The Troubled Asset Relief Program was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). The second anniversary of EESA in October 2010 marked the end of the authority to make new financial commitments. By objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed. Going forward, our focus is to manage the remaining TARP investments prudently while working to recover as much of the taxpayers' funds as possible. We will also continue our efforts to help distressed homeowners. And we will take these steps while maintaining comprehensive accountability and transparency standards.

# Where are TARP Funds?<sup>1</sup>

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

#### • Daily TARP Progress Report

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. This chart is also available on FinancialStability.gov and is updated after every business day.

#### • Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in accordance with federal budget rules and in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG.

This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

#### Notes to Daily TARP Progress Report as of March 9, 2011

- 1/ Amounts of "Realized Loss", "Gain/Other Income", and "Warrants Sold" reflect net cash receipts.
- 2/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 3/ This column represents the sum of repayments plus income/revenue.
- 4/ Outstanding principal/investment does not reflect exchanges out of CPP into CDCI (\$355.72 million). Warrants sold includes gain on exchanges from CPP into CDCI (\$7.57 million). Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in July 2009
- 5/ Gain/Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 6/ Disbursed reflects exchanges into CDCI from CPP (\$363.29 million).
- 7/ Treasury's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January, 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 8/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.

Note: Expenditures under the housing programs are made incrementally over time and are not expected to be repaid.

- Total TARP repayments and income are now \$287 billion 70 percent of the \$411 billion disbursed to date.
- Total income from TARP programs is now more than \$36 billion.

#### Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget as of February 28, 2011

- 1/ All lifetime cost information is as of November 30, 2010 as reflected in the FY 2012 President's Budget. Other figures obligation/commitment, disbursed, and outstanding investment balance are updated through February 28, 2011. The updated figures do not include the repayments and disbursements made in early March included in the Daily TARP Progress Report, which is comprised principally of the \$2.7 billion Automotive Industry Financing Program repayment by Ally Financial, Inc. and the \$6.6 billion repayment by AlG. Estimated lifetime costs include interest effects of reestimates.
- 2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. Estimated lifetime cost of investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of November 30, 2010. The following information is provided for the convenience of the reader to show the increase or decrease in aggregate value of such investments in light of market prices as of March 7, 2011 and the corresponding effect on estimated cost assuming no other changes.

- 4/ The November 30, 2010 share price is valued for purposes of this table at \$35.84 per share which includes an adjustment for the assumed value of AIG warrants that had not been issued as of that date.
- 5/ Represents additional 563 million shares of AIG common stock that was received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury.

# **Program Updates**

#### Automotive Industry Financing Program

#### Ally Financial, Inc. (Ally Financial, formerly GMAC)

• \$2.7 billion of proceeds from public offering of trust preferred securities

On March 2, 2011, Treasury announced that it priced a secondary offering at par for all of its Ally Financial trust preferred securities. Aggregate proceeds from the offering (together with a distribution fee) totaled approximately \$2.7 billion. With the proceeds from this sale, Treasury has received approximately \$4.9 billion in return from Ally Financial to date, including \$2.2 billion in dividends and interest. Treasury now holds \$5.9 billion of convertible preferred stock and 74 percent of the outstanding shares of common stock in Ally Financial.

• Treasury appointment to Ally Financial's board of directors

On February 28, 2011, Treasury exercised its right to appoint a member to Ally Financial's board of directors, naming John D. Durrett. Mr. Durrett is currently a strategic advisor to Serent Capital, and was previously a Managing Director and Chairman of the Finance Committee of the Board of Directors at McKinsey & Company, where he worked on matters involving strategy and organizational turnaround in a variety of industries including financial services.

• Quarterly dividend payments of \$186.93 million

In February, Treasury received its scheduled quarterly dividend payments from Ally Financial in the amounts of \$133.59 million associated with the convertible preferred stock and \$53.34 million associated with the trust preferred securities.

#### **American International Group**

#### \$6.9 billion of proceeds from the sale of MetLife securities by AIG to repay U.S. taxpayers

- On March 2, 2011, a total of 146.8 billion shares of MetLife common stock were sold for \$6.3 billion of gross proceeds. Additionally, AIG sold equity units in MetLife for \$3.3 billion. AIG used \$6.6 billion of proceeds to repay the U.S. taxpayers' investment through the redemption of an equal portion of Treasury's preferred equity interests in AIG, which currently stand at \$18.2 billion.
- Most of the proceeds from the equity units were deposited in an indemnity escrow to secure obligations that may be owed to MetLife, as previously agreed under the terms of the acquisition of the American Life Insurance Company (ALICO) by MetLife. These proceeds will be released according to agreed-upon minimum holding periods over the next two years and used to pay down Treasury's preferred equity interests.

# Monthly 105(a) Report

- Approximately \$300 million that was previously held in escrow for a tax payment in connection with the sale of ALICO to MetLife was released to pay down an additional portion of Treasury's preferred equity interests in AIG. This tax payment will now be made with proceeds from the sale of the equity units, thereby reducing the indemnity escrow account balance to \$2.7 billion.
- The previous sale, in February, by AIG of its subsidiaries AIG Star Life Insurance Co., Ltd. and AIG Edison Life Insurance Company delivered \$2.2 billion in proceeds to Treasury, and reduced the outstanding amount of Treasury's preferred equity interests in AIG from \$20.4 billion to \$18.2 billion.

#### **Capital Purchase Program (CPP)**

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Treasury estimates the program will result in a positive return for taxpayers (see Figure 2). The table below shows the cumulative Capital Purchase Program activity since program inception.

#### Repayments

• Cumulative Capital Purchase Program repayments have reached over \$171 billion, more than 83 percent of the \$205 billion invested.

# Monthly 105(a) Report

#### **Dividends and Interest**

• Cumulative dividends and interest income received from Capital Purchase Program investments is approximately \$10.64 billion. In February, Treasury received dividends and interest income from CPP investments of approximately \$0.29 billion.

#### Warrant Auctions

• On February 1, Treasury completed a public auction of warrants to purchase the common stock of Boston Private Financial Holdings, Inc, for total gross proceeds of approximately \$6.4 million, and on February 8, Treasury completed a public auction of warrants to purchase the common stock of Wintrust Financial Corporation for total gross proceeds of approximately \$26 million.

#### **Missed Payments**

- In February, 154 institutions did not make the scheduled dividend or interest payment on Treasury's CPP investments for a total of approximately \$0.05 billion, bringing the cumulative missed dividend and interest payments to approximately \$0.20 billion.<sup>3</sup> To date, the amount of missed dividend and interest payments (\$0.20 billion)<sup>3</sup> represents 1.4 percent of total dividend and interest payments received (\$14.08 billion), across all banking programs (CPP, TIP, and AGP).
- Under the CPP agreements and as a matter of corporate law, banks are not obligated to make the dividend payments. However, Treasury has a contractual right to appoint two directors to the institution's board of directors if an institution has missed six payments. Treasury has announced plans to utilize board observers (drawn from Treasury staff) to inform its decisions in that regard. Thirty-two (32) banks have six or more missed payments, and Treasury observers have attended the board of directors meetings of thirty-one (31) CPP institutions.

#### **Exchanges and Sales**

In limited cases, in order to protect the taxpayers' interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities or may sell the preferred stock. Treasury evaluates whether to participate in an exchange or sale on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring or (iii) strengthen its capital and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

 In February, Treasury sold its \$3.27 million investment of preferred stock issued by Treaty Oak Bancorp to Treaty Oak for a cash payment of \$500,000 and the right to receive up to \$150,000 in principal payments on a note payable by Carlile Bancshares, Inc., the new investor, in favor of Treaty Oak. Treasury also received a newly issued warrant to purchase shares of Treaty Oak common stock as potential upside protection. Treaty Oak had \$135 thousand of missed cumulative dividend payments.

<sup>&</sup>lt;sup>3</sup> Missed payments include unpaid cumulative dividends, non-cumulative dividends and s-corp/interest, but does not include interest accrued on unpaid cumulative dividends, and excludes missed payments from institutions that (i) have fully caught-up on missed payments, (ii) have repaid their investment amounts and exited the Capital Purchase Program, (iii) completed an exchange with Treasury for new securities (such as common stock), or for which Treasury has sold its investment, or (iv) are in, or have completed, receivership or bankruptcy proceedings.

# Monthly 105(a) Report

 In February, Treasury exchanged its \$135 million investment in Central Pacific Financial Corporation for 5.62 million shares of common stock. Central Pacific had \$10.1 million of missed cumulative dividend payments.

Subject to the receipt of requisite approvals, BMO expects to purchase from Treasury all of M&I's TARP preferred stock and warrants in cash.

b/ M&T Bank Corporation (M&T) and Wilmington Trust Corporation (Wilmington) have agreed to merge. Completion, which is subject to conditions, includes the assumption by M&T of Wilmington's TARP preferred stock obligations.

- d/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP). Sterling fulfilled the conversion conditions, including those related to its capital plan, and Treasury's MCP was converted into 378,750,000 shares of common stock.
- e/ Hancock Holding Company and Whitney Holding Corporation have entered into a definitive agreement for Whitney to merge into Hancock in a stock-for-stock transaction. Subject to the receipt of approvals, Hancock expects to purchase all of Whitney's TARP preferred stock and warrants in cash.
- f/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP) with capitalized dividends. Pacific Capital fulfilled the conversion conditions and Treasury's MCP was converted into 360,833,250 shares of common stock.

#### **Community Development Capital Initiative (CDCI)**

In February, Treasury received dividends and interest payments from the CDCI investments of approximately \$2.9 million. Three institutions did not make their scheduled payments for a total of \$179 thousand.

#### **Housing Programs**

#### HUD Housing Scorecard and Servicer Performance Report

In March, the U.S. Department of Housing and Urban Development (HUD) and Treasury released the Housing Scorecard (<u>www.HUD.gov/scorecard</u>) on the nation's housing market. Each month, the scorecard incorporates key housing market indicators and highlights the impact of housing recovery efforts, including assistance to homeowners through the Federal Housing Administration (FHA) and the Home Affordable Modification Program (HAMP). The scorecard also incorporates the MHA Servicer Performance Report Through January 2011.

Key data presented in the **Housing Scorecard** includes:

- More than 4.2 million modification arrangements were started between April 2009 and the end of January 2011 more than double the number of foreclosure completions during that time. These actions included more than 1.5 million HAMP trial modification starts, more than 730,000 FHA loss mitigation and early delinquency interventions, and more than 2 million proprietary modifications under HOPE Now.
- As lenders review internal procedures related to foreclosure processing, many foreclosure actions have been delayed leading to a lower level of foreclosure activity in January compared to early 2010. The decline is likely to be temporary as lenders eventually revise and resubmit foreclosure paperwork in the coming months.

Highlights from the **MHA Servicer Performance Report Through January 2011** include:

- Servicers average a 61 percent conversion rate for all eligible trials started with verified documentation on or after June 1, 2010. As servicers continue to convert their eligible trial modifications, the conversion rates will increase. For trial modifications that started in June 2010, 73 percent of them have converted through January 2011. For trial modifications begun before June 2010, the conversion rate averages 41 percent.
- As servicers continue to work through the backlog of trials lasting six months or more, the number of these aged trials has fallen below 40,000. Reducing the number of aged trials should free servicer resources to focus on new trial modifications and conversions.
- Permanent Modifications
  - More than 607,000 homeowners have started permanent modifications, with nearly 28,000 new permanent modifications reported in January.

- > These homeowners have realized payment relief through active HAMP trial modifications and permanent modifications. For homeowners in permanent modifications, their median first-lien housing expense fell from 45% of their monthly income to 31%.
- > Homeowners in permanent modifications realize real savings, with total aggregate reductions in monthly mortgage payments of nearly \$5 billion to date.

#### Hardest Hit Fund (HHF)

- Through February, 15 Housing Finance Agencies (HFAs) have drawn over \$125 million in total. Approximately 70 percent of all obligated funds are currently intended to assist unemployed borrowers pay or reinstate their mortgages. The remaining funds are currently intended for principal reduction, second lien removal, short sale assistance and other locally-tailored initiatives.
- As of March, Nevada and Tennessee joined Alabama, Arizona, California, Michigan, North Carolina, Ohio, Oregon, Rhode Island and South Carolina in operating HFAs' programs statewide. By the end of the month, Illinois and Indiana will join Florida, Georgia, Kentucky, Mississippi, New Jersey and Washington DC, in operating pilot programs. Florida is in pilot but is expected to be available statewide by the end of March.
- One immediate impact of these dollars is to fund program related borrower intake and follow-up activities through hundreds of counseling agencies in participating states. Eventually, up to \$350 million could be used for these purposes.
- The five largest servicers (Bank of America, Chase, Citibank, Ally and Wells) have committed to the HHF program and all have begun participating: Chase has signed agreements with all 19 HFAs in connection with programs for unemployed borrowers, and Bank of America is developing or already participating in principal reduction pilot programs with Arizona, California and Nevada. Servicers, with assistance from Treasury, have created a common data file that will assist in the transfer of data between HFAs and servicers.

As used in this table and its footnotes: GMAC refers to GMAC Inc., formerly known as GMAC LLC., and now known as Ally Financial, Inc. ("Ally"). "Old GM" refers to General Motors Corporation, which is now known as Motors Liquidation Company. "New GM" refers to General Motors Company, the company that purchased Old GM's assets on 7/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code. See also footnote 11. "Chrysler FinCo" refers to Chrysler Financial Services Americas LLC. "Chrysler Holding" refers to CGI Holding LLC, the company formerly known as "Chrysler Holding LLC". "Old Chrysler" refers to Old Carco LLC (fka Chrysler LLC). "New Chrysler" refers to Chrysler Group LLC, the company that purchased Old Chrysler's assets on 6/10/2009 in a sale pursuant to section 363 of the Bankruptcy Code.

1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.

2. Treasury committed to lend General Motors Corporation up to \$1,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.

3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM for a portion of Old GM second at 6 obtained at 54% common equity interest in GMAC.

4. This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.

5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.

6. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.

7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)

8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.

9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.

10. In total, for the exchance of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9). Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)

11. Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholdings in New GM, including with respect to Treasury's preferred and common stock, became shareholding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Holdings LLC, and General Motors Holdings LLC is a wholly owned subsidiary of General Motors Company.

12 Pursuant to a comporate reorganization completed on 10/19/2009 Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC

13. The loan was funded through Chrysler I B Receivables Trust, a special purpose vehicle created by Chrysler EnCo. The amount of \$1,500,000,000 represents the maximum loan amount. The loan was incrementally funded until it reached the maximum amount of \$1,5 billion on 4/9/2009.

14. This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.

15. The loan was used to capitalize Chrysler Warranty SPV LLC, a special purpose vehicle created by Old Chrysler.

16. This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/1/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. . 1. This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount \$756,857,000 to a total of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.

18. This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed on 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to new Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in new Chrysler

If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

4/ In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

5/ Disposition Amount is stated after giving effect, if applicable, to sale of accrued principal and interest.

Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level.
