Appendix 1 – Financial Statement

Treasury is pleased to present the Monthly 105(a) Report for the Troubled Asset Relief Program, or TARP.

# **TARP Enactment and End of Authority**

The Troubled Asset Relief Program was established pursuant to the Emergency Economic Stabilization Act of 2008 (the Act. This law was adopted on October 3, 2008 in response to the worst financial crisis since the Great Depression. Treasury has used the TARP authority to make investments that have helped to stabilize the financial system, restore confidence in the strength of our financial institutions, restart markets that are critical to financing American households and businesses, help prevent avoidable foreclosures and protect homeownership.

The second anniversary of the Act in October 2010 marked the end of the authority to make new financial commitments. The TARP was an enormous commitment of taxpayer money. And it has been unpopular for good reason—no one likes using tax dollars to rescue financial institutions. However, by objective standards, TARP worked. It helped stop the widespread financial panic we faced in the fall of 2008 and helped prevent what could have been a devastating collapse of our financial system. Moreover, it did so at a cost that is far less than what most people expected at the time the law was passed.

# Management and Lifetime Cost of TARP

Going forward, our focus is to manage the TARP investments prudently while working to recover as much of the taxpayers' funds as possible. Treasury aims to dispose of its investments as quickly as practicable, in a timely and orderly manner consistent with the duty to protect financial stability and protect taxpayers' interests. We will also continue our efforts to help distressed homeowners. And we will take these steps while maintaining comprehensive accountability and transparency standards.

Treasury provided a detailed explanation of the projected costs for TARP in the Financial Report for Fiscal Year 2010 for the Troubled Asset Relief Program, which was released in November.<sup>1</sup> This report provides information on financial results relating to the TARP as required by the Emergency Economic Stabilization Act and other laws. For the second consecutive year, the Office of Financial Stability has earned unqualified or "clean" opinions on its financial statements and its internal control over financial reporting from the Government Accountability Office, with no material weaknesses.

The ultimate cost of TARP will depend on how financial markets and the economy perform in the future. If financial and economic conditions deteriorate, prospects for outstanding TARP investments will also deteriorate. Our recent analysis of the potential lifetime cost of TARP suggests that the total cost of TARP could be less than \$50 billion.<sup>2</sup> In addition, using the same assumptions, we estimate that the combined cost of TARP programs and other Treasury interests in AIG will be about \$28 billion. This is a notable decline from earlier estimates. (Please see Figure 2.)

# Where are TARP Funds?

#### New Charts Enable Readers to Track TARP Funds

This report now contains two charts which give readers a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

#### Daily TARP Progress Report

The first chart, which we call the Daily TARP Progress Report, shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. (These amounts do not represent lifetime cost estimates, which are shown in the next chart.) This chart is now also available on FinancialStability.gov and will be updated after every business day.

#### • Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart, which was introduced last month, provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in accordance with federal budget rules and in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers "mark to market" those investments. This chart also shows the additional investment by Treasury in AIG. This chart will soon be available on FinancialStability.gov also.

This table utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by Emergency Economic Stabilization Act of 2008 for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

# Monthly 105(a) Report

- 1/ Amounts of "Realized Loss", "Gain / Other Income", and "Warrants Sold" reflect net cash receipts.
- 2/ This column represents the sum of repayments plus income/revenue. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.
- 3/ Outstanding principal/investment does not reflect exchanges out of CPP into CDCI (\$355.72 million). Warrants sold includes gain on exchanges (\$7.57 million). Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in July 2009
- 4/ Gain / Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 5/ Disbursed reflects exchanges into CDCI from CPP (\$363.29 million).
- 6/ Treasury's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January, 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 7/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.

Note: Expenditures under the housing programs are made incrementally over time and are not expected to be repaid.

Cumulative dividends and interest income received from Capital Purchase Program investments is approximately \$10.38 billion.<sup>4</sup>

<sup>&</sup>lt;sup>3</sup> Further information on the terms of the Capital Purchase Program is available at <u>http://www.FinancialStability.gov/roadtostability/capitalpurchaseprogram.html</u>.

<sup>&</sup>lt;sup>4</sup> Treasury's Dividends and Interest Reports for all TARP programs are available at <u>http://www.Treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx</u>. Certain proceeds from investments, e.g. warrant dispositions, are stated on the Transactions Reports available at the same webpage.

## Warrant Auctions

#### Citigroup

- On January 24, Treasury completed a public auction of warrants to purchase Citigroup, Inc. (Citigroup) common stock for total gross proceeds of approximately \$0.31 billion.
  - Proceeds from the warrants associated with the Targeted Investment Program and Asset Guarantee Program, with an exercise price of \$10.61, totaled \$257.58 million.
  - > Proceeds from the warrants associated with the Capital Purchase Program, at an exercise price of \$17.85, totaled \$54.62 million.
- Treasury has a realized gain of \$12.3 billion on the \$45 billion of TARP investments in Citigroup, and Treasury has now exited from all TARP investments in Citigroup.
  - Treasury should receive an additional \$800 million of Citigroup's Trust Preferred Securities (TruPS) from the Federal Deposit Insurance Corporation (FDIC), subject to certain conditions, at the close of Citigroup's participation in the FDIC's Temporary Liquidity Guarantee Program in December 2012.

## Other Warrant Auctions

 On February 1, Treasury completed a public auction of warrants to purchase the common stock of Boston Private Financial Holdings, Inc, for total gross proceeds of approximately \$6.2 million. Treasury has also announced its intention to dispose of warrant positions in Wintrust Financial Corporation.

## Repayments

- Cumulative Capital Purchase Program repayments have reached over \$171 billion, more than 83% of the \$205 billion invested.
- Fifth Third Bancorp repaid all of its \$3.4 billion investment on February 2, 2010. So far in 2011, six banks have repaid \$3.47 billion of Capital Purchase Program investments.
- "We expect that the programs within TARP to provide direct financial support to banks will provide a profit for taxpayers. As the economy heals, we continue to see private capital step up and replace public support in the financial sector, which has lowered the cost of TARP for taxpayers." -- Tim Massad, Treasury's Acting Assistant Secretary for Financial Stability.
- Of the \$30.52 billion that remains invested under the program, approximately 70% consists of investments in the 25 institutions listed below. Treasury continues to work with Federal banking regulators who must evaluate requests from banks interested in repaying the investments.

## Monthly 105(a) Report

#### **Exchanges and Sales**

In limited cases, in order to protect the taxpayers' interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities or may sell the preferred stock. Treasury evaluates whether to participate in an exchange or sale on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring or (iii) strengthen its capital and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

In January, Treasury completed the sale of all preferred stock and warrants issued to Treasury by Capital Bank Corporation (Capital Bank) to North American Financial Holdings (NAFH), representing an original investment of \$41.28 million, for an aggregate purchase price of \$41.28 million. Completion was conditioned on certain closing conditions, including the closing of NAFH's investment in Capital Bank.

#### Public Private Investment Program

The Legacy Securities Public Private Investment Program (S-PPIP) is designed to support market functioning and facilitate price discovery in the mortgage-backed securities markets – through investments in non-agency residential mortgage-backed securities (RMBS) and commercial mortgage-backed securities (CMBS), allowing banks and other financial institutions to re-deploy capital and extend new credit to households and businesses. Under the program, Treasury has partnered with fund managers and private investors who invest in legacy securities through a Public Private Investment Fund (PPIF). In January, Treasury released its fifth quarterly report with information regarding S-PPIP performance during the quarter from October 1, 2010 through December 31, 2010, which is available at:

http://www.Treasury.gov/initiatives/financial-stability/investment-programs/ppip/Pages/publicprivatefund.aspx.

As of December 31, 2010:

- The PPIFs had collectively generated \$1.1 billion in unrealized gains and \$314 million in realized gains net of fees and expenses on Treasury's \$5.2 billion equity investment, which is equal to a 27% return on Treasury's equity paid in capital. Net internal rates of return ranged from 23% for Wellington and 59% for Angelo Gordon among the individual PPIFs.
- The PPIFs had drawn approximately \$20.4 billion of total capital (69.3% of the \$29.4 billion in total purchasing power), which had been invested in eligible RMBS and CMBS or cash equivalents pending investment, as compared to \$18.6 billion of total capital drawn-down as of September 30, 2010. Among the individual PPIFs, RLJ Western had drawn the most (100% of its total purchasing power) and Oaktree, which is focused exclusively on CMBS investments, had drawn the least (8.1% of its total purchasing power).
- The total market value of non-agency RMBS and CMBS held by the PPIFs was approximately \$21.5 billion with approximately 81% of the portfolio holdings non-agency RMBS and 19% CMBS.
- The PPIFs remain an early stage of their three-year investment periods, which end in the fourth quarter of 2012.

#### **Automotive Industry Financing Program**

In January 2011, Chrysler met the first of three performance related milestones and Fiat's ownership automatically increased from 20 percent to 25 percent. Treasury's ownership now stands at 9.2 percent.<sup>5</sup>

#### American International Group (AIG)

In January, Treasury, the Federal Reserve Bank of New York (FRBNY), the trustees of the AIG Credit Facility Trust (the Trust) and AIG completed a series of integrated transactions and certain corporate actions (the Recapitalization), for the purpose of accelerating the repayment of U.S taxpayer funds and to promote AIG's transition from a majority government owned and supported entity to a financially sound and independent entity. Treasury will continue to evaluate its options for an exit from the investment in AIG as soon as practical while protecting taxpayers.

In the Recapitalization, AIG repaid FRBNY a total of \$47 billion, including the outstanding balance on the original \$85 billion credit facility provided to AIG at the height of the financial crisis. AIG no longer has any outstanding obligations to the FBRNY.<sup>6</sup> Following the Recapitalization, Treasury's total cash investment in AIG is \$68 billion, and as of January 31, 2011, Treasury's investment consisted of:

- Approximately 1.655 billion shares of AIG common stock, representing ownership of 92 percent of the company.
  - As part of the Recapitalization, AIG entered into a Registration Rights Agreement that grants Treasury certain rights to facilitate its sale of common shares.
- \$20 billion of preferred interests in two special purpose vehicles (SPVs).
  - AIG will repay the SPV preferred interests from monetization of the non-cash assets of the SPVs, including the sales of AIG Star Life Insurance and AIG Edison Life Insurance, Nan Shan Life Insurance Company, the remaining equity stake in AIA, the MetLife equity securities received as part of the ALICO sale, and certain other designated assets. The aggregate value of these assets significantly exceeds Treasury's investment amount.
- An outstanding \$2 billion commitment under an undrawn equity capital facility available to AIG.

<sup>&</sup>lt;sup>5</sup> More information is available at: <u>http://www.media.chrysler.com/newsrelease.do?id=10453&mid=2</u>.

<sup>&</sup>lt;sup>6</sup> Amounts do not include loans from the FRBNY to Maiden Lane II LLC Maiden Lane III LLC, which do not represent obligations of AIG. Further information, including repayments to date, is available at: <u>http://www.newyorkfed.org/markets/maidenlane.html#</u>.

# Monthly 105(a) Report

#### **Housing Programs**

#### MHA Data File

In a continued commitment to enhanced reporting and transparency, on January 31, 2011, the Obama Administration released the Making Home Affordable (MHA) Data File which includes characteristics of program participants to date, including financial information, mortgage loan information before and after entering HAMP, performance in a HAMP modification, and race/ethnicity data. The MHA Data File offers mortgage loan-level data and is intended to allow for better understanding of the impact of the program.

In preparing the MHA Data File, Treasury applied the recommendations of an independent non-profit, non-partisan policy institute to ensure the privacy of participating homeowners. The release of the data file fulfills a requirement within the Dodd-Frank Wall Street Reform Act to make available loan-level data about the program. Treasury will update the file monthly and will expand reporting to include newer initiatives that are part of Making Home Affordable.

Key findings that emerged from preliminary analysis of the MHA Data File include:

- To date, most program participants are moderate income, financially-distressed homeowners who are "underwater" on their mortgages.
- Borrowers in active permanent HAMP modifications have a median annual income of approximately \$46,000; a median credit score of 570 upon entering the trial period; a post-modification loan balance of just over \$232,000; and a median mark-to-market loan-to-value (LTV) of 118%.
- Of borrowers reporting race and ethnicity, African-Americans account for 18% of active permanent modifications and Hispanics account for 26%.
- Homeowners in active permanent modifications have seen their monthly mortgage payment cut by a median of approximately 40%. Eighteen percent of homeowners in active permanent modifications have reduced their monthly mortgage payment by more than \$1,000 each month.

Researchers interested in using the MHA Data File can access the file and user guide at: <a href="http://www.Treasury.gov/initiatives/financialstability/results/Pages/mha\_publicfile.aspx">http://www.Treasury.gov/initiatives/financialstability/results/Pages/mha\_publicfile.aspx</a>.

#### HUD Housing Scorecard and Servicer Performance Report

In January, the U.S. Department of Housing and Urban Development (HUD) and Treasury released the Housing Scorecard (<u>www.HUD.gov/scorecard</u>) on the nation's housing market. Each month, the scorecard incorporates key housing market indicators and highlights the impact of housing recovery efforts, including assistance to homeowners through the Federal Housing Administration (FHA) and the TARP Home Affordable Modification Program (HAMP). The scorecard also incorporates the MHA Servicer Performance Report Through December 2010. Key data on the health of the housing market presented in the **Housing Scorecard** includes:

- New and existing home sales increased in December, but remained below levels seen in the first half of 2010. Record low mortgage rates continue to keep home affordability at record high levels. However, home prices remain unsettled at this fragile stage of the recovery.
- As lenders review internal procedures related to foreclosure processing, many foreclosure actions have been delayed leading to a lower level of foreclosure activity in December than in prior months. The decline is likely to be temporary as lenders eventually revise and resubmit foreclosure paperwork in the coming months.
- More than 4.1 million modification arrangements were started between April 2009 and the end of December 2010 more than double the number of foreclosure completions during that time. These actions included more than 1.4 million HAMP trial modification starts, more than 650,000 FHA loss mitigation and early delinquency interventions, and nearly 2 million proprietary modifications under HOPE Now.

#### Highlights from the MHA Servicer Performance Report Through December 2010 include:

- As of June 1, all homeowners now begin a trial modification with verified documentation, which streamlines the conversion process to a permanent modification.
- Homeowners in permanent modifications realize real savings, with total aggregate reductions in monthly mortgage payments of more than \$4.5 billion.
- As servicers continue to work through the backlog of trials lasting six months or more, the number of these aged trials has fallen below 40,000. Reducing the number of aged trials should free servicer resources to focus on new trial modifications and conversions.
- Nearly 580,000 Homeowners Granted Permanent Modifications
  - > More than 30,000 new permanent modifications reported in December.
  - More than 673,000 homeowners are realizing payment relief through active HAMP trial modifications and permanent modifications. For homeowners in permanent modifications, their median first-lien housing expense fell from 45% of their monthly income to 31%.
- Performance of Permanent Modifications
  - Program data indicates that homeowners in HAMP permanent modifications are performing well over time, with re-default rates lower than industry statistics. At 12 months, nearly 85% of homeowners remain in a permanent modification, with less than 16% of homeowners missing three consecutive payments.
  - Homeowners with payment reductions of more than 30% were far less likely to become delinquent on their permanent modifications, compared with those receiving a payment reduction of 20% or less.

As used in this table and its footnotes:

GMAC refers to GMAC Inc., formerly known as GMAC LLC., and now known as Ally Financial, Inc. ("Ally").

"Old GM" refers to General Motors Corporation, which is now known as Motors Liquidation Company.

"New GM" refers to General Motors Company, the company that purchased Old GM's assets on 7/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code. See also footnote 11. "Chrysler FinCo" refers to Chrysler Financial Services Americas LLC

"Chrysler Holding" refers to CGI Holding LLC, the company formerly known as "Chrysler Holding LLC".

"Old Chrysler" refers to Old Carco LLC (fka Chrysler LLC)

"New Chrysler" refers to Chrysler Group LLC, the company that purchased Old Chrysler's assets on 6/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code.

1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.

2. Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.

3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008. Treasury exchanced its \$884 million loan to Old GM for a portion of Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)

4. This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.

5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.

6. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.

7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)

8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.

9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.

1/ The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

2/ Investment Amount is stated after giving effect to factor and, if applicable, the purchase of accrued principal and interest.

3/ If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

4/ In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

5/ Disposition Amount is stated after giving effect, if applicable, to sale of accrued principal and interest.

1/ On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the 'L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.
