to the country's hardest-hit communities will be eligible to:
 - Receive capital investments of up to 5 percent of risk-weighted assets, compared to a limit of up to 2 percent as initially outlined in October – significantly increasing the potential impact on lending in low-income communities.
 - CDFIs would pay dividends to Treasury at a rate of 2 percent, compared to the 5 percent rate under the CPP.
 - Consistent with the use of TARP funds to promote financial stability and protect the taxpayer, CDFIs will need approval from their banking regulator to participate in this program. In cases where a CDFI might not otherwise be approved by its regulator, it will be eligible to participate so long as it can raise enough private capital that – when matched with Treasury capital up to 5 percent of risk-weighted assets (RWA) – it can reach viability.
- Additional details are available at http://www.FinancialStability.gov/latest/pr_02032010.html

What is the Term Asset-Backed Securities Loan Facility (TALF)?

- The Term Asset-Backed Securities Loan Facility is a lending facility operated by the Federal Reserve Bank of New York. The FRBNY provides term non-recourse loans collateralized by AAA-rated asset-backed securities (ABS) backed by new or recently originated auto loans, student loans, credit card loans, equipment loans, floor plan loans, insurance premium finance loans, residential mortgage servicing advances, or commercial mortgage loans, including legacy commercial mortgage loans, as well as collateralized by loans guaranteed by the Small Business Administration. Treasury provides credit support for TALF as part of Treasury's Consumer and Business Lending Initiative.
- The way in which the TALF works is that on fixed days each month investors can request the FRBNY to make loans secured by eligible consumer, small business ABS, or commercial mortgage backed securities (CMBS). Assuming that the borrower and the ABS or CMBS it plans to pledge as collateral meet FRBNY's requirements, the investor will receive the requested funding. Most borrowers use the loan, together with their own funds, to purchase the ABS that serves as collateral for the TALF loans.

- If the borrower does not repay the loan, the FRBNY will enforce its rights in the collateral and sell the collateral to a special purpose vehicle (SPV) established specifically for the purpose of purchasing and managing such assets. The SPV is funded, in part, by a \$20 billion subordinated loan commitment from Treasury.
- On August 17, 2009, Treasury and the FRBNY announced the extension of the TALF for newly-issued ABS and legacy CMBS through March 31, 2010. In addition, TALF will make loans against newly issued CMBS through June 30, 2010. There were no further additions to the types of collateral eligible for the TALF.

Legacy Securities Public-Private Investment Program (S-PPIP)

What is the S-PPIP?

- The Legacy Securities Public-Private Investment Program is designed, in part, to support market functioning and facilitate price discovery in the commercial and non-agency residential mortgage-backed securities (MBS) markets, helping banks and other financial institutions re-deploy capital and extend new credit to households and businesses. Both residential and commercial MBS are pools of mortgages bundled together by financial institutions. Rights to receive a portion of the cash generated by the pools are sold as securities in the financial markets, in the same way a stock or bond would be sold in financial markets. The term “legacy assets” generally refers to loans, asset-backed securities, and other types of assets that were originated or issued before the financial markets for these types of assets deteriorated significantly in 2008.
- The Public-Private Investment Program was announced as part of the Financial Stability Plan, which also originally included a program for legacy loans that would be administered by the FDIC.
- In the latter months of 2009, financial market conditions improved, the prices of legacy securities appreciated, and the results of the Supervisory Capital Assessment Program enabled banks to raise substantial amounts of capital as a buffer against weaker than expected economic conditions, all of which enabled Treasury to proceed with the program at a scale smaller than initially envisioned.

How does the S-PPIP work?

- Treasury partners with selected fund managers to purchase commercial and non-agency residential and commercial MBS. Treasury provides equity as well as debt financing to investment partnerships formed by the fund managers; the maximum equity obligation to a PPIF is expected to be \$1.11 billion and the maximum debt obligation to a PPIF is expected to be \$2.22 billion (before giving effect to any re-allocation of capital). Treasury will invest one-half of the total equity committed to the partnership; the remainder must be raised by the fund manager from private sector sources. Treasury's loan will earn interest and must be repaid at the end of the life of the fund.

- The nine firms that Treasury had pre-qualified in July 2009 to participate as fund managers have completed initial closings and begun operations of Public-Private Investment Funds (PPIFs). Treasury has committed (but not yet funded all of) of \$1.11 billion of equity capital together with \$2.22 billion of debt financing to each PPIF, while total Treasury equity and debt investment in all PPIFs will equal approximately \$30 billion. Following an initial closing, each PPIF has the opportunity to conduct additional closings over the following six months and to receive matching Treasury equity and debt financing for such additional closings.
- The equity investment, together with warrants received by Treasury, ensures that if these PPIFs perform well, the U.S. Treasury, and thus the taxpayer, will benefit from the upside of the performance alongside private investors.
- Treasury carefully designed the S-PPIP terms to protect the interests of taxpayers. Fund managers may not acquire assets from or sell assets to their affiliates or any other PPIF fund manager or private investor that has committed at least ten percent of the aggregate private capital raised by such fund manager. Fund managers must submit regular monthly reports about assets purchased, assets disposed, asset values, and profits and losses. Due to the possibility of actual or potential conflicts of interest inherent in any market-based investment program, fund managers also must agree to abide by ethical standards and conflicts of interest and compliance rules and a process for ensuring adherence to these rules developed by Treasury. In developing these requirements, Treasury worked closely with, among others, the staff of the SIGTARP and the Federal Reserve.

Who are the S-PPIP Fund Managers?

- Following a comprehensive two-month application, evaluation, and selection process, during which Treasury received over 100 unique applications to participate in the S-PPIP, in July 2009 Treasury pre-qualified the following firms to participate as fund managers in the program: AllianceBernstein, LP and its sub-advisors Greenfield Partners, LLC and Rialto Capital Management, LLC; Angelo, Gordon & Co., L.P. and GE Capital Real Estate; BlackRock, Inc.; Invesco Ltd.; Marathon Asset Management, L.P.; Oaktree Capital Management, L.P.; RLJ Western Asset Management, LP; The TCW Group, Inc., (subsequently terminated, see below); and Wellington Management Company, LLP.
- The fund managers for the PPIFs have established relationships with small, minority-, and women-owned businesses. Partner firms have roles including involvement in managing the investment portfolio and cash management services, raising capital from private investors, providing trading related-services, identifying investment opportunities, and providing investment and market research and other advisory services to the PPIFs.
- In December 2009, a fund managed by The TCW Group, Inc., was liquidated because TCW terminated the employment of individuals who were “Key Persons” responsible for making the investment decisions as set forth under the Limited Partnership Agreement for the TCW PPIF. Only \$513 million of total capital had been funded. Treasury's debt and equity capital investments were repaid in full, and Treasury realized a profit of approximately \$20.2 million on its equity investment of \$156.3 million. Private investors have been offered

the option to re-allocate their underfunded capital commitments and proceeds from the TCW PPIF liquidation to any of the eight other PPIFs.

Home Affordable Modification Program (HAMP)

What is the Home Affordable Modification Program?

- The Home Affordable Modification Program, part of Making Home Affordable (MHA), was first announced by the Obama Administration in February 2009 as part of its Financial Stability Plan.
- Using TARP funds, Treasury provides incentives for mortgage servicers, borrowers and investors to modify loans that are delinquent or at imminent risk of default to an affordable monthly payment equal to no more than 31 percent of a borrower's gross monthly income. Borrowers must be owner occupants, demonstrate the ability to support the reduced payment during a three-month trial, and submit required documentation before the modification becomes permanent.
- Homeowners participating in HAMP work with HUD-certified housing counselors and mortgage servicers. HAMP is designed to give up to 3 to 4 million homeowners an opportunity to reduce their monthly mortgage payments to more affordable levels.
- HAMP includes both GSE and non-GSE mortgages. GSE stands for "government sponsored enterprise," and in this report refers to Fannie Mae and Freddie Mac. Up to \$50 billion of TARP funds will be used to encourage the modification of non-GSE mortgages that financial institutions own and hold in their portfolios (whole loans) and mortgages held in private-label securitization trusts.
- Servicers must enter into the Servicer Participation Agreements with Treasury on or before October 3, 2010. Servicers for loans that are owned or securitized by Fannie Mae or Freddie Mac (GSEs) are required to participate in the related GSE's HAMP for their portfolio of GSE loans. The incentives for these GSE HAMP modifications are funded by the related GSEs from their own resources.
- Borrowers may be accepted into HAMP if a borrower has made the first trial period payment on or before December 31, 2012. Modification interest rates are locked for five years from the start date of the modification. Incentive payments to investors and borrowers will continue to be paid out over that period for up to five years, and incentive payments to servicers for up to three years. At the end of five years, the reduced interest rate will increase by one percent per year until it reaches the cap, which is the market rate at the time the trial period began. The capped rate is fixed for the life of the loan.

What are the additional components of HAMP and MHA?

- The Home Price Decline Protection (HPDP) program is a component of HAMP, and the Second Lien Modification Program (2MP) and the Home Affordable Foreclosure Alternatives Program (HAFA) are components of MHA.
- HPDP provides additional incentive payments for modifications on properties located in areas where home prices have declined. The purpose of the program is to encourage additional lender participation and HAMP modifications in areas hardest hit by falling home prices and ensure that borrowers in those areas have the opportunity to stay in their homes, thereby minimizing foreclosures, which further depress home values.
- The Second Lien Modification Program (2MP) provides incentives for second-lien holders to modify or extinguish a second-lien mortgage when a modification has been initiated on the first lien mortgage for the same property under HAMP.
- The Home Affordable Foreclosure Alternatives Program (HAFA) simplifies and streamlines the use of short sale or deed-in-lieu options by incorporating financial incentives to borrowers, servicers, and investors. The program also ensures pre-approved short sale terms prior to listing the property on the market and requires that borrowers be fully released from future liability for the debt.

Servicer performance

- To ensure transparency and servicer accountability, servicer-specific results are publicly reported on a monthly basis. The report format now includes the number of Trial Period Plans that have transitioned to permanent modifications as well as a break-out of the 15 metropolitan areas with the highest program activity. The MHA Monthly Servicer Performance Reports can be found at <http://www.FinancialStability.gov/latest/reportsanddocs.html>.
- Participating servicers and state, local and community stakeholders have worked with Treasury to improve the overall effectiveness and efficiency of HAMP, by introducing: a streamlined documentation process, including standardization of forms, reduced paperwork requirements, servicer-to-borrower response guidelines, and electronic signature acceptance for modification documents; enhanced availability of foreign language translations for HAMP information and document summaries; and other web tools for borrowers.
- In December 2009, Treasury conducted a nationwide mortgage modification conversion campaign to ensure that servicers make every reasonable effort to convert eligible borrowers from a trial to a permanent modification. The conversion campaign involved onsite monitoring of the seven largest servicers by Treasury and Fannie Mae staff, and daily loan-level conversion reporting through the month of December. The conversion campaign resulted in a significant increase in the number of borrowers offered permanent modifications by these servicers and considerable improvements in the implementation and operation of modification processes going forward.

- In December 2009, Treasury also introduced a review period lasting until January 31, 2010 for all trial modifications that were set to expire on or before that date, but were either missing required documentation or for which the servicer has not had time to review the submitted documents. During this review period, servicers could not cancel any active trial modifications unless the related property did not meet the HAMP property eligibility requirements
- On January 28, 2010, MHA released updated guidance for servicer documentation requirements in order to expedite conversions of current trial modifications to permanent status. This guidance also implemented an important program improvement for future trial period plans by requiring servicers to fully validate borrower financial information before offering a trial plan. In addition, servicers are allowed additional time in certain circumstances to retrieve documentation from applicants, notify applicants of any missing documents, and resolve any disputes over applications. Information on this supplemental directive can be found at http://www.FinancialStability.gov/latest/pr_01282010.html.

Compliance and second look

- The HAMP Compliance Program is designed to ensure that servicers satisfy their obligations under HAMP requirements in order to provide a well-controlled program that assists as many deserving homeowners as possible to retain their homes while taking reasonable steps to prevent fraud, waste and abuse. Freddie Mac acts as Treasury's Compliance Agent for HAMP through MHA-C, which is a separate, independent division that conducts these compliance activities. Treasury works closely with MHA-C to design and refine the Compliance Program and conducts quality assessments of the activities performed by MHA-C.
- MHA-C conducts four major activities through the Compliance Program: (1) on-site reviews of the servicers' internal controls and processes; (2) loan file reviews, which includes a process known as "second look;" (3) net present value (NPV) testing and assessments, which consist of testing servicers' proprietary systems to determine if HAMP NPV requirements were appropriately implemented; and (4) as required by MHA-C, targeted reviews on one or more specific processes or types of reviews listed above based on compliance trends, risk analysis or actual compliance activities results.
- Following these reviews, MHA-C provides Treasury with assessments of each servicer's compliance with HAMP requirements. If appropriate, Treasury will implement remedies for non-compliance. These remedies may include withholding or reducing incentive payments to servicers, requiring repayments of prior incentive payments made to servicers with respect to affected loans, or requiring additional servicer oversight.

Details on the Home Affordable Modification Program are available at <http://www.FinancialStability.gov/roadtostability/homeowner.html> and at <http://www.makinghomeaffordable.gov>.

Office of the Special Master for TARP Executive Compensation

What is the scope of the Special Master's review?

- In June 2009, Treasury published the Interim Final Rule (the “Rule”) on executive compensation, promulgated under the EESA as amended by the American Recovery and Reinvestment Act of 2009. The Rule contains distinct requirements for recipients of TARP funding under certain programs, including CPP participants and recipients of exceptional assistance. The exceptional assistance recipients currently include the following firms: AIG, Chrysler, Chrysler Financial, GM and GMAC. Bank of America and Citigroup ceased to be exceptional assistance recipients upon their respective repayments of TARP obligations arising from exceptional assistance programs in December 2009.
- The Rule also provided the Special Master with specific powers designed to ensure that executive pay at these firms is in line with long-term value creation and financial stability. These include:
 - *Review of Payments:* For recipients of exceptional assistance, the Special Master is required to review and approve compensation structures, including payments made pursuant to those structures, for the senior executive officers and 20 next most highly paid employees;
 - *Review of Structures:* For each exceptional assistance recipient, the Special Master is required to review and approve compensation structures for all executive officers and the 100 most highly compensated employees;
 - *Interpretation:* The Special Master has interpretive authority over the executive compensation provisions of EESA and the Interim Final Rule. Accordingly, the Special Master will make all determinations as to the application of those provisions to particular facts; and *Review of*
 - *Prior Payments:* The Special Master is required to review any bonuses, retention awards, and other compensation paid to employees of each TARP recipient prior to February 17, 2009, to determine whether the payments were contrary to the public interest. If the payment is determined to be contrary to the public interest, the Special Master will be responsible for negotiating for reimbursements of such payments.
- The Rule also requires that the compensation committee, CEO, and CFO, of each TARP recipient provide certain certifications to Treasury with respect to compliance with the Rule. These certifications are due within 90 days (in the case of the CEO and CFO certifications) or 120 days (in the case of the compensation committee) of the completion of the TARP recipient's fiscal year.
- In addition to the executive compensation requirements, all TARP recipients were required to adopt a luxury expenditure policy consistent with the requirements of the Rule, provide the policy to Treasury, and post the policy on their Internet website, in each case

within 90 days following publication of the Rule (or, if later, 90 days following the closing date of the agreement between the TARP recipient and Treasury). These policies are generally required to address expenses including entertainment or other events, office and facility renovations, and aviation or other transportation services.

Determinations for the Top 25 Employees

- On October 22, 2009, the Special Master for TARP Executive Compensation, Kenneth R. Feinberg, released determinations on the compensation packages for the five senior executive officers and the next 20 most highly compensated employees at the seven firms that were then exceptional assistance recipients. The Office of the Special Master generally rejected the companies' initial proposals for these "Top 25" executives and approved a modified set of compensation structures with the following features:
 - Cash salaries generally no greater than \$500,000, with the remainder of compensation in equity.
 - Most equity compensation paid as vested "stock salary," which executives must hold until 2011, after which it can be transferred in three equal, annual installments (subject to acceleration on the company's repayment of federal assistance).
 - Annual incentives payable in "long-term restricted stock," which is forfeited unless the employee provides three years of service after it is granted, in amounts determined based on objective performance criteria. Actual payment of the restricted stock is subject to the company's repayment of TARP funds (in 25% installments).
 - \$25,000 limit on perquisites and "other" compensation, absent special justification.
 - No further accruals or company contributions to executive pension and retirement programs.

Determinations for the Covered Employees 26 - 100

- On December 11, 2009, the Special Master issued determinations on the compensation structures for Covered Employees 26–100. Unlike the October rulings, which addressed specific amounts payable to Top 25 executives, Treasury regulations require the Special Master only to address compensation structures for Covered Employees 26–100. These determinations covered four companies: AIG, Citigroup, GM, and GMAC. Chrysler and Chrysler Financial were (with the exception of one employee) exempt from the Special Master's review during this round because total pay for their executives does not exceed the \$500,000 "safe harbor" limitation in Treasury's compensation regulations. As detailed below, because of Bank of America's repayment of its TARP obligations, its Covered Employees 26–100 were no longer subject to the Special Master's review.
- The compensation structures approved by the Special Master for the Covered Employee 26–100 groups have the following general features:

- Short-term cash compensation is restricted. Cash salaries are generally limited to \$500,000 other than for exceptional cases, with overall cash limited in most cases to 45% of total compensation in cash. All other pay must be in company stock;
 - Incentive compensation without real achievement of performance is forbidden. Total incentives are limited to a fixed pool, incentive payments may be made only if objective goals are achieved, and all such payments must be subject to “clawback” if results prove illusory;
 - Compensation structures must have a long-term focus. In most cases, at least 50 percent of total compensation must be held for three years, at least 50 percent of incentive pay must be granted in long-term stock, and any cash incentives must be delivered over at least two years—single, lump-sum cash bonuses are not permitted; and
 - Pay practices that are not aligned with shareholder and taxpayer interests, such as golden parachutes, supplemental executive retirement benefits, excessive perquisites and tax gross-ups are frozen or forbidden.
- In addition to determinations for Covered Employees 26–100, the Special Master issued several supplemental determinations in December, including determinations approving pay packages for the new chief executive officer of GMAC and the new chief financial officer of GM. The pay packages approved by the Special Master for the newly hired executives generally conform to the principles and structures of the Top 25 determinations. All the Special Master’s determinations are available at the website identified below.
 - The Special Master has requested 2010 compensation proposals for the remaining exceptional assistance recipients; those proposals were required to be submitted by January 15, 2010.

Effects of TARP Repayment

- Prior to the Special Master’s issuance of determinations for the Covered Employee 26–100 groups, Bank of America repaid its TARP obligations. As a result, the compensation structures for Bank of America’s Covered Employees 26–100 were no longer subject to the Special Master’s review, and no determination in that regard was issued. Payments to Bank of America’s Top 25 relating to service prior to the repayment, however, remain subject to the Special Master’s October determinations. With respect to its Top 25, Bank of America agreed to comply with the Rule and with the October determinations as if the repayment occurred on December 31, 2009.
- After the Special Master issued determinations for the Covered Employee 26–100 groups, Citigroup repaid certain TARP obligations, and ceased to be an “exceptional assistance recipient” for purposes of the Rule. As a result of the repayment, Special Master approval is not required for future compensation structures and payments to Citigroup executives. Payments and compensation structures for Citigroup’s Top 25 and Covered Employees 26–100 relating to service prior to the repayment, however, remain subject to the Special Master’s October and December determinations, respectively. Citigroup agreed to comply with the October and December determination letters and memoranda issued by the Special Master with respect to Citigroup as if Citigroup were receiving exceptional

assistance through December 31, 2009. The executive compensation restrictions that apply to TARP recipients that are not “exceptional assistance recipients” will continue to apply to Citigroup until it extinguishes its remaining TARP obligations.

Information regarding the determination letters and executive compensation is available at:

<http://www.FinancialStability.gov/about/executivecompensation.html> and http://www.FinancialStability.gov/latest/tg_102220009e.html.

How Treasury Exercises Its Voting Rights

- Treasury is a shareholder in the new General Motors, the new Chrysler, GMAC and Citigroup. The Obama Administration has stated that core principles will guide Treasury’s management of financial interests in private firms. One such principle is that the United States government will not interfere with or exert control over day-to-day company operations and, in the event the government obtains ownership interests, it will vote only on key governance issues. These core principles also include Treasury's commitment to seek to dispose of its ownership interests as soon as practicable. Treasury will follow these principles in a manner consistent with the obligation to promote the liquidity and stability of the financial system.
- Treasury does not participate in the day-to-day management of any company in which it has an investment nor is any Treasury employee a director of any such company. Treasury’s investments have generally been in the form of non-voting securities or loans. For example, the preferred shares that Treasury holds in financial institutions under the Capital Purchase Program do not have voting rights except in certain limited circumstances, such as amendments to the charter of the company, or in the event dividends are not paid for several quarters, in which case Treasury has the right to elect two directors to the board.
- Treasury has announced that it will follow the following principles in exercising its voting rights: (1) Treasury intends to exercise its right to vote only on certain matters consisting of the election or removal of directors; certain major corporate transactions such as mergers, sales of substantially all assets, and dissolution; issuances of equity securities where shareholders are entitled to vote; and amendments to the charter or bylaws; (2) on all other matters, Treasury will either abstain from voting or vote its shares in the same proportion (for, against or abstain) as all other shares of the company's stock are voted.
- For public companies such as Citigroup, Treasury has entered into an agreement in which these principles are set forth. For private companies such as GM, GMAC and Chrysler, Treasury follows the principles voluntarily or as set forth in a stockholder agreement. In GM, they are largely reflected as terms following an initial public offering (IPO).
- In the case of AIG:
 - Treasury is the beneficiary of a trust created by the Federal Reserve Bank of New York (FRBNY). That trust owns shares having 79.8% of the voting rights of the common stock. The FRBNY has appointed three independent trustees who have the power to vote the stock and dispose of the stock with prior approval of FRBNY and after consultation with Treasury. The trust agreement provides

that the trustees cannot be employees of Treasury or the FRBNY. The trust exists for the benefit of the U.S. Treasury, and the Department of the Treasury does not control the trust and it cannot direct the trustees.

- Treasury owns preferred stock which does not have voting rights except in certain limited circumstances (such as amendments to the charter) or in the event dividends are not paid for four quarters, in which case Treasury has the right to elect up to three directors to the board.

Appendix 2

Legacy Securities Public-Private Investment Program Quarterly Report

UNITED STATES
**DEPARTMENT OF
THE TREASURY**

LEGACY SECURITIES PUBLIC-PRIVATE INVESTMENT PROGRAM

Program Update – Quarter Ended December 31, 2009

January 29, 2010

OVERVIEW

Introduction

This is the initial quarterly report on the Legacy Securities Public-Private Investment Program (“PPIP”). This report includes a summary of PPIP capital activity, portfolio holdings and current pricing, and fund performance. Treasury expects to provide additional information as the program matures in subsequent quarterly reports.

PPIP Overview

PPIP is designed to support market functioning and facilitate price discovery in the mortgage-backed securities markets, allowing banks and other financial institutions to re-deploy capital and extend new credit to households and businesses. The investment objective of PPIP is to generate attractive returns for taxpayers and private investors through long-term opportunistic investments in Eligible Assets (as defined below) by following predominantly a buy and hold strategy. Under the program, Treasury will invest up to \$30 billion of equity and debt in public-private investment funds (“PPIFs”) established by private sector fund managers for the purpose of purchasing Eligible Assets. The fund managers and private investors will also provide capital to the funds. PPIFs have eight-year terms which may be extended for consecutive periods of up to one-year each, up to a maximum of two years. To qualify for purchase by a PPIF, the securities must have been issued prior to 2009 and have originally been rated AAA – or an equivalent rating by two or more nationally recognized statistical rating organizations – without ratings enhancement and must be secured directly by the actual mortgage loans, leases, or other assets (“Eligible Assets”).

Please see page 8 of this program update for a glossary of terms used throughout this document.

Additional information on PPIP can also be found at www.financialstability.gov.

Neither this report nor the information contained herein constitutes an offer to sell or the solicitation of an offer to buy any securities. Any such offer or solicitation with respect to any PPIF may only be made by the applicable fund manager. This presentation has not been reviewed by any of the fund managers.

CAPITAL ACTIVITY

Set forth below is a summary of equity and debt capital by PPIF. As of December 31, 2009, the PPIFs have completed initial and subsequent closings on approximately \$6.2 billion of private sector equity capital, which was matched 100 percent by Treasury, representing \$12.4 billion of total equity capital. Treasury has also provided \$12.4 billion of debt capital, representing \$24.8 billion of total purchasing power. As of December 31, 2009, PPIFs have drawn-down approximately \$4.3 billion of total capital which has been invested in Eligible Assets and cash equivalents pending investment.

Summary of Capital by PPIF (\$ in Millions)

Fund	Closing Date	Closed Equity and Debt Capital			
		Private Equity	Treasury Equity	Treasury Debt	Purchasing Power
AG GECC PPIF Master Fund, L.P.	10/30/09	\$ 653	\$ 653	\$ 1,307	\$ 2,614
AllianceBernstein Legacy Securities Master Fund, L.P.	10/02/09	1,060	1,060	2,121	4,241
Blackrock PPIF, L.P.	10/02/09	582	582	1,164	2,329
Invesco Legacy Securities Master Fund, L.P.	09/30/09	506	506	1,012	2,024
Marathon Legacy Securities Public-Private Investment Partnership, L.P.	11/25/09	400	400	800	1,600
Oaktree PPIF Fund, L.P.	12/18/09	456	456	912	1,823
RLJ Western Asset Public/Private Master Fund, L.P.	11/05/09	505	505	1,010	2,021
UST/TCW Senior Mortgage Securities Fund, L.P. ⁽¹⁾	09/30/09	1,014	1,014	2,028	4,056
Wellington Management Legacy Securities PPIF Master Fund, LP	10/01/09	1,017	1,017	2,033	4,066
Total Closed		\$ 6,194	\$ 6,194	\$ 12,387	\$ 24,774
Total Program		\$ 10,000	\$ 10,000	\$ 20,000	\$ 40,000

⁽¹⁾ On January 4, 2010, Treasury and TCW entered into an agreement to terminate this fund because some of the key investment professionals left the firm. Pursuant to the agreement, all limited partners were released from capital commitments and the PPIF's holdings were liquidated. Treasury did not incur any loss as a result of the termination and currently expects, based on preliminary reports it received from the fund manager, that the TCW PPIF limited partners (private investors and Treasury) will realize a profit. TCW limited partners will have the ability to re-allocate capital to other PPIFs.

PORTFOLIO HOLDINGS – SUMMARY BY SECTOR

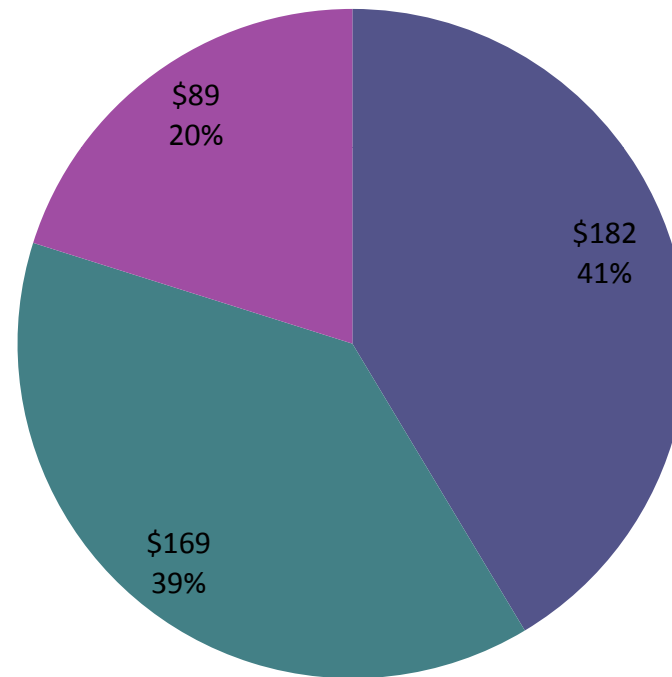

The total market value of Non-Agency RMBS and CMBS held by all PPIFs was approximately \$3.4 billion as of December 31, 2009. Approximately 87% of the portfolio holdings are Non-Agency RMBS and 13% are CMBS. The charts below show composition of Eligible Assets by sector.

Non-Agency RMBS – \$2,971 million

CMBS – \$440 million

■ Prime ■ Alt-A ■ Subprime ■ Option ARM

PERFORMANCE

Set forth below is a summary of performance since inception (the date on which each PPIF made its initial capital draw) as reported by each fund manager. Performance will vary among PPIFs due to different risk/return objectives, leverage ratios, and sector allocations among other reasons. The influence of these factors as well as others on performance may evolve over time based on market conditions. Moreover, PPIFs are in the early stages of their three-year investment periods (the time period during which Eligible Assets may be purchased) and early performance may be disproportionately impacted by structuring and transaction costs and the pace of capital deployment by each PPIF. Because of this, industry practice counsels that, at this stage, any performance analysis done on these funds would not generate meaningful results and it would be premature to draw any long-term conclusions about the performance of individual PPIFs or PPIF in general from the data reported below. It should be noted that the current and past performance of a PPIF is not indicative of its future performance.

Performance Since Inception (As of December 31, 2009)

Fund	Inception Date	Cumulative Net
		Performance
		Since Inception ⁽¹⁾
AG GECC PPIF Master Fund, L.P.	11/12/09	3.9%
AllianceBernstein Legacy Securities Master Fund, L.P.	10/23/09	-0.6%
Blackrock PPIF, L.P.	10/16/09	1.0%
Invesco Legacy Securities Master Fund, L.P.	10/13/09	2.8%
Marathon Legacy Securities Public-Private Investment Partnership, L.P.	12/15/09	-1.4%
Oaktree PPIF Fund, L.P.	NA	NA
RLJ Western Asset Public/Private Master Fund, L.P.	11/23/09	3.3%
UST/TCW Senior Mortgage Securities Fund, L.P.	10/19/09	0.7%
Wellington Management Legacy Securities PPIF Master Fund, LP	10/19/09	-1.2%

⁽¹⁾ Performance is net of management fees and expenses attributable to Treasury.

NA = Not Applicable as the fund has not drawn down capital as of 12/31/09.

GLOSSARY OF TERMS

Non-Agency Residential Mortgage-Backed Securities (RMBS)

Non-Agency Residential Mortgage Backed Securities (RMBS): Type of mortgage-backed security that is secured by loans on residential properties that are not issued or guaranteed by Fannie Mae, Freddie Mac or Ginnie Mae, or any other United States federal government-sponsored enterprise (GSE) or a United States federal government agency. Non-Agency RMBS are typically classified by underlying collateral / type of mortgage (i.e. Prime, Alt-A, Subprime, Option ARM).

Prime: Mortgage loan made to a borrower with good credit that generally meets the lender's strictest underwriting criteria. Non-Agency Prime loans generally are loans that exceed the dollar amount eligible for purchase by the GSEs (jumbo loans), but may include lower balance loans as well.

Alt-A: Mortgage loan made to a borrower with good credit but with limited documentation, or other characteristics that do not meet the standards for Prime loans. An Alt-A loan may have a borrower with a lower FICO score, a higher loan-to-value ratio, or limited or no documentation compared to a Prime loan.

Subprime: Mortgage loan made to a borrower with poor credit, typically having a FICO score of 620 or less.

Option ARM: Mortgage loan that gives the borrower a set of choices of how much interest and principal to pay each month. This may result in negative amortization (i.e. an increasing loan principal balance over time).

Commercial Mortgage-Backed Securities (CMBS)

Commercial Mortgage Backed Securities (CMBS): Type of mortgage-backed security that is secured by loans on commercial properties such as office buildings, retail buildings, apartment buildings, hotels, etc. CMBS are typically classified by position in the capital structure (i.e. Super Senior, AM, AJ).

Super Senior: Most senior originally rated AAA bonds in a CMBS securitization with the highest level of credit enhancement. Credit enhancement refers to the percentage of the underlying mortgage pool by balance that must be written down before the bond experiences any losses. Super Senior bonds often comprised 70% of a securitization and therefore had 30% credit enhancement at issuance.

AM: Mezzanine-level originally rated AAA bond. AM bonds often comprised 10% of a CMBS securitization and therefore had 20% credit enhancement at issuance, versus 30% for Super Senior bonds.

AJ: The most junior bond in a CMBS securitization that attained a AAA rating at issuance.

Appendix 3

Making Home Affordable Servicer Performance Report

Making Home Affordable Program

Servicer Performance Report Through December 2009

Overview of Administration Housing Stability Initiatives

Initiatives to Support Access to Affordable Mortgage Credit and Housing

Lower Mortgage Rates and Access to Credit:

- Continued financial support to maintain affordable mortgage rates through the Government Sponsored Enterprises (GSEs)
- Interest rates down a full percentage point over the past year. Every 1% reduction in interest rate saves a borrower a median of \$1500 annually in mortgage payments.
- Access to sustainable mortgages through the Federal Housing Administration (FHA).

State and Local Housing Initiatives:

- Access for Housing Finance Agencies to provide mortgages to first-time homebuyers, refinance opportunities for at-risk borrowers, and affordable rental housing.

Tax Credits for Housing:

- Homebuyer credit to help homebuyers buy new homes.
- Low-Income Housing Tax Credit (LIHTC) programs to support affordable rental housing.

Initiatives to Prevent Avoidable Foreclosures and Stabilize Neighborhoods

Making Home Affordable – Modifications:

- Goal of offering 3-4 million homeowners lower mortgage payments through a modification through 2012.
- Over 900,000 homeowners have started trial modifications and over 1 million offers for trial modifications have been extended to borrowers.
- Homeowners in permanent modifications are saving a median of over \$500 per month on mortgage payments. In aggregate, homeowners have saved over \$1.5 billion through modifications.

Making Home Affordable – Refinancing:

- Refinancing flexibility and low mortgage rates, which have allowed over 3.8 million borrowers to refinance, saving an estimated \$150 per month on average and more than \$6.8 billion in total over the first year.

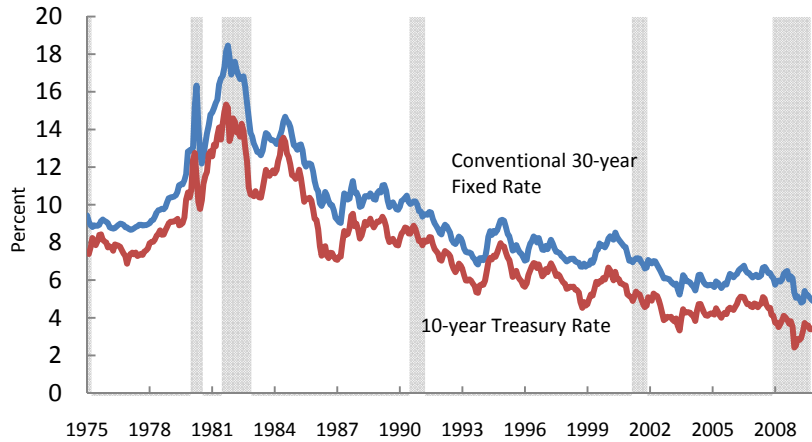

Neighborhood Stabilization and Community Development Programs:

- Support for the hardest hit communities to help stabilize neighborhoods.

Making Home Affordable Program

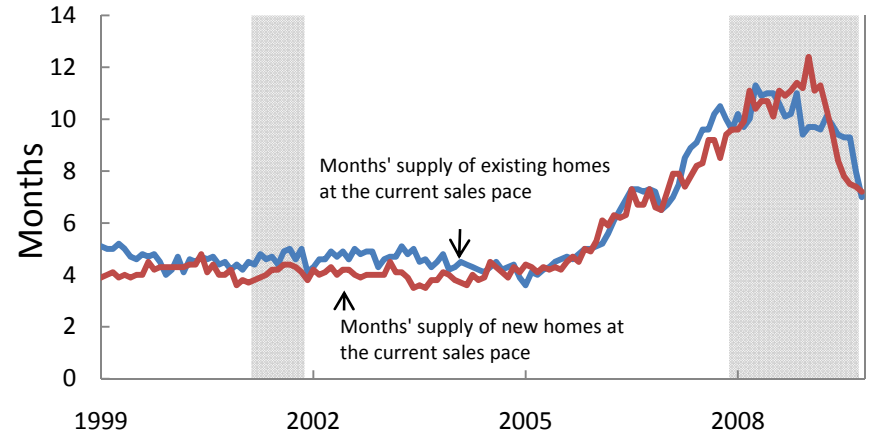

Servicer Performance Report Through December 2009

Home Affordable Modification Program (HAMP) Snapshot through December 2009

Number of Trial Period Plan Offers Extended to Borrowers (Cumulative) ¹	1,164,507
All HAMP Trials Started Since Program Inception ²	902,620
All Active Modifications (Trial and Permanent)	853,696
Active Trial Modifications ²	787,231
Permanent Modifications ³	66,465
Permanent Modifications Pending Borrower Acceptance ⁴	46,056
Total Permanent Modifications Approved by Servicers ⁵	112,521

¹ Source: Survey data provided by servicers.

² As reported by the HAMP system of record.

³ Active permanent modifications as reported by servicers into the HAMP system of record.

⁴ As reported by servicers in Treasury's Conversion Campaign. Pending permanent modifications are those pending final signature of the borrower plus completed modifications not yet in the HAMP system of record. While pending, modifications are reflected in the count of active trials.

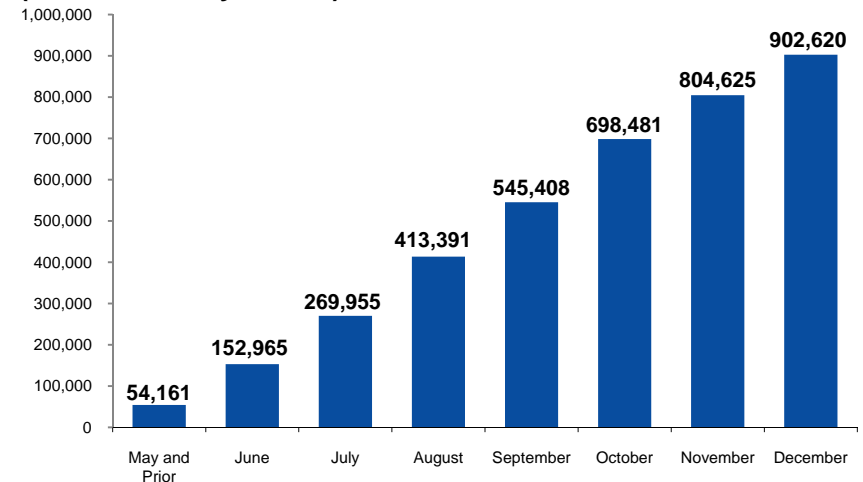

⁵ Permanent modifications in the HAMP system of record and pending modifications as reported by servicers in Treasury's Conversion Campaign. Pending permanent modifications are those pending final signature of the borrower plus completed modifications not yet in the HAMP system of record. While pending, modifications are reflected in the count of active trials.

HAMP Program Highlights

- Approximately 89% of eligible mortgage debt outstanding is covered by HAMP participating servicers.
- During the 4th quarter, the number of servicers who have signed servicer participation agreements to modify loans under HAMP rose from 63 to 102. In addition, approximately 2,300 lenders service loans owned or guaranteed by Fannie Mae or Freddie Mac. These servicers are automatically eligible to participate in HAMP.
- In the 4th quarter, the volume of active trial and permanent modifications rose by more than 75% from the 3rd quarter.
- The December Conversion Campaign resulted in an increase in the number of permanent modifications of more than 100%. In addition, more than 46,000 offers for permanent modifications have been sent to borrowers and will be reported to the HAMP system of record once they have been signed and returned to the servicer.

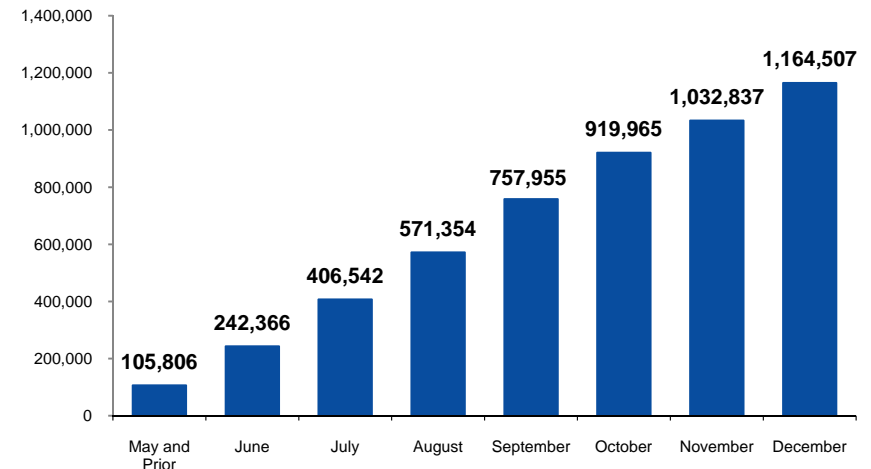

Additional information on HAMP can be found on MakingHomeAffordable.gov or by calling the Homeowner's HOPE Hotline at 1-888-995-HOPE (4673).

HAMP Trials Started (Cumulative, by Month)

Source: All trial modifications started by month first payment posted; based on numbers reported by servicers to the HAMP system of record.

HAMP Trial Plans Offered to Borrowers (Cumulative, by Month)

Source: Survey data provided by servicers. September data includes October 1. October data is 10/2 through 10/29. November data is through Nov. 26.

Making Home Affordable Program

Servicer Performance Report Through December 2009

- Borrowers in active trial and permanent modifications have saved more than \$1.5 billion through HAMP modifications.
- Loss of income is the primary borrower hardship.

Permanent Modifications by Waterfall Step:

Interest Rate Reduction	100%
Term Extension	43.2%
Principal Forbearance	26.6%

Select Median Characteristics of Permanent Modifications

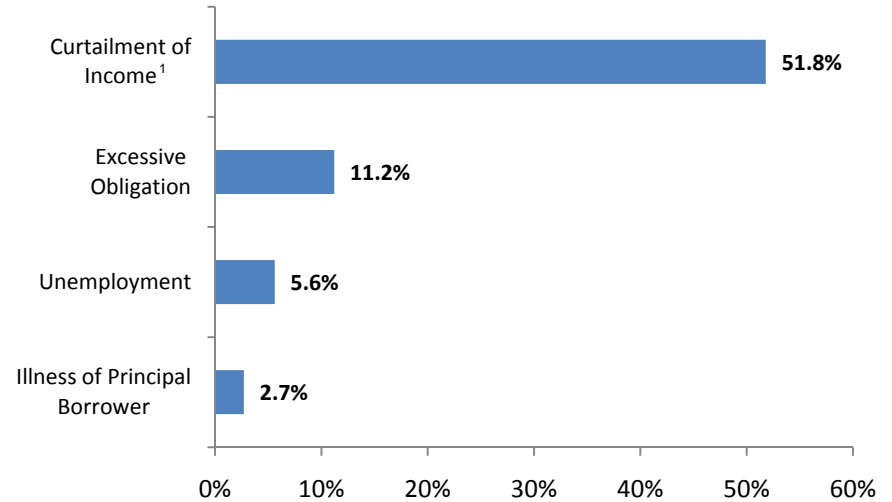

Loan Characteristic	Before Modification	After Modification	Decrease
Front-End Debt-to-Income Ratio ¹	45.0%	31.0%	-14.1 pct pts
Back-End Debt-to-Income Ratio ²	72.2%	55.1%	-14.7 pct pts
Median Monthly Payment ³	\$1,418.93	\$829.96	-\$516.14

¹ Ratio of housing expenses (principal, interest, taxes, insurance and homeowners association and/or condo fees) to monthly gross income. Decrease cited is median decrease.

² Ratio of total monthly debt payments (including mortgage principal and interest, taxes, insurance, homeowners association and/or condo fees, plus payments on installment debts, junior liens, alimony, car lease payments and investment property payments) to monthly gross income. Decrease cited is median decrease.

³ Decrease cited is median decrease.

Predominant Hardship Reasons for Permanent Modifications

¹ Curtailment of income refers to borrowers who are employed but have faced a reduction in hours and/or wages. Note: Does not include 19.3% of permanent modifications reported as Other.

Total	3,356,844	1,164,507	902,620	787,231	66,465	46,056	25%

¹ Estimated eligible 60+ day delinquent mortgages as reported by servicers as of November 30, 2009 include conventional loans:

- in foreclosure and bankruptcy,
- with a current unpaid principal balance less than \$729,750 on a one-unit property, \$934,200 on a two-unit property, \$1,129,250 on a three-unit property and \$1,403,400 on a four-unit property.
- on a property that was owner-occupied at origination.
- originated prior to January 1, 2009.

Estimated eligible 60+ day delinquent loans excludes:

- FHA and VA loans.
- loans that are current or less than 60 days delinquent, which may be eligible for HAMP if a borrower is in imminent default.

Servicers enrolling after December 1 did not participate in the 60+ day delinquency survey; their delinquency count is from the servicer registration form.

² Active trial and permanent modifications as reported into the HAMP system of record by servicers.

³ As reported by servicers targeted in Treasury's Conversion Campaign. Includes permanent modifications pending final signature of the borrower plus completed modifications not yet reported into the HAMP system of record. While pending, modifications are reflected in the count of active trials.

⁴ Aurora Loan Services, LLC includes Aurora Financial Group.

⁵ Bank of America, NA includes Bank of America, NA, BAC Home Loans Servicing LP, Home Loan Services and Wilshire Credit Corporation.

⁶ CitiMortgage, Inc. includes CitiMortgage, Inc. Master Servicing Division.

⁷ J.P. Morgan Chase Bank, NA includes EMC Mortgage Corporation.

⁸ Formerly National City Bank.

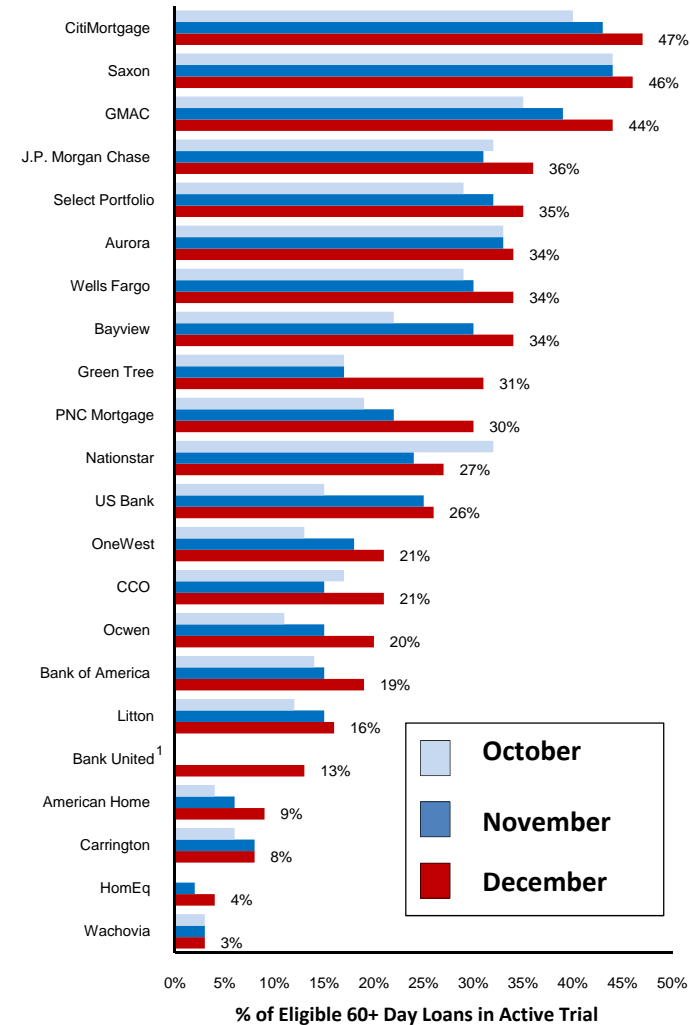

⁹ Wachovia Mortgage FSB includes Wachovia Bank NA.

¹⁰ Other SPA servicers are entities with less than 5,000 estimated eligible 60+ day delinquencies that have signed participation agreements with Treasury and Fannie Mae. A list of those servicers is available online at

http://www.makinghomeaffordable.gov/contact_servicer.html

¹¹ Includes servicers of loans owned or guaranteed by Fannie Mae and Freddie Mac.

Active Modifications as a Share of Estimated Eligible 60+ Day Delinquencies

¹ Bank United began participation on October 23, 2009.

Note: Includes active trial and permanent modifications. Servicer combinations are the same as the table at left.

October trials as a share of 60+ day delinquencies on September 30, 2009.

November trials as a share of 60+ day delinquencies on October 31, 2009.

December trials as a share of 60+ day delinquencies on November 30, 2009.

Total Purchase Amount \$ 204,894,726,320
Total Capital Repayment Amount \$ 121,942,369,000
Total Warrant Proceeds \$ 4,028,274,703

TOTAL TREASURY CPP INVESTMENT AMOUNT \$ 82,952,357,320

1/ This transaction was included in previous Transaction Reports with Merrill Lynch & Co., Inc. listed as the qualifying institution and a 10/28/2008 transaction date, footnoted to indicate that settlement was deferred pending merger. The purchase of Merrill Lynch by Bank of America was completed on 1/1/2009, and this transaction under the CPP was funded on 1/9/2009.

2/ Privately-held qualified financial institution; Treasury received a warrant to purchase additional shares of preferred stock (unless the institution is a CDFI), which it exercised immediately.

3/ To promote community development financial institutions (CDFIs), Treasury does not require warrants as part of its investment in certified CDFIs when the size of the investment is \$50 million or less.

3a/ Treasury cancelled the warrants received from this institution due to its designation as a CDFI.

4/ Repayment pursuant to Title VII, Section 7001(g) of the American Recovery and Reinvestment Act of 2009.

5/ Redemption pursuant to a qualified equity offering.

6/ This amount does not include accrued and unpaid dividends, which must be paid at the time of capital repayment.

7/ The proceeds associated with the disposition of this investment do not include accrued and unpaid dividends.

8/ Subchapter S corporation; Treasury received a warrant to purchase additional subordinated debentures (unless the institution is a CDFI), which it exercised immediately.

9/ In its qualified equity offering, this institution raised more capital than Treasury's original investment, therefore, the number of Treasury's shares underlying the warrant was reduced by half.

10/ This institution participated in the expansion of CPP for small banks.

10a/ This institution received an additional investment through the expansion of CPP for small banks.

11/ Treasury made three separate investments in Citigroup Inc. ("Citigroup") under CPP, TIP, and AGP for a total of \$49 billion. On 6/9/2009, Treasury entered into an agreement with Citigroup to exchange up to \$25 billion of Treasury's investment in Fixed Rate Cumulative Perpetual Preferred Stock, Series H (CPP Shares) "dollar for dollar" in Citigroup's Private and Public Exchange Offerings. On 7/23/2009 and 7/30/2009, Treasury exchanged a total of \$25 billion of the CPP shares for Series M Common Stock Equivalent ("Series M") and a warrant to purchase shares of Series M. On 9/11/2009, Series M automatically converted to 7,692,307,692 shares of common stock and the associated warrant terminated on receipt of certain shareholder approvals.

12/ On 8/24/2009, Treasury exchanged its Series C Preferred Stock issued by Popular, Inc. for a like amount of non tax-deductible Trust Preferred Securities issued by Popular Capital Trust III, administrative trustee for Popular, Inc. Popular, Inc. paid a \$13 million exchange fee in connection with this transaction.

13/ This institution converted to a bank holding company structure and Treasury exchanged its securities for a like amount of securities that comply with the CPP terms applicable to bank holding companies. The institution in which Treasury's original investment was made is shown in parentheses.

14/ As of the date of this report, this institution is in bankruptcy proceedings.

15/ For final disposition of warrants, "R" represents proceeds from a repurchase of warrants by the financial institution, and "A" represents the proceeds to Treasury, before underwriting fees and selling expenses, from a sale by Treasury in a registered public offering of the warrants issued by the financial institution.

16/ On 12/10/2009, the bankruptcy reorganization plan of CIT Group Inc. became effective and Treasury's preferred stock and warrant investment were extinguished and replaced by Contingent Value Rights.

17/ On 12/11/2009, Treasury exchanged its Series A Preferred Stock issued by Superior Bancorp, Inc. for a like amount of non tax-deductible Trust Preferred Securities issued by Superior Capital Trust II, administrative trustee for Superior Bancorp.

Total Initial Investment Amount **\$ 81,344,932,551**

Total Payments **\$ 3,190,839,261**

Total Treasury Investment Amount **\$ 78,154,093,290**

As used in this table and its footnotes:

"GMAC" refers to GMAC Inc., formerly known as GMAC LLC.

"Old GM" refers to General Motors Corporation, which is now known as Motors Liquidation Company.

"New GM" refers to General Motors Company, the company that purchased Old GM's assets on 7/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code. See also footnote 11.

"Chrysler FinCo" refers to Chrysler Financial Services Americas LLC.

"Chrysler Holding" refers to CGI Holding LLC, the company formerly known as "Chrysler Holding LLC".

"Old Chrysler" refers to Chrysler LLC.

"New Chrysler" refers to Chrysler Group LLC, the company that purchased Old Chrysler's assets on 6/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code.

1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
2. Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.
3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)
4. This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
6. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by . On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)
8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.
9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
10. In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
11. Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Holdings LLC, and General Motors Holdings LLC is a wholly owned subsidiary of General Motors Company.
12. Pursuant to a corporate reorganization completed on 10/19/2009, Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC.
13. The loan was funded through Chrysler LB Receivables Trust, a special purpose vehicle created by Chrysler FinCo. The amount of \$1,500,000,000 represents the maximum loan amount. The loan was incrementally funded until it reached the maximum amount of \$1.5 billion on 4/9/2009.
14. This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.
15. The loan was used to capitalize Chrysler Warranty SPV LLC, a special purpose vehicle created by Old Chrysler.
16. This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/5/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. Treasury's commitment was \$3.04 billion of the total \$4.1 billion debtor-in-possession credit facility (the "Chrysler DIP Loan"). As of 6/30/2009, Treasury's commitment to lend under the Chrysler DIP Loan had terminated. The remaining principal amount reflects the final amount of funds disbursed under the Chrysler DIP Loan.
17. This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount \$756,857,000 to a total of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.
18. This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement with New Chrysler fully executed on 6/10/2009. Under the terms of the credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to new Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in new Chrysler.
19. Pursuant to the agreement explained in footnote 18, \$500 million of this debt obligation was assumed by New Chrysler.
20. Under the terms of an agreement dated 7/23/2009, Treasury agreed to hold the outstanding loans of Chrysler Holding in forbearance, and Chrysler Holding agreed to pay the greater of \$1.375 billion or 40% of the equity value of Chrysler FinCo in the event it receives proceeds from Chrysler FinCo.
21. Amount of the Treasury investment after exchange includes the exercised warrants from Treasury's initial investment.
22. Under the terms of an agreement dated 12/30/2009, the convertible preferred shares will mandatorily convert to common stock under the conditions and the conversion price as set forth in the terms of the agreement.

1/ In consideration for the guarantee, Treasury received \$4.03 billion of preferred stock, which pays 8% interest.
 2/ Treasury made three separate investments in Citigroup Inc. ("Citigroup") under CPP, TIP, and AGP for a total of \$49 billion. On 6/9/2009, Treasury entered into an agreement with Citigroup to exchange all of Treasury's investments. On 7/30/2009, Treasury exchanged all of its Fixed Rate Cumulative Perpetual Preferred Stock Series G (AGP Shares), received as premium with the AGP agreement, "dollar for dollar" for Trust Preferred Securities.
 3/ On 12/23/2009, Treasury entered into a Termination Agreement with the other parties to the Master Agreement which served to terminate Treasury's guarantee and obligations under the Master Agreement. In connection with the early termination of the guarantee, Treasury agreed to cancel \$1.8 billion of the AGP Trust Preferred Securities, and the Federal Deposit Insurance Corporation (FDIC) and Treasury agreed that, subject to the conditions set out in the Termination Agreement, the FDIC may transfer \$800 million of Trust Preferred Securities to Treasury at the close of Citigroup's participation in the FDIC's Temporary Liquidity Guarantee Program.

TOTAL							\$ 69,835,000,000							

1/ On 4/17/2009, Treasury exchanged its Series D Fixed Rate Cumulative Preferred Shares for Series E Fixed Rate Non-Cumulative Preferred Shares with no change to Treasury's initial investment amount. In addition, in order for AIG to fully redeem the Series E Preferred Shares, it has an additional obligation to Treasury of \$1,604,576,000 to reflect the cumulative unpaid dividends for the Series D Preferred Shares due to Treasury through and including the exchange date.

2/ The investment price reflects Treasury's commitment to invest up to \$30 billion less a reduction of \$165 million representing retention payments AIG Financial Products made to its employees in March 2009.

3/ This transaction does not include AIG's commitment fee of an additional \$165 million scheduled to be paid from its operating income in three equal installments over the five-year life of the facility.

Total Initial Cap \$ 23,664,950,000 **Total Cap Adjustments \$ 13,207,430,000**
TOTAL CAP \$ 36,872,380,000

1/ The Cap of Incentive Payments represents the potential total amount allocated to each servicer and includes the maximum amount allotted for all payments on behalf of borrowers and payments to servicers and lenders/investors. The Cap is subject to adjustment based on the total amount allocated to the program and individual servicer usage for borrower modifications. Each adjustment to the Cap is reflected under Adjustment Details.
2/ On July 31, 2009, the SPA with Chase Home Finance, LLC was terminated and superseded by new SPAs with J.P. Morgan Chase Bank, NA and EMC Mortgage Corporation.

As used in this table:
"HAFSA" means the Home Affordable foreclosure Alternatives program.
"HPDP" means the Home Price Decline Protection program.
"2MP" means the Second Lien Modification Program.
